

SHB 2469 - H AMD 1075

By Representative Caldier

1 On page 27, after line 37, insert the following:
2 "(9) In 2021, toll equipment on the Tacoma Narrows Bridge will
3 have reached the end of its operational life. During the 2017-2019
4 fiscal biennium, the department plans to issue a request for proposals
5 as the first stage of a competitive procurement process that will
6 replace the toll equipment and select a new tolling operator for the
7 Tacoma Narrows Bridge. The request for proposals and subsequent
8 competitive procurement must incorporate elements which prioritize the
9 overall goal of lowering costs per transaction for the facility, such
10 as incentives for innovative approaches which result in lower
11 transactional costs, requests for efficiencies on the part of the
12 bidder which lower operational costs, and incorporation of
13 technologies such as self-serve credit card machines or other point-
14 of-payment technologies which lower costs or improve operational
15 efficiencies."
16

EFFECT: Requires the Department of Transportation to incorporate elements that aim to reduce operational costs per transaction for the Tacoma Narrows bridge toll facility into the request for proposals and the procurement process for the new toll equipment and operator for the Tacoma Narrows bridge toll facility.

FISCAL IMPACT: No net change to appropriated levels.
