

SHB 2995 - H AMD TO H AMD (H-5172.1/18) **1433**

By Representative Harmsworth

1 On page 4, after line 37 of the striking amendment, insert the
2 following:

3 "(7) The fossil fuel reduction targets established under subsection
4 (3) of this section shall not take effect until the governor requests
5 and receives a report from the Northwest power and conservation council
6 that makes a determination that, under a maximum carbon reduction
7 scenario in the most recent power plan, the targets are feasible and
8 cost-effective. Electric utilities must reduce the total number of
9 megawatt hours from fossil fuel generating resources delivered to
10 Washington customers by twenty-five percent compared to a 2017 baseline
11 beginning five years after such a determination is made, with subsequent
12 reduction targets specified under subsection (3) of this section to be
13 met every five years thereafter."

EFFECT: Makes the effective date of the fossil fuel reduction targets contingent upon a determination from the Northwest Power and Conservation Council that, under a maximum carbon reduction scenario in the most recent Northwest Power Plan, the targets are feasible and cost-effective.
