Background:

In 2017 a state family and medical leave insurance program (program) was enacted to provide paid family and medical leave to employees. An employee must work 820 hours in the qualifying period to be eligible for benefits.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

The program provides paid family leave of up to 12 weeks to bond after the birth or placement of a child or to care for a family member with a serious health condition. It also provides paid medical leave of up to 12 weeks for an employee's serious health condition, with an additional two weeks if there are pregnancy complications. Paid family leave and medical leave is subject to a combined limit of 16 weeks of leave in a year, plus an additional two weeks if there are pregnancy complications, for a possible total of 18 weeks.

Premiums to support the program will be assessed and collected beginning January 1, 2019, and qualifying employees will be eligible for benefits beginning January 1, 2020.
