17 portions of the transferred real property that is later abandoned,
18 vacated, or ceases to be publicly maintained for trail purposes.

19 (b) Prior to completing the transfer in this subsection (2), the
20 department must ensure that provisions are made to accommodate
21 private and public utilities and any facilities that predate the
22 department's acquisition of the property, at no cost to those
23 entities. Prior to completing the transfer, the department shall also
24 ensure that provisions, by fair market assessment, are made to
25 accommodate other private and public utilities and any facilities
26 that have been legally allowed by permit or other instrument.

27 (c) The department may sell any adjoining property that is not
28 necessary to support the Rocky Reach Trail and adjacent buffer areas
29 only after the transfer of trail-related property to the Washington

11 needs transportation. Grants for transit agencies must be prorated
12 based on the amount expended for demand response service and route
13 deviated service in calendar year 2013 as reported in the "Summary of

25 operating costs for public transit agencies are not eligible for
26 funding under this grant program. Additional employees may not be
27 hired from the funds provided in this section for the vanpool grant
28 program, and supplanting of transit funds currently funding vanpools
29 is not allowed. The department shall encourage grant applicants and
30 recipients to leverage funds other than state funds.

31 (b) At least \$1,600,000 of the amount provided in this subsection
32 must be used for vanpool grants in congested corridors.

2 developed December 14, 2016, Program - Public Transportation Program
3 (V). The department shall review all projects receiving grant awards
4 under this program at least semiannually to determine whether the
5 projects are making satisfactory progress. Any project that has been
6 awarded funds, but does not report activity on the project within one
7 year of the grant award, must be reviewed by the department to
8 determine whether the grant should be terminated. The department
9 shall promptly close out grants when projects have been completed,
10 and any remaining funds must be used only to fund projects identified
11 in the OFM transportation document referenced in this subsection. The
12 department shall provide annual status reports on December 15, 2017,
13 and December 15, 2018, to the office of financial management and the

15 receiving the grants. It is the intent of the legislature to
16 appropriate funds through the regional mobility grant program only
17 for projects that will be completed on schedule. A grantee may not
18 receive more than twenty-five percent of the amount appropriated in
19 this subsection. The department shall not approve any increases or
20 changes to the scope of a project for the purpose of a grantee
21 expending remaining funds on an awarded grant.

22 (b) In order to be eligible to receive a grant under (a) of this
23 subsection during the 2017-2019 fiscal biennium, a transit agency

2 appropriation and \$754,000 of the state vehicle parking account—state
3 appropriation are provided solely for CTR grants and activities.

4 (8) \$200,000 of the multimodal transportation account—state
5 appropriation is contingent on the timely development of an annual
6 report summarizing the status of public transportation systems as
7 identified under RCW 35.58.2796.

9 appropriation is provided solely for projects identified in OFM
10 Transportation Document 17GOV001 as developed December 14, 2016.
11 Except as provided otherwise in this subsection, funds must first be
12 used for projects that are identified as priority one projects. As
13 additional funds become available or if a priority one project is
14 delayed, funding must be provided to priority two projects. If a
15 higher priority project is bypassed, it must be funded when the
16 project is ready. The department must submit a report annually with
17 its budget submittal that, at a minimum, includes information about
18 the listed transit projects that have been funded and projects that
19 have been bypassed, including an estimated time frame for when the
20 bypassed project will be funded.

33 account)—state appropriation, and \$146,000 of the special category C
34 account—state appropriation are provided solely for the US 395/North
35 Spokane Corridor project (600010A). Any future savings on the project
36 must stay on the US 395/Interstate 90 corridor and be made available
37 to the current phase of the North Spokane corridor project or any
38 future phase of the project in 2017-2019.

2 appropriation and \$10,956,000 of the transportation 2003 account
3 (nickel account)—state appropriation are provided solely for the
4 I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This
5 project must be completed as soon as practicable as a design-build

7 corridor projects must stay on the Interstate 405 corridor and be
8 made available to either the I-405/SR 167 Interchange - Direct
9 Connector project (140504C) or the I-405 Renton to Bellevue project
10 in the 2017-2019 fiscal biennium. The transportation partnership
11 account—state appropriation in this subsection includes funding to
12 begin preliminary engineering for adding capacity on Interstate 405
13 between state route number 522 and Interstate 5.

14 (13)(a) The SR 520 Bridge Replacement and HOV project (8BI1003)
15 is supported over time from multiple sources, including a
16 \$300,000,000 TIFIA loan, \$924,615,000 in Garvee bonds, toll revenues,

19 appropriation is provided solely for the SR 520 Bridge Replacement
20 and HOV project (8BI1003).

21 (c) When developing the financial plan for the project, the
22 department shall assume that all maintenance and operation costs for
23 the new facility are to be covered by tolls collected on the toll
24 facility and not by the motor vehicle account.

25 (14) For urban corridors that are all or partially within a
26 metropolitan planning organization boundary, for which the department
27 has not initiated environmental review, and that require an
28 environmental impact statement, at least one alternative must be
29 consistent with the goals set out in RCW 47.01.440.

30 (15) The department shall itemize all future requests for the
31 construction of buildings on a project list and submit them through
32 the transportation executive information system as part of the
33 department's 2018 budget submittal. It is the intent of the
34 legislature that new facility construction must be transparent and
35 not appropriated within larger highway construction projects.

36 (16) \$49,014,000 of the motor vehicle account—federal
37 appropriation and \$6,800,000 of the motor vehicle account—state
38 appropriation are provided solely for fish passage barrier and

1 (17) Any new advisory group that the department convenes during
2 the 2017-2019 fiscal biennium must consider the interests of the
3 entire state of Washington.

4 (18) It is the intent of the legislature that for the I-5 JBLM
5 Corridor Improvements project (M00100R), the department shall
6 actively pursue \$50,000,000 in federal funds to pay for this project
7 to supplant state funds in the future. \$50,000,000 in connecting
8 Washington account funding must be held in unallotted status during
9 the 2021-2023 fiscal biennium. These funds may only be used after the
10 department has provided notice to the office of financial management
11 that it has exhausted all efforts to secure federal funds from the
12 federal highway administration and the department of defense.

13 (19) Of the amounts allocated to the Puget Sound Gateway project
14 (M00600R) in OFM Transportation Document 17GOV001 as developed
15 December 14, 2016, \$4,000,000 must be used to complete the bridge
16 connection at 28th/24th Street over state route number 509 in the
17 city of SeaTac. The bridge connection must be completed prior to
18 other construction on the state route number 509 segment of the
19 project.

20 (20) In making budget allocations to the Puget Sound Gateway
21 project, the department shall implement the project's construction as
22 a single corridor investment. The department shall develop a
23 coordinated corridor construction and implementation plan for state
24 route number 167 and state route number 509 in collaboration with
25 affected stakeholders. Specific funding allocations must be based on
26 where and when specific project segments are ready for construction
27 to move forward and investments can be best optimized for timely
28 project completion. Emphasis must be placed on avoiding gaps in fund
29 expenditures for either project.

30 (21) It is the intent of the legislature that, for the I-5/North
31 Lewis County Interchange project (L2000204), the department develop
32 and design the project with the objective of significantly improving
33 access to the industrially zoned properties in north Lewis
34 county. The design must consider the county's process of
35 investigating alternatives to improve such access from Interstate 5
36 that began in March 2015.

37 (22) \$600,000 of the motor vehicle account—state appropriation is
38 provided solely for the department to complete an interchange
39 justification report (IJR) for the U.S. 2 trestle (L1000158),

1 covering the state route number 204 and 20th Street interchanges at
2 the end of the westbound structure.

3 (a) The department shall develop the IJR in close collaboration
4 with affected local jurisdictions, including Snohomish county and the
5 cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

6 (b) Within the amount provided for the IJR, the department must
7 address public outreach and the overall operational approval of the
8 IJR.

9 (c) The department shall complete the IJR and submit the final
10 report to the governor and the transportation committees of the
11 legislature by July 1, 2018.

12 (23) The legislature recognizes that the city of Mercer Island
13 has unique access issues that require the use of Interstate 90 to
14 leave the island and that this access may be impeded by the I-90/Two
15 Way Transit and HOV Improvements project. The department must
16 continue to work with the city of Mercer Island to address potential
17 access solutions as the project nears completion.

18 (24) \$2,000,000 of the Interstate 405 express toll lanes
19 operations account—state appropriation is provided solely for the
20 I-405 NB Hard Shoulder Running - SR 527 to I-5 project (L1000163).

12 project is a line-item appropriation, while the outer year funding
13 allocations represent a sixteen-year plan. The department is expected
14 to use the flexibility provided in this section to assist in the
15 delivery and completion of all transportation partnership account
16 connecting Washington account projects on the OFM transportation
17 documents referenced in this act. For the 2017-2019 project
18 appropriations, unless otherwise provided in this act, the department
19 may transfer funds between projects funded with transportation
20 partnership account appropriations or connecting Washington account
21 appropriations in order to manage project spending and efficiently
22 deliver all projects in the respective program under the following
23 conditions and limitations:

24 (a) Transfers may only be made within each specific fund source
25 referenced on the respective project list;

26 (b) Transfers from a project may not be made as a result of the
27 reduction of the scope of a project or be made to support increases
28 in the scope of a project;

29 (c) Transfers from a project may be made if the funds
30 appropriated to the project are in excess of the amount needed in the
31 current fiscal biennium;

32 (d) Transfers may not occur for projects not identified on the
33 applicable project list;

34 (e) Transfers may not be made while the legislature is in
35 session;

36 (f) Each transfer between projects may only occur if the director
37 of the office of financial management finds that any resulting change
38 will not hinder the completion of the projects as approved by the

1 legislature. Until the legislature reconvenes to consider the 2018
2 supplemental omnibus transportation appropriations act, any
3 unexpended 2015-2017 appropriation balance as approved by the office
4 of financial management, in consultation with the legislative staff
5 of the house of representatives and senate transportation committees,
6 may be considered when transferring funds between projects; and

7 (g) Transfers between projects may be made by the department of
8 transportation without review under subsection (2) of this section
9 provided that the transfer amount does not exceed five hundred
10 thousand dollars. These transfers must be reported quarterly to the
11 director of the office of financial management and the chairs of the
12 house of representatives and senate transportation committees.

13 (2) Before transferring funds pursuant to this section, the
14 department shall notify the office of financial management and the
15 appropriate transportation committees of the legislature no fewer
16 than ten business days before the transfer is to occur. The office of
17 financial management shall work with legislative staff of the house
18 of representatives and senate transportation committees to review the
19 requested transfers in a timely manner. After ten business days, the
20 transfers are deemed approved unless rejected by the director of the
21 office of financial management.

22 (3) The department must submit annually as part of its budget
23 submittal a report detailing all transfers made pursuant to this
24 section.

25 NEW SECTION. **Sec. 602.** To the extent that any appropriation
26 authorizes expenditures of state funds from the motor vehicle
27 account, special category C account, Tacoma Narrows toll bridge
28 account, transportation 2003 account (nickel account), transportation
29 partnership account, transportation improvement account, Puget Sound
30 capital construction account, multimodal transportation account,
31 state route number 520 corridor account, or other transportation
32 capital project account in the state treasury for a state
33 transportation program that is specified to be funded with proceeds
34 from the sale of bonds authorized in chapter 47.10 RCW, the
35 legislature declares that any such expenditures made before the issue
36 date of the applicable transportation bonds for that state
37 transportation program are intended to be reimbursed from proceeds of
38 those transportation bonds in a maximum amount equal to the amount of
39 such appropriation.

1 NEW SECTION. **Sec. 603. BELATED CLAIMS**

2 The agencies and institutions of the state may expend moneys
3 appropriated in this act, upon approval of the office of financial
4 management, for the payment of supplies and services furnished to the
5 agency or institution in prior fiscal biennia.

6 **MISCELLANEOUS 2017-2019 FISCAL BIENNIUM**

7 NEW SECTION. **Sec. 701. INFORMATION TECHNOLOGY PROJECTS**

8 (1) All appropriations for designated information technology
9 projects in this act must be placed in unallotted status and must not
10 be expended before the office of the chief information officer
11 certifies that the project complies with state information technology
12 and security policy and strategies. At a minimum, the office of the
13 chief information officer must certify, if the chief information
14 officer deems appropriate, that the project meets critical project
15 success factors, aligns with statewide technology strategy and
16 architecture, reuses existing technology services and solutions,
17 minimizes custom development, complies with security and other policy
18 requirements, and uses modularized, component-based architectures.
19 The office of the chief information officer must evaluate the project
20 at the appropriate stages. The office of the chief information
21 officer must notify the office of financial management and the
22 legislative fiscal committees each time it certifies a project is
23 ready to proceed with the next stage. Appropriations may then be
24 allotted for that certified phase only.

25 (2) The chief information officer may suspend or terminate a
26 project at any time if the chief information officer determines that
27 the project is not meeting or not expected to meet anticipated
28 performance and technology outcomes. Once suspension or termination
29 occurs, the agency shall not make additional expenditures on the
30 project without approval of the chief information officer.

31 The following projects are subject to the conditions,
32 limitations, and review provided in this section:
33 Department of Transportation - Labor System Replacement, and
34 Department of Transportation - Ferry Network System Support.

35 (3) The office of the chief information officer, in consultation
36 with the office of financial management, may identify additional
37 projects to be subject to this section other than those listed in

1 subsection (2) of this section, including projects that are not
2 separately identified within an agency budget.

3 NEW SECTION. **Sec. 702. FINANCIAL CONTRACTS**

4 The following agencies may enter into financial contracts, paid
5 from any funds of an agency, appropriated or nonappropriated, for the
6 purposes indicated and in not more than the principal amounts
7 indicated, plus financing expenses and required reserves pursuant to
8 chapter 39.94 RCW. Expenditures made by an agency for one of the
9 indicated purposes before the issue date of the authorized financial
10 contract and any certificates of participation therein are intended
11 to be reimbursed from proceeds of the financial contract and any
12 certificates of participation therein. The department of
13 transportation may enter into a financing contract up to \$14,600,000
14 plus financing expenses and required reserves using certificates of
15 participation under chapter 39.94 RCW for energy efficiency upgrades
16 at department-owned buildings.

17 **Sec. 703.** RCW 47.56.403 and 2015 1st sp.s. c 10 s 705 are each
18 amended to read as follows:

19 (1) The department may provide for the establishment,
20 construction, and operation of a pilot project of high occupancy toll
21 lanes on state route 167 high occupancy vehicle lanes within King
22 county. The department may issue, buy, and redeem bonds, and deposit
23 and expend them; secure and remit financial and other assistance in
24 the construction of high occupancy toll lanes, carry insurance, and
25 handle any other matters pertaining to the high occupancy toll lane
26 pilot project.

27 (2) Tolls for high occupancy toll lanes will be established as
28 follows:

29 (a) The schedule of toll charges for high occupancy toll lanes
30 must be established by the transportation commission and collected in
31 a manner determined by the commission.

32 (b) Toll charges shall not be assessed on transit buses and
33 vanpool vehicles owned or operated by any public agency.

34 (c) The department shall establish performance standards for the
35 state route 167 high occupancy toll lane pilot project. The
36 department must automatically adjust the toll charge, using dynamic
37 tolling, to ensure that toll-paying single-occupant vehicle users are
38 only permitted to enter the lane to the extent that average vehicle

1 speeds in the lane remain above forty-five miles per hour at least
2 ninety percent of the time during peak hours. The toll charge may
3 vary in amount by time of day, level of traffic congestion within the
4 highway facility, vehicle occupancy, or other criteria, as the
5 commission may deem appropriate. The commission may also vary toll
6 charges for single-occupant inherently low-emission vehicles such as
7 those powered by electric batteries, natural gas, propane, or other
8 clean burning fuels.

9 (d) The commission shall periodically review the toll charges to
10 determine if the toll charges are effectively maintaining travel
11 time, speed, and reliability on the highway facilities.

12 (3) The department shall monitor the state route 167 high
13 occupancy toll lane pilot project and shall annually report to the
14 transportation commission and the legislature on operations and
15 findings. At a minimum, the department shall provide facility use
16 data and review the impacts on:

17 (a) Freeway efficiency and safety;

18 (b) Effectiveness for transit;

19 (c) Person and vehicle movements by mode;

20 (d) Ability to finance improvements and transportation services
21 through tolls; and

22 (e) The impacts on all highway users. The department shall
23 analyze aggregate use data and conduct, as needed, separate surveys
24 to assess usage of the facility in relation to geographic,
25 socioeconomic, and demographic information within the corridor in
26 order to ascertain actual and perceived questions of equitable use of
27 the facility.

28 (4) The department shall modify the pilot project to address
29 identified safety issues and mitigate negative impacts to high
30 occupancy vehicle lane users.

31 (5) Authorization to impose high occupancy vehicle tolls for the
32 state route 167 high occupancy toll pilot project expires if either
33 of the following two conditions apply:

34 (a) If no contracts have been let by the department to begin
35 construction of the toll facilities associated with this pilot
36 project within four years of July 24, 2005; or

37 (b) If high occupancy vehicle tolls are being collected on June
38 30, (~~2017~~) 2019.

39 (6) The department of transportation shall adopt rules that allow
40 automatic vehicle identification transponders used for electronic

1 toll collection to be compatible with other electronic payment
2 devices or transponders from the Washington state ferry system, other
3 public transportation systems, or other toll collection systems to
4 the extent that technology permits.

5 (7) The conversion of a single existing high occupancy vehicle
6 lane to a high occupancy toll lane as proposed for SR-167 must be
7 taken as the exception for this pilot project.

8 (8) A violation of the lane restrictions applicable to the high
9 occupancy toll lanes established under this section is a traffic
10 infraction.

11 (9) Procurement activity associated with this pilot project shall
12 be open and competitive in accordance with chapter 39.29 RCW.

13 **Sec. 704.** RCW 43.19.642 and 2016 c 197 s 2 are each amended to
14 read as follows:

15 (1) Effective June 1, 2006, for agencies complying with the
16 ultra-low sulfur diesel mandate of the United States environmental
17 protection agency for on-highway diesel fuel, agencies shall use
18 biodiesel as an additive to ultra-low sulfur diesel for lubricity,
19 provided that the use of a lubricity additive is warranted and that
20 the use of biodiesel is comparable in performance and cost with other
21 available lubricity additives. The amount of biodiesel added to the
22 ultra-low sulfur diesel fuel shall be not less than two percent.

23 (2) Except as provided in subsection (5) of this section,
24 effective June 1, 2009, state agencies are required to use a minimum
25 of twenty percent biodiesel as compared to total volume of all diesel
26 purchases made by the agencies for the operation of the agencies'
27 diesel-powered vessels, vehicles, and construction equipment.

28 (3) All state agencies using biodiesel fuel shall, beginning on
29 July 1, 2016, file annual reports with the department of enterprise

35 differential for biodiesel by blend and location; and

36 (b) Examine alternative fuel procurement methods that work to
37 address potential market barriers for in-state biodiesel producers
38 and report these findings to the legislature.

1 (5) During the ((~~2011-2013, 2013-2015, and~~)) 2015-2017 and

3 use a minimum of five percent biodiesel as compared to total volume
4 of all diesel purchases made by the Washington state ferries for the
5 operation of the Washington state ferries diesel-powered vessels, as
6 long as the price of a B5 biodiesel blend does not exceed the price
7 of conventional diesel fuel by five percent or more.
