EFFECT: Removes the requirement that a city legislative body determine by ordinance, prior to disposing of its off-street parking property, that the property is no longer necessary for off-street parking purposes and instead allows a city to dispose of its off-street parking property when one of the following conditions is met:
(1) the legislative body has determined by ordinance that the property is no longer necessary for off-street parking purposes;
(2) all bonds issued for acquisition or construction related to the property have been paid in full; or
(3) the properties within any local improvement district created for the acquisition or construction of off-street parking facilities are no longer subject to any assessment for such purpose.
