ENGROSSED SUBSTITUTE HOUSE BILL 2128

Passed Legislature - 2015 3rd Special Session

State of Washington

64th Legislature

2015 Regular Session

By House General Government & Information Technology (originally sponsored by Representative Hudgins; by request of Department of Agriculture)

READ FIRST TIME 02/27/15.

1 AN ACT Relating to fees assessed by the department of
2 agriculture; amending RCW 15.36.051, 15.36.081, 15.36.491, 15.36.525,
3 69.07.040, 69.07.085, and 69.10.015; adding a new section to chapter
4 15.36 RCW; and creating a new section.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 NEW SECTION. **Sec. 1.** (1) The legislature finds that section
7 309(4), chapter 4, Laws of 2013 2nd sp. sess. directed the department
8 of agriculture to convene and facilitate a work group with
9 appropriate stakeholders to review fees supporting programs within
10 the department that are also supported with the state general fund.

11 (2) The legislature further finds that with the help of a
12 consulting firm, the department of agriculture identified fees in the
13 food safety and animal health programs that met the budget proviso
14 criteria. The department then formed a work group with
15 representatives from dairy, food processing, and other relevant
16 professional associations.

17 (3) The legislature further finds that the work group's final
18 report recommends fee increases for fees that do not completely cover
19 the costs of services provided and that will make programs within the
20 department of agriculture less reliant on the state general fund.

1 Therefore, the legislature intends to implement the recommendations
2 of the work group's report.

3 **Sec. 2.** RCW RCW 15.36.051 and 2005 c 414 s 1 are each amended to
4 read as follows:

5 (1) A milk processing plant must obtain an annual milk processing
6 plant license from the department, which shall expire on June 30th of
7 each year. A milk processing plant may choose to process ~~((+1))~~: (a)
8 Grade A milk and milk products~~((+))~~; or ~~((+2))~~ (b) other milk
9 products that are not classified grade A.

10 (2) Only one license may be required to process milk; however,
11 milk processing plants must obtain the necessary endorsements from
12 the department in order to process products as defined for each type
13 of milk or milk product processing. Application for a license shall
14 be on a form prescribed by the director and accompanied by a ~~((fifty-~~
15 ~~five))~~ two hundred fifty dollar annual license fee beginning July 1,
16 2015. The applicant shall include on the application the full name of

22 applicant shall be issued a license or a renewal of a license.

23 (3) Licenses shall be issued to cover only those products,
24 processes, and operations specified in the license application and

32 processing the new type of milk product only after the amendment has
33 been approved by the department.

35 a food processing plant license under chapter 69.07 RCW to process

8 the functions for which application has been made.

9 (2) Application for a license as a dairy technician shall be made
10 upon forms provided by the director, and shall be filed with the
11 department. The director may issue a temporary license to the

13 license, not to exceed sixty days, but the license may not be renewed
14 to extend the period beyond sixty days.

29 43.23.230.

33 plants under this chapter subject to such requirements as it may
34 establish by rule. The fee for issuance is (~~fifty~~) seventy-five
35 dollars per certificate beginning July 1, 2015. Fees collected under
36 this section shall be deposited in the agricultural local fund.
