By Representative Tharinger

WITHDRAWN 06/30/2017

1 Strike everything after the enacting clause and insert the
2 following:

3 "NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
4 and, subject to the provisions set forth in this act, the several
5 dollar amounts hereinafter specified, or so much thereof as shall be
6 sufficient to accomplish the purposes designated, are hereby
7 appropriated and authorized to be incurred for capital projects
8 during the period beginning with the effective date of this act and
9 ending June 30, 2019, out of the several funds specified in this act.

10 (2) The definitions in this subsection apply throughout this act
11 unless the context clearly requires otherwise.

12 (a) "Fiscal year 2018" or "FY 2018" means the period beginning
13 July 1, 2017, and ending June 30, 2018.

14 (b) "Fiscal year 2019" or "FY 2019" means the period beginning
15 July 1, 2018, and ending June 30, 2019.

16 (c) "Lapse" or "revert" means the amount shall return to an
17 unappropriated status.

18 (d) "Provided solely" means the specified amount may be spent
19 only for the specified purpose.

20 (3) Unless otherwise specifically authorized in this act, any
21 portion of an amount provided solely for a specified purpose that is
22 not expended subject to the specified conditions and limitations to
23 fulfill the specified purpose shall lapse.

24 (4) The amounts shown under the headings "Prior Biennia," "Future
25 Biennia," and "Total" in this act are for informational purposes only
26 and do not constitute legislative approval of these amounts. "Prior
27 biennia" typically refers to the immediate prior biennium for
28 reappropriations, but may refer to multiple biennia in the case of
29 specific projects. A "future biennia" amount is an estimate of what
30 may be appropriated for the project or program in the 2019-2021
31 biennium and the following three biennia; an amount of zero does not

1 necessarily constitute legislative intent to not provide funding for
2 the project or program in the future.

3 (5) "Reappropriations" in this act are appropriations and, unless
4 the context clearly provides otherwise, are subject to the relevant
5 conditions and limitations applicable to appropriations.
6 Reappropriations shall be limited to the unexpended balances
7 remaining on June 30, 2017, from previous biennial appropriations for
8 each project.

5 (1) \$58,000,000 of the state taxable building construction
6 account—state appropriation, \$44,000,000 of the state building
7 construction account—state appropriation, and \$4,370,000 of the
8 Washington housing trust account—state appropriation are provided
9 solely for affordable housing and preservation of affordable housing.
10 Of the amounts in this subsection:

11 (a) \$24,370,000 is provided solely for housing projects that
12 provide supportive housing and case-management services to persons

14 income supportive housing unit proposals that provide services or
15 include a partner community behavioral health treatment provider;

16 (b) \$10,000,000 is provided solely for housing preservation
17 grants or loans to be awarded competitively. The grants may be
18 provided for major building improvements, preservation, and system
19 replacements, necessary for the existing housing trust fund portfolio
20 to maintain long-term viability. The department must require that a
21 capital needs assessment is performed to estimate the cost of the
22 preservation project at contract execution. Funds may not be used to
23 add or expand the capacity of the property. To receive grants,
24 housing projects must meet the following requirements:

25 (i) The property is more than fifteen years old;

26 (ii) At least 50 percent of the housing units are occupied by
27 families and individuals at or below 30 percent area median income.

3 projects identified by the commission and for other activities to
4 assist communities in developing capacity to create community-owned
5 capital assets.

15 low-income housing projects that will quickly move people from
16 homelessness into secure housing, and are significantly less
17 expensive to construct than traditional housing. It is the intent of
18 the legislature that these grants serve projects with a total project
19 development cost per housing unit of less than \$125,000, excluding
20 the value of land, and with a commitment by the applicant to maintain
21 the housing units for at least a twenty-five year period. Amounts

8 give preference for applications based on some or all of the criteria
9 in RCW 43.185.070(5).

10 (3) The department must strive to allocate all of the amounts
11 appropriated in this section within the 2017-2019 fiscal biennium in
12 the manner prescribed in subsection (1) of this section. However, if
13 upon review of applications the department determines there are not
14 adequate suitable projects in a category, the department may allocate
15 funds to projects serving other low-income and special needs

11 Clean Energy Funds 3 (30000881)

12 The appropriations in this section are subject to the following
13 conditions and limitations:

14 (1) The appropriations are provided solely for projects that
15 provide a benefit to the public through development, demonstration,
16 and deployment of clean energy technologies that save energy and
17 reduce energy costs, reduce harmful air emissions, or increase energy
18 independence for the state.

19 (2) In soliciting and evaluating proposals, awarding contracts,
20 and monitoring projects under this section, the department must:

21 (a) Ensure that competitive processes, rather than sole source
22 contracting processes, are used to select all projects, except as
23 otherwise noted in this section; and

24 (b) Conduct due diligence activities associated with the use of
25 public funds including, but not limited to, oversight of the project
26 selection process, project monitoring and ensuring that all
27 applications and contracts fully comply with all applicable laws
28 including disclosure and conflict of interest statutes.

29 (3)(a) Pursuant to chapter 42.52 RCW, the ethics in public
30 service act, the department must require a project applicant to
31 identify in application materials any state of Washington employees
32 or former state employees employed by the firm or on the firm's
33 governing board during the past twenty-four months. Application
34 materials must identify the individual by name, the agency previously
35 or currently employing the individual, job title or position held,
36 and separation date. If it is determined by the department that a
37 conflict of interest exists, the applicant may be disqualified from
38 further consideration for award of funding.

1 (b) If the department finds, after due notice and examination,
2 that there is a violation of chapter 42.52 RCW, or any similar
3 statute involving a grantee who received funding under this section,
4 either in procuring or performing under the grant, the department in
5 its sole discretion may terminate the funding grant by written
6 notice. If the grant is terminated, the department must reserve its
7 right to pursue all available remedies under law to address the
8 violation.

9 (4) The requirements in subsections (2) and (3) of this section
10 must be specified in funding agreements issued by the department.

11 (5) \$11,000,000 of the state building construction account, is
12 provided solely for grid modernization grants for projects that
13 advance clean and renewable energy technologies, and transmission and
14 distribution control systems; that support integration of renewable
15 energy sources, deployment of distributed energy resources, and
16 sustainable microgrids; and that increase utility customer options
17 for energy sources, energy efficiency, energy equipment, and utility
18 services.

19 (a) Projects must be implemented by public and private electrical
20 utilities that serve retail customers in the state. Eligible
21 utilities may partner with other public and private sector research
22 organizations and businesses in applying for funding.

23 (b) The department shall develop a grant application process to
24 competitively select projects for grant awards, to include scoring
25 conducted by a group of qualified experts with application of
26 criteria specified by the department. In development of the
27 application criteria, the department shall, to the extent possible,
28 allow smaller utilities or consortia of small utilities to apply for
29 funding.

30 (c) Applications for grants must disclose all sources of public
31 funds invested in a project.

32 (6) \$7,900,000 of the state building construction account and
33 \$3,100,000 of the energy efficiency account are provided solely for
34 grants to demonstrate new approaches to electrification of
35 transportation systems.

36 (a) Projects must be implemented by local governments, or by
37 public and private electrical utilities that serve retail customers
38 in the state. Eligible parties may partner with other public and
39 private sector research organizations and businesses in applying for
40 funding. The department of commerce must coordinate with other

1 electrification programs, including projects the department of
2 transportation is developing and projects funded by the Volkswagen
3 consent decree, to determine the most effective distribution of the
4 systems.

5 (b) Priorities must be given to eligible technologies that reduce
6 the top two hundred hours of demand and the demand side.

7 (c) Eligible technologies for these projects include, but are not
8 limited to:

14 fleets to grid operations, including school and transit buses;

15 (iv) Electric vehicle fleet management tools with open source
16 software;

17 (v) Maritime electrification, such as electric ferries, water
18 taxis, and shore power infrastructure.

19 (7)(a) \$8,600,000 of the state building construction account is

21 emerging clean energy technologies, as needed to match federal or
22 other nonstate funds to research, develop, and demonstrate clean
23 energy technologies.

24 (b) The department shall consult and coordinate with the
25 University of Washington, Washington State University, the Pacific
26 Northwest national laboratory and other clean energy organizations to
27 design the grant program unless the organization prefers to compete
28 for the grants. If the organization prefers to receive grants from
29 the program they may not participate in the consultant process
30 determining how the grant process is structured. The program shall
31 offer matching funds for competitively selected clean energy
32 projects, including but not limited to: Solar technologies, advanced
33 bioenergy and biofuels, development of new earth abundant materials
34 or lightweight materials, advanced energy storage, battery components
35 recycling, and new renewable energy and energy efficiency
36 technologies. Criteria for the grant program must include life cycle
37 cost analysis for projects that are part of the competitive process.

38 (c) \$750,000 of this subsection (7) is provided solely for the
39 state efficiency and environmental program.

1 (8)(a) \$8,000,000 of the state taxable construction account is
2 provided solely for scientific instruments to help accelerate
3 research in advanced materials at the proposed science laboratories
4 infrastructure facility at the Pacific Northwest national laboratory.
5 These state funds are contingent on securing federal funds for the
6 new facility, and are provided as match to the federal funding. The
7 instruments will support researchers at the bioproducts sciences and
8 engineering laboratory, the joint center for deployment research in
9 earth abundant materials, the center for advanced materials and clean
10 energy technology, and other energy and materials collaborations with
11 the University of Washington and Washington State University.

12 (b) If by December 30, 2018, federal funding is not secured, the
13 funds in this subsection (8) shall lapse.

14 (9) \$1,600,000 of the state building construction account and
15 \$2,400,000 of the energy efficiency account are provided solely for
16 grants to be awarded in competitive rounds for the deployment of
17 solar projects located in Washington state.

18 (a) Priority must be given to distribution side projects that
19 reduce peak electricity demand.

20 (b) Projects must be capable of generating at least five hundred
21 kilowatts of direct current generating capacity.

22 (c) Grants shall not exceed \$200,000 per megawatt of direct
23 current generating capacity and total grant funds per project shall
24 not exceed \$1,000,000 per applicant. Applicants may not use other
25 state grants.

26 (d) At least 25 percent of the total allocation of a project
27 shall be provided solely for projects that provide direct benefits to
28 low-income residents or communities. The department must attempt to
29 prioritize an equal geographic distribution.

30 (e) Priority must be given to major components made in
31 Washington.

32 (10) \$2,400,000 of the state building construction account is
33 provided solely for a project which, when fully deployed, will reduce
34 emissions of greenhouse gases by a minimum of seven hundred fifty
35 thousand tons per year, increase energy efficiency, and protect or
36 create manufacturing jobs located in a county with a population of
37 less than three hundred thousand.

NEW SECTION. Sec. 1074. FOR THE DEPARTMENT OF COMMERCE

Energy Efficiency and Solar Grants (30000882)

9 The appropriations in this section are subject to the following
10 conditions and limitations:

11 (1)(a) \$3,675,000 for fiscal year 2018 and \$3,675,000 for fiscal
12 year 2019 is provided solely for grants to be awarded in competitive
13 rounds to local agencies, public higher education institutions,
14 school districts, and state agencies for operational cost savings
15 improvements to facilities and related projects that result in energy
16 and operational cost savings.

17 (b) At least twenty percent of each competitive grant round must
18 be awarded to small cities or towns with a population of five
19 thousand or fewer residents.

20 (c) In each competitive round, the higher the leverage ratio of
21 nonstate funding sources to state grant and the higher the energy
22 savings, the higher the project ranking.

23 (d) For school district applicants, priority consideration must
24 be given to school districts that demonstrate improved health and
25 safety through: (i) Reduced exposure to polychlorinated biphenyl; or
26 (ii) replacing outdated heating systems that use oil or propane as
27 fuel sources as identified by the Washington State University
28 extension energy program. Priority consideration must be given to
29 applicants that have not received grant awards for this purpose in
30 prior biennia.

31 (2) \$1,750,000 is provided solely for grants to be awarded in
32 competitive rounds to local agencies, public higher education
33 institutions, school districts, and state agencies for projects that
34 involve the purchase and installation of solar energy systems,
35 including solar modules and inverters, with a preference for products
36 manufactured in Washington.

37 (3) \$1,400,000 is provided solely for energy efficiency
38 improvements to minor works and stand-alone projects at state-owned

1 facilities that repair or replace existing building systems
 2 including, but not limited to HVAC, lighting, insulation, windows,
 3 and other mechanical systems. Eligibility for this funding is
 4 dependent on an analysis using the office of financial management's
 5 life-cycle cost tool that compares project design alternatives for
 6 initial and long-term cost-effectiveness. Assuming a reasonable
 7 return on investment, the cost to improve the project's energy
 8 efficiency compared to the original project request will be added to
 9 the project appropriation after construction bids are received. The
 10 department of commerce shall coordinate with the office of financial
 11 management to develop a process for project submittal, review,
 12 approval criteria, tracking project budget adjustments, and
 13 performance measures.

14 (4) \$500,000 is provided solely for resource conservation
 15 managers in the department of enterprise services to coordinate with
 16 state agencies and school districts to assess and adjust existing
 17 building systems and operations to optimize the efficiency in use of
 18 energy and other resources in state-owned facilities. The department
 19 of commerce will oversee an interagency agreement with the department
 20 of enterprise services to fund the resource conservation managers.

21 (5) The department shall develop metrics that indicate the
 22 performance of energy efficiency efforts and provide a report of the
 23 metrics, including at a minimum the current energy used by the
 24 building, the energy use after efficiencies are completed, and cost
 25 of energy saved. The report must include these metrics from other
 26 states.

25 share of the appropriation is for design costs only.

26 (2) Prior to receiving funds, project recipients must demonstrate
27 that the project site is under control for a minimum of ten years,

6 plus interest calculated at the rate of interest on state of
7 Washington general obligation bonds issued most closely to the date
8 of authorization of the grant.

26 funding, the department must coordinate with the department of social
27 and health services and the department of health and must only select

6 Franciscan enters into a memorandum of understanding with the
7 department of social and health services by October 31, 2017, to
8 collaborate on development and implementation of strategies to expand
9 the behavioral health workforce in the region. At a minimum, the
10 agreement must include strategies for increasing recruitment of
11 health professionals required to staff psychiatric inpatient
12 facilities, including psychiatrists, psychologists, nurses and other
13 health care professionals. The agreement must also identify
14 opportunities for coordination between the parties to expand access
15 to clinical skill development and training opportunities in the
16 region and strategies for collaborative service delivery between the
17 parties when possible. To objectively evaluate the efficacy of the
18 strategies implemented to achieve the desired outcomes of the
19 agreement, performance measures and targets must be established to
20 include:

21 (a) MultiCare-Franciscan and the department of social and health
22 services must work collaboratively to decrease vacancy rates for
23 hard-to-recruit health care professionals employed by each facility.
24 The parties must develop strategies to attract more qualified health
25 care professionals to the area and ensure comparable exposure to the
26 benefits of working for each organization. The parties must measure
27 the success of these strategies by the decrease in vacancy rate for
28 health care professionals necessary to provide safe, quality
29 inpatient psychiatric care in MultiCare-Franciscan and department
30 facilities following the first year as the baseline of the
31 partnership/consortium and with updated goals for each subsequent
32 year. MultiCare-Franciscan and the department of social and health
33 services must work to increase the competency and skills of health
34 care professionals across both facilities by establishing organized
35 joint- and cross-training programs. The parties must measure the
36 success of this strategy by the number of health care professionals
37 in total and by discipline complete cross-training activities and by
38 the number and hours of cross-training opportunities offered under
39 the agreement.

1 (6) The department of commerce shall notify all applicants that
2 they may be required to have a construction review performed by the
3 department of health.

4 (7) To accommodate the emergent need for behavioral health
5 services, the department of health and the department of commerce, in
6 collaboration with the health care authority and the department of
7 social and health services, shall establish a concurrent and
8 expedited process to assist grant applicants in meeting any
9 applicable regulatory requirements necessary to operate inpatient
10 psychiatric beds, free-standing evaluation and treatment facilities,
11 enhanced services facilities, triage facilities, crisis stabilization
12 facilities, detox, or secure detox.

19 CERB Administered Broadband Infrastructure (91000943)

20 The appropriation in this section is subject to the following
21 conditions and limitations: During the 2017-2019 fiscal biennium, the
22 community economic revitalization board may make grants and loans to
23 local governments and federally recognized tribes to build
24 infrastructure to provide high-speed, open-access broadband service,
25 with a minimum of 25 megabits per second download speed, to rural and
26 underserved communities, for the purpose of economic development.

27 (1) "Local governments" means cities, towns, counties, municipal
28 corporations, public port districts, quasi-municipal corporations,
29 and special purpose districts.

30 (2) "Broadband" means networks of deployed telecommunications
31 equipment and technologies necessary to provide high-speed Internet
32 access and other advanced telecommunications services.

33 (3) The board is authorized to make rural broadband loans to
34 local governments and to federally recognized Indian tribes for the
35 purposes of financing the cost to build infrastructure to provide
36 high-speed, open-access broadband service, to rural and underserved
37 communities, for the purpose of economic development. Grants may also
38 be authorized for purposes designated in this chapter, but only when,

1 and to the extent that, a loan is not reasonably possible, given the
2 limited resources of the local government or the federally recognized
3 Indian tribe, and subject to a finding by the board that financial
4 circumstances require grant assistance to enable the project to move
5 forward. However, no more than 25 percent of all financial assistance
6 approved by the board in any biennium may consist of grants to local
7 governments and federally recognized Indian tribes.

8 (4) Application for funding must be made in the form and manner
9 as the board may prescribe. In making grants or loans the board must
10 conform to the following requirements:

11 (a) The board may not provide financial assistance:

12 (i) For a project the primary purpose of which is to facilitate
13 or promote a retail shopping development or expansion.

14 (ii) For any project that evidence exists would result in a
15 development or expansion that would displace existing jobs in any
16 other community in the state.

17 (iii) For a project the primary purpose of which is to facilitate
18 or promote gambling.

19 (iv) For a project located outside the jurisdiction of the
20 applicant local government or federally recognized Indian tribe.

21 (v) For equipment or facilities which would enable a public
22 entity to provide retail telecommunications services or services that
23 the entity is not authorized by statute to provide.

24 (vi) For the deployment of publicly-owned telecommunication
25 network infrastructure ("backbone") solely for the sake of creating
26 competitive, publicly-owned telecommunication network infrastructure.

27 (b) The board may provide financial assistance only:

28 (i) For projects demonstrating convincing evidence that a
29 specific private development or expansion is ready to occur and will
30 occur only if the public facility improvement is made that:

31 (A) Results in the creation of significant private sector jobs or
32 significant private sector capital investment as determined by the
33 board;

34 (B) Will improve the opportunities for the successful
35 maintenance, establishment, or expansion of industrial or commercial
36 plants or will otherwise assist in the creation or retention of long-
37 term economic opportunities; and

38 (C) Is located in a rural community as defined by the board, or a
39 rural county; or

1 (ii) For a project that does not meet the requirements of (b)(i)
2 of this subsection but is a project that:

3 (A) Results in the creation of significant private sector jobs or
4 significant private sector capital investment as determined by the
5 board;

6 (B) Is part of a local economic development plan consistent with
7 applicable state planning requirements;

8 (C) Can demonstrate project feasibility using standard economic
9 principles; and

10 (D) Is located in a rural community as defined by the board, or a
11 rural county;

12 (c) The board must develop guidelines for local participation and
13 allowable match and activities.

14 (d) An application must demonstrate local match and local
15 participation, in accordance with guidelines developed by the board.

16 (e) An application must be approved by the local government and
17 supported by the local associate development organization or local
18 workforce development council or approved by the governing body of
19 the federally recognized Indian tribe.

20 (f) The board may allow de minimis general system improvements to
21 be funded if they are critically linked to the viability of the
22 project.

23 (g) An application must demonstrate convincing evidence that the
24 median hourly wage of the private sector jobs created after the
25 project is completed will exceed the countywide median hourly wage.

26 (h) The board must prioritize each proposed project according to:

27 (i) The relative benefits provided to the community by the jobs
28 the project would create, not just the total number of jobs it would
29 create after the project is completed, but also giving consideration
30 to the unemployment rate in the area in which the jobs would be
31 located;

32 (ii) The rate of return of the state's investment, including, but
33 not limited to, the leveraging of private sector investment,
34 anticipated job creation and retention, and expected increases in
35 state and local tax revenues associated with the project;

36 (iii) Whether the proposed project offers a health insurance plan
37 for employees that includes an option for dependents of employees;

38 (iv) Whether the public facility investment will increase
39 existing capacity necessary to accommodate projected population and
40 employment growth in a manner that supports infill and redevelopment

1 of existing urban or industrial areas that are served by adequate
2 public facilities. Projects should maximize the use of existing
3 infrastructure and provide for adequate funding of necessary
4 transportation improvements;

5 (v) Whether the applicant's permitting process has been certified
6 as streamlined by the office of regulatory assistance; and

7 (vi) Whether the applicant has developed and adhered to
8 guidelines regarding its permitting process for those applying for
9 development permits consistent with section 1(2), chapter 231, Laws
10 of 2007.

11 (i) A responsible official of the local government or the
12 federally recognized Indian tribe must be present during board
13 deliberations and provide information that the board requests.

14 (5) Before any financial assistance application is approved, the
15 local government or the federally recognized Indian tribe seeking the
16 assistance must demonstrate to the community economic revitalization
17 board that no other timely source of funding is available to it at
18 costs reasonably similar to financing available from the community
19 economic revitalization board.

11 NEW SECTION. **Sec. 3179. FOR THE DEPARTMENT OF ECOLOGY**

12 VW Settlement Funded Projects (40000018)

13 The appropriation in this section is subject to the following
14 conditions and limitations:

15 (1) The legislature finds that it is appropriate to provide a
16 framework for the administration of mitigation funds provided to the
17 state as a beneficiary under the terms of the consent decrees entered
18 into by the United States, Volkswagen AG, and other participating
19 parties that settle emissions-related claims for 2.0 and 3.0 liter
20 diesel vehicles of certain models and years. The legislature deems
21 the department of ecology the responsible agency for the
22 administration and expenditure of funds provided by the trustee under
23 the terms of the consent decrees, including the development of a
24 mitigation plan to guide the use of the funds, whether or not the
25 department receives funds directly for projects included in the plan.

26 (2)(a) The department of ecology shall develop the mitigation
27 plan through an open, transparent public process consistent with
28 direction in the consent decrees. The department shall provide ample
29 opportunity using a variety of engagement options, as appropriate,
30 for stakeholders and the public to shape, review, and comment
31 throughout the development of the mitigation plan, including at least
32 two meetings of the legislative advisory group as described in (c) of
33 this subsection.

34 (b) The department of ecology shall work collaboratively with
35 other agencies to develop and implement the elements of the
36 mitigation plan that address categories of projects for which other
37 agencies have already developed programs or expertise. In doing so,

1 the department of ecology must consider and utilize, where
2 appropriate and to the extent possible, the following existing
3 programs for alternative fuels and zero emission vehicles:

4 (i) The department of transportation's electric vehicle
5 infrastructure bank program;

6 (ii) The state alternative fuel commercial vehicle tax credit;

7 (iii) The state sales and use tax exemption for clean vehicles;

8 and

9 (iv) Public transportation grant programs administered by the
10 department of transportation.

11 (c)(i) For the purposes of providing legislative input and
12 gathering public feedback on the development of the mitigation plan,
13 a legislative advisory group is established. The advisory group is
14 comprised of eight legislators, including the chairs and ranking
15 members, or designees of the chairs and ranking members, of the
16 transportation and capital budget committees in the House and in the
17 Senate; the director of the department of ecology; and the secretary
18 of the department of transportation.

19 (ii) The advisory group must select a chair from among its
20 membership. Meetings of the advisory group must be open to the public
21 and allow for public comment.

22 (iii) The advisory group must meet at least twice, once
23 immediately prior to the date that the draft mitigation plan is
24 released publicly, and again after public comment has been
25 incorporated but before the department submits the plan to the
26 trustee.

27 (iv) The office of program research and the senate committee
28 services must provide staff support to the advisory group. The
29 department of ecology staff must provide technical support, as
30 needed. Legislative members of the advisory group are reimbursed for
31 travel expenses in accordance with RCW 44.04.120. Nonlegislative
32 members are not entitled to be reimbursed for travel expenses if they
33 are elected officials or are participating on behalf of an employer,
34 government entity, or other organization. Any reimbursement for other
35 nonlegislative members is subject to chapter 43.03 RCW. Advisory
36 group expenditures are subject to approval by the senate facilities
37 and operations committee and the house of representatives executive
38 rules committee, or their successor committees.

39 (3) The mitigation plan and the stewardship of project
40 implementation must adhere to the following principles:

1 (a) Maximize air quality and public health benefits relating to
2 the reduction of nitrogen oxides emissions;

3 (b) Give priority to projects that improve air quality relating
4 to the reduction of nitrogen oxides emissions in areas that bear a
5 disproportionate share of the burden from nitrogen oxides emissions;

6 (c) Achieve substantial additional air quality benefits relating
7 to the reduction of nitrogen oxides emissions beyond that which would
8 already occur, absent trust funding;

9 (d) Investments in clean vehicles or investments in clean engine
10 replacements must be shown to be cost-effective. For the purposes of
11 leveraging funding, investments in clean vehicles may not exceed the
12 incremental cost of the clean vehicle, relative to the cost of a
13 similar conventionally fueled vehicle. To incentivize the replacement
14 of standard engines, investments may be made up to the full cost of
15 the clean engine replacement;

16 (e) Consideration must be given to investments across a range of
17 fueling technologies and emissions reduction technologies; and

18 (f) Priority must be given to projects that have the highest
19 benefit-cost ratios, in terms of the amount of nitrogen oxides
20 emissions reduced per dollar invested.

21 (4) Funding must be allocated to eligible projects under the
22 terms of the consent decrees in the following manner:

23 (a)(i) No more than thirty percent of funding provided during the
24 2017-2019 biennium for commercial vehicle class four through eight
25 transit buses, shuttle buses, and school buses;

26 (ii) No more than thirty percent of funding provided during the
27 2017-2019 biennium for commercial vehicle class eight local freight
28 trucks and port drayage trucks;

29 (iii) No more than twenty percent of funding provided during the
30 2017-2019 biennium for commercial vehicle class four through seven
31 local freight trucks;

32 (iv) No more than twenty percent of funding provided during the
33 2017-2019 biennium for airport ground support equipment;

34 (v) No more than twenty percent of funding provided during the
35 2017-2019 biennium for ocean-going vessels' shore power;

36 (vi) No more than fifteen percent of funding provided during the
37 2017-2019 biennium for light duty, zero emission vehicle supply
38 equipment;

1 (vii) No more than twenty percent of funding provided during the
2 2017-2019 biennium for nonfederal matching funds for projects
3 eligible under the diesel emission reduction act option; and

4 (viii) For each of the other categories of mitigation actions
5 that are eligible under the consent decrees but not otherwise
6 specified under this subsection (4)(a), no more than ten percent of
7 funding provided during the 2017-2019 biennium.

8 (b) Projects that receive funding under subsection (4)(a)(ii) and
9 (iii) of this section and ocean-going vessels shorepower projects
10 that receive funding under subsection (4)(a)(viii) of this section
11 must include electric technologies, if practicable.

12 (5) To the extent this section conflicts with the consent
13 decrees, the consent decrees supersede it.

14 (6) The department of ecology may modify the mitigation plan as
15 needed to comply with trustee requirements, including to the extent
16 these modifications conflict with this section. In making any
17 adjustments, the department of ecology shall consult with the
18 department of transportation and the office of the superintendent of
19 public instruction and provide notice to the steering committee of
20 any significant changes to the plan submitted.

21 (7) The department of ecology shall provide a report to the
22 governor and the appropriate committees of the legislature by January
23 1, 2018, and each year thereafter, on any plans or efforts to change
24 the mitigation plan, its progress in implementing the mitigation
25 plan, and the specific projects funded through these mitigation funds
26 for the previous fiscal year.

27 (8) For the purposes of this section:

28 (a) "Project" means an eligible mitigation action under the terms
29 of the consent decrees entered into by the United States, Volkswagen
30 AG, and other participating parties that settle emissions-related
31 claims for 2.0 and 3.0 liter diesel vehicles of certain models and
32 years.

33 (b) "Trustee" means the entity selected under the terms of the
34 consent decrees to administer the disbursement of funds to eligible
35 projects for the purposes of mitigating nitrogen oxides emission
36 pollution.

15 Trust Land Transfer Program (30000269)

16 The appropriation in this section is subject to the following
17 conditions and limitations:

18 (1) The appropriation is provided solely to the department of
19 natural resources to transfer from trust status certain trust lands
20 of statewide significance deemed appropriate for state parks, fish
21 and wildlife habitats, natural area preserves, natural resources
22 conservation areas, department of natural resources community forest
23 open spaces, or recreation purposes. The approved property for
24 transfer is identified in the LEAP capital document no. 2017-2H,
25 developed June 30, 2017.

26 (2) Property transferred under this section must be appraised and
27 transferred at fair market value. By September 30, 2018, the
28 department must deposit in the common school construction account the
29 portion of the appropriation in this section that represents the
30 estimated value of the timber on the transferred properties. This
31 transfer must be made in the same manner as timber revenues from
32 other common school trust lands. No deduction may be made for the
33 resource management cost account under RCW 79.64.040. The portion of
34 the appropriation in this section that represents the value of the
35 land transferred must be deposited in the natural resources real
36 property replacement account.

1 (3) All reasonable costs incurred by the department to implement
2 this section are authorized to be paid out of the appropriations.
3 Authorized costs include the actual cost of appraisals, staff time,
4 environmental reviews, surveys, and other similar costs, and may not
5 exceed one and nine-tenths percent of the appropriation.

6 (4) By June 30, 2018, land within the common school trust shall
7 be exchanged for land of equal value held for other trust
8 beneficiaries of the property identified in subsection (1) of this
9 section.

10 (5) Prior to or concurrent with conveyance of these properties,
11 the department shall execute and record a real property instrument
12 that dedicates the transferred properties to the purposes identified
13 in subsection (1) of this section. Fee transfer agreements for
14 properties identified in subsection (1) of this section must include
15 terms that perpetually restrict the use of the property to the
16 intended purpose. Transfer agreements may include provisions for
17 receiving agencies to request alternative uses of the property,
18 provided the alternative uses are compatible with the originally
19 intended public purpose and the department and legislature approves
20 such uses.

21 (6) The department shall work in good faith to carry out the
22 intent of this section.

23 (7) By June 30, 2019, the state treasurer shall transfer to the
24 common school construction account any unexpended balance of the
25 appropriation in this section.

26 Appropriation:

27	State Building Construction Account—State.	\$10,000,000
28	Prior Biennia (Expenditures).	\$0
29	Future Biennia (Projected Costs).	\$0
30	TOTAL.	\$10,000,000

31 **NEW SECTION. Sec. 3264. FOR THE DEPARTMENT OF NATURAL RESOURCES**

32 State Forest Land Replacement (30000277)

33 The appropriation in this section is subject to the following
34 conditions and limitations:

35 (1) \$60,000 of the appropriation is provided solely for the
36 department to assess options to replace timber trust revenues for
37 counties with populations of twenty-five thousand or fewer that are
38 subject to timber harvest deferrals greater than thirty years due to

1 the presence of wildlife species listed as endangered or threatened
2 under the federal endangered species act. The department must consult
3 with the qualifying counties and other stakeholders in conducting the
4 assessment. The department shall report the findings of its
5 assessment, including recommendations for addressing decreased
6 revenues from state forestlands and improving the forest products
7 economy in the qualifying counties, by December 15, 2017.

8 (2)(a) The remaining portion of the appropriation is provided
9 solely to the department to transfer from state forestland status to
10 natural resources conservation area status certain state forestlands
11 in counties:

12 (i) With a population of twenty-five thousand or fewer; and

13 (ii) With risks of timber harvest deferrals greater than thirty
14 years due to the presence of wildlife species listed as endangered or
15 threatened under the federal endangered species act.

16 (b) This appropriation must be used equally for the transfer of
17 qualifying state forestlands in the qualifying counties.

18 (3) Property transferred under this section must be appraised and
19 transferred at fair market value, without consideration of management
20 or regulatory encumbrances associated with wildlife species listed
21 under the federal endangered species act. The value of the timber and
22 other valuable materials transferred must be distributed as provided
23 in RCW 79.64.110. The value of the land transferred must be deposited
24 in the park land trust revolving account and be used solely to buy
25 replacement state forestland, consistent with RCW 79.22.060.

26 (4) Prior to or concurrent with conveyance of these properties,
27 the department shall execute and record a real property instrument
28 that dedicates the transferred properties to the purposes identified
29 in subsection (2) of this section. Transfer agreements for properties
30 identified in subsection (2) of this section must include terms that
31 restrict the use of the property to the intended purpose.

32 (5) The department and applicable counties shall work in good
33 faith to carry out the intent of this section. The department will
34 identify eligible properties for transfer, consistent with
35 subsections (2) and (3) of this section, in consultation with the
36 applicable counties, and will not execute any property transfers that
37 are not in the statewide interest of either the state forest trust or
38 the natural resources conservation area program.

Aviation Revitalization Loans (92000003)

The appropriation in this section is subject to the following conditions and limitations:

(1) This appropriation is provided solely for deposit into the public use general aviation airport loan revolving account created in section 7029 of this act for direct loans to political subdivisions of the state and privately owned airports for the purpose of improvements at public use airports that primarily support general aviation activities.

1 (2) The department must convene a community aviation
2 revitalization board to develop criteria for selecting loan
3 recipients, to develop a process for evaluating applications, and to
4 make decisions. The board must consist of the capital budget chair
5 and ranking minority member of the capital budget committee of the
6 house of representatives and the senate ways and means committee, and
7 a representative from both the department of transportation's
8 aviation division and the department of commerce. The board must also
9 consist of the following members appointed by the secretary of
10 transportation: One port district official, one county official, one
11 city official, one representative of airport managers, and one
12 representative of pilots. The chair of the board must be selected by
13 the secretary of transportation. The members of the board must elect
14 one of their members to serve as vice chair. The director of commerce
15 and the secretary of transportation must serve as nonvoting advisory
16 members of the board.

17 (3) The board may provide loans to privately owned airports for
18 the purpose of airport improvements only if the state is receiving
19 commensurate public benefit, such as guaranteed long-term public
20 access to the airport as a condition of the loan. For purposes of
21 this subsection, "public use airports that primarily support general
22 aviation activities" means all public use airports not listed as
23 having more than fifty thousand annual commercial air service
24 passenger enplanements as published by the federal aviation
25 administration.

26 (4) An application for loan funds under this section must be made
27 in the form and manner as the board may prescribe. When evaluating
28 loan applications, the board must prioritize applications that
29 provide conclusive justification that completion of the loan
30 application project will create revenue-generating opportunities. The
31 board is not limited to, but must also use, the following expected
32 outcome conditions when evaluating loan applications:

33 (a) A specific private development or expansion is ready to occur
34 and will occur only if the aviation facility improvement is made;

35 (b) The loan application project results in the creation of jobs
36 or private sector capital investment as determined by the board;

37 (c) The loan application project improves opportunities for the
38 successful maintenance, operation, or expansion of an airport or
39 adjacent airport business park;

1 (d) The loan application project results in the creation or
2 retention of long-term economic opportunities; and

3 (e) The loan application project results in leveraging additional
4 federal funding for an airport.

5 (5) The repayment of any loan made from the public use general
6 aviation airport loan revolving account under the contracts for
7 aviation loans must be paid into the public use general aviation
8 airport loan revolving account.

22 The appropriations in this section are subject to the following
23 conditions and limitations:

24 (1) \$2,000,000 of the common school construction account—state
25 appropriation is provided solely for emergency repair grants to
26 address unexpected and imminent health and safety hazards at K-12
27 public schools, including skill centers, that will impact the day-to-
28 day operations of the school facility, and this is the maximum amount
29 that may be spent for this purpose. For emergency repair grants only,
30 an emergency declaration must be signed by the school district board
31 of directors and submitted to the superintendent of public
32 instruction for consideration. The emergency declaration must include
33 a description of the imminent health and safety hazard, the possible
34 cause, the proposed scope of emergency repair work and related cost
35 estimate, and identification of local funding to be applied to the
36 project. Grants of emergency repair moneys must be conditioned upon
37 the written commitment and plan of the school district board of

1 directors to repay the grant with any insurance payments or other
2 judgments that may be awarded, if applicable.

3 (2) \$3,000,000 of the state building construction account—state
4 appropriation is provided solely for urgent repair grants to address
5 non-reoccurring urgent small repair projects at K-12 public schools,
6 excluding skill centers, that could impact the health and safety of
7 students and staff if not completed, and this is the maximum amount
8 that may be spent for this purpose. The office of the superintendent
9 of public instruction, after consulting with maintenance and
10 operations administrators of school districts, shall develop criteria
11 and assurances for providing funding for specific projects through a
12 competitive grant program. The criteria and assurances must include,
13 but are not limited to, the following: (a) Limiting school districts
14 to one grant, not to exceed \$200,000, per three-year period; (b)
15 prioritizing applications based on limited school district financial
16 resources for the project; and (c) requiring any district receiving
17 funding provided in this section to demonstrate a consistent
18 commitment to addressing school facility needs. The grant
19 applications must include a comprehensive description of the health
20 and safety issues to be addressed, a detailed description of the
21 remedy including a detailed cost estimate of the repair or
22 replacement work to be performed, and identification of local
23 funding, if any, which will be applied to the project. Grants may be
24 used for, but are not limited to: Repair or replacement of failing
25 building systems; abatement of potentially hazardous materials; and
26 safety-related structural improvements.

27 (3) \$1,000,000 of the state building construction account—state
28 appropriation is provided solely for equal access grants for facility
29 repairs and alterations at K-12 public schools, including skills
30 centers, to improve compliance with the Americans with disabilities
31 act and individuals with disabilities education act, and this is the
32 maximum amount that may be spent for this purpose. The superintendent
33 of public instruction shall develop criteria and assurances for
34 providing funding for specific projects through a competitive grant
35 program. The criteria and assurances must include, but are not
36 limited to, the following: (a) Limiting districts to one grant, not
37 to exceed \$100,000, per three-year period; (b) prioritizing
38 applications based on limited school district financial resources for
39 the project; and (c) requiring recipient districts to demonstrate a
40 consistent commitment to addressing school facility needs. The grant

1 applications must include a description of the Americans with
2 disabilities act or individuals with disabilities education act
3 compliance deficiency, a comprehensive description of the facility
4 accessibility issues to be addressed, a detailed description of the
5 remedy including a detailed cost estimate of the repair or
6 replacement work to be performed, and identification of local
7 funding, if any, which will be applied to the project. Priority for
8 grant funding must be given to school districts that demonstrate a
9 lack of capital resources to address the compliance deficiencies
10 outlined in the grant application.

11 (4) The superintendent of public instruction must notify the
12 office of financial management, the legislative evaluation and
13 accountability program committee, the house capital budget committee,
14 and the senate ways and means committee as projects described in

37 statutory graduation requirements;

1 (ii) Districts that demonstrate that their current STEM
2 classrooms or labs are insufficient to provide opportunities for
3 students to meet statutory graduation requirements;

9 receiving grant funding, the district must provide verification of
10 the donation to the superintendent within ninety days of notification
11 of grant award.

12 (b) Allowable project costs under the grant program include
13 design, renovation, or modernization of existing science labs or
14 classrooms; project management costs; furnishings, fixtures, and

6 who are eligible and enrolled in the free and reduced-price meals
7 program;

8 (c) Economic conditions within the school district that limits

20 is not limited to:

21 (i) A demonstration that existing STEM faculty are in place and
22 are qualified to deliver an interactive, project-based STEM
23 curriculum in the proposed specialized STEM facilities; or

24 (ii) A plan and budget in place to recruit or train such STEM
25 faculty.

26 (6) For purposes of grant applications made in the 2017-2019
27 biennium, additional square footage funded through this grant program

32 district board of directors; or

33 (b) The date of the final review of the latest study and survey
34 of the affected school district following acceptance of the project
35 by the school district board of directors.

1 NEW SECTION. **Sec. 7003.** To ensure that major construction
2 projects are carried out in accordance with legislative and executive
3 intent, appropriations in this act in excess of \$5,000,000, or
4 \$10,000,000 for higher education institutions, may not be expended or
5 encumbered until the office of financial management has reviewed and
6 approved the agency's predesign. The predesign document must include,
7 but not be limited to, program, site, and cost analysis, and an
8 analysis of the life-cycle costs of the alternatives explored, in
9 accordance with the predesign manual adopted by the office of
10 financial management. The results of life-cycle cost analysis must be
11 a primary consideration in the selection of a building design.
12 Construction may proceed only upon providing to the office of
13 financial management the life-cycle costs. To improve monitoring of
14 major construction projects, progress reports must be submitted by
15 the agency administering the project to the office of financial
16 management and to the fiscal committees of the house of
17 representatives and senate. Reports must be submitted on July 1st and
18 December 31st each year in a format to be developed by the office of
19 financial management.

20 NEW SECTION. **Sec. 7004.** (1) The legislature finds that use of
21 life-cycle cost analysis will aid public entities, architects,
22 engineers, and contractors in making design and construction
23 decisions that positively impact both the initial construction cost
24 and the ongoing operating and maintenance cost of a project. To
25 ensure that the total cost of a project is accounted for and the most
26 reasonable and cost efficient design is used, agencies shall develop
27 life-cycle costs for any construction project over \$10,000,000. The
28 life-cycle costs must represent the present value sum of capital
29 costs, installation costs, operating costs, and maintenance costs
30 over the life expectancy of the project. The legislature further
31 finds the most effective approach to the life-cycle cost analysis is
32 to integrate it into the early part of the design process.

33 (2) Agencies shall develop a minimum of three project
34 alternatives for use in the life-cycle cost analysis. These
35 alternatives must be both distinctly different and viable solutions
36 to the issue being addressed. The chosen alternative must be the most
37 reasonable and cost-effective solution. A brief description of each
38 project alternative and why it was chosen must be included in the
39 life-cycle cost analysis section of the predesign.

1 (3) The office of financial management shall: (a) Make available
2 a life-cycle cost model to be used for analysis; (b) in consultation
3 with the department of enterprise services, provide assistance in
4 using the life-cycle cost model; and (c) update the life-cycle cost
5 model annually including assumptions for inflation rates, discount
6 rates, and energy rates.

7 (4) Agencies shall consider architectural and engineering firms'
8 and general contractors' experience using life-cycle costs, operating
9 costs, and energy efficiency measures when selecting an architectural
10 and engineering firm, or when selecting contractors using alternative
11 contracting methods.

12 NEW SECTION. **Sec. 7005.** To improve monitoring of major
13 construction projects, progress reports must be submitted by the
14 agency administering the project to the office of financial
15 management and to the fiscal committees of the house of
16 representatives and senate. Reports must be submitted on July 1st and
17 December 31st each year in a format to be determined by the office of
18 financial management.

19 NEW SECTION. **Sec. 7006.** (1) Allotments for appropriations in
20 this act shall be provided in accordance with the capital project
21 review requirements adopted by the office of financial management and
22 in compliance with RCW 43.88.110. Projects that will be employing
23 alternative public works construction procedures under chapter 39.10
24 RCW are subject to the allotment procedures defined in this section
25 and RCW 43.88.110.

26 (2) Each project is defined as proposed in the legislative budget
27 notes or in the governor's budget document.

28 NEW SECTION. **Sec. 7007.** (1) The office of financial management
29 may authorize a transfer of appropriation authority provided for a
30 capital project that is in excess of the amount required for the
31 completion of such project to another capital project for which the
32 appropriation is insufficient. No such transfer may be used to expand
33 the capacity of any facility beyond that intended in making the
34 appropriation. Such transfers may be effected only between capital
35 appropriations to a specific department, commission, agency, or
36 institution of higher education and only between capital projects
37 that are funded from the same fund or account. No transfers may occur

1 between projects to local government agencies except where the grants
2 are provided within a single omnibus appropriation and where such
3 transfers are specifically authorized by the implementing statutes
4 that govern the grants.

5 (2) The office of financial management may find that an amount is
6 in excess of the amount required for the completion of a project only
7 if: (a) The project as defined in the notes to the budget document is
8 substantially complete and there are funds remaining; or (b) bids
9 have been let on a project and it appears to a substantial certainty
10 that the project as defined in the notes to the budget document can
11 be completed within the biennium for less than the amount
12 appropriated in this act.

13 (3) For the purposes of this section, the intent is that each
14 project be defined as proposed to the legislature in the governor's
15 budget document, unless it clearly appears from the legislative
16 history that the legislature intended to define the scope of a
17 project in a different way.

18 (4) A report of any transfer effected under this section, except
19 emergency projects or any transfer under \$250,000, shall be filed
20 with the legislative fiscal committees of the senate and house of
21 representatives by the office of financial management at least thirty
22 days before the date the transfer is effected. The office of
23 financial management shall report all emergency or smaller transfers
24 within thirty days from the date of transfer.

25 (5) The transfer authority granted in this section does not apply
26 to appropriations for projects for the state parks and recreation
27 commission. Appropriations for commission projects may be spent only
28 for the specified projects, and funding may not be transferred from
29 one commission project to another or from other sources to a
30 commission project.

31 NEW SECTION. **Sec. 7008.** (1) It is expected that projects be
32 ready to proceed in a timely manner depending on the type or phase of
33 the project or program that is the subject of the appropriation in
34 this act. Except for major projects that customarily may take more
35 than two biennia to complete from predesign to the end of
36 construction, or large infrastructure grant or loan programs
37 supporting projects that often take more than two biennia to
38 complete, the legislature generally does not intend to reappropriate

1 funds more than once, particularly for smaller grant programs, local/
2 community projects, and minor works.

3 (2) Agencies shall expedite the expenditure of reappropriations
4 and appropriations in this act in order to: (a) Rehabilitate
5 infrastructure resources; (b) accelerate environmental rehabilitation
6 and restoration projects for the improvement of the state's natural
7 environment; (c) reduce additional costs associated with acquisition
8 and construction inflationary pressures; and (d) provide additional
9 employment opportunities associated with capital expenditures.

10 (3) To the extent feasible, agencies are directed to accelerate
11 expenditure rates at their current level of permanent employees and
12 shall use contracted design and construction services wherever
13 necessary to meet the goals of this section.

14 NEW SECTION. **Sec. 7009.** (1) Any building project that receives
15 over \$10,000,000 in funding from the capital budget must be built to
16 sustainable standards. "Sustainable building" means a building that
17 integrates and optimizes all major high-performance building
18 attributes, including energy efficiency, durability, life-cycle
19 performance, and occupant productivity. The following design and
20 construction attributes must be integrated into the building project:

21 (a) **Employ integrated design principles:** Use a collaborative,
22 integrated planning and design process that initiates and maintains
23 an integrated project team in all stages of a project's planning and
24 delivery. Establish performance goals for siting, energy, water,
25 materials, and indoor environmental quality along with other
26 comprehensive design goals and ensures incorporation of these goals
27 throughout the design and life-cycle of the building. Considers all
28 stages of the building's life-cycle, including deconstruction.

29 (b) **Commissioning:** Employ commissioning practices tailored to the
30 size and complexity of the building and its system components in
31 order to verify performance of building components and systems and
32 help ensure that design requirements are met. This should include an
33 experienced commissioning provider, inclusion of commissioning
34 requirements in construction documents, a commissioning plan,
35 verification of the installation and performance of systems to be
36 commissioned, and a commissioning report.

37 (c) **Optimize energy performance:** Establish a whole building
38 performance target that takes into account the intended use,
39 occupancy, operations, plug loads, other energy demands, and design

1 to earn the ENERGY STAR targets for new construction and major
2 renovation where applicable. For new construction target low energy
3 use index. For major renovations, reduce the energy use by fifty
4 percent below prerenovations baseline.

5 (d) On-site renewable energy: Meet at least thirty percent of the
6 hot water demand through the installation of solar hot water heaters,
7 when life-cycle cost effective. Implement renewable energy generation
8 projects on agency property for agency use, when life-cycle cost
9 effective.

10 (e) Measurement and verification: Install building level
11 electricity meters in new major construction and renovation projects
12 to track and continuously optimize performance. Include equivalent
13 meters for natural gas and steam, where natural gas and steam are
14 used. Install dashboards inside buildings to display and incentivize
15 occupants on energy use.

16 (f) Benchmarking: Compare actual performance data from the first
17 year of operation with the energy design target. Verify that the
18 building performance meets or exceeds the design target. For other
19 building and space types, use an equivalent benchmarking tool for
20 laboratory buildings. Web-based data collection and dashboards must
21 also be provided.

22 NEW SECTION. **Sec. 7010.** State agencies, including institutions
23 of higher education, shall allot and report full-time equivalent
24 staff for capital projects in a manner comparable to staff reporting
25 for operating expenditures.

26 NEW SECTION. **Sec. 7011.** Executive Order No. 05-05,
27 archaeological and cultural resources, was issued effective November
28 10, 2005. Agencies shall comply with the requirements set forth in
29 this executive order.

30 NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK
31 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this
32 act for original construction of school plant facilities is provided
33 solely for the purposes of RCW 28A.335.210.

34 (2) One-half of one percent of moneys appropriated in this act
35 for original construction or any major renovation or remodel work
36 exceeding \$200,000 by colleges or universities is provided solely for
37 the purposes of RCW 28B.10.027.

1 (3) One-half of one percent of moneys appropriated in this act
2 for original construction of any public building by a state agency
3 identified in RCW 43.17.020 is provided solely for the purposes of
4 RCW 43.17.200.

5 (4) At least eighty-five percent of the moneys spent by the
6 Washington state arts commission during the 2017-2019 biennium for
7 the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be
8 expended solely for direct acquisition of works of art. Art
9 allocations not expended within the ensuing two biennia will lapse.
10 The commission may use up to \$150,000 of this amount to conserve or
11 maintain existing pieces in the state art collection pursuant to RCW
12 28A.335.210.

13 (5) The executive director of the arts commission shall appoint a
14 study group to review the operations of the one-half of one percent
15 for works of art purchased or commissioned as required by RCW
16 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review
17 must be reported annually to the office of financial management and
18 the fiscal committees of the legislature by September 15th. The
19 review must include, but is not limited to, the following: (a)
20 Projects purchased or commissioned per biennium; (b) partner
21 agencies; (c) funding sources by fiscal year; (d) artwork costs; (e)
22 administrative costs; (f) collection care costs; and (g) project
23 status.

24 **Sec. 7013.** RCW 28B.10.027 and 2016 sp.s. c 35 s 6008 are each
25 amended to read as follows:

26 (1) All universities and colleges shall allocate as a
27 nondeductible item, out of any moneys appropriated for the original
28 construction or any major renovation or remodel work exceeding two
29 hundred thousand dollars of any building, an amount of one-half of
30 one percent of the appropriation to be expended by the Washington
31 state arts commission with the approval of the board of regents or
32 trustees for the acquisition of works of art.

33 (2) For projects funded in the 2015-2017 capital budget and the
34 2017-2019 capital budget, an institution of higher education, working
35 with the Washington arts commission, may expend up to ten percent of
36 the projected art allocation for a project during the design phase in
37 order to select an artist and design art to be integrated in the
38 building design. The one-half of one percent to be expended by the
39 Washington arts commission must be adjusted downward by the amount

1 expended by a university or college during the design phase of the
2 capital project.

3 (3) The works of art may be placed on public lands of
4 institutions of higher education, integral to or attached to a public
5 building or structure of institutions of higher education, detached
6 within or outside a public building or structure of institutions of
7 higher education, part of a portable exhibition or collection, part
8 of a temporary exhibition, or loaned or exhibited in other public
9 facilities.

10 (4) In addition to the cost of the works of art, the one-half of
11 one percent of the appropriation shall be used to provide for the
12 administration of the visual arts program, including conservation of
13 the state art collection, by the Washington state arts commission and
14 all costs for installation of the work of art. For the purpose of
15 this section building shall not include sheds, warehouses, and other
16 buildings of a temporary nature.

17 NEW SECTION. **Sec. 7014.** To carry out the provisions of this
18 act, the governor may assign responsibility for predesign, design,
19 construction, and other related activities to any appropriate agency.

20 NEW SECTION. **Sec. 7015.** If any federal moneys appropriated by
21 this act for capital projects are not received by the state, the
22 department or agency to which the moneys were appropriated may
23 replace the federal moneys with funds available from private or local
24 sources. No replacement may occur under this section without the
25 prior approval of the director of financial management in
26 consultation with the senate ways and means committee and the house
27 of representatives capital budget committee.

28 NEW SECTION. **Sec. 7016.** (1) Unless otherwise stated, for all
29 appropriations under this act that require a match of nonstate money
30 or in-kind contributions, the following requirement, consistent with
31 RCW 43.88.150, shall apply: Expenditures of state money shall be
32 timed so that the state share of project expenditures never exceeds
33 the intended state share of total project costs.

34 (2) Provision of the full amount of required matching funds is
35 not required to permit the expenditure of capital budget
36 appropriations for phased projects if a proportional amount of the

1 required matching funds is provided for each distinct, identifiable
2 phase of the project.

3 NEW SECTION. **Sec. 7017.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
4 Portions of the appropriation authority granted by this act from the
5 state building construction account, or any other account receiving
6 bond proceeds, may be transferred to the state taxable building
7 construction account as deemed necessary by the state finance
8 committee to comply with the federal internal revenue service rules
9 and regulations pertaining to the use of nontaxable bond proceeds.
10 Portions of the general obligation bond proceeds authorized by
11 chapter . . . , Laws of 2017 (Substitute House Bill No. 1080, the
12 general obligation bond bill) for deposit into the state taxable
13 building construction account that are in excess of amounts required
14 to comply with the federal internal revenue service rules and
15 regulations shall be deposited into the state building construction
16 account. The state treasurer shall submit written notification to the
17 director of financial management if it is determined that a shift of
18 appropriation authority between the state building construction
19 account, or any other account receiving bond proceeds, and the state
20 taxable building construction account is necessary, or that a shift
21 of appropriation authority from the state taxable building
22 construction account to the state building construction account may
23 be made.

24 NEW SECTION. **Sec. 7018.** COLUMBIA RIVER BASIN NONTAXABLE AND
25 TAXABLE BOND PROCEEDS. Portions of the appropriation authority
26 granted by this act from the Columbia river basin water supply
27 development account may be transferred to the Columbia river basin
28 taxable bond water supply development account as deemed necessary by
29 the state finance committee to comply with the federal internal
30 revenue service rules and regulations pertaining to the use of
31 nontaxable bond proceeds. The state treasurer shall submit written
32 notification to the director of financial management if it is
33 determined that a shift of appropriation authority between the
34 Columbia river basin water supply development account and the
35 Columbia river basin taxable bond water supply development account is
36 necessary, or that a shift of appropriation authority from the
37 Columbia river basin taxable bond water supply development account to

1 the Columbia river basin water supply development account may be
2 made.

3 **Sec. 7019.** RCW 28B.20.725 and 2015 3rd sp.s. c 3 s 7025 are each
4 amended to read as follows:

5 The board is hereby empowered:

29 date of such transfer on all outstanding bonds payable out of the
30 bond retirement fund. However, during the 2017-2019 fiscal biennium,
31 the legislature may transfer to the University of Washington building

29 such transfer on all outstanding bonds payable out of the bond
30 retirement fund.~~

31 NEW SECTION. **Sec. 7021.** (1) Funds appropriated in this act for
32 minor works may not be allotted until final project lists are
33 submitted to the office of financial management. Revisions to the
34 project lists are allowed for projects not anticipated at the time of
35 budget development but must be submitted to the office of financial
36 management, the house of representatives capital budget committee,
37 and the senate ways and means committee for review and comment and
38 must include an explanation of variances from the prior lists before
39 funds may be expended on the revisions. Any project list revisions

1 must be approved by the office of financial management before funds
2 may be expended from the minor works appropriation.

3 (2)(a) Minor works project lists are single line appropriations
4 that include multiple projects of a similar nature and that are
5 valued between \$25,000 and \$1,000,000 each, with the exception of
6 higher education minor works projects that may be valued up to
7 \$2,000,000. All projects must meet the criteria included in this
8 subsection (2)(a). These projects should be completed within two
9 years of the appropriation with the funding provided. Agencies are
10 prohibited from including projects on their minor works lists that
11 are a phase of a larger project, and that if combined over a
12 continuous period of time, would exceed \$1,000,000, or \$2,000,000 for
13 higher education minor works projects. Improvements for accessibility
14 in compliance with the Americans with disabilities act may be
15 included in any of the minor works categories.

16 (b) Minor works appropriations may not be used for the following:
17 Studies, except for technical or engineering reviews or designs that
18 lead directly to and support a project on the same minor works list;
19 planning; design outside the scope of work on a minor works list;
20 movable, temporary, and traditionally funded operating equipment not
21 in compliance with the equipment criteria established by the office
22 of financial management; software not dedicated to control of a
23 specialized system; moving expenses; land or facility acquisition;
24 rolling stock; computers; or to supplement funding for projects with
25 funding shortfalls unless expressly authorized. The office of
26 financial management may make an exception to the limitations
27 described in this subsection (2)(b) for exigent circumstances after
28 notifying the legislative fiscal committees and waiting ten days for
29 comments by the legislature regarding the proposed exception.

30 (c) Minor works preservation projects may include program
31 improvements of no more than twenty-five percent of the individual
32 minor works preservation project cost.

33 **NEW SECTION. Sec. 7022. STATE TREASURER TRANSFER AUTHORITY**

34 State Toxics Control Account: For transfer to the
35 environmental legacy stewardship account, \$17,625,000 for
36 fiscal year 2018 and \$17,625,000 for fiscal year 2019. . \$35,250,000

37 Local Toxics Control Account: For transfer to the
38 environmental legacy stewardship account, \$10,500,000 in
39 fiscal year 2018 and \$10,500,000 in fiscal year 2019. . . \$21,000,000

1 (1)(a) As directed by the department of ecology in consultation
2 with the office of financial management, the state treasurer shall
3 transfer amounts among the state toxics control account, the local
4 toxics control account, and the environmental legacy stewardship
5 account as needed during the 2017-2019 fiscal biennium to maintain
6 positive account balances in all three accounts.

7 (b) If, after using the interfund transfer authority granted in
