

SB 6563 - H AMD 1358

By Representative Morris

1 On page 2, line 11, after "(c)" insert "The office of clean
2 technology must invite at least one outside guest representing a
3 current or potential producer or consumer of aviation biofuels to
4 each meeting to address perceived barriers to feedstock, the
5 logistics of aviation biofuels production and delivery, or other
6 timely issues relevant to the aviation biofuels industry in
7 Washington.

8 (d)"

9 On page 2, line 27, after "group" strike "shall meet twice a
10 year" and insert "must:

11 (a) Meet twice a year;

12 (b) Structure meeting agendas such that they are informed by
13 advance queries of members seeking updates on perceived barriers to
14 aviation biofuels production;

15 (c) Add at least three new production-sector members to the work
16 group by 2019;

17 (d) Ensure that at least seventy percent of its members attend
18 each meeting;

19 (e) Provide an annual update on the development of aviation
20 biofuel refineries in the western United States; and

21 (f) Provide an annual update on alternative jet fuel procurements
22 in the United States"

EFFECT: Requires the Washington State University Office of Clean Technology to invite at least one outside guest to each meeting of the Sustainable Aviation Biofuels Work Group (Work Group) to address certain issues. Establishes certain requirements for the Work Group, including annual updates on the development of aviation biofuel refineries in the western United States.
