

# SENATE BILL REPORT

## SB 5857

---

---

As Reported by Senate Committee On:  
Health Care, February 19, 2015  
Ways & Means, February 27, 2015

**Title:** An act relating to registration and regulation of pharmacy benefit managers.

**Brief Description:** Addressing registration and regulation of pharmacy benefit managers.

**Sponsors:** Senators Parlette, Conway, Becker and Pearson.

**Brief History:**

**Committee Activity:** Health Care: 2/12/15, 2/19/15 [DP-WM].  
Ways & Means: 2/27/15 [DPS, w/oRec].

---

### SENATE COMMITTEE ON HEALTH CARE

**Majority Report:** Do pass and be referred to Committee on Ways & Means.

Signed by Senators Becker, Chair; Dammeier, Vice Chair; Angel, Bailey, Brown, Cleveland, Conway, Jayapal, Keiser, Parlette and Rivers.

**Staff:** Mich'l Needham (786-7442)

---

### SENATE COMMITTEE ON WAYS & MEANS

**Majority Report:** That Substitute Senate Bill No. 5857 be substituted therefor, and the substitute bill do pass.

Signed by Senators Hill, Chair; Braun, Vice Chair; Honeyford, Vice Chair, Capital Budget Chair; Hargrove, Ranking Member; Keiser, Assistant Ranking Member on the Capital Budget; Ranker, Ranking Minority Member, Operating; Bailey, Becker, Billig, Brown, Conway, Fraser, Hatfield, Hewitt, Kohl-Welles, O'Ban, Parlette, Rolfes and Warnick.

**Minority Report:** That it be referred without recommendation.

Signed by Senators Dammeier, Vice Chair; Hasegawa, Padden and Schoesler.

**Staff:** Sandy Stith (786-7710)

**Background:** The 2014 Legislature passed ESSB 6137 requiring pharmacy benefit managers (PBMs) to register with the Department of Revenue to conduct business in this

---

*This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.*

state. PBMs process claims for prescription drugs or medical supplies, provide retail network management for pharmacies, pay pharmacies for prescription drugs or medical supplies, and negotiate rebates with manufacturers for drugs.

Standards are established for auditing pharmacy claims, and for PBMs to use when developing lists of drugs with associated maximum allowable costs, including standards related to the availability of drugs, distribution of the lists, and updates to the list every seven business days. PBMs must establish an appeals process to allow pharmacies to appeal a maximum allowable cost if the reimbursement for the drug is less than the net amount that the pharmacy paid to the supplier of the drug.

The 2014 legislation did not provide regulatory authority.

**Summary of Bill:** The bill as referred to committee not considered.

**Summary of Bill (Recommended Substitute):** PBM registration is moved from the Department of Revenue to the Office of the Insurance Commissioner (OIC). The PBM must pay registration and renewal fees that are established in rule by OIC. These fees must be set at a level sufficient to support registration, renewal, and oversight activities relating to PBMs. These funds will be deposited into the Insurance Commissioner's regulatory account.

The Commissioner has enforcement authority over the PBMs and the statutory provisions created in 2014. The Commissioner has authority to render a binding decision in any dispute between a PBM, or third-party administrator of prescription drug benefits, and a pharmacy arising out of an appeal on drug pricing and reimbursement. The Commissioner is not bound by any arbitration agreements between the PBM and the pharmacy, nor any mediation or arbitration decisions. Any entity that violates the chapter is subject to a civil penalty of \$1,000 for each violation. If the violation was knowing and willful, the civil penalty is \$5,000 for each violation.

Any pharmacy or pharmacist must not be billed or paid at or below the cost of the drug to the pharmacy. A pharmacy or pharmacist injured as a result of a violation of this chapter may bring action against the party for recovery of all actual damages plus attorneys' fees.

The Commissioner may write rules to implement RCW 19.340 and to establish registration and renewal fees that ensure registration, renewal, and oversight activities are self supporting.

**EFFECT OF CHANGES MADE BY WAYS & MEANS COMMITTEE (Recommended Substitute):** Allows OIC to write rules to implement the chapter. Requires OIC to set the registration fee and renewal fee in rule, and the fees must be set to allow the registration, renewal, and oversight activities to be self supporting.

**Appropriation:** None.

**Fiscal Note:** Available.

**Committee/Commission/Task Force Created:** No.

**Effective Date:** Section 1 takes effect on January 1, 2016.

**Staff Summary of Public Testimony on Original Bill (Health Care):** PRO: We passed a bill last year and it hasn't solved the problems. I hope both sides can sit down and work together. We are very happy with the audit standards that were put in place last year but we are still struggling with the maximum allowable costs list and reimbursement for the cost of the drugs. The reimbursements are below our costs while the big companies reap hundreds of billions in profits. Despite the law, we continue to be paid below costs for the product and we cannot sustain the business this way. The pharmacy benefit managers (PBMs) are not following the law with the appeals process or listing of market prices. They continue to deny requests for reimbursement of the cost of the drugs. The PBMs are not updating the costs of the drugs to reflect the market prices we must pay. They are making special arrangements with big chain stores to serve as their preferred stores; they reimburse the chains twice as much as they pay the small retail pharmacies for the same product. Customers of the local pharmacies appreciate the extra services they have where someone treats us as a person, where the pharmacist knows us and delivers our medications if needed, and allows payments over time for high-cost medications. We appreciate our local pharmacy and want to ensure they stay in business. We rely on the services they provide.

CON: We negotiated last year's bill and it has only been in effect since mid-June. The proponents did not call and discuss their concerns. The regulatory oversight is not appropriate with the the Office of the Insurance Commissioner. They do not have the appropriate experts in drug pricing. They are funded by insurers and they would not appreciate paying to regulate the PBM issues. We are concerned this could have an adverse impact on the cost of prescription drug benefits. Any limitation on the carriers' ability to manage care is ill advised. We negotiated last year's bill for several years and we would love to sit and talk through what is not working. It is premature to make a change until we know more about how it is working.

**Persons Testifying (Health Care):** PRO: Senator Parlette, prime sponsor; Kirk Heinz, Kirks Pharmacy; Kari Vanderhowen, Duvall Family Drugs; Bridgett Edgar, PharmASave Pharmacy; Don Zimmerman, Ian Warren, Costless Pharmacy; David Arnold, Cavallinies Pharmacy; Carolyn Logue, WA Food Industry Assn.; Mary Mclamore, Doris Mandville, Wanda Fredericks, Ebba Jacobson, Maxine Parker, Johnny Miller, Hugh McMillan; Mary Workman, Berrick Bushnell, Ken Baines, citizens.

CON: Mel Sorensen, America's Health Insurance Plans, Express Scripts; Sydney Zvara, Assn. of WA Healthcare Plans; Carrie Tellefson, CVS Health, Regence Blue Shield.

**Staff Summary of Public Testimony on Substitute (Ways & Means):** PRO: We are excited that PBMs won't be allowed to reimburse below costs. We belong to an association that allows us to purchase at the best available price. As mentioned in previous hearings, drug pricing is like a commodity. We ran a report for the one of our three pharmacies and we are now at \$32,000 below our actual costs. We have to borrow money to pay our bills and payroll. We have to resubmit our claims multiple times with no updating by the PBMs of the actual prices. We are averaging ten underpaid claims per day for an average of \$10,000 per month because the PBMs are not updating the acquisition cost lists. We cannot continue to operate with this practice. We will have to close our doors. Since the last time we met with

the Committee on Health Care, we have taken another \$6,300 loss. This loss occurred over two weeks. Passing this bill is crucial for the survival of pharmacies. Drugs fluctuate in cost on a daily basis like commodities. PBMs don't adjust for this. We have a lot of stores with pharmacies. We don't know how long we'll be able to continue one-stop shopping. This is a classic example of a bill without a proper enforcement mechanism.

CON: We are opposed to this bill because of Section 2(3) and because this provides massive cost increases for local and state governments. This bill eliminates maximum allowable cost (MAC) pricing. It doesn't take Public Employees Benefit Board, Medicaid, or Labor and Industries into account. This bill needs more discussion. The fiscal note that was published this afternoon begins to show this problem. We represent workers all across the state. Every segment of our membership would be adversely impacted by Section 2(3) of this bill. Please look at this section. We are concerned that our members would see large cost increases. We believe that the increases in generic costs would be great. We have implemented many wellness, cost-saving and generics programs. Our retired employees would be adversely affected in having to choose what to pay for. We express real concern about the adverse cost impact of this bill especially those put forth by the Health Care Authority. Most bills have you get more for your money. This has you pay more for what you're currently getting. This is an entirely new regulatory scheme for the OIC. This is regulating disputes of drug pricing. This will have to be paid for by other types of carriers. This would be paid for by policyholders of other types of insurance that is unrelated to policyholders who already pay premium tax.

**Persons Testifying (Ways & Means):** PRO: Kirk Heinz, Ian Warren, Tim Larsen, Kirks Pharmacy; Carolyn Logue, WA Food Industry Assn.

CON: Carrie Tellefson, CVS Health, Regence Blue Shield; Brenda Wiest, Teamsters 117; Jean Leonard, WA Insurers, NAMIC; Mel Sorensen, America's Health Insurance Plans, Express Scripts.
