 1   On page 5, line 20, after "(k)" insert "Mechanisms allowing a
 2 person associated with the operation of the following types of
 3 vehicles to earn credits under the program, whereby each gallon of
 4 diesel or gasoline consumed by a vehicle is attributed zero lifecycle
 5 greenhouse gas emissions:
 6   (i) A vehicle used to provide private employer transportation
 7 services, as that term is defined in RCW 47.04.290;
 8   (ii) A vehicle used to provide a prearranged ride organized by a
 9 commercial transportation services provider, as defined in RCW
10 48.177.005;
11   (iii) Vehicles operated by taxicab companies regulated under
12 chapter 81.72 RCW; and
13   (iv) Vehicles used by private, nonprofit transportation providers
14 as defined in RCW 81.66.010;
15   (l)"

     EFFECT: Requires the Department of Ecology's clean fuels program
rules to provide a mechanism allowing credits to be earned, by
attributing zero lifecycle greenhouse gas emissions to each gallon of
gasoline or diesel used, by persons associated with the following
types of vehicles: Employer shuttles, taxicabs, vehicles used in
conjunction with prearranged ride software applications, and vehicles
used to transport persons with special needs.
