Background: The Washington Lottery was established in 1982. The Lottery sells a variety of products, including scratch-off ticket games, Keno, multi-jurisdictional number-picking games such as Powerball and Mega Millions, and other games of chance. Lottery revenues are used to fund the following purposes: (1) Washington Opportunity Pathways Account; (2) debt payments on stadium bonds; (3) problem gambling education; (4) economic development; and (5) the general fund.

The State Lottery Account is a non-appropriated enterprise account for all revenues from the sale of lottery products and expenses for payment of prizes to lottery winners, cost of sales, and retailer commissions. The State Lottery Account must be a separate account outside the state treasury. The Lottery Administrative Account is an appropriated account in the state treasury used to fund costs incurred in the operations and administration of the Lottery.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.
