

SB 6044.E - DIGEST

(AS OF SENATE 2ND READING 3/05/15)

Requires the department of transportation, during the design process for state highway projects that include the construction of a new bridge or the rehabilitation or reconstruction of an existing bridge across a navigable river or another transportation facility that is adjacent to or crosses a waterway, to consider and report on the feasibility of providing a means of public access to the navigable river or waterway for public recreational purposes.
