
SENATE BILL 6195

State of Washington

65th Legislature

2018 Regular Session

By Senators Cleveland, Rivers, and Wilson

1 AN ACT Relating to facilitating transportation projects of
2 statewide significance; adding new sections to chapter 47.05 RCW; and
3 creating a new section.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** The legislature finds that Washington's
6 transportation needs are increasing as both a surge in trade and
7 population create demand on the system. Large transportation projects
8 that provide improvements in accessibility, freight mobility, and
9 safety, as well as maximize economic development, are critical to
10 Washington's future. It is the intent of the legislature to recognize
11 transportation projects of statewide significance, and to expedite
12 their completion through the establishment of a formal process of
13 coordination.

14 NEW SECTION. **Sec. 2.** A new section is added to chapter 47.05
15 RCW to read as follows:

16 (1) A transportation project of statewide significance means a
17 project that will:

18 (a) Improve accessibility for a significant number of Washington
19 residents;

1 (b) Improve the reliability of commute times for residents of the
2 area;

3 (c) Improve the movement of freight through the corridor;

4 (d) Provide safety improvements and contribute to a reduction in
5 injuries and fatalities;

6 (e) Maximize opportunities for economic development in the
7 region;

8 (f) Make improvement to transit, pedestrian, and bike access; and

9 (g) Serve as a critical route for both national and state
10 defense.

11 (2) A transportation project of statewide significance must be
12 valued in excess of one billion dollars.

13 (3) The applicant seeking the designation of a transportation
14 project of statewide significance must be able to demonstrate the
15 project can provide the direct employment of at least one thousand
16 five hundred persons over the life of the project.

17 NEW SECTION. **Sec. 3.** A new section is added to chapter 47.05
18 RCW to read as follows:

19 (1) The department shall:

20 (a) Develop an application for designation of transportation
21 projects as transportation projects of statewide significance. The
22 application must be accompanied by a letter of approval from the
23 legislative authority of any jurisdiction that will have the proposed
24 transportation project of statewide significance within its
25 boundaries. No designation of a project as a transportation project
26 of statewide significance shall be made without the letter of
27 approval, except as provided in subsection (2) of this section. The
28 letter of approval must state that the jurisdiction joins in the
29 request for the designation of the transportation project as one of
30 statewide significance and has or will hire the professional staff
31 that will be required to expedite the processes necessary to the
32 completion of a transportation project of statewide significance. The
33 transportation project proponents may provide the funding necessary
34 for the jurisdiction to hire the professional staff that will be
35 required to so expedite. The application must contain information
36 regarding the location of the project, how the project meets the
37 criteria specified in section 2 of this act, and other information
38 required by the department; and

1 (b) Designate a transportation project as a transportation
2 project of statewide significance if the department determines, after
3 review of the application under criteria adopted by rule, the
4 transportation project will meet the criteria listed in section 2(1)
5 of this act.

6 (2) Any project designated by the legislature and codified in
7 this chapter is not subject to the application requirements set out
8 in subsection (1) of this section. However, the project is subject to
9 the coordination process in subsection (3) of this section.

10 (3) The department shall assign a project facilitator or
11 coordinator to each transportation project of statewide significance
12 to:

13 (a) Assemble a team of state and local government and private
14 officials to help meet the planning, permitting, and development
15 needs of each project. The team must include those responsible for
16 planning, permitting, and licensing, infrastructure development,
17 workforce development services, including higher education,
18 transportation services, and the provision of utilities; and

19 (b) Work with each team member to expedite their actions in
20 furtherance of the project and coordinate any cross border
21 communications, if applicable.

--- END ---
