State of Washington 65th Legislature 2018 Regular Session

By House Capital Budget (originally sponsored by Representative Tharinger; by request of Office of Financial Management)

READ FIRST TIME 01/10/18.

1 AN ACT Relating to the capital budget; making appropriations and
2 authorizing expenditures for capital improvements; amending RCW
3 28B.10.027, 28B.20.725, and 28B.30.750; reenacting and amending RCW
4 43.19.501; amending 2017 3rd sp.s. c 4 ss 1017, 1040, 1048, 2001, and
5 3120 (uncodified); creating new sections; making appropriations; and
6 declaring an emergency.

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

8 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
9 and, subject to the provisions set forth in this act, the several
10 dollar amounts hereinafter specified, or so much thereof as shall be
11 sufficient to accomplish the purposes designated, are hereby
12 appropriated and authorized to be incurred for capital projects
13 during the period beginning July 1, 2017, and ending June 30, 2019,
14 out of the several funds specified in this act. This authorization
15 extends to reimbursement of any expenses incurred between July 1,
16 2017, and the effective date of this act that would have been
17 authorized to occur or to be reimbursed under the terms of this act
18 had it been in effect on July 1, 2017.

19 (2) The definitions in this subsection apply throughout this act
20 unless the context clearly requires otherwise.

1 (a) "Fiscal year 2018" or "FY 2018" means the period beginning
2 July 1, 2017, and ending June 30, 2018.

3 (b) "Fiscal year 2019" or "FY 2019" means the period beginning
4 July 1, 2018, and ending June 30, 2019.

5 (c) "Lapse" or "revert" means the amount shall return to an
6 unappropriated status.

7 (d) "Provided solely" means the specified amount may be spent
8 only for the specified purpose.

9 (3) Unless otherwise specifically authorized in this act, any
10 portion of an amount provided solely for a specified purpose that is
11 not expended subject to the specified conditions and limitations to
12 fulfill the specified purpose shall lapse.

13 (4) The amounts shown under the headings "Prior Biennia," "Future
14 Biennia," and "Total" in this act are for informational purposes only
15 and do not constitute legislative approval of these amounts. "Prior
16 biennia" typically refers to the immediate prior biennium for
17 reappropriations, but may refer to multiple biennia in the case of
18 specific projects. A "future biennia" amount is an estimate of what
19 may be appropriated for the project or program in the 2019-2021
20 biennium and the following three biennia; an amount of zero does not
21 necessarily constitute legislative intent to not provide funding for
22 the project or program in the future.

23 (5) "Reappropriations" in this act are appropriations and, unless
24 the context clearly provides otherwise, are subject to the relevant
25 conditions and limitations applicable to appropriations.
26 Reappropriations shall be limited to the unexpended balances
27 remaining on June 30, 2017, from previous biennial appropriations for
28 each project.

21 development cost per housing unit of less than \$125,000, excluding

16 the manner prescribed in subsection (1) of this section. However, if
17 upon review of applications the department determines there are not

 16 independence for the state.

17 (2) In soliciting and evaluating proposals, awarding contracts,
 18 and monitoring projects under this section, the department must:

19 (a) Ensure that competitive processes, rather than sole source
 20 contracting processes, are used to select all projects, except as
 21 otherwise noted in this section; and

22 (b) Conduct due diligence activities associated with the use of
 23 public funds including, but not limited to, oversight of the project
 24 selection process, project monitoring and ensuring that all
 25 applications and contracts fully comply with all applicable laws
 26 including disclosure and conflict of interest statutes.

27 (3)(a) Pursuant to chapter 42.52 RCW, the ethics in public
 28 service act, the department must require a project applicant to
 29 identify in application materials any state of Washington employees
 30 or former state employees employed by the firm or on the firm's
 31 governing board during the past twenty-four months. Application
 32 materials must identify the individual by name, the agency previously
 33 or currently employing the individual, job title or position held,
 34 and separation date. If it is determined by the department that a
 35 conflict of interest exists, the applicant may be disqualified from
 36 further consideration for award of funding.

37 (b) If the department finds, after due notice and examination,
 38 that there is a violation of chapter 42.52 RCW, or any similar

1 statute involving a grantee who received funding under this section,
2 either in procuring or performing under the grant, the department in
3 its sole discretion may terminate the funding grant by written
4 notice. If the grant is terminated, the department must reserve its
5 right to pursue all available remedies under law to address the
6 violation.

7 (4) The requirements in subsections (2) and (3) of this section
8 must be specified in funding agreements issued by the department.

9 (5) \$11,000,000 of the state building construction account, is
10 provided solely for grid modernization grants for projects that
11 advance clean and renewable energy technologies, and transmission and
12 distribution control systems; that support integration of renewable
13 energy sources, deployment of distributed energy resources, and
14 sustainable microgrids; and that increase utility customer options
15 for energy sources, energy efficiency, energy equipment, and utility
16 services.

17 (a) Projects must be implemented by public and private electrical
18 utilities that serve retail customers in the state. Eligible
19 utilities may partner with other public and private sector research
20 organizations and businesses in applying for funding.

21 (b) The department shall develop a grant application process to
22 competitively select projects for grant awards, to include scoring
23 conducted by a group of qualified experts with application of
24 criteria specified by the department. In development of the
25 application criteria, the department shall, to the extent possible,
26 allow smaller utilities or consortia of small utilities to apply for
27 funding.

28 (c) Applications for grants must disclose all sources of public
29 funds invested in a project.

30 (6) \$7,900,000 of the state building construction account and
31 \$3,100,000 of the energy efficiency account are provided solely for
32 grants to demonstrate new approaches to electrification of
33 transportation systems.

34 (a) Projects must be implemented by local governments, or by
35 public and private electrical utilities that serve retail customers
36 in the state. Eligible parties may partner with other public and
37 private sector research organizations and businesses in applying for
38 funding. The department of commerce must coordinate with other
39 electrification programs, including projects the department of
40 transportation is developing and projects funded by the Volkswagen

1 consent decree, to determine the most effective distribution of the
2 systems.

3 (b) Priorities must be given to eligible technologies that reduce
4 the top two hundred hours of demand and the demand side.

5 (c) Eligible technologies for these projects include, but are not
6 limited to:

7 (i) Electric vehicle and transportation system charging and open
8 source control infrastructure, including inductive charging systems;

9 (ii) Electric vehicle sharing in low-income, multi-unit housing
10 communities in urban areas;

12 fleets to grid operations, including school and transit buses;

13 (iv) Electric vehicle fleet management tools with open source
14 software;

15 (v) Maritime electrification, such as electric ferries, water
16 taxis, and shore power infrastructure.

17 (7)(a) \$8,600,000 of the state building construction account is
18 provided solely for strategic research and development for new and
19 emerging clean energy technologies, as needed to match federal or
20 other nonstate funds to research, develop, and demonstrate clean
21 energy technologies.

22 (b) The department shall consult and coordinate with the
23 University of Washington, Washington State University, the Pacific
24 Northwest national laboratory and other clean energy organizations to
25 design the grant program unless the organization prefers to compete
26 for the grants. If the organization prefers to receive grants from
27 the program they may not participate in the consultant process
28 determining how the grant process is structured. The program shall
29 offer matching funds for competitively selected clean energy
30 projects, including but not limited to: Solar technologies, advanced
31 bioenergy and biofuels, development of new earth abundant materials
32 or lightweight materials, advanced energy storage, battery components
33 recycling, and new renewable energy and energy efficiency
34 technologies. Criteria for the grant program must include life cycle
35 cost analysis for projects that are part of the competitive process.

36 (c) \$750,000 of this subsection (7) is provided solely for the
37 state efficiency and environmental program.

38 (8) \$8,000,000 of the state taxable construction account is
39 provided solely for scientific instruments to help accelerate
40 research in advanced materials at the proposed science laboratories

1 infrastructure facility at the Pacific Northwest national laboratory.
2 These state funds are contingent on securing federal funds for the
3 new facility, and are provided as match to the federal funding. The
4 instruments will support researchers at the bioproducts sciences and
5 engineering laboratory, the joint center for deployment research in
6 earth abundant materials, the center for advanced materials and clean
7 energy technology, and other energy and materials collaborations with
8 the University of Washington and Washington State University.

9 (9) \$1,600,000 of the state building construction account and
10 \$2,400,000 of the energy efficiency account are provided solely for
11 grants to be awarded in competitive rounds for the deployment of
12 solar projects located in Washington state.

13 (a) Priority must be given to distribution side projects that
14 reduce peak electricity demand.

15 (b) Projects must be capable of generating at least five hundred
16 kilowatts of direct current generating capacity.

17 (c) Grants shall not exceed \$200,000 per megawatt of direct
18 current generating capacity and total grant funds per project shall
19 not exceed \$1,000,000 per applicant. Applicants may not use other
20 state grants.

21 (d) At least 25 percent of the total allocation of a project
22 shall be provided solely for projects that provide direct benefits to
23 low-income residents or communities. The department must attempt to
24 prioritize an equal geographic distribution.

25 (e) Priority must be given to major components made in
26 Washington.

27 (10) \$2,400,000 of the state building construction account is
28 provided solely for a project which, when fully deployed, will reduce
29 emissions of greenhouse gases by a minimum of seven hundred fifty
30 thousand tons per year, increase energy efficiency, and protect or
31 create manufacturing jobs located in a county with a population of
32 less than three hundred thousand.

33 (11) \$1,100,000 of the state building construction account—state
34 appropriation is provided solely for a grant to the public utility
35 district no. 1 of Klickitat county for the remediation, survey, and
36 evaluation of a closed-loop pump storage hydropower project at the
37 John Day pool.

7 NEW SECTION. **Sec. 1014. FOR THE DEPARTMENT OF COMMERCE**

8 Energy Efficiency and Solar Grants (30000882)

9 The appropriations in this section are subject to the following
10 conditions and limitations:

11 (1)(a) \$3,675,000 for fiscal year 2018 and \$3,675,000 for fiscal
12 year 2019 is provided solely for grants to be awarded in competitive
13 rounds to local agencies, public higher education institutions,
14 school districts, and state agencies for operational cost savings
15 improvements to facilities and related projects that result in energy
16 and operational cost savings.

17 (b) At least twenty percent of each competitive grant round must
18 be awarded to small cities or towns with a population of five
19 thousand or fewer residents.

20 (c) In each competitive round, the higher the leverage ratio of
21 nonstate funding sources to state grant and the higher the energy
22 savings, the higher the project ranking.

23 (d) For school district applicants, priority consideration must
24 be given to school districts that demonstrate improved health and
25 safety through: (i) Reduced exposure to polychlorinated biphenyl; or
26 (ii) replacing outdated heating systems that use oil or propane as
27 fuel sources as identified by the Washington State University
28 extension energy program. Priority consideration must be given to
29 applicants that have not received grant awards for this purpose in
30 prior biennia.

31 (2) \$1,750,000 is provided solely for grants to be awarded in
32 competitive rounds to local agencies, public higher education
33 institutions, school districts, and state agencies for projects that
34 involve the purchase and installation of solar energy systems,
35 including solar modules and inverters, with a preference for products
36 manufactured in Washington.

37 (3) \$1,400,000 is provided solely for energy efficiency
38 improvements to minor works and stand-alone projects at state-owned

1 facilities that repair or replace existing building systems
 2 including, but not limited to HVAC, lighting, insulation, windows,
 3 and other mechanical systems. Eligibility for this funding is
 4 dependent on an analysis using the office of financial management's
 5 life-cycle cost tool that compares project design alternatives for
 6 initial and long-term cost-effectiveness. Assuming a reasonable
 7 return on investment, the cost to improve the project's energy
 8 efficiency compared to the original project request will be added to
 9 the project appropriation after construction bids are received. The
 10 department of commerce shall coordinate with the office of financial
 11 management to develop a process for project submittal, review,
 12 approval criteria, tracking project budget adjustments, and
 13 performance measures.

14 (4) \$500,000 is provided solely for resource conservation
 15 managers in the department of enterprise services to coordinate with
 16 state agencies and school districts to assess and adjust existing
 17 building systems and operations to optimize the efficiency in use of
 18 energy and other resources in state-owned facilities. The department
 19 of commerce will oversee an interagency agreement with the department
 20 of enterprise services to fund the resource conservation managers.

21 (5) The department shall develop metrics that indicate the
 22 performance of energy efficiency efforts and provide a report of the
 23 metrics, including at a minimum the current energy used by the
 24 building, the energy use after efficiencies are completed, and cost
 25 of energy saved. The report must include these metrics from other
 26 states.

20 The appropriations in this section are subject to the following
21 conditions and limitations:

22 (1) The department shall not expend the appropriations in this
23 section unless and until the nonstate share of project costs have
24 been either expended or firmly committed, or both, in an amount
25 sufficient to complete the project or a distinct phase of the project

7 for the express purpose of the grant. If the grantee is found to be
8 out of compliance with provisions of the contract, the grantee shall
9 repay to the state general fund the principal amount of the grant
10 plus interest calculated at the rate of interest on state of
11 Washington general obligation bonds issued most closely to the date

26 (5) \$3,000,000 is provided solely for a grant to a joint venture
27 between MultiCare-Franciscan to provide community based behavioral
28 health services. Funding provided in this subsection is subject to
29 the criteria in subsection (1) of this section. The department of
30 commerce may not release funding for this project unless MultiCare-
31 Franciscan enters into a memorandum of understanding with the
32 department of social and health services by October 31, 2018, to
33 collaborate on development and implementation of strategies to expand
34 the behavioral health workforce in the region. At a minimum, the
35 agreement must include strategies for increasing recruitment of
36 health professionals required to staff psychiatric inpatient
37 facilities, including psychiatrists, psychologists, nurses and other
38 health care professionals. The agreement must also identify
39 opportunities for coordination between the parties to expand access
40 to clinical skill development and training opportunities in the

1 region and strategies for collaborative service delivery between the
2 parties when possible. To objectively evaluate the efficacy of the
3 strategies implemented to achieve the desired outcomes of the
4 agreement, performance measures and targets must be established to
5 include:

6 (a) MultiCare-Franciscan and the department of social and health
7 services must work collaboratively to decrease vacancy rates for
8 hard-to-recruit health care professionals employed by each facility.
9 The parties must develop strategies to attract more qualified health
10 care professionals to the area and ensure comparable exposure to the
11 benefits of working for each organization. The parties must measure
12 the success of these strategies by the decrease in vacancy rate for
13 health care professionals necessary to provide safe, quality
14 inpatient psychiatric care in MultiCare-Franciscan and department
15 facilities following the first year as the baseline of the
16 partnership/consortium and with updated goals for each subsequent
17 year. MultiCare-Franciscan and the department of social and health
18 services must work to increase the competency and skills of health
19 care professionals across both facilities by establishing organized
20 joint- and cross-training programs. The parties must measure the
21 success of this strategy by the number of health care professionals
22 in total and by discipline complete cross-training activities and by
23 the number and hours of cross-training opportunities offered under
24 the agreement.

25 (6) The department of commerce shall notify all applicants that
26 they may be required to have a construction review performed by the
27 department of health.

28 (7) To accommodate the emergent need for behavioral health
29 services, the department of health and the department of commerce, in
30 collaboration with the health care authority and the department of
31 social and health services, shall establish a concurrent and
32 expedited process to assist grant applicants in meeting any
33 applicable regulatory requirements necessary to operate inpatient
34 psychiatric beds, free-standing evaluation and treatment facilities,
35 enhanced services facilities, triage facilities, crisis stabilization
36 facilities, detox, or secure detox.

NEW SECTION. **Sec. 1021. FOR THE DEPARTMENT OF COMMERCE**
 CERB Administered Broadband Infrastructure (91000943)

The appropriation in this section is subject to the following conditions and limitations: During the 2017-2019 fiscal biennium, the community economic revitalization board may make grants and loans to local governments and federally recognized tribes to build infrastructure to provide high-speed, open-access broadband service, with a minimum of 25 megabits per second download speed, to rural and underserved communities, for the purpose of economic development.

(1) "Local governments" means cities, towns, counties, municipal corporations, public port districts, quasi-municipal corporations, and special purpose districts.

(2) "Broadband" means networks of deployed telecommunications equipment and technologies necessary to provide high-speed Internet access and other advanced telecommunications services.

(3) The board is authorized to make rural broadband loans to local governments and to federally recognized Indian tribes for the purposes of financing the cost to build infrastructure to provide high-speed, open-access broadband service, to rural and underserved communities, for the purpose of economic development. Grants may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the local government or the federally recognized Indian tribe, and subject to a finding by the board that financial circumstances require grant assistance to enable the project to move forward. However, no more than 25 percent of all financial assistance approved by the board in any biennium may consist of grants to local governments and federally recognized Indian tribes.

(4) Application for funding must be made in the form and manner as the board may prescribe. In making grants or loans the board must conform to the following requirements:

(a) The board may not provide financial assistance:

(i) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.

1 (ii) For any project that evidence exists would result in a
2 development or expansion that would displace existing jobs in any
3 other community in the state.

4 (iii) For a project the primary purpose of which is to facilitate
5 or promote gambling.

6 (iv) For a project located outside the jurisdiction of the
7 applicant local government or federally recognized Indian tribe.

8 (v) For equipment or facilities which would enable a public
9 entity to provide retail telecommunications services or services that
10 the entity is not authorized by statute to provide.

11 (vi) For the deployment of publicly-owned telecommunication
12 network infrastructure ("backbone") solely for the sake of creating
13 competitive, publicly-owned telecommunication network infrastructure.

14 (b) The board may provide financial assistance only:

15 (i) For projects demonstrating convincing evidence that a
16 specific private development or expansion is ready to occur and will
17 occur only if the public facility improvement is made that:

18 (A) Results in the creation of significant private sector jobs or
19 significant private sector capital investment as determined by the
20 board;

21 (B) Will improve the opportunities for the successful
22 maintenance, establishment, or expansion of industrial or commercial
23 plants or will otherwise assist in the creation or retention of long-
24 term economic opportunities; and

25 (C) Is located in a rural community as defined by the board, or a
26 rural county; or

27 (ii) For a project that does not meet the requirements of (b)(i)
28 of this subsection but is a project that:

29 (A) Results in the creation of significant private sector jobs or
30 significant private sector capital investment as determined by the
31 board;

32 (B) Is part of a local economic development plan consistent with
33 applicable state planning requirements;

34 (C) Can demonstrate project feasibility using standard economic
35 principles; and

36 (D) Is located in a rural community as defined by the board, or a
37 rural county;

38 (c) The board must develop guidelines for local participation and
39 allowable match and activities.

1 (d) An application must demonstrate local match and local
2 participation, in accordance with guidelines developed by the board.

3 (e) An application must be approved by the local government and
4 supported by the local associate development organization or local
5 workforce development council or approved by the governing body of
6 the federally recognized Indian tribe.

7 (f) The board may allow de minimis general system improvements to
8 be funded if they are critically linked to the viability of the
9 project.

10 (g) An application must demonstrate convincing evidence that the
11 median hourly wage of the private sector jobs created after the
12 project is completed will exceed the countywide median hourly wage.

13 (h) The board must prioritize each proposed project according to:

14 (i) The relative benefits provided to the community by the jobs
15 the project would create, not just the total number of jobs it would
16 create after the project is completed, but also giving consideration
17 to the unemployment rate in the area in which the jobs would be
18 located;

19 (ii) The rate of return of the state's investment, including, but
20 not limited to, the leveraging of private sector investment,
21 anticipated job creation and retention, and expected increases in
22 state and local tax revenues associated with the project;

23 (iii) Whether the proposed project offers a health insurance plan
24 for employees that includes an option for dependents of employees;

25 (iv) Whether the public facility investment will increase
26 existing capacity necessary to accommodate projected population and
27 employment growth in a manner that supports infill and redevelopment
28 of existing urban or industrial areas that are served by adequate
29 public facilities. Projects should maximize the use of existing
30 infrastructure and provide for adequate funding of necessary
31 transportation improvements;

32 (v) Whether the applicant's permitting process has been certified
33 as streamlined by the office of regulatory assistance; and

34 (vi) Whether the applicant has developed and adhered to
35 guidelines regarding its permitting process for those applying for
36 development permits consistent with section 1(2), chapter 231, Laws
37 of 2007.

38 (i) A responsible official of the local government or the
39 federally recognized Indian tribe must be present during board
40 deliberations and provide information that the board requests.

(5) Before any financial assistance application is approved, the local government or the federally recognized Indian tribe seeking the assistance must demonstrate to the community economic revitalization board that no other timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board.

3 VW Settlement Funded Projects (40000018)

4 The appropriation in this section is subject to the following
5 conditions and limitations:

6 (1) The legislature finds that it is appropriate to provide a
7 framework for the administration of mitigation funds provided to the
8 state as a beneficiary under the terms of the consent decrees entered
9 into by the United States, Volkswagen AG, and other participating
10 parties that settle emissions-related claims for 2.0 and 3.0 liter
11 diesel vehicles of certain models and years. The legislature deems
12 the department of ecology the responsible agency for the
13 administration and expenditure of funds provided by the trustee under
14 the terms of the consent decrees, including the development of a
15 mitigation plan to guide the use of the funds, whether or not the
16 department receives funds directly for projects included in the plan.

17 (2)(a) The department of ecology shall develop the mitigation
18 plan through an open, transparent public process consistent with
19 direction in the consent decrees. The department shall provide ample
20 opportunity using a variety of engagement options, as appropriate,
21 for stakeholders and the public to shape, review, and comment
22 throughout the development of the mitigation plan, including at least
23 two meetings of the legislative advisory group as described in (c) of
24 this subsection.

25 (b) The department of ecology shall work collaboratively with
26 other agencies to develop and implement the elements of the
27 mitigation plan that address categories of projects for which other
28 agencies have already developed programs or expertise. In doing so,
29 the department of ecology must consider and utilize, where
30 appropriate and to the extent possible, the following existing
31 programs for alternative fuels and zero emission vehicles:

32 (i) The department of transportation's electric vehicle
33 infrastructure bank program;

34 (ii) The state alternative fuel commercial vehicle tax credit;

35 (iii) The state sales and use tax exemption for clean vehicles;

36 and

37 (iv) Public transportation grant programs administered by the
38 department of transportation.

1 (c)(i) For the purposes of providing legislative input and
2 gathering public feedback on the development of the mitigation plan,
3 a legislative advisory group is established. The advisory group is
4 comprised of eight legislators, including the chairs and ranking
5 members, or designees of the chairs and ranking members, of the
6 transportation and capital budget committees in the House and in the
7 Senate; the director of the department of ecology; and the secretary
8 of the department of transportation.

9 (ii) The advisory group must select a chair from among its
10 membership. Meetings of the advisory group must be open to the public
11 and allow for public comment.

12 (iii) The advisory group must meet at least twice, once
13 immediately prior to the date that the draft mitigation plan is
14 released publicly, and again after public comment has been
15 incorporated but before the department submits the plan to the
16 trustee.

17 (iv) The office of program research and the senate committee
18 services must provide staff support to the advisory group. The
19 department of ecology staff must provide technical support, as
20 needed. Legislative members of the advisory group are reimbursed for
21 travel expenses in accordance with RCW 44.04.120. Nonlegislative
22 members are not entitled to be reimbursed for travel expenses if they
23 are elected officials or are participating on behalf of an employer,
24 government entity, or other organization. Any reimbursement for other
25 nonlegislative members is subject to chapter 43.03 RCW. Advisory
26 group expenditures are subject to approval by the senate facilities
27 and operations committee and the house of representatives executive
28 rules committee, or their successor committees.

29 (3) The mitigation plan and the stewardship of project
30 implementation must adhere to the following principles:

31 (a) Maximize air quality and public health benefits relating to
32 the reduction of nitrogen oxides emissions;

33 (b) Give priority to projects that improve air quality relating
34 to the reduction of nitrogen oxides emissions in areas that bear a
35 disproportionate share of the burden from nitrogen oxides emissions;

36 (c) Achieve substantial additional air quality benefits relating
37 to the reduction of nitrogen oxides emissions beyond that which would
38 already occur, absent trust funding;

39 (d) Investments in clean vehicles or investments in clean engine
40 replacements must be shown to be cost-effective. For the purposes of

1 leveraging funding, investments in clean vehicles may not exceed the
2 incremental cost of the clean vehicle, relative to the cost of a
3 similar conventionally fueled vehicle. To incentivize the replacement
4 of standard engines, investments may be made up to the full cost of
5 the clean engine replacement;

6 (e) Consideration must be given to investments across a range of
7 fueling technologies and emissions reduction technologies; and

8 (f) Priority must be given to projects that have the highest
9 benefit-cost ratios, in terms of the amount of nitrogen oxides
10 emissions reduced per dollar invested.

11 (4) Funding must be allocated to eligible projects under the
12 terms of the consent decrees in the following manner:

13 (a)(i) No more than thirty percent of funding provided during the
14 2017-2019 biennium for commercial vehicle class four through eight
15 transit buses, shuttle buses, and school buses;

16 (ii) No more than thirty percent of funding provided during the
17 2017-2019 biennium for commercial vehicle class eight local freight
18 trucks and port drayage trucks;

19 (iii) No more than twenty percent of funding provided during the
20 2017-2019 biennium for commercial vehicle class four through seven
21 local freight trucks;

22 (iv) No more than twenty percent of funding provided during the
23 2017-2019 biennium for airport ground support equipment;

24 (v) No more than twenty percent of funding provided during the
25 2017-2019 biennium for ocean-going vessels' shore power;

26 (vi) No more than fifteen percent of funding provided during the
27 2017-2019 biennium for light duty, zero emission vehicle supply
28 equipment;

29 (vii) No more than twenty percent of funding provided during the
30 2017-2019 biennium for nonfederal matching funds for projects
31 eligible under the diesel emission reduction act option; and

32 (viii) For each of the other categories of mitigation actions
33 that are eligible under the consent decrees but not otherwise
34 specified under this subsection (4)(a), no more than ten percent of
35 funding provided during the 2017-2019 biennium.

36 (b) Projects that receive funding under subsection (4)(a)(ii) and
37 (iii) of this section and ocean-going vessels shorepower projects
38 that receive funding under subsection (4)(a)(viii) of this section
39 must include electric technologies, if practicable.

1 (5) To the extent this section conflicts with the consent
2 decrees, the consent decrees supersede it.

3 (6) The department of ecology may modify the mitigation plan as
4 needed to comply with trustee requirements, including to the extent
5 these modifications conflict with this section. In making any
6 adjustments, the department of ecology shall consult with the
7 department of transportation and the office of the superintendent of
8 public instruction and provide notice to the steering committee of
9 any significant changes to the plan submitted.

10 (7) The department of ecology shall provide a report to the
11 governor and the appropriate committees of the legislature by January
12 1, 2018, and each year thereafter, on any plans or efforts to change
13 the mitigation plan, its progress in implementing the mitigation
14 plan, and the specific projects funded through these mitigation funds
15 for the previous fiscal year.

16 (8) For the purposes of this section:

17 (a) "Project" means an eligible mitigation action under the terms
18 of the consent decrees entered into by the United States, Volkswagen
19 AG, and other participating parties that settle emissions-related
20 claims for 2.0 and 3.0 liter diesel vehicles of certain models and
21 years.

22 (b) "Trustee" means the entity selected under the terms of the
23 consent decrees to administer the disbursement of funds to eligible
24 projects for the purposes of mitigating nitrogen oxides emission
25 pollution.

NEW SECTION. **Sec. 4002. FOR THE DEPARTMENT OF TRANSPORTATION**
Aviation Revitalization Loans (92000003)

The appropriation in this section is subject to the following conditions and limitations:

(1) This appropriation is provided solely for deposit into the public use general aviation airport loan revolving account created in section 7028 of this act for direct loans to political subdivisions of the state and privately owned airports for the purpose of improvements at public use airports that primarily support general aviation activities.

(2) The department must convene a community aviation revitalization board to develop criteria for selecting loan recipients, to develop a process for evaluating applications, and to make decisions. The board must consist of the capital budget chair and ranking minority member of the capital budget committee of the house of representatives and the senate ways and means committee, and a representative from both the department of transportation's aviation division and the department of commerce. The board must also consist of the following members appointed by the secretary of transportation: One port district official, one county official, one city official, one representative of airport managers, and one representative of pilots. The chair of the board must be selected by the secretary of transportation. The members of the board must elect one of their members to serve as vice chair. The director of commerce and the secretary of transportation must serve as nonvoting advisory members of the board.

(3) The board may provide loans to privately owned airports for the purpose of airport improvements only if the state is receiving

1 commensurate public benefit, such as guaranteed long-term public
2 access to the airport as a condition of the loan. For purposes of
3 this subsection, "public use airports that primarily support general
4 aviation activities" means all public use airports not listed as
5 having more than fifty thousand annual commercial air service
6 passenger enplanements as published by the federal aviation
7 administration.

8 (4) An application for loan funds under this section must be made
9 in the form and manner as the board may prescribe. When evaluating
10 loan applications, the board must prioritize applications that
11 provide conclusive justification that completion of the loan
12 application project will create revenue-generating opportunities. The
13 board is not limited to, but must also use, the following expected
14 outcome conditions when evaluating loan applications:

15 (a) A specific private development or expansion is ready to occur
16 and will occur only if the aviation facility improvement is made;

17 (b) The loan application project results in the creation of jobs
18 or private sector capital investment as determined by the board;

19 (c) The loan application project improves opportunities for the
20 successful maintenance, operation, or expansion of an airport or
21 adjacent airport business park;

22 (d) The loan application project results in the creation or
23 retention of long-term economic opportunities; and

24 (e) The loan application project results in leveraging additional
25 federal funding for an airport.

26 (5) The repayment of any loan made from the public use general
27 aviation airport loan revolving account under the contracts for
28 aviation loans must be paid into the public use general aviation
29 airport loan revolving account.

5 Emergency Repairs and Equal Access Grants for K-12 Public Schools
6 (30000182)

7 The appropriations in this section are subject to the following
8 conditions and limitations:

9 (1) \$2,000,000 of the common school construction account—state
10 appropriation is provided solely for emergency repair grants to
11 address unexpected and imminent health and safety hazards at K-12
12 public schools, including skill centers, that will impact the day-to-
13 day operations of the school facility, and this is the maximum amount
14 that may be spent for this purpose. For emergency repair grants only,
15 an emergency declaration must be signed by the school district board
16 of directors and submitted to the superintendent of public
17 instruction for consideration. The emergency declaration must include
18 a description of the imminent health and safety hazard, the possible
19 cause, the proposed scope of emergency repair work and related cost
20 estimate, and identification of local funding to be applied to the
21 project. Grants of emergency repair moneys must be conditioned upon
22 the written commitment and plan of the school district board of
23 directors to repay the grant with any insurance payments or other
24 judgments that may be awarded, if applicable.

25 (2) \$3,000,000 of the state building construction account—state
26 appropriation is provided solely for urgent repair grants to address
27 non-reoccurring urgent small repair projects at K-12 public schools,
28 excluding skill centers, that could impact the health and safety of
29 students and staff if not completed, and this is the maximum amount
30 that may be spent for this purpose. The office of the superintendent
31 of public instruction, after consulting with maintenance and
32 operations administrators of school districts, shall develop criteria
33 and assurances for providing funding for specific projects through a
34 competitive grant program. The criteria and assurances must include,
35 but are not limited to, the following: (a) Limiting school districts
36 to one grant, not to exceed \$200,000, per three-year period; (b)
37 prioritizing applications based on limited school district financial
38 resources for the project; and (c) requiring any district receiving

1 funding provided in this section to demonstrate a consistent
2 commitment to addressing school facility needs. The grant
3 applications must include a comprehensive description of the health
4 and safety issues to be addressed, a detailed description of the
5 remedy including a detailed cost estimate of the repair or
6 replacement work to be performed, and identification of local
7 funding, if any, which will be applied to the project. Grants may be
8 used for, but are not limited to: Repair or replacement of failing
9 building systems; abatement of potentially hazardous materials; and
10 safety-related structural improvements.

11 (3) \$1,000,000 of the state building construction account—state
12 appropriation is provided solely for equal access grants for facility
13 repairs and alterations at K-12 public schools, including skills
14 centers, to improve compliance with the Americans with disabilities
15 act and individuals with disabilities education act, and this is the
16 maximum amount that may be spent for this purpose. The superintendent
17 of public instruction shall develop criteria and assurances for
18 providing funding for specific projects through a competitive grant
19 program. The criteria and assurances must include, but are not
20 limited to, the following: (a) Limiting districts to one grant, not
21 to exceed \$100,000, per three-year period; (b) prioritizing
22 applications based on limited school district financial resources for
23 the project; and (c) requiring recipient districts to demonstrate a
24 consistent commitment to addressing school facility needs. The grant
25 applications must include a description of the Americans with
26 disabilities act or individuals with disabilities education act
27 compliance deficiency, a comprehensive description of the facility
28 accessibility issues to be addressed, a detailed description of the
29 remedy including a detailed cost estimate of the repair or
30 replacement work to be performed, and identification of local
31 funding, if any, which will be applied to the project. Priority for
32 grant funding must be given to school districts that demonstrate a
33 lack of capital resources to address the compliance deficiencies
34 outlined in the grant application.

35 (4) The superintendent of public instruction must notify the
36 office of financial management, the legislative evaluation and
37 accountability program committee, the house capital budget committee,
38 and the senate ways and means committee as projects described in
39 subsection (1) of this section are approved for funding.

31 (b) Priority for applicants with a high percentage of students
32 who are eligible and enrolled in the free and reduced-price meals
33 program;

6 (h) Demonstration of readiness to proceed that may include, but
7 is not limited to:

8 (i) A demonstration that existing STEM faculty are in place and
9 are qualified to deliver an interactive, project-based STEM
10 curriculum in the proposed specialized STEM facilities; or

11 (ii) A plan and budget in place to recruit or train such STEM
12 faculty.

13 (6) For purposes of grant applications made in the 2017-2019

3 NEW SECTION. **Sec. 7001.** RCW 43.88.031 requires the disclosure
4 of the estimated debt service costs associated with new capital bond
5 appropriations. The estimated debt service costs for the
6 appropriations contained in this act are fifteen million fifty-seven
7 thousand dollars for the 2017-2019 biennium, two hundred sixty-two
8 million two hundred ninety thousand dollars for the 2019-2021
9 biennium, and three hundred sixty-six million four hundred seventy-
10 five thousand dollars for the 2021-2023 biennium.

11 NEW SECTION. **Sec. 7002.** ACQUISITION OF PROPERTIES AND
12 FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies
13 may enter into financial contracts, paid from any funds of an agency,
14 appropriated or nonappropriated, for the purposes indicated and in
15 not more than the principal amounts indicated, plus financing
16 expenses and required reserves pursuant to chapter 39.94 RCW. When
17 securing properties under this section, agencies shall use the most
18 economical financial contract option available, including long-term
19 leases, lease-purchase agreements, lease-development with option to
20 purchase agreements or financial contracts using certificates of
21 participation. Expenditures made by an agency for one of the
22 indicated purposes before the issue date of the authorized financial
23 contract and any certificates of participation therein are intended
24 to be reimbursed from proceeds of the financial contract and any
25 certificates of participation therein to the extent provided in the
26 agency's financing plan approved by the state finance committee.

27 (2) Those noninstructional facilities of higher education
28 institutions authorized in this section to enter into financial
29 contracts are not eligible for state funded maintenance and
30 operations. Instructional space that is available for regularly
31 scheduled classes for academic transfer, basic skills, and workforce
32 training programs may be eligible for state funded maintenance and
33 operations.

1 NEW SECTION. **Sec. 7003.** To ensure that major construction
2 projects are carried out in accordance with legislative and executive
3 intent, appropriations in this act in excess of \$5,000,000, or
4 \$10,000,000 for higher education institutions, may not be expended or
5 encumbered until the office of financial management has reviewed and
6 approved the agency's predesign. The predesign document must include,
7 but not be limited to, program, site, and cost analysis, and an
8 analysis of the life-cycle costs of the alternatives explored, in
9 accordance with the predesign manual adopted by the office of
10 financial management. The results of life-cycle cost analysis must be
11 a primary consideration in the selection of a building design.
12 Construction may proceed only upon providing to the office of
13 financial management the life-cycle costs. To improve monitoring of
14 major construction projects, progress reports must be submitted by
15 the agency administering the project to the office of financial
16 management and to the fiscal committees of the house of
17 representatives and senate. Reports must be submitted on July 1st and
18 December 31st each year in a format to be developed by the office of
19 financial management.

20 NEW SECTION. **Sec. 7004.** (1) The legislature finds that use of
21 life-cycle cost analysis will aid public entities, architects,
22 engineers, and contractors in making design and construction
23 decisions that positively impact both the initial construction cost
24 and the ongoing operating and maintenance cost of a project. To
25 ensure that the total cost of a project is accounted for and the most
26 reasonable and cost efficient design is used, agencies shall develop
27 life-cycle costs for any construction project over \$10,000,000. The
28 life-cycle costs must represent the present value sum of capital
29 costs, installation costs, operating costs, and maintenance costs
30 over the life expectancy of the project. The legislature further
31 finds the most effective approach to the life-cycle cost analysis is
32 to integrate it into the early part of the design process.

33 (2) Agencies shall develop a minimum of three project
34 alternatives for use in the life-cycle cost analysis. These
35 alternatives must be both distinctly different and viable solutions
36 to the issue being addressed. The chosen alternative must be the most
37 reasonable and cost-effective solution. A brief description of each
38 project alternative and why it was chosen must be included in the
39 life-cycle cost analysis section of the predesign.

1 (3) The office of financial management shall: (a) Make available
2 a life-cycle cost model to be used for analysis; (b) in consultation
3 with the department of enterprise services, provide assistance in
4 using the life-cycle cost model; and (c) update the life-cycle cost
5 model annually including assumptions for inflation rates, discount
6 rates, and energy rates.

7 (4) Agencies shall consider architectural and engineering firms'
8 and general contractors' experience using life-cycle costs, operating
9 costs, and energy efficiency measures when selecting an architectural
10 and engineering firm, or when selecting contractors using alternative
11 contracting methods.

12 NEW SECTION. **Sec. 7005.** To improve monitoring of major
13 construction projects, progress reports must be submitted by the
14 agency administering the project to the office of financial
15 management and to the fiscal committees of the house of
16 representatives and senate. Reports must be submitted on July 1st and
17 December 31st each year in a format to be determined by the office of
18 financial management.

19 NEW SECTION. **Sec. 7006.** (1) Allotments for appropriations in
20 this act shall be provided in accordance with the capital project
21 review requirements adopted by the office of financial management and
22 in compliance with RCW 43.88.110. Projects that will be employing
23 alternative public works construction procedures under chapter 39.10
24 RCW are subject to the allotment procedures defined in this section
25 and RCW 43.88.110.

26 (2) Each project is defined as proposed in the legislative budget
27 notes or in the governor's budget document.

28 NEW SECTION. **Sec. 7007.** (1) The office of financial management
29 may authorize a transfer of appropriation authority provided for a
30 capital project that is in excess of the amount required for the
31 completion of such project to another capital project for which the
32 appropriation is insufficient. No such transfer may be used to expand
33 the capacity of any facility beyond that intended in making the
34 appropriation. Such transfers may be effected only between capital
35 appropriations to a specific department, commission, agency, or
36 institution of higher education and only between capital projects
37 that are funded from the same fund or account. No transfers may occur

1 between projects to local government agencies except where the grants
2 are provided within a single omnibus appropriation and where such
3 transfers are specifically authorized by the implementing statutes
4 that govern the grants.

5 (2) The office of financial management may find that an amount is
6 in excess of the amount required for the completion of a project only
7 if: (a) The project as defined in the notes to the budget document is
8 substantially complete and there are funds remaining; or (b) bids
9 have been let on a project and it appears to a substantial certainty
10 that the project as defined in the notes to the budget document can
11 be completed within the biennium for less than the amount
12 appropriated in this act.

13 (3) For the purposes of this section, the intent is that each
14 project be defined as proposed to the legislature in the governor's
15 budget document, unless it clearly appears from the legislative
16 history that the legislature intended to define the scope of a
17 project in a different way.

18 (4) A report of any transfer effected under this section, except
19 emergency projects or any transfer under \$250,000, shall be filed
20 with the legislative fiscal committees of the senate and house of
21 representatives by the office of financial management at least thirty
22 days before the date the transfer is effected. The office of
23 financial management shall report all emergency or smaller transfers
24 within thirty days from the date of transfer.

25 (5) The transfer authority granted in this section does not apply
26 to appropriations for projects for the state parks and recreation
27 commission. Appropriations for commission projects may be spent only
28 for the specified projects, and funding may not be transferred from
29 one commission project to another or from other sources to a
30 commission project.

31 NEW SECTION. **Sec. 7008.** (1) It is expected that projects be
32 ready to proceed in a timely manner depending on the type or phase of
33 the project or program that is the subject of the appropriation in
34 this act. Except for major projects that customarily may take more
35 than two biennia to complete from predesign to the end of
36 construction, or large infrastructure grant or loan programs
37 supporting projects that often take more than two biennia to
38 complete, the legislature generally does not intend to reappropriate

1 funds more than once, particularly for smaller grant programs, local/
2 community projects, and minor works.

3 (2) Agencies shall expedite the expenditure of reappropriations
4 and appropriations in this act in order to: (a) Rehabilitate
5 infrastructure resources; (b) accelerate environmental rehabilitation
6 and restoration projects for the improvement of the state's natural
7 environment; (c) reduce additional costs associated with acquisition
8 and construction inflationary pressures; and (d) provide additional
9 employment opportunities associated with capital expenditures.

10 (3) To the extent feasible, agencies are directed to accelerate
11 expenditure rates at their current level of permanent employees and
12 shall use contracted design and construction services wherever
13 necessary to meet the goals of this section.

14 NEW SECTION. **Sec. 7009.** (1) Any building project that receives
15 over \$10,000,000 in funding from the capital budget must be built to
16 sustainable standards. "Sustainable building" means a building that
17 integrates and optimizes all major high-performance building
18 attributes, including energy efficiency, durability, life-cycle
19 performance, and occupant productivity. The following design and
20 construction attributes must be integrated into the building project:

21 (a) **Employ integrated design principles:** Use a collaborative,
22 integrated planning and design process that initiates and maintains
23 an integrated project team in all stages of a project's planning and
24 delivery. Establish performance goals for siting, energy, water,
25 materials, and indoor environmental quality along with other
26 comprehensive design goals and ensures incorporation of these goals
27 throughout the design and life-cycle of the building. Considers all
28 stages of the building's life-cycle, including deconstruction.

29 (b) **Commissioning:** Employ commissioning practices tailored to the
30 size and complexity of the building and its system components in
31 order to verify performance of building components and systems and
32 help ensure that design requirements are met. This should include an
33 experienced commissioning provider, inclusion of commissioning
34 requirements in construction documents, a commissioning plan,
35 verification of the installation and performance of systems to be
36 commissioned, and a commissioning report.

37 (c) **Optimize energy performance:** Establish a whole building
38 performance target that takes into account the intended use,
39 occupancy, operations, plug loads, other energy demands, and design

1 to earn the ENERGY STAR targets for new construction and major
2 renovation where applicable. For new construction target low energy
3 use index. For major renovations, reduce the energy use by fifty
4 percent below prerenovations baseline.

5 (d) On-site renewable energy: Meet at least thirty percent of the
6 hot water demand through the installation of solar hot water heaters,
7 when life-cycle cost effective. Implement renewable energy generation
8 projects on agency property for agency use, when life-cycle cost
9 effective.

10 (e) Measurement and verification: Install building level
11 electricity meters in new major construction and renovation projects
12 to track and continuously optimize performance. Include equivalent
13 meters for natural gas and steam, where natural gas and steam are
14 used. Install dashboards inside buildings to display and incentivize
15 occupants on energy use.

16 (f) Benchmarking: Compare actual performance data from the first
17 year of operation with the energy design target. Verify that the
18 building performance meets or exceeds the design target. For other
19 building and space types, use an equivalent benchmarking tool for
20 laboratory buildings. Web-based data collection and dashboards must
21 also be provided.

22 NEW SECTION. **Sec. 7010.** State agencies, including institutions
23 of higher education, shall allot and report full-time equivalent
24 staff for capital projects in a manner comparable to staff reporting
25 for operating expenditures.

26 NEW SECTION. **Sec. 7011.** Executive Order No. 05-05,
27 archaeological and cultural resources, was issued effective November
28 10, 2005. Agencies shall comply with the requirements set forth in
29 this executive order.

30 NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK
31 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this
32 act for original construction of school plant facilities is provided
33 solely for the purposes of RCW 28A.335.210.

34 (2) One-half of one percent of moneys appropriated in this act
35 for original construction or any major renovation or remodel work
36 exceeding \$200,000 by colleges or universities is provided solely for
37 the purposes of RCW 28B.10.027.

1 (3) One-half of one percent of moneys appropriated in this act
2 for original construction of any public building by a state agency
3 identified in RCW 43.17.020 is provided solely for the purposes of
4 RCW 43.17.200.

5 (4) At least eighty-five percent of the moneys spent by the
6 Washington state arts commission during the 2017-2019 biennium for
7 the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be
8 expended solely for direct acquisition of works of art. Art
9 allocations not expended within the ensuing two biennia will lapse.
10 The commission may use up to \$150,000 of this amount to conserve or
11 maintain existing pieces in the state art collection pursuant to RCW
12 28A.335.210.

13 (5) The executive director of the arts commission shall appoint a
14 study group to review the operations of the one-half of one percent
15 for works of art purchased or commissioned as required by RCW

8 this section, the department of ecology determines that further
9 reductions are needed to maintain positive account balances in the
10 state toxics control account, the local toxics control account, and
11 the environmental legacy stewardship account, the department is
12 authorized to delay the start of any projects based on acuity of
13 need, readiness to proceed, cost-efficiency, purposes of increasing

7 in consultation with the office of financial management, may sell the
8 property known as Tacoma Rhodes complex to the city of Tacoma. The

29 of financial management, must create a reporting structure to track
30 the success and progress of addressing the maintenance backlog of
31 state parks facilities. The reporting structure must provide a
32 forecast of new project proposals, the status of current funded

29 (3) Were paid from omnibus operating budget appropriations or
30 other permitted operating accounts. Section 7023 of this act applies
31 to the reimbursements authorized in this section.
