WITHDRAWN 02/22/2017

1 On page 35, after line 32, insert the following:

2 "(4) (a) Using the data reported under subsection (2) of this  
3 section, the state board of education must establish annual  
4 performance metrics for each school district to determine whether the  
5 district is making meaningful and substantial progress toward meeting  
6 long-term performance goals.

7 (b) Beginning February 1, 2020, and each February 1 thereafter,  
8 the superintendent must determine whether each district is making  
9 meaningful and substantial progress according to the performance  
10 metrics.

11 (c) If the superintendent determines that a district has failed to  
12 make meaningful and substantial progress, then the superintendent must  
13 provide notice to the school district of this finding, and the  
14 district is subject to the required action plan provisions of RCW  
15 28A.657.040 through 28A.657.100."

EFFECT: Using the data reported through the accountability monitoring and reporting system, the Superintendent of Public Instruction (SPI) must establish annual performance metrics for each district to determine whether the district is making meaningful and substantial progress toward meeting long-term performance goals. Beginning in February 2020, if the SPI determines that a district is not making the required progress, then the district is subject to the existing process for required action plans for districts that have persistently lowest-achieving schools.
