11 Washington economy and the state's competitiveness in world trade.
12 The study must consider the results of the updated marine cargo
13 forecast due to be delivered to the joint transportation committee on
14 December 1, 2015. In conducting the study, the joint transportation
15 committee must consult with the department of transportation, the
16 freight mobility strategic investment board, the utilities and

18 **Sec. 205.** 2015 1st sp.s. c 10 s 205 (uncodified) is amended to
19 read as follows:

20 **FOR THE TRANSPORTATION COMMISSION**

21	Motor Vehicle Account—State Appropriation.	((\$2,452,000))
22		<u>\$2,517,000</u>
23	<u>Motor Vehicle Account—Federal Appropriation.</u>	<u>\$500,000</u>

25	Appropriation.	\$112,000
26	TOTAL APPROPRIATION.	((\$2,564,000))

28 The appropriations in this section are subject to the following
29 conditions and limitations:

30 (1) \$300,000 of the motor vehicle account—state appropriation is
31 provided solely to continue evaluating a road usage charge as an
32 alternative to the motor vehicle fuel tax to fund investments in
33 transportation. The evaluation must include monitoring and reviewing
34 work that is underway in other states and nationally. The commission
35 may coordinate with the department of transportation to jointly
36 pursue any federal or other funds that are or might become available
37 and eligible for road usage charge pilot projects. The commission
38 must reconvene the road usage charge steering committee, with the

1 same membership authorized in chapter 222, Laws of 2014, and report
2 to the governor's office and the transportation committees of the
3 house of representatives and the senate by December 15, 2015.

4 (2) \$150,000 of the motor vehicle account—state appropriation is
5 provided solely for the commission to use an outside survey firm to
6 conduct three transportation surveys during the 2015-2017 fiscal
7 biennium. The commission must consult with the joint transportation
8 committee when deciding on the survey topics and design to ensure the
9 survey results will deliver the data, information, and analysis for
10 future transportation policy and strategic planning decisions in a
11 manner useful to the legislature.

12 (3)(a) \$500,000 of the motor vehicle account—federal
13 appropriation is provided solely to advance the work completed since
14 2011 in evaluating a road usage charge as an alternative to the motor
15 vehicle fuel tax to fund future investments in transportation by
16 completing the work necessary to launch a road usage charge pilot
17 project, with all implementation details for a pilot project
18 identified and incorporated into a pilot project implementation plan.

19 (i) Pilot project implementation preparation must include
20 identification of all essential agency roles and responsibilities for
21 the pilot project, a selection of the technologies and methodologies
22 to be included, a target number of participants and participant
23 characteristics, rigorous specific evaluation criteria by which the
24 pilot project will be assessed, a communication plan for the pilot
25 project that consists of a participant recruitment plan and a plan
26 for communicating information about the launch and ongoing progress
27 of the pilot project, and pilot project expenditure and revenue
28 estimates.

29 (ii) In developing the road usage charge pilot project
30 implementation plan, the commission shall consult and coordinate with
31 the department of transportation, the department of licensing, the
32 department of revenue, and the office of the state treasurer to
33 establish participation and coordination parameters for the project.

34 (b) The commission shall coordinate with the department of
35 transportation to jointly pursue any federal or other funds that are
36 or might become available to fund a road usage charge pilot project.
37 Where feasible, grant application content prepared by the commission
38 must reflect the direction provided by the road usage charge steering
39 committee on the preferred road usage charge pilot project approach.
40 One or more grant applications may be developed as part of the road

1 usage charge pilot project implementation plan development work, but
2 the pilot project implementation plan must nevertheless include any
3 details necessary for a full launch of the pilot project not required
4 to be included in any grant application.

5 (c) The commission shall reconvene the road usage charge steering
6 committee, with the same membership authorized in chapter 222, Laws
7 of 2014, as well as the addition of a representative from the Puget
8 Sound regional council, and may obtain guidance from the steering
9 committee when it reaches key pilot project implementation plan
10 development milestones. The commission must provide a report on the
11 road usage charge pilot project implementation plan that includes all
12 implementation details for a road usage charge pilot project to the
13 governor's office and the transportation committees of the house of
14 representatives and the senate by November 1, 2016.

15 (4)(a) The legislature finds that, while some travel times have
16 improved through Interstate 405 between the junctions with Interstate
17 5 on the north end and NE 6th Street in the city of Bellevue on the
18 south end, especially for transit trips, the implementation of the
19 express toll lane system has made travel more difficult for a number
20 of other drivers and trips. To provide some relief to drivers, the
21 legislature encourages the commission to expedite consideration of
22 the elimination of tolls during evening nonpeak hours, weekends, and
23 holidays, to the extent that such a change will improve commuters'
24 experience on this portion of Interstate 405. The legislature further
25 finds that the commission, as the tolling authority of the state,
26 should act swiftly, working in conjunction with the department of
27 transportation's comprehensive effort to tackle obstacles adversely
28 affecting commutes on this portion of Interstate 405, to drive
29 improved results for the users of this critical corridor as soon as
30 is practicable.

31 (b) In accordance with the rule-making authority provided under
32 RCW 34.05.350(1)(a), the legislature deems it necessary, for
33 preservation of the general welfare, that operational changes be made
34 to improve the express toll lane program on Interstate 405 and that
35 the tolling authority use its emergency rule-making authority to
36 effect such changes in accordance with RCW 47.56.850 and 47.56.880.
37 The legislature finds that the need for improvements to the commuter
38 experience on the portion of Interstate 405 identified in (a) of this
39 subsection necessitates that such action be taken in an expedited
40 fashion. The tolling authority, with input from the department of

1 transportation, shall define the hours and days of operation for the
2 express toll lanes, taking into consideration the goals of: Reducing
3 travel time on this portion of Interstate 405, including in the
4 general purpose lanes; reducing the cost of traveling within the
5 express toll lanes on this portion of Interstate 405; and maintaining
6 sufficient revenue to pay for this portion of Interstate 405's
7 express toll lane operating costs. This subsection (4) does not
8 create a private right of action.

27 The appropriations in this section are subject to the following
28 conditions and limitations:

29 (1) \$368,000 of the motor vehicle account—state appropriation is
30 provided solely for the purchase of an economic impact model. The
31 department shall work with appropriate local jurisdictions to improve
32 consistency between existing and planned transportation demand
33 models. The department shall report back to the transportation
34 committees of the legislature and the office of financial management
35 by December 31, 2015, with any recommendations requiring legislative
36 action.

38 is provided solely for the corridor sketch program. Priority must be

1 given to the state route number 522 corridor between Maltby and the
2 Snohomish river bridge.

3 (3) \$150,000 of the motor vehicle account—state appropriation is
4 provided solely for a safety study of state route number 169 from

6 data and work with local stakeholders to make recommendations for
7 safety improvements in the corridor. A report on the study is due to
8 the transportation committees of the legislature by December 31,
9 2016.

10 (4)(a) The department must update the state freight mobility plan
11 to comply with the requirements in section 70202 of the federal
12 fixing America's surface transportation act. In updating the state
13 freight mobility plan, the department must involve key freight
14 stakeholders, such as representatives of public ports, the trucking
15 industry, railroads, the marine industry, local governments and
16 planning organizations, the Washington state freight advisory
17 committee, and other freight stakeholders. The updated plan must
18 delete any obsolete project references from the prioritized freight
19 project list.

20 (b) The department, in conjunction with the stakeholder group,
21 must provide a list of prioritized projects for consideration for
22 funding in the 2017-2019 fiscal biennium. The prioritized list must

31 department must conduct this work in conjunction with other ongoing
32 study and corridor planning efforts.

33 (6) Within current resources, the transportation planning
34 program, with assistance from the rail program and other programs as

38 authorized under the rail banking provisions of federal law. This
39 report must evaluate options by which the state may facilitate the
40 preservation and maintenance of the Eastside Freight Railroad line,

1 in consideration of what is currently permitted under federal law.
2 The report must address, but is not limited to, what, if any, legal
3 authority the state has to affect projects currently underway in or
4 planned for the Eastside Freight Railroad line; whether state
5 acquisition of specific property rights on the Eastside Freight
6 Railroad line is permitted under federal law and, if so, whether it
7 could be beneficial to or would be necessary for the preservation and
8 maintenance of the Eastside Freight Railroad line; and the extent to
9 which the state may otherwise encourage the preservation of the
10 Eastside Freight Railroad line. The report must include sufficient
11 details on each option presented to support its evaluation, as well
12 as the potential benefits and estimated costs associated with options
13 presented that are permissible under federal law. The evaluation of
14 potential benefits must be conducted in the context of current state
15 rail policy, including RCW 47.76.240. The department must submit the

17 conditions and limitations:

18 (1) ~~(\$35,000,000)~~ \$41,250,000 of the multimodal transportation
19 account—state appropriation is provided solely for a grant program
20 for special needs transportation provided by transit agencies and
21 nonprofit providers of transportation. Of this amount:

22 (a) ~~(\$7,500,000)~~ \$8,750,000 of the multimodal transportation
23 account—state appropriation is provided solely for grants to

35 of effort for special needs transportation. Grants for transit
36 agencies must be prorated based on the amount expended for demand
37 response service and route deviated service in calendar year 2013 as
38 reported in the "Summary of Public Transportation - 2013" published

1 by the department of transportation. No transit agency may receive
2 more than thirty percent of these distributions.

7 account—state appropriation is provided solely for a vanpool grant
8 program for: (i) Public transit agencies to add vanpools or replace
9 vans; and (ii) incentives for employers to increase employee vanpool

11 costs only; operating costs for public transit agencies are not
12 eligible for funding under this grant program. Additional employees
13 may not be hired from the funds provided in this section for the
14 vanpool grant program, and supplanting of transit funds currently
15 funding vanpools is not allowed. The department shall encourage grant
16 applicants and recipients to leverage funds other than state funds.

17 (b) At least \$1,600,000 of the amount provided in this subsection

36 are making satisfactory progress. Any project that has been awarded
37 funds, but does not report activity on the project within one year of
38 the grant award, must be reviewed by the department to determine
39 whether the grant should be terminated. The department shall promptly

1 close out grants when projects have been completed, and any remaining
2 funds must be used only to fund projects identified in the LEAP
3 transportation document referenced in this subsection. The department
4 shall provide annual status reports on December 15, 2015, and
5 December 15, 2016, to the office of financial management and the
6 transportation committees of the legislature regarding the projects
7 receiving the grants. It is the intent of the legislature to
8 appropriate funds through the regional mobility grant program only
9 for projects that will be completed on schedule. A grantee may not

13 expending remaining funds on an awarded grant.

14 (b) In order to be eligible to receive a grant under (a) of this
15 subsection during the 2015-2017 fiscal biennium, a transit agency
16 must establish a process for private transportation providers to

18 subsection, (i) "private transportation provider" means: An auto
19 transportation company regulated under chapter 81.68 RCW; a passenger

30 program.

31 (7) \$5,670,000 of the multimodal transportation account—state
32 appropriation and \$754,000 of the state vehicle parking account—state
33 appropriation are provided solely for CTR grants and activities.

34 (8) \$200,000 of the multimodal transportation account—state

38 (9)(a) \$1,000,000 of the multimodal transportation account—state
39 appropriation is provided solely for the Everett connector service

1 for Island and Skagit transit agencies. The amount provided in this
2 subsection is contingent on Island Transit charging fares that
3 achieve a farebox recovery ratio similar to comparable transit
4 systems.

5 (b) The amount provided in (a) of this subsection must be held in
6 unallotted status until the office of financial management determines
7 that fares have been both adopted and implemented by Island Transit
8 that achieve a farebox recovery ratio similar to comparable transit
9 systems. Island Transit must notify the office of financial
10 management when it has met the requirements of this subsection.

11 (10)(a) \$16,890,000 of the multimodal transportation account—
12 state appropriation is provided solely for projects identified in

17 identified funding; and \$2,000,000 in the 2017-2019 fiscal biennium
18 for the North Broadway Bus Stop Safety Improvements project in lieu
19 of its currently identified funding in the 2019-2021 fiscal biennium.

20 (b) \$831,000 of the amount provided in (a) of this subsection is
21 provided solely for Skagit transit system enhancements for
22 expenditure in 2015-2017.

23 (c) \$2,300,000 of the amount provided in (a) of this subsection
24 is provided solely for Island transit's tri-county connector service
25 for expenditure in 2015-2017.

26 (11) \$1,000,000 of the multimodal transportation account—state
27 appropriation is provided solely for transit coordination grants.

28 (12) Within the amounts provided in this section, the public
29 transportation program must conduct a study of public transportation
30 agencies in Washington that provide regional public transportation
31 service outside the boundaries of the agency. The study must
32 consider: (a) The cost to provide these existing regional services,
33 the current source of funds for these services, and the applicable
34 ridership data from these existing regional services; (b) the number
35 of trips removed from the state highway system as a result of these
36 regional services; (c) areas of the state highway system that do not
37 have such regional service available; and (d) potential funding
38 sources at the state level to support a portion of current and
39 potential regional services. The public transportation program must

1 provide a report on its findings and recommendations to the
2 transportation committees of the legislature by November 15, 2016.

28 include the establishment of policies and procedures necessary to
29 increase the diversity of pilots, trainees, and applicants, including
30 a diversity action plan. The diversity action plan must articulate a
31 comprehensive vision of the board's diversity goals and the steps it
32 will take to reach those goals.

29 2015-2017 fiscal biennium.

30 (12)(a) The SR 520 Bridge Replacement and HOV project (8BI1003)
31 is supported over time from multiple sources, including a
32 \$300,000,000 TIFIA loan, \$923,000,000 in Garvee bonds, toll revenues,
33 state bonds, interest earnings, and other miscellaneous sources.

34 (b) The state route number 520 corridor account—state
35 appropriation includes up to (~~(\$343,505,000)~~) \$343,834,000 in

5 partnership account—state appropriation, \$104,801,000 of the state
6 route number 520 corridor account—federal appropriation, and
7 (~~(\$367,792,000)~~) \$368,121,000 of the state route number 520 corridor
8 account—state appropriation are provided solely for the SR 520 Bridge

10 this subsection (12)(d), (~~(\$232,598,000)~~) \$233,085,000 of the state
11 route number 520 corridor account—state appropriation must be put
12 into unallotted status and is subject to review by the office of
13 financial management. The director of the office of financial
14 management shall consult with the joint transportation committee
15 prior to making a decision to allot these funds.

16 (e) When developing the financial plan for the project, the
17 department shall assume that all maintenance and operation costs for
18 the new facility are to be covered by tolls collected on the toll
19 facility and not by the motor vehicle account.

21 civil penalties account—state appropriation is provided solely for
22 the department to continue to work with the Seattle department of

33 (15) The legislature finds that there are sixteen companies
34 involved in wood preserving in the state that employ four hundred
35 workers and have an annual payroll of fifteen million dollars. Prior
36 to the department's switch to steel guardrails, ninety percent of the
37 twenty-five hundred mile guardrail system was constructed of
38 preserved wood and one hundred ten thousand wood guardrail posts were
39 produced annually for state use. Moreover, the policy of using steel

1 posts requires the state to use imported steel. Given these findings,
2 where practicable, and until June 30, 2017, the department shall
3 include the design option to use wood guardrail posts, in addition to
4 steel posts, in new guardrail installations. The selection of posts
5 must be consistent with the agency design manual policy that existed
6 before December 2009.

7 (16) For urban corridors that are all or partially within a
8 metropolitan planning organization boundary, for which the department
9 has not initiated environmental review, and that require an
10 environmental impact statement, at least one alternative must be
11 consistent with the goals set out in RCW 47.01.440.

12 (17) The department shall itemize all future requests for the
13 construction of buildings on a project list and submit them through
14 the transportation executive information system as part of the
15 department's 2016 budget submittal. It is the intent of the
16 legislature that new facility construction must be transparent and
17 not appropriated within larger highway construction projects.

18 (18) (~~(\$59,438,000)~~) \$52,869,000 of the motor vehicle account—
19 federal appropriation, (~~(\$572,000)~~) \$4,439,000 of the motor vehicle
20 account—state appropriation, and (~~(\$388,000)~~) \$1,085,000 of the motor
21 vehicle account—private/local appropriation are provided solely for
22 fish passage barrier and chronic deficiency improvements (0BI4001).

23 (19) Any new advisory group that the department convenes during
24 the 2015-2017 fiscal biennium must consider the interests of the
25 entire state of Washington.

26 (~~(Practical design offers targeted benefits to a state~~
27 ~~transportation system within available fiscal resources. This~~
28 ~~delivers value not just for individual projects, but for the entire~~
29 ~~system. Applying practical design standards will also preserve and~~
30 ~~enhance safety and mobility. The department shall implement a~~
31 ~~practical design strategy for transportation design standards. By~~
32 ~~June 30, 2016, the department shall report to the governor and the~~
33 ~~house of representatives and senate transportation committees on~~
34 ~~where practical design has been applied or is intended to be applied~~
35 ~~in the department and the cost savings resulting from the use of~~
36 ~~practical design. This subsection takes effect if chapter . . .~~
37 ~~(Substitute House Bill No. 2012), Laws of 2015 is not enacted by June~~
38 ~~30, 2015.)) Except as provided otherwise in this section, the entire
39 connecting Washington account appropriation is provided solely for~~

1 the projects and activities as listed by fund, project, and amount in
2 LEAP Transportation Document 2016-1 as developed February 22, 2016,
3 Program - Highway Improvements Program (I); and \$2,000,000 in the
4 2019-2021 fiscal biennium, \$8,900,000 in the 2021-2023 fiscal
5 biennium, and \$10,200,000 in the 2023-2025 fiscal biennium for the
6 I-5/Slater Road Interchange - Improvements project.

7 (21) It is the intent of the legislature that for the I-5 JBLM
8 Corridor Improvements project (M00100R), the department shall
9 actively pursue \$50,000,000 in federal funds to pay for this project
10 to supplant state funds in the future. \$50,000,000 in connecting
11 Washington account funding must be held in unallotted status during
12 the 2021-2023 fiscal biennium. These funds may only be used after the
13 department has provided notice to the office of financial management
14 that it has exhausted all efforts to secure federal funds from the
15 federal highway administration and the department of defense.

16 (22) Of the amounts allocated to the Puget Sound Gateway project
17 (M00600R) in LEAP Transportation Document 2016-1 as developed
18 February 22, 2016, \$4,000,000 must be used to complete the bridge
19 connection at 28th/24th Street over state route number 509 in the
20 city of SeaTac. The bridge connection must be completed prior to
21 other construction on the state route number 509 segment of the
22 project.

23 (23) In making budget allocations to the Puget Sound Gateway
24 project, the department shall implement the project's construction as
25 a single corridor investment. The department shall develop a
26 coordinated corridor construction and implementation plan for state
27 route number 167 and state route number 509 in collaboration with
28 affected stakeholders. Specific funding allocations must be based on
29 where and when specific project segments are ready for construction
30 to move forward and investments can be best optimized for timely
31 project completion. Emphasis must be placed on avoiding gaps in fund
32 expenditures for either project.

33 (24) It is the intent of the legislature that, for the I-5/North
34 Lewis County Interchange project (L2000204), the department develop
35 and design the project with the objective of significantly improving
36 access to the industrially zoned properties in north Lewis
37 county. The design must consider the county's process of
38 investigating alternatives to improve such access from Interstate 5
39 that began in March 2015.

1 (25) \$1,500,000 of the motor vehicle account—state appropriation
2 is provided solely to complete an interchange justification report
3 (IJR) for the US 2 trestle (L1000158), covering the state route
4 number 204 and 20th Street interchanges at the end of the westbound
5 structure.

6 (a) It is the intent of the legislature that the department
7 develop the IJR in close collaboration with affected agencies,
8 including Snohomish county and the cities of Everett, Lake Stevens,
9 Marysville, Snohomish, and Monroe.

10 (b) The amounts provided in this subsection must be used to
11 address feasibility analysis, preliminary environmental work,
12 preliminary geo-technical reviews, public outreach, and overall
13 operational approval of the IJR.

14 (c) Once complete, the department shall submit the final IJR
15 report to the governor and the transportation committees of the
16 legislature.

17 (26)(a) The department must conduct outreach to local transit
18 agencies during the planning process for highway construction
19 projects led by the department.

20 (b) The department must develop process recommendations for best
21 practices in minimizing impacts to transit and freight during project
22 construction. A report on best practices must be submitted to the
23 transportation committees of the legislature by December 1, 2016.

24 (27) The legislature finds that project efficiencies and savings
25 may be gained by combining the I-5 Marine Drive project (I5OTC1A1)
26 and the SR 529/I-5 Interchange project (N52900R). The department must
27 deliver them as one project, using a design-build approach. Any
28 savings achieved from combining the projects and utilizing a design-
29 build delivery must be used to ensure the two projects are brought to
30 a concurrent level of design and construction readiness.

21 The appropriations in this section are subject to the following
22 conditions and limitations:

23 (1) Except as provided otherwise in this section, the entire
24 transportation 2003 account (nickel account) appropriation and the
25 entire transportation partnership account appropriation are provided
26 solely for the projects and activities as listed by fund, project,
27 and amount in LEAP Transportation Document ((~~2015-1~~)) 2016-1 as
28 developed ((~~May 26, 2015~~)) February 22, 2016, Program - Highway
29 Preservation Program (P). However, limited transfers of specific
30 line-item project appropriations may occur between projects for those
31 amounts listed subject to the conditions and limitations in section
32 601 of this act.

33 (2) Except as provided otherwise in this section, the entire
34 motor vehicle account—state appropriation and motor vehicle account—
35 federal appropriation are provided solely for the projects and
36 activities listed in LEAP Transportation Document ((~~2015-2~~)) 2016-2
37 ALL PROJECTS as developed ((~~May 26, 2015~~)) February 22, 2016, Program
38 - Highway Preservation Program (P). Any federal funds gained through
39 efficiencies, adjustments to the federal funds forecast, additional

1 congressional action not related to a specific project or purpose, or
2 the federal funds redistribution process must then be applied to
3 highway and bridge preservation activities. However, no additional
4 federal funds may be allocated to the I-5/Columbia River Crossing
5 project (400506A).

6 (3) Within the motor vehicle account—state appropriation and
7 motor vehicle account—federal appropriation, the department may
8 transfer funds between programs I and P, except for funds that are
9 otherwise restricted in this act.

10 (4) The transportation 2003 account (nickel account)—state
11 appropriation includes up to (~~(\$38,492,000)~~) \$28,032,000 in proceeds
12 from the sale of bonds authorized in RCW 47.10.861.

13 (5) The department shall examine the use of electric arc furnace
14 slag for use as an aggregate for new roads and paving projects in
15 high traffic areas and report back to the legislature by December 1,
16 2015, on its current use in other areas of the country and any
17 characteristics that can provide greater wear resistance and skid
18 resistance in new pavement construction.

19 (6) \$39,000,000 of the motor vehicle account—federal
20 appropriation is provided solely for the preservation of structurally
21 deficient bridges or bridges that are at risk of becoming
22 structurally deficient. These funds must be used widely around the
23 state of Washington. The department shall provide a report that
24 identifies the scope, cost, and benefit of each project funded in
25 this subsection as part of its 2016 agency budget request.

26 (7) Except as provided otherwise in this section, the entire
27 connecting Washington account appropriation in this section is
28 provided solely for the projects and activities as listed in LEAP
29 Transportation Document 2016-1 as developed February 22, 2016,
30 Program - Highway Preservation Program (P).

31 (8) It is the intent of the legislature that, with respect to the
32 amounts provided for highway preservation from the connecting
33 Washington account, the department consider the preservation and
34 rehabilitation of concrete roadway on Interstate 5 from the Canadian
35 border to the Oregon border to be a priority within the preservation
36 program.

37 (9) \$5,000,000 of the motor vehicle account—state appropriation
38 is provided solely for extraordinary costs incurred from litigation
39 awards, settlements, or dispute mitigation activities not eligible

1 for funding from the self-insurance fund. The amount provided in this
2 subsection must be held in unallotted status until the department
3 submits a request to the office of financial management that includes
4 documentation detailing litigation-related expenses. The office of
5 financial management may release the funds only when it determines
6 that all other funds designated for litigation awards, settlements,
7 and dispute mitigation activities have been exhausted. No funds may
8 be expended on any legal fees related to the SR 99/Alaskan Way
9 viaduct replacement project.

10 (10)(a) The department and the Washington state patrol must work
11 collaboratively to develop a comprehensive plan for weigh station
12 construction and preservation for the entire state. The plan must be
13 submitted to the transportation committees of the legislature by
14 January 1, 2017.

15 (b) As part of the 2017-2019 biennial budget submittal, the
16 department and the Washington state patrol must jointly submit a
17 prioritized list of weigh station projects for legislative approval.

18 (11) The department must consult with the Washington state patrol
19 during the design phase of a department-led improvement or
20 preservation project that could impact weigh station operations. The
21 department must ensure that the designs of the projects do not
22 prevent or interfere with weigh station operations.

30 The appropriations in this section are subject to the following
31 conditions and limitations:

32 (1) Except as provided otherwise in this section, the entire
33 appropriations in this section are provided solely for the projects
34 and activities as listed in LEAP Transportation Document ((~~2015-2~~)
35 2016-2 ALL PROJECTS as developed ((~~May 26, 2015~~)) February 22, 2016,
36 Program - Washington State Ferries Capital Program (W).

37 (2) ((~~\$73,000,000~~)) \$90,545,000 of the transportation 2003
38 account (nickel account)—state appropriation is provided solely for

1 the acquisition of a 144-car vessel (L1000063). The department shall
2 use as much already procured equipment as practicable on the 144-car
3 vessels.

4 (3) (~~(\$40,617,000)~~) \$41,989,000 of the Puget Sound capital
5 construction account—federal appropriation, \$1,622,000 of the
6 transportation 2003 account (nickel account)—state appropriation, and
7 (~~(\$608,000)~~) \$1,430,000 of the Puget Sound capital construction
8 account—state appropriation are provided solely for the Mukilteo
9 ferry terminal (952515P).

10 (4) (~~(\$4,000,000)~~) \$6,000,000 of the Puget Sound capital
11 construction account—state appropriation is provided solely for
12 emergency capital repair costs (999910K). Funds may only be spent
13 after approval by the office of financial management.

14 (5) Consistent with RCW 47.60.662, which requires the Washington
15 state ferry system to collaborate with passenger-only ferry and
16 transit providers to provide service at existing terminals, the
17 department shall ensure that multimodal access, including for
18 passenger-only ferries and transit service providers, is not
19 precluded by any future terminal modifications.

20 (6) If the department pursues a conversion of the existing diesel
21 powered Issaquah class fleet to a different fuel source or engine
22 technology or the construction of a new vessel powered by a fuel
23 source or engine technology that is not diesel powered, the
24 department must use a design-build procurement process.

25 (7) Funding is included in the future biennia of the LEAP
26 transportation document referenced in subsection (1) of this section
27 for future vessel purchases. Given that the recent purchase of new
28 vessels varies from the current long range plan, the department shall
29 include in its updated long range plan revised estimates for new
30 vessel costs, size, and purchase time frames.

31 (8) \$325,000 of the Puget Sound capital construction account—
32 state appropriation is provided solely for the ferry system to
33 participate in the development of one account-based system for
34 customers of both the ferry system and tolling system. The current
35 Wave2Go ferry ticketing system is reaching the end of its useful life
36 and the department is expected to develop a replacement account-based
37 system as part of the new tolling division customer service center
38 toll collection system.

1 (9) Except as provided otherwise in this section, the entire
2 connecting Washington account appropriation in this section is
3 provided solely for the projects and activities as listed in LEAP
4 Transportation Document 2016-2 ALL PROJECTS as developed February 22,
5 2016, Program - Washington State Ferries Capital Program (W).

6 (10) Within existing resources, the department must evaluate the
7 feasibility of utilizing the federal EB-5 immigrant investor program
8 for financing the construction of a safety of life at sea (SOLAS)
9 certificated vessel for the Anacortes-Sidney ferry route. The
10 department must establish a group that includes, but is not limited
11 to, the department of commerce and entities or individuals
12 experienced with vessel engineering and EB-5 financing for assistance
13 in evaluating the applicability of the EB-5 immigrant investor
14 program. The department must deliver a report containing the results
15 of the evaluation to the transportation committees of the legislature
16 and the office of financial management by December 1, 2015.

17 (11) It is the intent of the legislature, over the sixteen-year
18 new investment program, to provide \$96,052,000 in state funds to
19 complete the Seattle Terminal Replacement project (900010L),
20 including: (a) Design work and selection of a preferred plan, (b)
21 replacing timber pilings with pilings sufficient to support a
22 selected terminal design, (c) replacing the timber portion of the
23 dock with a new and reconfigured steel and concrete dock, and (d)

25 are identified in the LEAP transportation document referenced in
26 subsection (9) of this section.

27 (12) It is the intent of the legislature, over the sixteen-year
28 new investment program, to provide \$122,000,000 in state funds to
29 complete the acquisition of a fourth 144-car vessel (L2000109). These
30 funds are identified in the LEAP transportation document referenced
31 in subsection (9) of this section.

32 (13) It is the intent of the legislature, over the sixteen-year
33 new investment program, to provide \$68,600,000 in state funds to
34 complete the Mukilteo Terminal Replacement project (952515P). These
35 funds are identified in the LEAP transportation document referenced
36 in subsection (9) of this section. To the greatest extent practicable
37 and within available resources, the department shall design the new
38 terminal to be a net zero energy building. To achieve this goal, the
39 department shall evaluate using highly energy efficient equipment and

1 systems, and the most appropriate renewable energy systems for the
2 needs and location of the terminal.

3 (14) \$300,000 of the Puget Sound capital construction account—
4 state appropriation is provided solely to purchase customer counting
5 equipment. By June 30, 2017, the department must report to the
6 governor and the transportation committees of the legislature on the
7 most effective way to count ferry passengers.

8 (15) The transportation 2003 account (nickel account)—state
9 appropriation includes up to \$6,282,000 in proceeds from the sale of
10 bonds authorized in RCW 47.10.861.

37 by the department through the freight rail investment bank (FRIB)
38 program. The department shall issue FRIB program loans with a

1 repayment period of no more than ten years, and charge only so much

4 department shall first award loans to 2015-2017 FRIB loan applicants
5 in priority order, and then offer loans to 2015-2017 unsuccessful
6 freight rail assistance program grant applicants, if eligible. If any
7 funds remain in the FRIB program, the department may reopen the loan

24 for approved work completed on Palouse River and Coulee City (PCC)
25 railroad track in Spokane county between the BNSF Railway Interchange
26 at Cheney and Geiger Junction and must be administered in a manner
27 consistent with freight rail assistance program projects. The value
28 of the public benefit of this project is expected to meet or exceed
29 the cost of this project in: Shipper savings on transportation costs;
30 jobs saved in rail-dependent industries; and/or reduced future costs
31 to repair wear and tear on state and local highways due to fewer
32 annual truck trips (reduced vehicle miles traveled). The amounts
33 provided in this subsection are not a commitment for future
34 legislatures, but it is the legislature's intent that future
35 legislatures will work to approve biennial appropriations until the
36 full \$7,337,000 cost of this project is reimbursed.

27 than fifty dollars per month from members who cover a spouse or
28 domestic partner where the spouse or domestic partner has chosen not
29 to enroll in another employer-based group health insurance that has
30 benefits and premiums with an actuarial value of not less than 95
31 percent of the actuarial value of the public employees' benefits
32 board plan with the largest enrollment. The surcharge payments shall
33 be collected in addition to the member premium payment.

34 (c) The health care authority must deposit any moneys received on
35 behalf of the uniform medical plan as a result of rebates on
36 prescription drugs, audits of hospitals, subrogation payments, or any
37 other moneys recovered as a result of prior uniform medical plan

1 account to be used for insurance benefits. Such receipts must not be
2 used for administrative expenditures.

3 (2) The health care authority, subject to the approval of the
4 public employees' benefits board, must provide subsidies for health
5 benefit premiums to eligible retired or disabled public employees and
6 school district employees who are eligible for medicare, pursuant to
7 RCW 41.05.085. For calendar years 2016 and 2017, the subsidy must be
8 up to \$150.00 per month. Appropriations for state agencies are
9 increased by the amounts specified in (~~LEAP Transportation Document~~
10 ~~713—2015T~~) chapter . . . , Laws of 2016 (this act) to fund the
11 provisions of this agreement.

12 (3) All savings resulting from reduced claim costs or other
13 factors identified after June 1, 2015, must be reserved for funding
14 employee health benefits in the 2017-2019 fiscal biennium.

15 **IMPLEMENTING PROVISIONS**

16 **Sec. 601.** 2015 1st sp.s. c 10 s 601 (uncodified) is amended to
17 read as follows:

18 **FUND TRANSFERS**

19 (1) The transportation 2003 projects or improvements and the 2005
20 transportation partnership projects or improvements are listed in the
21 LEAP list titled (~~(2015-1)~~) 2016-1 as developed (~~(May 26, 2015)~~)
22 February 22, 2016, which consists of a list of specific projects by
23 fund source and amount over a ten-year period. Current fiscal
24 biennium funding for each project is a line-item appropriation, while
25 the outer year funding allocations represent a ten-year plan. The
26 department is expected to use the flexibility provided in this
27 section to assist in the delivery and completion of all
28 transportation partnership account and transportation 2003 account
29 (nickel account) projects on the LEAP transportation documents
30 referenced in this act. However, this section does not apply to the
31 I-5/Columbia River Crossing project (400506A). For the 2015-2017
32 project appropriations, unless otherwise provided in this act, the
33 director of financial management may authorize a transfer of
34 appropriation authority between projects funded with transportation
35 2003 account (nickel account) appropriations, or transportation
36 partnership account appropriations, in order to manage project
37 spending and efficiently deliver all projects in the respective
38 program under the following conditions and limitations:

1 (a) Transfers may only be made within each specific fund source
2 referenced on the respective project list;

3 (b) Transfers from a project may not be made as a result of the
4 reduction of the scope of a project or be made to support increases
5 in the scope of a project;

6 (c) Each transfer between projects may only occur if the director
7 of financial management finds that any resulting change will not
8 hinder the completion of the projects as approved by the legislature.
9 Until the legislature reconvenes to consider the 2016 supplemental
10 omnibus transportation appropriations act, any unexpended 2013-2015
11 appropriation balance as approved by the office of financial
12 management, in consultation with the legislative staff of the house
13 of representatives and senate transportation committees, may be
14 considered when transferring funds between projects;

15 (d) Transfers from a project may be made if the funds
16 appropriated to the project are in excess of the amount needed to
17 complete the project;

18 (e) Transfers may not occur for projects not identified on the
19 applicable project list;

20 (f) Transfers may not be made while the legislature is in
21 session; and

22 (g) Transfers between projects may be made, without the approval
23 of the director of the office of financial management, by the
24 department of transportation until the transfer amount by project
25 exceeds two hundred fifty thousand dollars, or ten percent of the
26 total project, whichever is less. These transfers must be reported
27 quarterly to the director of financial management and the chairs of
28 the house of representatives and senate transportation committees.

29 (2) At the time the department submits a request to transfer
30 funds under this section, a copy of the request must be submitted to
31 the transportation committees of the legislature.

32 (3) The office of financial management shall work with
33 legislative staff of the house of representatives and senate
34 transportation committees to review the requested transfers in a
35 timely manner.

36 (4) The office of financial management shall document approved
37 transfers and schedule changes in the transportation executive
38 information system, compare changes to the legislative baseline
39 funding and schedules identified by project identification number
40 identified in the LEAP transportation documents referenced in this

1 act, and transmit revised project lists to chairs of the
2 transportation committees of the legislature on a quarterly basis.

3 **Sec. 602.** 2015 3rd sp.s. c 43 s 502 (uncodified) is amended to
4 read as follows:

5 (1) By November 15, 2015, and annually thereafter, the department
6 of transportation must report on amounts expended to benefit transit,
7 bicycle, or pedestrian elements within all connecting Washington
8 projects in programs I, P, and Z identified in LEAP Transportation
9 Document ((2015-NL-1)) 2016-2 ALL PROJECTS as developed ((June-28,
10 2015)) February 22, 2016. The report must address each modal category
11 separately and identify if eighteenth amendment protected funds have
12 been used and, if not, the source of funding.

13 (2) To facilitate the report in subsection (1) of this section,
14 the department of transportation must require that all bids on
15 connecting Washington projects include an estimate on the cost to
16 implement any transit, bicycle, or pedestrian project elements.

17 NEW SECTION. **Sec. 603.** A new section is added to 2015 1st sp.s.
18 c 10 (uncodified) to read as follows:

19 **BELATED CLAIMS**

20 The agencies and institutions of the state may expend moneys
21 appropriated in this act, upon approval of the office of financial
22 management, for the payment of supplies and services furnished to the
23 agency or institution in prior fiscal biennia.

24 **MISCELLANEOUS 2015-2017 FISCAL BIENNIUM**

25 **Sec. 701.** RCW 46.20.202 and 2015 3rd sp.s. c 44 s 209 are each
26 amended to read as follows:

27 (1) The department may enter into a memorandum of understanding
28 with any federal agency for the purposes of facilitating the crossing
29 of the border between the state of Washington and the Canadian
30 province of British Columbia.

31 (2) The department may enter into an agreement with the Canadian
32 province of British Columbia for the purposes of implementing a
33 border-crossing initiative.

34 (3)(a) The department may issue an enhanced driver's license or
35 identicard for the purposes of crossing the border between the state
36 of Washington and the Canadian province of British Columbia to an

1 applicant who provides the department with proof of: United States
2 citizenship, identity, and state residency. The department shall
3 continue to offer a standard driver's license and identicard. If the
4 department chooses to issue an enhanced driver's license, the
5 department must allow each applicant to choose between a standard
6 driver's license or identicard, or an enhanced driver's license or
7 identicard.

8 (b) The department shall implement a one-to-many biometric
9 matching system for the enhanced driver's license or identicard. An
10 applicant for an enhanced driver's license or identicard shall submit
11 a biometric identifier as designated by the department. The biometric
12 identifier must be used solely for the purpose of verifying the
13 identity of the holders and for any purpose set out in RCW 46.20.037.
14 Applicants are required to sign a declaration acknowledging their
15 understanding of the one-to-many biometric match.

16 (c) The enhanced driver's license or identicard must include
17 reasonable security measures to protect the privacy of Washington
18 state residents, including reasonable safeguards to protect against
19 unauthorized disclosure of data about Washington state residents. If
20 the enhanced driver's license or identicard includes a radio
21 frequency identification chip, or similar technology, the department
22 shall ensure that the technology is encrypted or otherwise secure
23 from unauthorized data access.

24 (d) The requirements of this subsection are in addition to the
25 requirements otherwise imposed on applicants for a driver's license
26 or identicard. The department shall adopt such rules as necessary to
27 meet the requirements of this subsection. From time to time the
28 department shall review technological innovations related to the
29 security of identity cards and amend the rules related to enhanced
30 driver's licenses and identicards as the director deems consistent
31 with this section and appropriate to protect the privacy of
32 Washington state residents.

33 (e) Notwithstanding RCW 46.20.118, the department may make images
34 associated with enhanced drivers' licenses or identicards from the
35 negative file available to United States customs and border agents
36 for the purposes of verifying identity.

37 (4) Beginning (~~July 1, 2016~~) June 30, 2017, the fee for an
38 enhanced driver's license or enhanced identicard is fifty-four
39 dollars, which is in addition to the fees for any regular driver's
40 license or identicard. If the enhanced driver's license or enhanced

1 identicard is issued, renewed, or extended for a period other than
2 six years, the fee for each class is nine dollars for each year that
3 the enhanced driver's license or enhanced identicard is issued,
4 renewed, or extended.

5 (5) The enhanced driver's license and enhanced identicard fee
6 under this section must be deposited into the highway safety fund
7 unless prior to July 1, 2023, the actions described in (a) or (b) of
8 this subsection occur, in which case the portion of the revenue that
9 is the result of the fee increased in section 209, chapter 44, Laws
10 of 2015 3rd sp. sess. must be distributed to the connecting
11 Washington account created under RCW 46.68.395.

12 (a) Any state agency files a notice of rule making under chapter
13 34.05 RCW for a rule regarding a fuel standard based upon or defined
14 by the carbon intensity of fuel, including a low carbon fuel standard
15 or clean fuel standard.

16 (b) Any state agency otherwise enacts, adopts, orders, or in any
17 way implements a fuel standard based upon or defined by the carbon
18 intensity of fuel, including a low carbon fuel standard or clean fuel
19 standard.

20 (c) Nothing in this subsection acknowledges, establishes, or
21 creates legal authority for the department of ecology or any other
22 state agency to enact, adopt, order, or in any way implement a fuel
23 standard based upon or defined by the carbon intensity of fuel,
24 including a low carbon fuel standard or clean fuel standard.

25 **Sec. 702.** RCW 81.53.281 and 2014 c 222 s 702 are each amended to
26 read as follows:

27 There is hereby created in the state treasury a "grade crossing
28 protective fund" to carry out the provisions of RCW 81.53.261,
29 81.53.271, 81.53.281, 81.53.291, and 81.53.295; for grants and/or
30 subsidies to public, private, and nonprofit entities for rail safety
31 projects authorized or ordered by the commission; and for personnel
32 and associated costs related to supervising and administering rail
33 safety grants and/or subsidies. During the 2013-2015 fiscal biennium,
34 funds in this account may also be used to conduct the study required
35 under section 102, chapter 222, Laws of 2014. The commission shall
36 transfer from the public service revolving fund's miscellaneous fees
37 and penalties accounts moneys appropriated for these purposes as
38 needed. At the time the commission makes each allocation of cost to
39 said grade crossing protective fund, it shall certify that such cost

1 shall be payable out of said fund. When federal-aid highway funds are
2 involved, the department of transportation shall, upon entry of an
3 order by the commission requiring the installation or upgrading of a
4 grade crossing protective device, submit to the commission an
5 estimate for the cost of the proposed installation and related work.
6 Upon receipt of the estimate the commission shall pay to the
7 department of transportation the percentage of the estimate specified
8 in RCW 81.53.295, as now or hereafter amended, to be used as the
9 grade crossing protective fund portion of the cost of the
10 installation and related work.

11 The commission may adopt rules for the allocation of money from
12 the grade crossing protective fund. During the 2015-2017 fiscal
13 biennium, the commission may waive rules regarding local matching
14 fund requirements, maximum awards for individual projects, and other
15 application requirements as necessary to expedite the allocation of
16 money from the grade crossing protective fund to address under-
17 protected grade crossings as identified by the commission.

18 NEW SECTION. Sec. 703. The following acts or parts of acts are
19 each repealed:

- 20 (1) 2015 3rd sp.s. c 43 s 201 (uncodified);
