28 department to determine whether the grant should be terminated. The
29 department shall promptly close out grants when projects have been
30 completed, and any remaining funds must be used only to fund projects

28 grant proposals that focus on the Interstate 90, Interstate 5, or
29 Interstate 405 corridor. The department shall offer competitive trip-
30 reduction grants. The department shall report to the transportation
31 committees of the legislature by December 1, 2018, on the pilot

18 expand the program to other King county school districts, the cost to
19 expand the program to student populations other than high school or
20 eligible for free and reduced-price lunches, opportunities for
21 subsidized ORCA cards or local grant or matching funds, and any
22 additional information that would help determine if the pilot program
23 should be extended or expanded.

24 (11) The department shall not require more than a ten percent
25 match from nonprofit transportation providers for state grants.

26 (12)(a) For projects funded as part of the 2015 connecting
27 Washington transportation package listed on the LEAP transportation

29 department expects to have substantial reappropriations for the
30 2019-2021 fiscal biennium, the department may, on a pilot basis,
31 apply funding from a project with an appropriation that cannot be
32 used for the current fiscal biennium to advance one or more of the

33 solely for the projects and activities as listed by fund, project,
34 and amount in LEAP Transportation Document 2017-1 as developed April
35 20, 2017, Program - Highway Improvements Program (I). However,

14 redistribution process must then be applied to highway and bridge
15 preservation activities.

16 (4) Within the motor vehicle account—state appropriation and
17 motor vehicle account—federal appropriation, the department may
18 transfer funds between programs I and P, except for funds that are
19 otherwise restricted in this act. The department shall submit a
20 report on fiscal year 2017 funds transferred using this subsection as
21 part of the department's 2018 budget submittal.

22 (5) The connecting Washington account—state appropriation
23 includes up to \$360,433,000 in proceeds from the sale of bonds

29 includes up to \$325,748,000 in proceeds from the sale of bonds
30 authorized in RCW 47.10.873. Of this amount, \$122,046,000 must be

36 account)—state appropriation, \$122,046,000 of the Alaskan Way viaduct
37 replacement project account—state appropriation, and \$2,662,000 of
38 the multimodal transportation account—state appropriation are

1 provided solely for the SR 99/Alaskan Way Viaduct Replacement project
2 (809936Z).

3 (9) \$12,500,000 of the multimodal transportation account—state
4 appropriation is provided solely for transit mitigation for the SR
5 99/Viaduct Project - Construction Mitigation project (809940B).

6 (10) Within existing resources, during the regular sessions of
7 the legislature, the department of transportation shall participate
8 in work sessions, before the transportation committees of the house
9 of representatives and senate, on the Alaskan Way viaduct replacement
10 project. These work sessions must include a report on current
11 progress of the project, timelines for completion, outstanding
12 claims, the financial status of the project, and any other
13 information necessary for the legislature to maintain appropriate
14 oversight of the project. The parties invited to present may include

16 other appropriate stakeholders.

17 (11) \$5,804,000 of the transportation partnership account—state

19 account)—state appropriation, and \$146,000 of the special category C
20 account—state appropriation are provided solely for the US 395/North
21 Spokane Corridor project (600010A). Any future savings on the project

24 future phase of the project in 2017-2019.

25 (12) \$26,601,000 of the transportation partnership account—state
26 appropriation and \$10,956,000 of the transportation 2003 account
27 (nickel account)—state appropriation are provided solely for the
28 I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This
29 project must be completed as soon as practicable as a design-build
30 project. Any future savings on this project or other Interstate 405
31 corridor projects must stay on the Interstate 405 corridor and be
32 made available to either the I-405/SR 167 Interchange - Direct
33 Connector project (140504C), the I-405 Renton to Bellevue project
34 (M00900R), or the I-405/SR 522 to I-5 Capacity Improvements project
35 (L2000234) in the 2017-2019 fiscal biennium.

36 (13) \$1,500,000 of the transportation partnership account—state
37 appropriation is provided solely for preliminary engineering for
38 adding capacity on Interstate 405 between state route number 522 and
39 Interstate 5. The funding is a transfer from the I-405/Kirkland

1 Vicinity Stage 2 - Widening project due to savings, and will start an
2 additional phase of this I-405 project.

3 (14)(a) The SR 520 Bridge Replacement and HOV project (8BI1003)
4 is supported over time from multiple sources, including a
5 \$300,000,000 TIFIA loan, \$924,615,000 in Garvee bonds, toll revenues,
6 state bonds, interest earnings, and other miscellaneous sources.

7 (b) \$44,311,000 of the transportation partnership account—state
8 appropriation is provided solely for the SR 520 Bridge Replacement
9 and HOV project (8BI1003).

10 (c) When developing the financial plan for the project, the
11 department shall assume that all maintenance and operation costs for
12 the new facility are to be covered by tolls collected on the toll
13 facility and not by the motor vehicle account.

14 (15) The department shall itemize all future requests for the
15 construction of buildings on a project list and submit them through
16 the transportation executive information system as part of the
17 department's 2018 budget submittal. It is the intent of the
18 legislature that new facility construction must be transparent and
19 not appropriated within larger highway construction projects.

20 (16) Any advisory group that the department convenes during the
21 2017-2019 fiscal biennium must consider the interests of the entire
22 state of Washington.

23 (17) It is the intent of the legislature that a new I-5/Exit 274
24 Interchange project in Blaine be funded with \$12,100,000 of
25 connecting Washington account—state funds in the 2023-2025 fiscal
26 biennium and be changed accordingly on the LEAP transportation
27 document referenced in subsection (1) of this section. This new
28 project would create a new southbound off-ramp on Interstate 5 at
29 Exit 274 onto Peace Portal Drive and a direct northbound connection
30 to Blaine's industrial area from the existing northbound off-ramp by
31 reconfiguring it to tie into Odell Street.

32 (18) It is the intent of the legislature that for the I-5 JBLM
33 Corridor Improvements project (M00100R), the department shall
34 actively pursue \$50,000,000 in federal funds to pay for this project
35 to supplant state funds in the future. \$50,000,000 in connecting
36 Washington account funding must be held in unallotted status during
37 the 2021-2023 fiscal biennium. These funds may only be used after the
38 department has provided notice to the office of financial management
39 that it has exhausted all efforts to secure federal funds from the
40 federal highway administration and the department of defense.

1 (19) \$93,500,000 of the connecting Washington account—state
2 appropriation is provided solely for the SR 167/SR 509 Puget Sound
3 Gateway project (M00600R). Any savings on the project must stay on
4 the Puget Sound gateway corridor until the project is complete.

5 (20)(a) In making budget allocations to the Puget Sound Gateway
6 project, the department shall implement the project's construction as
7 a single corridor investment. The department shall develop a
8 coordinated corridor construction and implementation plan for state
9 route number 167 and state route number 509 in collaboration with
10 affected stakeholders. Specific funding allocations must be based on
11 where and when specific project segments are ready for construction
12 to move forward and investments can be best optimized for timely
13 project completion. Emphasis must be placed on avoiding gaps in fund
14 expenditures for either project.

15 (b) The secretary of transportation must develop a memorandum of
16 understanding with local project stakeholders that identifies a
17 schedule for stakeholders to provide local matching funds for the
18 Puget Sound Gateway project. Criteria for eligibility of local match
19 includes matching funds and equivalent in-kind contributions
20 including, but not limited to, land donations. The memorandum of
21 understanding must be finalized by July 1, 2018. The department must
22 submit a copy of the memorandum of understanding to the
23 transportation committees of the legislature and report regularly on
24 the status of the requirements outlined in this subsection (20)(b)
25 and (c) of this subsection.

26 (c) During the course of developing the memorandum of
27 understanding, the department must evaluate the project schedules to
28 determine if there are any benefits to be gained by moving the
29 project schedule forward. Additionally, the department must consider
30 completing a full single-point urban interchange at the junction of
31 state route number 161 (Meridian avenue) and state route number 167
32 and a full single-point urban interchange at the junction of state
33 route number 509 and 188th Street. If the department receives
34 additional funds from an outside source for this project, the funds
35 must be applied toward the completion of these two full single-point
36 urban interchanges.

37 (21) It is the intent of the legislature that, for the I-5/North
38 Lewis County Interchange project (L2000204), the department develop
39 and design the project with the objective of significantly improving
40 access to the industrially zoned properties in north Lewis

1 county. The design must consider the county's process of
2 investigating alternatives to improve such access from Interstate 5
3 that began in March 2015.

4 (22) \$600,000 of the motor vehicle account—state appropriation is
5 provided solely for the department to complete an interchange
6 justification report (IJR) for the U.S. 2 trestle (L1000158),
7 covering the state route number 204 and 20th Street interchanges at
8 the end of the westbound structure.

9 (a) The department shall develop the IJR in close collaboration
10 with affected local jurisdictions, including Snohomish county and the
11 cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

12 (b) Within the amount provided for the IJR, the department must
13 address public outreach and the overall operational approval of the
14 IJR.

15 (c) The department shall complete the IJR and submit the final
16 report to the governor and the transportation committees of the
17 legislature by July 1, 2018.

18 (23)(a) The legislature recognizes that the city of Mercer Island
19 has unique access issues that require the use of Interstate 90 to
20 leave the island and that this access may be affected by the I-90/
21 Two-Way Transit and HOV Improvements project. One of the most heavily
22 traveled on-ramps from Mercer Island to the westbound Interstate 90
23 general purpose lanes is from Island Crest Way. The department must
24 continue to consult with the city of Mercer Island and the other
25 signatories to the 1976 memorandum of agreement to preserve access
26 provided to Mercer Island by the Island Crest Way on-ramp, and thus
27 grandfather in the current use of the on-ramp for both high occupancy
28 vehicles as well as vehicles seeking to access the general purpose
29 lanes of Interstate 90. The department must consider all reasonable
30 access solutions, including allowing all vehicles to use the Island
31 Crest Way on-ramp to access the new high occupancy vehicle lane with
32 a reasonable and safe distance provided for single-occupancy vehicles
33 to merge into the general purpose lanes.

34 (b) A final access solution for Mercer Island must consider the
35 following criteria: Safety; operational effects on all users,
36 including maintaining historic access to Interstate 90 provided from
37 Mercer Island by Island Crest Way; enforcement requirements; and
38 compliance with state and federal law.

1 (c) The department may not restrict by occupancy the westbound
2 on-ramp from Island Crest Way until a final access solution that
3 meets the criteria in (b) of this subsection has been reached.

4 (24) \$2,000,000 of the Interstate 405 express toll lanes
5 operations account—state appropriation is provided solely for the
6 I-405 NB Hard Shoulder Running - SR 527 to I-5 project (L1000163).

7 (25) The legislature finds that there are sixteen companies
8 involved in wood preserving in the state that employ four hundred
9 workers and have an annual payroll of fifteen million dollars. Before
10 the department's switch to steel guardrails, ninety percent of the
11 twenty-five hundred mile guardrail system was constructed of
12 preserved wood and one hundred ten thousand wood guardrail posts were
13 produced annually for state use. Moreover, the policy of using steel
14 posts requires the state to use imported steel. Given these findings,
15 where practicable, and until June 30, 2019, the department shall
16 include the design option to use wood guardrail posts, in addition to
17 steel posts, in new guardrail installations. The selection of posts
18 must be consistent with the agency design manual policy that existed
19 before December 2009.

20 (26) For the SR 526 Corridor Improvements project (N52600R), the
21 department shall look holistically at the state route number 526
22 corridor from the state route number 526/Interstate 5 interchange at
23 the east end to the southwest Everett industrial area and Boeing's
24 west access road on the west end. The department, working with
25 affected jurisdictions and stakeholders, shall select project
26 elements that best maximize mobility and congestion relief in the
27 corridor and draw from project elements identified in a practical
28 solutions process.

29 (27) It is the intent of the legislature that for the I-5/Slater
30 Road Interchange - Improvements project (L1000099), \$2,000,000 of
31 connecting Washington account—state funds be added in the 2021-2023
32 fiscal biennium and \$10,100,000 of connecting Washington account—
33 state funds be added in the 2023-2025 fiscal biennium, and that the
34 LEAP transportation document referenced in subsection (1) of this
35 section be updated accordingly.

36 (28)(a) For projects funded as part of the 2015 connecting
37 Washington transportation package listed on the LEAP transportation
38 document identified in subsection (1) of this section, if the
39 department expects to have substantial reappropriations for the

1 2019-2021 fiscal biennium, the department may, on a pilot basis,
2 apply funding from a project with an appropriation that cannot be
3 used for the current fiscal biennium to advance one or more of the
4 following projects:

- 5 (i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);
- 6 (ii) I-5/Marvin Road/SR 510 Interchange (L1100110);
- 7 (iii) I-5/Northbound On-ramp at Bakerview (L2000119);
- 8 (iv) US 395/Ridgeline Intersection (L2000127);
- 9 (v) I-90/Eastside Restripe Shoulders (L2000201);
- 10 (vi) SR 240/Richland Corridor Improvements (L2000202);
- 11 (vii) SR 14/Bingen Overpass (L2220062);
- 12 (viii) US Hwy 2 Safety (N00200R);
- 13 (ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);
- 14 (x) SR 28/SR 285 North Wenatchee Area Improvements (L2000061);
- 15 (xi) I-5/Rebuild Chambers Way Interchange Improvements
16 (L2000223);
- 17 (xii) SR 28 East Wenatchee Corridor Improvements (T10300R);
- 18 (xiii) SR 3/Belfair Bypass - New Alignment (T30400R); or
- 19 (xiv) SR 510/Yelm Loop Phase 2 (T32700R).

20 (b) At least ten business days before advancing a project
21 pursuant to this subsection, the department must notify the office of
22 financial management and the transportation committees of the
23 legislature. The advancement of a project may not hinder the delivery
24 of the projects for which the reappropriations are necessary for the
25 2019-2021 fiscal biennium.

26 (29) Within existing resources and in consultation with local
27 communities, the department shall begin planning efforts, including
28 traffic data collection, analysis and evaluation, scoping, and
29 environmental review, for roundabouts at the intersection of state
30 route number 900 and SE May Valley Road and at the intersection of
31 state route number 169 and Cedar Grove Road SE.

32 (30) Among the options studied as part of the SR 410 Corridor
33 Study project (L1000174), the department shall examine the mobility
34 and safety benefits of replacing or expanding the White River bridge
35 between Enumclaw and Buckley to four lanes and removing the trestle.

14 subject to technical oversight by the office of the chief information
15 officer. The department, in collaboration with the office of the
16 chief information officer, shall identify where existing or proposed
17 mobile radio technology investments should be consolidated, identify
18 when existing or proposed mobile radio technology investments can be
19 reused or leveraged to meet multiagency needs, increase mobile radio

30 documentation detailing litigation-related expenses. The office of
31 financial management may release the funds only when it determines
32 that all other funds designated for litigation awards, settlements,
33 and dispute mitigation activities have been exhausted. No funds
34 provided in this subsection may be expended on any legal fees related
35 to the SR 99/Alaskan Way viaduct replacement project.

19 NEW SECTION. **Sec. 601. FUND TRANSFERS**

20 (1) The 2005 transportation partnership projects or improvements
21 and 2015 connecting Washington projects or improvements are listed in
22 the LEAP Transportation Document 2017-1 as developed April 20, 2017,
23 which consists of a list of specific projects by fund source and
24 amount over a sixteen-year period. Current fiscal biennium funding
25 for each project is a line-item appropriation, while the outer year
26 funding allocations represent a sixteen-year plan. The department of
27 transportation is expected to use the flexibility provided in this
28 section to assist in the delivery and completion of all
29 transportation partnership account and connecting Washington account
30 projects on the LEAP transportation document referenced in this
31 subsection. For the 2017-2019 project appropriations, unless
32 otherwise provided in this act, the director of the office of
33 financial management may provide written authorization for a transfer
34 of appropriation authority between projects funded with
35 transportation partnership account appropriations or connecting
36 Washington account appropriations to manage project spending and

1 efficiently deliver all projects in the respective program under the
2 following conditions and limitations:

3 (a) Transfers may only be made within each specific fund source
4 referenced on the respective project list;

5 (b) Transfers from a project may not be made as a result of the
6 reduction of the scope of a project or be made to support increases
7 in the scope of a project;

8 (c) Transfers from a project may be made if the funds
9 appropriated to the project are in excess of the amount needed in the
10 current fiscal biennium;

11 (d) Transfers may not occur for projects not identified on the
12 applicable project list;

13 (e) Transfers may not be made while the legislature is in
14 session;

15 (f) Transfers to a project may not be made with funds designated
16 as attributable to practical design savings as described in RCW
17 47.01.480;

18 (g) Each transfer between projects may only occur if the director
19 of the office of financial management finds that any resulting change
20 will not hinder the completion of the projects as approved by the
21 legislature. Until the legislature reconvenes to consider the 2018
22 supplemental omnibus transportation appropriations act, any
23 unexpended 2015-2017 appropriation balance as approved by the office
24 of financial management, in consultation with the legislative staff
25 of the house of representatives and senate transportation committees,
26 may be considered when transferring funds between projects; and

27 (h) Transfers between projects may be made by the department of
28 transportation without the formal written approval provided under
29 this subsection (1), provided that the transfer amount does not
30 exceed two hundred fifty thousand dollars or ten percent of the total
31 project, whichever is less. These transfers must be reported
32 quarterly to the director of the office of financial management and
33 the chairs of the house of representatives and senate transportation
34 committees.

35 (2) The department of transportation must submit quarterly all
36 transfers authorized under this section in the transportation
37 executive information system. The office of financial management must
38 maintain a legislative baseline project list identified in the LEAP
39 transportation documents referenced in this act, and update that
40 project list with all authorized transfers under this section.

1 (3) At the time the department submits a request to transfer
2 funds under this section, a copy of the request must be submitted to
3 the transportation committees of the legislature.

4 (4) Before approval, the office of financial management shall
5 work with legislative staff of the house of representatives and
6 senate transportation committees to review the requested transfers in
7 a timely manner.

8 (5) No fewer than ten days after the receipt of a project
9 transfer request, the director of the office of financial management
10 must provide written notification to the department of any decision
11 regarding project transfers, with copies submitted to the
12 transportation committees of the legislature.

13 (6) The department must submit annually as part of its budget
14 submittal a report detailing all transfers made pursuant to this
15 section.

16 NEW SECTION. **Sec. 602.** To the extent that any appropriation
17 authorizes expenditures of state funds from the motor vehicle
18 account, special category C account, Tacoma Narrows toll bridge
19 account, transportation 2003 account (nickel account), transportation
20 partnership account, transportation improvement account, Puget Sound
21 capital construction account, multimodal transportation account,
22 state route number 520 corridor account, or other transportation
23 capital project account in the state treasury for a state
24 transportation program that is specified to be funded with proceeds
25 from the sale of bonds authorized in chapter 47.10 RCW, the
26 legislature declares that any such expenditures made before the issue
27 date of the applicable transportation bonds for that state
28 transportation program are intended to be reimbursed from proceeds of
29 those transportation bonds in a maximum amount equal to the amount of
30 such appropriation.

31 NEW SECTION. **Sec. 603. BELATED CLAIMS**

32 The agencies and institutions of the state may expend moneys
33 appropriated in this act, upon approval of the office of financial
34 management, for the payment of supplies and services furnished to the
35 agency or institution in prior fiscal biennia.

36 NEW SECTION. **Sec. 604. FOR THE DEPARTMENT OF TRANSPORTATION**

1 (1) As part of its 2018 supplemental budget submittal, the
2 department shall provide a report to the legislature and the office
3 of financial management that:

4 (a) Identifies, by capital project, the amount of state funding
5 that has been reappropriated from the 2015-2017 fiscal biennium into
6 the 2017-2019 fiscal biennium; and

7 (b) Identifies, for each project, the amount of cost savings or
8 increases in funding that have been identified as compared to the
9 2015 enacted omnibus transportation appropriations act.

10 (2) As part of the agency request for capital programs, the
11 department shall load reappropriations separately from funds that
12 were assumed to be required for the 2017-2019 fiscal biennium into
13 budgeting systems.

14 NEW SECTION. **Sec. 605. FOR THE DEPARTMENT OF TRANSPORTATION—WEB**
15 **SITE REPORTING REQUIREMENTS**

16 (1) The department of transportation shall post on its web site
17 every report that is due from the department to the legislature
18 during the 2017-2019 fiscal biennium on one web page. The department
19 must post both completed reports and planned reports on a single web
20 page.

21 (2) The department shall provide a web link for each change order
22 that is more than five hundred thousand dollars on the affected
23 project web page.

24 NEW SECTION. **Sec. 606.** (1) By November 15, 2017, and annually
25 thereafter, the department of transportation must report on amounts
26 expended to benefit transit, bicycle, or pedestrian elements within
27 all connecting Washington projects in programs I, P, and Z identified
28 in LEAP Transportation Document 2017-2 ALL PROJECTS as developed
29 April 20, 2017. The report must address each modal category
30 separately and identify if eighteenth amendment protected funds have
31 been used and, if not, the source of funding.

32 (2) To facilitate the report in subsection (1) of this section,
33 the department of transportation must require that all bids on
34 connecting Washington projects include an estimate on the cost to
35 implement any transit, bicycle, or pedestrian project elements.

36 NEW SECTION. **Sec. 607. PROJECT SCOPE CHANGES**

1 (1) The legislature finds that in the course of efficiently
2 delivering connecting Washington projects, it is necessary to create
3 a process for the department of transportation to request and receive
4 approval of practical design-related project scope changes while the
5 legislature is not in session. During the 2017-2019 fiscal biennium,
6 the director of the office of financial management may approve
7 project scope change requests to connecting Washington projects in
8 the highway improvements program, provided that the requests meet the
9 criteria outlined in RCW 47.01.480 and are subject to the limitations
10 in this section.

11 (2) At the time the department of transportation submits a
12 request for a project scope change under this section, a copy of the
13 request must be submitted to the transportation committees of the
14 legislature.

15 (3) Before approval, the office of financial management shall
16 work with legislative staff of the house of representatives and
17 senate transportation committees to review the requested project
18 scope changes.

19 (4) No fewer than ten days after the receipt of a scope change
20 request, the director of the office of financial management must
21 provide written notification to the department of any decision
22 regarding project scope changes, with copies submitted to the
23 transportation committees of the legislature.

24 (5) As part of its annual budget submittal, the department of
25 transportation must report on all approved scope change requests from
26 the prior year, including a comparison of the scope before and after
27 the requested change.

28 **NEW SECTION. Sec. 608. FOR THE DEPARTMENT OF TRANSPORTATION**

29 The department of transportation may provide up to three million
30 dollars in toll credits to Kitsap transit for its role in passenger-
31 only ferry service and ferry corridor-related projects. The number of
32 toll credits provided must be equal to, but no more than, the number
33 sufficient to meet federal match requirements for grant funding for
34 passenger-only ferry service, but must not exceed the amount
35 authorized in this section.

36 **MISCELLANEOUS 2017-2019 FISCAL BIENNIUM**

37 **NEW SECTION. Sec. 701. INFORMATION TECHNOLOGY PROJECTS**

1 (1) All appropriations for designated information technology
2 projects in this act must be placed in unallotted status and must not
3 be expended before the office of the chief information officer
4 certifies that the project complies with state information technology
5 and security policy and strategies. At a minimum, the office of the
6 chief information officer must certify, if the chief information
7 officer deems appropriate, that the project meets critical project
8 success factors, aligns with statewide technology strategy and
9 architecture, reuses existing technology services and solutions,
10 minimizes custom development, complies with security and other policy
11 requirements, and uses modularized, component-based architectures.
12 The office of the chief information officer must evaluate the project
13 at the appropriate stages. The office of the chief information
14 officer must notify the office of financial management and the
15 legislative fiscal committees each time it certifies a project is
16 ready to proceed with the next stage. Appropriations may then be
17 allotted for that certified phase only.

18 (2) The chief information officer may suspend or terminate a
19 project at any time if the chief information officer determines that
20 the project is not meeting or not expected to meet anticipated
21 performance and technology outcomes. Once suspension or termination
22 occurs, the agency shall not make additional expenditures on the
23 project without approval of the chief information officer.

24 The following projects are subject to the conditions,
25 limitations, and review provided in this section: Department of
26 Transportation - Labor System Replacement, Department of
27 Transportation - New Ferry Division Dispatch System, Department of
28 Transportation - Land Mobile Radio System Replacement, and Department
29 of Transportation - New CSC System and Operator.

30 (3) The office of the chief information officer, in consultation
31 with the office of financial management, may identify additional
32 projects to be subject to this section other than those listed in
33 subsection (2) of this section, including projects that are not
34 separately identified within an agency budget.

35 **NEW SECTION. Sec. 702. SETTLEMENT FUNDS EXPENDITURE**

36 The legislature finds that it is appropriate to provide a
37 framework for the administration of mitigation funds provided to the
38 state as a beneficiary under the terms of the consent decrees entered
39 into by the United States, Volkswagen AG, and other participating

1 parties that settle emissions-related claims for 2.0 and 3.0 liter
2 diesel vehicles of certain models and years. The legislature deems
3 the department of ecology the responsible agency for the
4 administration and expenditure of funds provided by the trustee under
5 the terms of the consent decrees, including the development of a
6 mitigation plan to guide the use of the funds, whether or not the
7 department receives funds directly for projects included in the plan.

8 The legislature also finds that a framework to govern the
9 administration of mitigation funds requires appropriations, guiding
10 principles, allocation of funds, consideration of agencies' roles,
11 legislative oversight, and ancillary provisions. Accordingly, the
12 omnibus capital budget for the department of ecology includes the
13 necessary provisions to administer the mitigation funds and the
14 development of the mitigation plan. With respect to this act and
15 transportation governance generally, these provisions require: The
16 participation of legislators from the transportation committees as
17 part of a legislative work group; consultation by the department of
18 ecology with the department of transportation on several components
19 of the plan development and implementation; and consideration of and
20 coordination with the several transportation programs and policies
21 that intersect with potential mitigation actions that may become part
22 of the plan. The department of transportation is directed to work
23 with the department of ecology as needed to facilitate the plan
24 development and implementation.

25 **Sec. 703.** RCW 43.19.642 and 2016 c 197 s 2 are each amended to
26 read as follows:

27 (1) Effective June 1, 2006, for agencies complying with the
28 ultra-low sulfur diesel mandate of the United States environmental
29 protection agency for on-highway diesel fuel, agencies shall use
30 biodiesel as an additive to ultra-low sulfur diesel for lubricity,
31 provided that the use of a lubricity additive is warranted and that
32 the use of biodiesel is comparable in performance and cost with other
33 available lubricity additives. The amount of biodiesel added to the
34 ultra-low sulfur diesel fuel shall be not less than two percent.

35 (2) Except as provided in subsection (5) of this section,
36 effective June 1, 2009, state agencies are required to use a minimum
37 of twenty percent biodiesel as compared to total volume of all diesel
38 purchases made by the agencies for the operation of the agencies'
39 diesel-powered vessels, vehicles, and construction equipment.

1 (3) All state agencies using biodiesel fuel shall, beginning on

36 order to ascertain actual and perceived questions of equitable use of
37 the facility.

38 (4) The department shall modify the pilot project to address
39 identified safety issues and mitigate negative impacts to high
40 occupancy vehicle lane users.

1 (5) Authorization to impose high occupancy vehicle tolls for the
2 state route 167 high occupancy toll pilot project expires if either
3 of the following two conditions apply:

14 the extent that technology permits.

15 (7) The conversion of a single existing high occupancy vehicle
16 lane to a high occupancy toll lane as proposed for SR-167 must be

36 operation of weigh stations;

37 (iv) Review plans by the department of transportation and
38 Washington state patrol to reopen a Federal Way area southbound weigh
39 station;

8 (b) The joint transportation committee must issue a report of its
9 findings and recommendations to the house of representatives and
10 senate transportation committees by December 14, 2015.

11 (3) \$250,000 of the motor vehicle account—state appropriation,
12 from the cities' statewide fuel tax distributions under RCW
13 46.68.110(2), is for a study to be conducted in 2016 to identify
14 prominent road-rail conflicts, recommend a corridor-based
15 prioritization process for addressing the impacts of projected
16 increases in rail traffic, and identify areas of state public policy
17 interest, such as the critical role of freight movement to the
18 Washington economy and the state's competitiveness in world trade.
19 The study must consider the results of the updated marine cargo
20 forecast due to be delivered to the joint transportation committee on
21 December 1, 2015. In conducting the study, the joint transportation
22 committee must consult with the department of transportation, the
23 freight mobility strategic investment board, the utilities and

28 committee to undertake a study during the 2017-2019 fiscal biennium
29 of consolidating rail employee safety and regulatory functions in the
30 utilities and transportation commission. The joint transportation
31 committee should review the information provided by the utilities and
32 transportation commission and should provide recommendations to the
33 transportation committees of the legislature regarding such a
34 consolidation of rail employee safety and regulatory functions.

36 regular sessions of the legislature, the joint transportation
37 committee shall include on its agendas work sessions on the Alaskan

40 outstanding claims, the financial status of the project, and any

1 other information necessary for the legislature to maintain
2 appropriate oversight of the project. The parties invited to present
3 may include the department of transportation, the Seattle tunnel
4 partners, and other appropriate stakeholders. The joint
5 transportation committee shall have at least two such work sessions

11 (7) The joint transportation committee must study the issues
12 surrounding minority and women-owned business contracting related to
13 the transportation sector. The study should identify any best
14 practices adopted in other states that encourage participation by
15 minority and women-owned businesses. The joint transportation
16 committee, with direction from the executive committee, may form a
17 legislative task force at the conclusion of the study to help to
18 inform the legislature of any best practices identified from other
19 states that encourage minority and women-owned businesses'
20 participation in the transportation sector.

21 **Sec. 905.** 2016 c 14 s 205 (uncodified) is amended to read as
22 follows:

23 **FOR THE TRANSPORTATION COMMISSION**

24 Motor Vehicle Account—State Appropriation.	((\$2,667,000))
	<u>\$2,516,000</u>
26 Motor Vehicle Account—Federal Appropriation.	\$500,000
27 Multimodal Transportation Account—State	
28 Appropriation.	\$112,000
29 TOTAL APPROPRIATION.	((\$3,279,000))
	<u>\$3,128,000</u>

31 The appropriations in this section are subject to the following
32 conditions and limitations:

33 (1) \$300,000 of the motor vehicle account—state appropriation is
34 provided solely to continue evaluating a road usage charge as an
35 alternative to the motor vehicle fuel tax to fund investments in
36 transportation. The evaluation must include monitoring and reviewing
37 work that is underway in other states and nationally. The commission
38 may coordinate with the department of transportation to jointly

1 pursue any federal or other funds that are or might become available
2 and eligible for road usage charge pilot projects. The commission
3 must reconvene the road usage charge steering committee, with the
4 same membership authorized in chapter 222, Laws of 2014, and report
5 to the governor's office and the transportation committees of the
6 house of representatives and the senate by December 15, 2015.

7 (2) \$150,000 of the motor vehicle account—state appropriation is
8 provided solely for the commission to use an outside survey firm to
9 conduct three transportation surveys during the 2015-2017 fiscal
10 biennium. The commission must consult with the joint transportation
11 committee when deciding on the survey topics and design to ensure the
12 survey results will deliver the data, information, and analysis for
13 future transportation policy and strategic planning decisions in a
14 manner useful to the legislature.

15 (3)(a) The legislature finds that, while some travel times have
16 improved through Interstate 405 between the junctions with Interstate
17 5 on the north end and NE 6th Street in the city of Bellevue on the
18 south end, especially for transit trips, the implementation of the
19 express toll lane system has made travel more difficult for a number
20 of other drivers and trips. To provide some relief to drivers, the
21 legislature encourages the commission to expedite consideration of
22 the elimination of tolls during evening nonpeak hours, weekends, and
23 holidays, to the extent that such a change will improve commuters'
24 experience on this portion of Interstate 405. The legislature further
25 finds that the commission, as the tolling authority of the state,
26 should act swiftly, working in conjunction with the department of
27 transportation's comprehensive effort to tackle obstacles adversely
28 affecting commutes on this portion of Interstate 405, to drive
29 improved results for the users of this critical corridor as soon as
30 is practicable.

31 (b) In accordance with the rule-making authority provided under
32 RCW 34.05.350(1)(a), the legislature deems it necessary, for
33 preservation of the general welfare, that operational changes be made
34 to improve the express toll lane program on Interstate 405 and that
35 the tolling authority use its emergency rule-making authority to
36 effect such changes in accordance with RCW 47.56.850 and 47.56.880.
37 The legislature finds that the need for improvements to the commuter
38 experience on the portion of Interstate 405 identified in (a) of this
39 subsection necessitates that such action be taken in an expedited
40 fashion. The tolling authority, with input from the department of

1 transportation, shall evaluate the hours and days of operation for
2 the express toll lanes and the minimum high occupancy vehicle
3 passenger requirements for using the express toll lanes, taking into
4 consideration the goals of: Reducing travel time on this portion of
5 Interstate 405, including in the general purpose lanes; reducing the
6 cost of traveling within the express toll lanes on this portion of
7 Interstate 405; and maintaining sufficient revenue to pay for this
8 portion of Interstate 405's express toll lane operating costs. This
9 subsection (3) does not create a private right of action.

10 (4)(a) \$500,000 of the motor vehicle account—federal
11 appropriation is provided solely to advance the work completed since
12 2011 in evaluating a road usage charge as an alternative to the motor
13 vehicle fuel tax to fund future investments in transportation by
14 completing the work necessary to launch a road usage charge pilot
15 project, with all implementation details for a pilot project
16 identified and incorporated into a pilot project implementation plan.

17 (i) Pilot project implementation preparation must include
18 identification of all essential agency roles and responsibilities for
19 the pilot project, a selection of the technologies and methodologies
20 to be included, a target number of participants and participant
21 characteristics, rigorous specific evaluation criteria by which the
22 pilot project will be assessed, a communication plan for the pilot
23 project that consists of a participant recruitment plan and a plan
24 for communicating information about the launch and ongoing progress
25 of the pilot project, and pilot project expenditure and revenue
26 estimates.

27 (ii) In developing the road usage charge pilot project
28 implementation plan, the commission shall consult and coordinate with
29 the department of transportation, the department of licensing, the
30 department of revenue, and the office of the state treasurer to
31 establish participation and coordination parameters for the project.

32 (b) The commission shall coordinate with the department of
33 transportation to jointly pursue any federal or other funds that are
34 or might become available to fund a road usage charge pilot project.
35 Where feasible, grant application content prepared by the commission
36 must reflect the direction provided by the road usage charge steering
37 committee on the preferred road usage charge pilot project approach.
38 One or more grant applications may be developed as part of the road
39 usage charge pilot project implementation plan development work, but
40 the pilot project implementation plan must nevertheless include any

1 details necessary for a full launch of the pilot project not required
2 to be included in any grant application.

3 (c) The commission shall reconvene the road usage charge steering
4 committee, with the same membership authorized in chapter 222, Laws
5 of 2014, as well as the addition of a representative from the Puget
6 Sound regional council, and may obtain guidance from the steering
7 committee when it reaches key pilot project implementation plan
8 development milestones. The commission must provide a report on the
9 road usage charge pilot project implementation plan that includes all
10 implementation details for a road usage charge pilot project to the
11 governor's office and the transportation committees of the house of
12 representatives and the senate by November 1, 2016.

13 ~~((5) \$150,000 of the motor vehicle account state appropriation
14 is provided solely for supporting the disadvantaged business
15 enterprise advisory committee established in chapter . . . (Senate
16 Bill No. 6180), Laws of 2016. If chapter . . . (Senate Bill No.
17 6180), Laws of 2016 is not enacted by June 30, 2016, the amount
18 provided in this subsection lapses.))~~

28 cargo forecast. The board must work with the Washington public ports
29 association to evaluate: (1) Forecasted cargo movement by commodity,
30 type, and mode of land transport; and (2) current and projected
31 freight infrastructure capacity needs. A report on the study must be
32 delivered to the joint transportation committee by December 1, 2015.

14 transit authority to place safe and appropriate signage informing the
15 public of the purpose of the construction activity.

16 (5) The department must make signage for low-height bridges a
17 high priority.

18 (6) \$25,000 of the motor vehicle account—state appropriation is
19 provided solely for the Northwest avalanche center for an additional
20 forecaster. However, the amount in this subsection is contingent on
21 the state parks and recreation commission receiving funding for its

23 appropriations act. If this funding is not provided by June 30, 2016,
24 the appropriation provided in this subsection lapses.

25 (7) \$1,000,000 of the motor vehicle account—state appropriation

4 has occurred that requires maintenance funds.

5 (10) \$161,000 of the motor vehicle account—state appropriation is

7 to power surges that caused an electrical fire. The department shall

20	TOTAL APPROPRIATION.	((59,952,000))
21		<u>\$59,834,000</u>

22 The appropriations in this section are subject to the following
23 conditions and limitations:

24 (1) \$6,000,000 of the motor vehicle account—state appropriation
25 is provided solely for low-cost enhancements. The department shall
26 give priority to low-cost enhancement projects that improve safety or
27 provide congestion relief. The department shall prioritize low-cost
28 enhancement projects on a statewide rather than regional basis. By
29 September 1st of each even-numbered year, the department shall
30 provide a report to the legislature listing all low-cost enhancement
31 projects prioritized on a statewide rather than regional basis
32 completed in the prior year.

33 (2) During the 2015-2017 fiscal biennium, the department shall
34 continue a pilot program that expands private transportation
35 providers' access to high occupancy vehicle lanes. Under the pilot
36 program, when the department reserves a portion of a highway based on
37 the number of passengers in a vehicle, the following vehicles must be
38 authorized to use the reserved portion of the highway if the vehicle

1 has the capacity to carry eight or more passengers, regardless of the
2 number of passengers in the vehicle: (a) Auto transportation company
3 vehicles regulated under chapter 81.68 RCW; (b) passenger charter
4 carrier vehicles regulated under chapter 81.70 RCW, except marked or
5 unmarked stretch limousines and stretch sport utility vehicles as
6 defined under department of licensing rules; (c) private nonprofit
7 transportation provider vehicles regulated under chapter 81.66 RCW;
8 and (d) private employer transportation service vehicles. For
9 purposes of this subsection, "private employer transportation
10 service" means regularly scheduled, fixed-route transportation
11 service that is offered by an employer for the benefit of its
12 employees. Nothing in this subsection is intended to authorize the
13 conversion of public infrastructure to private, for-profit purposes
14 or to otherwise create an entitlement or other claim by private users
15 to public infrastructure.

16 (3) The legislature recognizes that congestion is increasing on
17 southbound Interstate 5 in Lynnwood, between the Lynnwood transit
18 center and the Mountlake Terrace freeway station, and that allowing
19 transit buses to operate on the shoulder would provide congestion
20 relief and more reliable travel times. Therefore, the department
21 shall, within existing resources, implement a transit bus shoulder
22 operations pilot project on southbound Interstate 5 in Lynnwood,
23 between the Lynnwood transit center and the Mountlake Terrace freeway
24 station. The department shall make all necessary changes to handle
25 the increased traffic and provide a ten-foot shoulder for the transit
26 bypass.

27 (4) \$30,000 of the connecting Washington account—state
28 appropriation is provided solely for the department to create and
29 install motorist information sign panels for the Jerry Taylor
30 Veterans Plaza in Sunnyside along the state-owned right-of-way near
31 exits 63, 67, and 69 on Interstate 182 and on state route number 241
32 near the junction with Yakima Valley highway and to install
33 supplemental directional signs as permitted by the affected local
34 government and in accordance with the "Manual on Uniform Traffic
35 Control Devices" and chapter 47.36 RCW.

36 (5) The department shall implement Senate Joint Memorial No. 8019
37 within existing resources if Senate Joint Memorial No. 8019 is
38 enacted by the legislature by June 30, 2016, and the Washington state
39 transportation commission takes action to name the facility per
40 Senate Joint Memorial No. 8019 by June 30, 2017.

1 (4)(a) During the 2015-2017 fiscal biennium, the department may
2 proceed with the pilot project selling commercial advertising,
3 including product placement, on department web sites and social
4 media. In addition, the department may sell a version of its mobile
5 application(s) to users who desire to have access to application(s)
6 without advertising.

7 (b) The department shall deposit all moneys received from the
8 sale of advertisements on web site and mobile applications into the
9 motor vehicle fund created in RCW 46.68.070.

10 (c) The department shall adopt standards for advertising, product
11 placement, and other forms of commercial recognition that require the
12 department to define and prohibit, at a minimum, the content
13 containing any of the following characteristics, which is not
14 permitted: (i) Obscene, indecent, or discriminatory content; (ii)
15 political or public issue advocacy content; (iii) products, services,
16 or other materials that are offensive, insulting, disparaging, or
17 degrading; or (iv) products, services, or messages that are contrary
18 to the public interest, including any advertisements that encourage
19 or depict unsafe behaviors or encourage unsafe or prohibited driving
20 activities. Alcohol, tobacco, and cannabis are included among the
21 products prohibited.

24 to comply with the requirements in section 70202 of the federal
25 fixing America's surface transportation act. In updating the state
26 freight mobility plan, the department must involve key freight
27 stakeholders, such as representatives of public ports, the trucking
28 industry, railroads, the marine industry, local governments and
29 planning organizations, the Washington state freight advisory
30 committee, and other freight stakeholders. The updated plan must
31 delete any obsolete project references from the prioritized freight
32 project list.

33 (b) The department, in conjunction with the stakeholder group,
34 must provide a list of prioritized projects for consideration for
35 funding in the 2017-2019 fiscal biennium. The prioritized list must
36 have approval from all impacted stakeholders. The prioritized list
37 must be submitted to the office of financial management and the
38 transportation committees of the legislature by November 1, 2016.

1 (5) Within existing resources, the department must evaluate how
2 light pollution from state highways and facilities can be minimized
3 while still meeting appropriate safety standards. Additionally, the
4 department must evaluate how budget savings can be achieved through
5 different types of lighting. To the extent practicable, the
6 department must conduct this work in conjunction with other ongoing
7 study and corridor planning efforts.

8 ~~((7))~~ (6) \$150,000 of the motor vehicle account—state
9 appropriation is provided solely for a safety study of state route
10 number 169 from Jones Road to Cedar Grove. The department must
11 consider collision data and work with local stakeholders to make
12 recommendations for safety improvements in the corridor. A report on
13 the study is due to the transportation committees of the legislature
14 by December 31, 2016.

9 appropriation is provided solely for a grant program for special
10 needs transportation provided by transit agencies and nonprofit
11 providers of transportation. Of this amount:

12 (a) \$8,750,000 of the multimodal transportation account—state
13 appropriation is provided solely for grants to nonprofit providers of
14 special needs transportation. Grants for nonprofit providers must be
15 based on need, including the availability of other providers of
16 service in the area, efforts to coordinate trips among providers and
17 riders, and the cost effectiveness of trips provided.

18 (b) \$32,500,000 of the multimodal transportation account—state
19 appropriation is provided solely for grants to transit agencies to
20 transport persons with special transportation needs. To receive a
21 grant, the transit agency must, to the greatest extent practicable,
22 have a maintenance of effort for special needs transportation that is
23 no less than the previous year's maintenance of effort for special
24 needs transportation. Grants for transit agencies must be prorated
25 based on the amount expended for demand response service and route
26 deviated service in calendar year 2013 as reported in the "Summary of
27 Public Transportation - 2013" published by the department of
28 transportation. No transit agency may receive more than thirty
29 percent of these distributions.

30 (2) \$20,438,000 of the rural mobility grant program account—state
31 appropriation is provided solely for grants to aid small cities in
32 rural areas as prescribed in RCW 47.66.100.

33 (3)(a) \$6,969,000 of the multimodal transportation account—state
34 appropriation is provided solely for a vanpool grant program for: (i)
35 Public transit agencies to add vanpools or replace vans; and (ii)
36 incentives for employers to increase employee vanpool use. The grant
37 program for public transit agencies will cover capital costs only;
38 operating costs for public transit agencies are not eligible for
39 funding under this grant program. Additional employees may not be

1 hired from the funds provided in this section for the vanpool grant
2 program, and supplanting of transit funds currently funding vanpools
3 is not allowed. The department shall encourage grant applicants and
4 recipients to leverage funds other than state funds.

5 (b) At least \$1,600,000 of the amount provided in this subsection
6 must be used for vanpool grants in congested corridors.

7 (c) \$400,000 of the amount provided in this subsection is

21 ~~2016~~)) April 20, 2017, Program - Public Transportation Program (V).

22 The department shall review all projects receiving grant awards under
23 this program at least semiannually to determine whether the projects
24 are making satisfactory progress. Any project that has been awarded
25 funds, but does not report activity on the project within one year of
26 the grant award, must be reviewed by the department to determine
27 whether the grant should be terminated. The department shall promptly
28 close out grants when projects have been completed, and any remaining
29 funds must be used only to fund projects identified in the LEAP
30 transportation document referenced in this subsection. The department
31 shall provide annual status reports on December 15, 2015, and
32 December 15, 2016, to the office of financial management and the
33 transportation committees of the legislature regarding the projects
34 receiving the grants. It is the intent of the legislature to
35 appropriate funds through the regional mobility grant program only
36 for projects that will be completed on schedule. A grantee may not
37 receive more than twenty-five percent of the amount appropriated in
38 this subsection. The department shall not approve any increases or
39 changes to the scope of a project for the purpose of a grantee
40 expending remaining funds on an awarded grant.

1 (b) In order to be eligible to receive a grant under (a) of this
2 subsection during the 2015-2017 fiscal biennium, a transit agency

10 transportation provider regulated under chapter 81.66 RCW; or a
11 private employer transportation service provider; and (ii) "private
12 employer transportation service" means regularly scheduled, fixed-
13 route transportation service that is offered by an employer for the
14 benefit of its employees.

15 (6) Funds provided for the commute trip reduction (CTR) program
16 may also be used for the growth and transportation efficiency center
17 program.

18 (7) \$5,670,000 of the multimodal transportation account—state
19 appropriation and \$754,000 of the state vehicle parking account—state
20 appropriation are provided solely for CTR grants and activities.

21 (8) \$200,000 of the multimodal transportation account—state
22 appropriation is contingent on the timely development of an annual
23 report summarizing the status of public transportation systems as
24 identified under RCW 35.58.2796.

25 (9)(a) \$1,000,000 of the multimodal transportation account—state
26 appropriation is provided solely for the Everett connector service
27 for Island and Skagit transit agencies. The amount provided in this
28 subsection is contingent on Island Transit charging fares that
29 achieve a farebox recovery ratio similar to comparable transit
30 systems.

31 (b) The amount provided in (a) of this subsection must be held in
32 unallotted status until the office of financial management determines
33 that fares have been both adopted and implemented by Island Transit
34 that achieve a farebox recovery ratio similar to comparable transit
35 systems. Island Transit must notify the office of financial
36 management when it has met the requirements of this subsection.

37 (10)(a) (~~(\$13,890,000)~~) \$12,565,000 of the multimodal

9 ~~projects that have been funded and projects that have been bypassed,~~
10 ~~including an estimated time frame for when the bypassed project will~~
11 ~~be funded)) April 20, 2017.~~

12 (b) \$831,000 of the amount provided in (a) of this subsection is
13 provided solely for Skagit transit system enhancements for
14 expenditure in 2015-2017.

16 is provided solely for Island transit's tri-county connector service
17 for expenditure in 2015-2017.

18 (d) It is the intent of the legislature to provide \$6,000,000 in
19 the 2017-2019 fiscal biennium and \$6,000,000 in the 2019-2021 fiscal
20 biennium for the Spokane Central city line, in addition to the
21 2015-2017 fiscal biennium funding provided in the LEAP transportation
22 document identified in (a) of this subsection. It is further the

40 agencies in Washington that provide regional public transportation

1 service outside the boundaries of the agency. The study must
2 consider: (a) The cost to provide these existing regional services,
3 the current source of funds for these services, and the applicable
4 ridership data from these existing regional services; (b) the number
5 of trips removed from the state highway system as a result of these
6 regional services; (c) areas of the state highway system that do not
7 have such regional service available; and (d) potential funding
8 sources at the state level to support a portion of current and
9 potential regional services. The public transportation program must
10 provide a report on its findings and recommendations to the
11 transportation committees of the legislature by November 15, 2016.

7 Corridor Improvements project (M00100R), the department shall
8 actively pursue \$50,000,000 in federal funds to pay for this project
9 to supplant state funds in the future. \$50,000,000 in connecting
10 Washington account funding must be held in unallotted status during
11 the 2021-2023 fiscal biennium. These funds may only be used after the
12 department has provided notice to the office of financial management
13 that it has exhausted all efforts to secure federal funds from the
14 federal highway administration and the department of defense.

15 (22) Of the amounts allocated to the Puget Sound Gateway project
16 (M00600R) in LEAP Transportation Document ((~~2016-1~~)) 2017-1 as
17 developed ((~~March 7, 2016~~)) April 20, 2017, \$4,000,000 must be used
18 to complete the bridge connection at 28th/24th Street over state
19 route number 509 in the city of SeaTac. The bridge connection must be
20 completed prior to other construction on the state route number 509
21 segment of the project.

22 (23) In making budget allocations to the Puget Sound Gateway
23 project, the department shall implement the project's construction as
24 a single corridor investment. The department shall develop a
25 coordinated corridor construction and implementation plan for state
26 route number 167 and state route number 509 in collaboration with
27 affected stakeholders. Specific funding allocations must be based on
28 where and when specific project segments are ready for construction
29 to move forward and investments can be best optimized for timely
30 project completion. Emphasis must be placed on avoiding gaps in fund
31 expenditures for either project.

32 (24) It is the intent of the legislature that, for the I-5/North
33 Lewis County Interchange project (L2000204), the department develop
34 and design the project with the objective of significantly improving
35 access to the industrially zoned properties in north Lewis
36 county. The design must consider the county's process of
37 investigating alternatives to improve such access from Interstate 5
38 that began in March 2015.

39 (25) ((~~\$1,500,000~~)) \$901,000 of the motor vehicle account—state
40 appropriation is provided solely for the department to ((~~complete~~))

1 continue to work on an interchange justification report (IJR) for the
2 U.S. 2 trestle, covering the state route number 204 and 20th Street
3 interchanges at the end of the westbound structure.

4 (a) The department shall develop the IJR in close collaboration
5 with affected local jurisdictions, including Snohomish county and the
6 cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

7 (b) Within the amount provided for the IJR, the department must
8 address public outreach and the overall operational approval of the
9 IJR.

10 (c) The department shall complete the IJR and submit the final
11 report to the governor and the transportation committees of the
12 legislature by July 1, 2018.

13 (26)(a) The department must conduct outreach to local transit
14 agencies during the planning process for highway construction
15 projects led by the department.

16 (b) The department must develop process recommendations for best
17 practices in minimizing impacts to transit and freight during project
18 construction. A report on best practices must be submitted to the
19 transportation committees of the legislature by December 1, 2016.

20 (27) The legislature finds that project efficiencies and savings
21 may be gained by combining the I-5 Marine Drive project (I50TC1A1)
22 and the SR 529/I-5 Interchange project (N52900R). The department must
23 deliver them as one project, the I-5 Peak Hour Use Lanes and
24 Interchange Improvements project (L2000229), using a design-build
25 approach.

26 (28)(a) The legislature recognizes that the city of Mercer Island
27 has unique access issues that require the use of Interstate 90 to
28 leave the island and that this access may be impeded by the I-90/Two-
29 Way Transit and HOV Improvements project. (~~The department must~~
30 ~~continue to work with the city of Mercer Island to address potential~~
31 ~~access solutions as the project nears completion~~) One of the most
32 heavily traveled on-ramps from Mercer Island to the westbound
33 Interstate 90 general purpose lanes is from Island Crest Way. The
34 department must continue to consult with the city of Mercer Island
35 and the other signatories to the 1976 memorandum of agreement to
36 preserve access provided to Mercer Island by the Island Crest Way on-
37 ramp, and thus grandfather-in the current use of the on-ramp for both
38 high occupancy vehicles as well as vehicles seeking to access the
39 general purpose lanes of Interstate 90. The department must consider
40 all reasonable access solutions, including allowing all vehicles to

1 use the Island Crest Way on-ramp to access the new high occupancy
2 vehicle lane with a reasonable and safe distance provided for single-
3 occupancy vehicles to merge into the general purpose lanes.

4 (b) A final access solution must consider the following criteria:
5 Safety; operational effects on all users, including maintaining
6 historic access to Interstate 90 provided from Mercer Island by
7 Island Crest Way; enforcement requirements; and compliance with state
8 and federal law.

9 (c) The department may not restrict by occupancy the westbound
10 on-ramp from Island Crest Way until a final access solution that
11 meets the criteria in (b) of this subsection has been reached.

12 (29) \$9,500,000 of the Interstate 405 express toll lanes
13 operations account—state appropriation is provided solely for the
14 I-405 NB Hard Shoulder Running - SR 527 to I-5 project (L1000163).

8 (1) Except as provided otherwise in this section, the entire
9 transportation 2003 account (nickel account) appropriation and the
10 entire transportation partnership account appropriation are provided
11 solely for the projects and activities as listed by fund, project,
12 and amount in LEAP Transportation Document ((~~2016-1~~)) 2017-1 as
13 developed ((~~March 7, 2016~~)) April 20, 2017, Program - Highway

23 ALL PROJECTS as developed ((~~March 7, 2016~~)) April 20, 2017, Program -
24 Highway Preservation Program (P). Any federal funds gained through
25 efficiencies, adjustments to the federal funds forecast, additional
26 congressional action not related to a specific project or purpose, or
27 the federal funds redistribution process must then be applied to
28 highway and bridge preservation activities. However, no additional
29 federal funds may be allocated to the I-5/Columbia River Crossing
30 project (400506A).

31 (3) Within the motor vehicle account—state appropriation and
32 motor vehicle account—federal appropriation, the department may
33 transfer funds between programs I and P, except for funds that are
34 otherwise restricted in this act.

36 appropriation includes up to ((~~\$28,032,000~~)) \$26,654,000 in proceeds
37 from the sale of bonds authorized in RCW 47.10.861.

38 (5) The department shall examine the use of electric arc furnace
39 slag for use as an aggregate for new roads and paving projects in

1 high traffic areas and report back to the legislature by December 1,
2 2015, on its current use in other areas of the country and any
3 characteristics that can provide greater wear resistance and skid
4 resistance in new pavement construction.

5 (6) (~~(\$38,142,000)~~) \$6,545,000 of the motor vehicle account—
6 federal appropriation and (~~(\$858,000)~~) \$188,000 of the motor vehicle
7 account—state appropriation are provided solely for the preservation
8 of structurally deficient bridges or bridges that are at risk of
9 becoming structurally deficient. These funds must be used widely
10 around the state of Washington. The department shall provide a report
11 that identifies the scope, cost, and benefit of each project funded
12 in this subsection as part of its 2016 agency budget request.

13 (7) Except as provided otherwise in this section, the entire
14 connecting Washington account appropriation in this section is
15 provided solely for the projects and activities as listed in LEAP
16 Transportation Document (~~(2016-1)~~) 2017-1 as developed (~~(March 7,~~
17 ~~2016)~~) April 20, 2017, Program - Highway Preservation Program (P).

18 (8) It is the intent of the legislature that, with respect to the
19 amounts provided for highway preservation from the connecting
20 Washington account, the department consider the preservation and
21 rehabilitation of concrete roadway on Interstate 5 from the Canadian
22 border to the Oregon border to be a priority within the preservation
23 program.

24 (9) \$5,000,000 of the motor vehicle account—state appropriation
25 is provided solely for extraordinary costs incurred from litigation
26 awards, settlements, or dispute mitigation activities not eligible
27 for funding from the self-insurance fund. The amount provided in this
28 subsection must be held in unallotted status until the department
29 submits a request to the office of financial management that includes
30 documentation detailing litigation-related expenses. The office of
31 financial management may release the funds only when it determines
32 that all other funds designated for litigation awards, settlements,
33 and dispute mitigation activities have been exhausted. No funds
34 provided in this subsection may be expended on any legal fees related
35 to the SR99/Alaskan Way viaduct replacement project.

36 (10)(a) The department and the Washington state patrol must work

6 (11) The department must consult with the Washington state patrol
7 during the design phase of a department-led improvement or
8 preservation project that could impact weigh station operations. The
9 department must ensure that the designs of the projects do not
10 prevent or interfere with weigh station operations.

26 for federally selected competitive grants or congressional earmark
27 projects that require matching state funds. State funds set aside as
28 matching funds for federal projects must be accounted for in project

11		<u>\$391,891,000</u>

12 The appropriations in this section are subject to the following
13 conditions and limitations:

14 (1) Except as provided otherwise in this section, the entire
15 appropriations in this section are provided solely for the projects
16 and activities as listed in LEAP Transportation Document ((2016-2))
17 2017-2 ALL PROJECTS as developed ((~~March 7, 2016~~)) April 20, 2017,
18 Program - Washington State Ferries Capital Program (W).

19 (2) \$90,545,000 of the transportation 2003 account (nickel
20 account)—state appropriation is provided solely for the acquisition
21 of a 144-car vessel (L1000063). The department shall use as much
22 already procured equipment as practicable on the 144-car vessels.

23 (3) ((~~\$46,989,000~~)) \$26,742,000 of the Puget Sound capital
24 construction account—federal appropriation, ((~~\$2,000,000~~)) \$5,884,000
25 of the connecting Washington account—state appropriation, \$562,000 of

31 \$159,061,000 to complete the Mukilteo Terminal Replacement project
32 (952515P). These funds are identified in the LEAP transportation
33 document referenced in subsection (1) of this section. To the
34 greatest extent practicable and within available resources, the
35 department shall design the new terminal to be a net zero energy
36 building. To achieve this goal, the department shall evaluate using
37 highly energy efficient equipment and systems, and the most
38 appropriate renewable energy systems for the needs and location of
39 the terminal.

1 (4) \$7,000,000 of the Puget Sound capital construction account—
2 state appropriation is provided solely for emergency capital repair
3 costs (999910K). Funds may only be spent after approval by the office
4 of financial management.

5 (5) Consistent with RCW 47.60.662, which requires the Washington
6 state ferry system to collaborate with passenger-only ferry and
7 transit providers to provide service at existing terminals, the
8 department shall ensure that multimodal access, including for
9 passenger-only ferries and transit service providers, is not
10 precluded by any future terminal modifications.

11 (6) If the department pursues a conversion of the existing diesel
12 powered Issaquah class fleet to a different fuel source or engine
13 technology or the construction of a new vessel powered by a fuel
14 source or engine technology that is not diesel powered, the
15 department must use a design-build procurement process.

16 (7) Funding is included in the future biennia of the LEAP
17 transportation document referenced in subsection (1) of this section
18 for future vessel purchases. Given that the recent purchase of new
19 vessels varies from the current long range plan, the department shall
20 include in its updated long range plan revised estimates for new
21 vessel costs, size, and purchase time frames. Additionally, the long
22 range plan must include a vessel retirement schedule and associated
23 reserve vessel policy recommendations.

24 (8) \$325,000 of the Puget Sound capital construction account—
25 state appropriation is provided solely for the ferry system to
26 participate in the development of one account-based system for
27 customers of both the ferry system and tolling system. The current
28 Wave2Go ferry ticketing system is reaching the end of its useful life
29 and the department is expected to develop a replacement account-based
30 system as part of the new tolling division customer service center
31 toll collection system.

32 (9) Within existing resources, the department must evaluate the
33 feasibility of utilizing the federal EB-5 immigrant investor program
34 for financing the construction of a safety of life at sea (SOLAS)
35 certificated vessel for the Anacortes-Sidney ferry route. The
36 department must establish a group that includes, but is not limited
37 to, the department of commerce and entities or individuals
38 experienced with vessel engineering and EB-5 financing for assistance
39 in evaluating the applicability of the EB-5 immigrant investor
40 program. The department must deliver a report containing the results

1 of the evaluation to the transportation committees of the legislature
2 and the office of financial management by December 1, 2015.

3 (10) It is the intent of the legislature, over the sixteen-year
4 investment program, to provide (~~(\$316,000,000)~~) \$349,500,000 to
5 complete the Seattle Terminal Replacement project (900010L),
6 including: (a) Design work and selection of a preferred plan, (b)
7 replacing timber pilings with pilings sufficient to support a
8 selected terminal design, (c) replacing the timber portion of the
9 dock with a new and reconfigured steel and concrete dock, and (d)
10 other staging and construction work as the amount allows. These funds
11 are identified in the LEAP transportation document referenced in
12 subsection (1) of this section.

13 (11) It is the intent of the legislature, over the sixteen-year
14 new investment program, to provide \$122,000,000 in state funds to
15 complete the acquisition of a fourth 144-car vessel (L2000109). These
16 funds are identified in the LEAP transportation document referenced
17 in subsection (1) of this section.

18 (12) \$300,000 of the Puget Sound capital construction account—
19 state appropriation is provided solely to issue a request for
20 proposals and purchase pilot program customer counting equipment. By
21 June 30, 2017, the department must report to the governor and the
22 transportation committees of the legislature on the most effective
23 way to count ferry passengers.

24 (13) (~~(\$1,430,000)~~) \$1,255,000 of the Puget Sound capital
25 construction account—federal appropriation and (~~(\$1,366,000)~~)
26 \$889,000 of the Puget Sound capital construction—state appropriation
27 are provided solely for installation of security access control and
28 video monitoring systems, and for enhancing wireless network capacity
29 to handle higher security usage, increase connectivity between
30 vessels and land-based facilities, and isolate the security portion
31 of the network from regular business (~~((project))~~) 998925A).

32 (14) The transportation 2003 account (nickel account)—state
33 appropriation includes up to (~~(\$4,131,000)~~) \$17,817,000 in proceeds
34 from the sale of bonds authorized in RCW 47.10.861.

35 (15) The department shall submit a cost estimate to procure a
36 fifth 144-car vessel to the governor and the transportation
37 committees of the legislature by June 30, 2017. The estimate must
38 include, but is not limited to, construction costs, estimated

1 operating costs, and any potential savings from replacing a currently
2 operating vessel with a fifth 144-car vessel.

18 The appropriations in this section are subject to the following
19 conditions and limitations:

20 (1) Except as provided otherwise in this section, the entire
21 appropriations in this section are provided solely for the projects
22 and activities as listed by project and amount in LEAP Transportation
23 Document ((~~2016-2~~)) 2017-2 ALL PROJECTS as developed ((~~March 7,~~
24 ~~2016~~)) April 20, 2017, Program - Rail Program (Y).

25 (2) \$5,000,000 of the transportation infrastructure account—state
26 appropriation is provided solely for new low-interest loans approved
27 by the department through the freight rail investment bank (FRIB)
28 program. The department shall issue FRIB program loans with a
29 repayment period of no more than ten years, and charge only so much
30 interest as is necessary to recoup the department's costs to
31 administer the loans. For the 2015-2017 fiscal biennium, the
32 department shall first award loans to 2015-2017 FRIB loan applicants
33 in priority order, and then offer loans to 2015-2017 unsuccessful
34 freight rail assistance program grant applicants, if eligible. If any
35 funds remain in the FRIB program, the department may reopen the loan
36 program and shall evaluate new applications in a manner consistent
37 with past practices as specified in section 309, chapter 367, Laws of
38 2011. The department shall report annually to the transportation

1 committees of the legislature and the office of financial management
2 on all FRIB loans issued.

3 (3)(a) (~~(\$5,484,000)~~) \$5,429,000 of the multimodal transportation
4 account—state appropriation, \$270,000 of the essential rail
5 assistance account—state appropriation, and \$455,000 of the
6 transportation infrastructure account—state appropriation are
7 provided solely for new statewide emergent freight rail assistance
8 projects identified in the LEAP transportation document referenced in
9 subsection (1) of this section.

10 (b) Of the amounts provided in this subsection, \$367,000 of the
11 transportation infrastructure account—state appropriation and
12 \$1,100,000 of the multimodal transportation account—state
13 appropriation are provided solely to reimburse Highline Grain, LLC
14 for approved work completed on Palouse River and Coulee City (PCC)
15 railroad track in Spokane county between the BNSF Railway Interchange
16 at Cheney and Geiger Junction and must be administered in a manner
17 consistent with freight rail assistance program projects. The value
18 of the public benefit of this project is expected to meet or exceed
19 the cost of this project in: Shipper savings on transportation costs;
20 jobs saved in rail-dependent industries; and/or reduced future costs
21 to repair wear and tear on state and local highways due to fewer
22 annual truck trips (reduced vehicle miles traveled). The amounts
23 provided in this subsection are not a commitment for future
24 legislatures, but it is the legislature's intent that future
25 legislatures will work to approve biennial appropriations until the
26 full \$7,337,000 cost of this project is reimbursed.

27 (4) (~~(\$487,297,000)~~) \$487,163,000 of the multimodal

29 \$10,991,000 of the multimodal transportation account—state
30 appropriation are provided solely for expenditures related to
31 passenger high-speed rail grants. Except for the Mount Vernon project
32 (P01101A), the multimodal transportation account—state funds reflect
33 no more than one and one-half percent of the total project funds, and
34 are provided solely for expenditures that are not eligible for
35 federal reimbursement.

36 (5)(a) \$1,114,000 of the essential rail assistance account—state
37 appropriation, \$766,000 of the multimodal transportation account—
38 state appropriation, and \$68,000 of the transportation infrastructure
39 account—state appropriation are provided solely for the purpose of

1 the rehabilitation and maintenance of the Palouse river and Coulee
2 City railroad line (F01111B).

3 (b) Expenditures from the essential rail assistance account—state

11 (6) The department shall issue a call for projects for the
