The Joint Legislative Audit and Review Committee (JLARC) must conduct a study of higher education costs at the public baccalaureates. The study must describe the cost drivers for each institution and the cost drivers for students over the last 20 years, including the cost of research, faculty and staff salaries, administration, health care and benefits, capital, student services, textbooks, and student housing. The study must compare these cost drivers to those for institutions and students in the Global Challenge States and other comparable states. The study must consolidate information available and report where there are gaps in information. By December 31, 2015, JLARC must issue a report of its findings to the Legislature.

**EFFECT OF CHANGES MADE BY HIGHER EDUCATION COMMITTEE (Recommended Substitute):** Replaces the the Joint Higher Education Committee with JLARC. Removes the advisory panel. Specifies the study should consolidate information available and report where there are gaps. Changes the reporting date from November 1, 2016, to December 31, 2015.
