EFFECT: Aligns the electric utility and market customer fossil fuel reduction targets with the state's greenhouse gas emission reduction limits for 2020, 2045, and 2050, rather than establishing separate reduction requirements for 2030, 2035, 2040, and 2045. Removes the requirement for the Joint Select Committee on Washington's Clean Energy Transition to include a recommendation for proposed legislation to be considered during the 2020 regular legislative session.
