FILED

**Secretary of State
State of Washington**

SENATE BILL 5976

Passed Legislature - 2017 3rd Special Session

State of Washington 65th Legislature 2017 3rd Special Session

By Senators Rivers and Lias

Read first time 06/30/17.

1 AN ACT Relating to wages or hours of individual providers;
2 amending RCW 74.39A.270; and declaring an emergency.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 **Sec. 1.** RCW 74.39A.270 and 2016 sp.s. c 30 s 1 are each amended
5 to read as follows:

6 (1) Solely for the purposes of collective bargaining and as
7 expressly limited under subsections (2) and (3) of this section, the
8 governor is the public employer, as defined in chapter 41.56 RCW, of
9 individual providers, who, solely for the purposes of collective
10 bargaining, are public employees as defined in chapter 41.56 RCW. To
11 accommodate the role of the state as payor for the community-based
12 services provided under this chapter and to ensure coordination with
13 state employee collective bargaining under chapter 41.80 RCW and the
14 coordination necessary to implement RCW 74.39A.300, the public
15 employer shall be represented for bargaining purposes by the governor
16 or the governor's designee appointed under chapter 41.80 RCW. The
17 governor or governor's designee shall periodically consult with the
18 authority during the collective bargaining process to allow the
19 authority to communicate issues relating to the long-term in-home
20 care services received by consumers. The department shall solicit
21 input from the developmental disabilities council, the governor's

1 committee on disability issues and employment, the state council on
2 aging, and other consumer advocacy organizations to obtain informed
3 input from consumers on their interests, including impacts on
4 consumer choice, for all issues proposed for collective bargaining
5 under subsections (5) and (6) of this section.

6 (2) Chapter 41.56 RCW governs the collective bargaining
7 relationship between the governor and individual providers, except as
8 otherwise expressly provided in this chapter and except as follows:

9 (a) The only unit appropriate for the purpose of collective
10 bargaining under RCW 41.56.060 is a statewide unit of all individual
11 providers;

12 (b) The showing of interest required to request an election under
13 RCW 41.56.060 is ten percent of the unit, and any intervener seeking
14 to appear on the ballot must make the same showing of interest;

15 (c) The mediation and interest arbitration provisions of RCW
16 41.56.430 through 41.56.470 and 41.56.480 apply, except that:

17 (i) With respect to commencement of negotiations between the
18 governor and the bargaining representative of individual providers,
19 negotiations shall be commenced by May 1st of any year prior to the
20 year in which an existing collective bargaining agreement expires;
21 and

22 (ii) The decision of the arbitration panel is not binding on the
23 legislature and, if the legislature does not approve the request for
24 funds necessary to implement the compensation and fringe benefit
25 provisions of the arbitrated collective bargaining agreement, is not
26 binding on the authority or the state;

27 (d) Individual providers do not have the right to strike; and

28 (e) Individual providers who are related to, or family members
29 of, consumers or prospective consumers are not, for that reason,
30 exempt from this chapter or chapter 41.56 RCW.

31 (3) Individual providers who are public employees solely for the
32 purposes of collective bargaining under subsection (1) of this
33 section are not, for that reason, employees of the state, its
34 political subdivisions, or an area agency on aging for any purpose.
35 Chapter 41.56 RCW applies only to the governance of the collective
36 bargaining relationship between the employer and individual providers
37 as provided in subsections (1) and (2) of this section.

38 (4) Consumers and prospective consumers retain the right to
39 select, hire, supervise the work of, and terminate any individual
40 provider providing services to them. Consumers may elect to receive

1 long-term in-home care services from individual providers who are not
2 referred to them by the authority.

3 (5) Except as expressly limited in this section and RCW
4 74.39A.300, the wages, hours, and working conditions of individual
5 providers are determined solely through collective bargaining as
6 provided in this chapter. Except as described in subsection (9) of
7 this section, no agency or department of the state may establish
8 policies or rules governing the wages or hours of individual
9 providers. This subsection does not modify:

10 (a) The department's authority to establish a plan of care for
11 each consumer or its core responsibility to manage long-term in-home
12 care services under this chapter, including determination of the
13 level of care that each consumer is eligible to receive. However, at
14 the request of the exclusive bargaining representative, the governor
15 or the governor's designee appointed under chapter 41.80 RCW shall
16 engage in collective bargaining, as defined in RCW 41.56.030(4), with
17 the exclusive bargaining representative over how the department's
18 core responsibility affects hours of work for individual providers.
19 This subsection shall not be interpreted to require collective
20 bargaining over an individual consumer's plan of care;

21 (b)(i) The requirement that the number of hours the department
22 may pay any single individual provider is limited to:

23 (A) Sixty hours each workweek if the individual provider was
24 working an average number of hours in excess of forty hours for the
25 workweeks during January 2016, except for fiscal years 2016 (~~and~~),
26 2017, and 2018, the limit is sixty-five hours each workweek; or

27 (B) Forty hours each workweek if the individual provider was not
28 working an average number of hours in excess of forty hours for the
29 workweeks during January 2016, or had no reported hours for the month
30 of January 2016.

31 (ii) Additional hours may be authorized under criteria
32 established by rules adopted by the department under subsection (9)
33 of this section.

34 (iii) Additional hours may be authorized for required training
35 under RCW 74.39A.074, 74.39A.076, and 74.39A.341.

36 (iv) An individual provider may appeal to the department for
37 qualification for the hour limitation in (b)(i)(A) of this subsection
38 if the average weekly hours the (~~individual~~) individual provider
39 was working in January 2016 materially underrepresent the average

1 weekly hours worked by the individual provider during the first three
2 months of 2016.

3 (v) No individual provider is subject to the hour limitations in
4 (b)(i)(A) of this subsection until the department has conducted a
5 review of the plan of care for the consumers served by the
6 (~~(individual)~~) individual provider. The department shall review
7 plans of care expeditiously, starting with consumers connected with
8 the most individual provider overtime;

9 (c) The requirement that the total number of additional hours in
10 excess of forty hours authorized under (b) of this subsection and
11 subsection (9) of this section are limited by the total hours as
12 provided in subsection (10) of this section;

13 (d) The department's authority to terminate its contracts with
14 individual providers who are not adequately meeting the needs of a
15 particular consumer, or to deny a contract under RCW 74.39A.095(8);

16 (e) The consumer's right to assign hours to one or more
17 individual providers consistent with the rules adopted under this
18 chapter and his or her plan of care;

19 (f) The consumer's right to select, hire, terminate, supervise
20 the work of, and determine the conditions of employment for each
21 individual provider providing services to the consumer under this
22 chapter;

23 (g) The department's obligation to comply with the federal
24 medicaid statute and regulations and the terms of any community-based
25 waiver granted by the federal department of health and human services
26 and to ensure federal financial participation in the provision of the
27 services; and

28 (h) The legislature's right to make programmatic modifications to
29 the delivery of state services under this title, including standards
30 of eligibility of consumers and individual providers participating in
31 the programs under this title, and the nature of services provided.
32 The governor shall not enter into, extend, or renew any agreement
33 under this chapter that does not expressly reserve the legislative
34 rights described in this subsection (5)(h).

35 (6) At the request of the exclusive bargaining representative,
36 the governor or the governor's designee appointed under chapter 41.80
37 RCW shall engage in collective bargaining, as defined in RCW
38 41.56.030(4), with the exclusive bargaining representative over
39 employer contributions to the training partnership for the costs of:
40 (a) Meeting all training and peer mentoring required under this

1 chapter; and (b) other training intended to promote the career
2 development of individual providers.

3 (7) The state, the department, the area agencies on aging, or
4 their contractors under this chapter may not be held vicariously or
5 jointly liable for the action or inaction of any individual provider
6 or prospective individual provider, whether or not that individual
7 provider or prospective individual provider was included on the
8 referral registry or referred to a consumer or prospective consumer.
9 The existence of a collective bargaining agreement, the placement of
10 an individual provider on the referral registry, or the development
11 or approval of a plan of care for a consumer who chooses to use the
12 services of an individual provider and the provision of case
13 management services to that consumer, by the department or an area
14 agency on aging, does not constitute a special relationship with the
15 consumer.

16 (8) Nothing in this section affects the state's responsibility
17 with respect to unemployment insurance for individual providers.
18 However, individual providers are not to be considered, as a result
19 of the state assuming this responsibility, employees of the state.

20 (9) The department may not pay any single individual provider
21 more than the hours listed in subsection (5)(b) of this section
22 unless the department authorizes additional hours under criteria
23 established by rule. The criteria must be limited in scope to reduce
24 the state's exposure to payment of overtime, address travel time from
25 worksite to worksite, and address the following needs of consumers:

26 (a) Ensuring that consumers are not at increased risk for
27 institutionalization;

28 (b) When there is a limited number of (~~{individual}~~) individual
29 providers within the geographic region of the consumer;

30 (c) When there is a limited number of (~~{individual}~~) individual
31 providers available to support a consumer with complex medical and
32 behavioral needs or specific language needs;

33 (d) Emergencies that could pose a health and safety risk for
34 consumers; and

35 (e) Instances where the cost of the allowed hour is less than
36 other alternatives to provide care to a consumer, distinct from any
37 increased risk of institutionalization.

38 (10)(a) Each fiscal year, the department shall establish a
39 spending plan and a system to monitor the authorization and cost of
40 hours in excess of forty hours each workweek from subsections (5)(b)

1 and (9) of this section beginning July 1, 2016, and each fiscal year
2 thereafter. Expenditures for hours in excess of forty hours each
3 workweek under subsections (5)(b) and (9) of this section shall not
4 exceed 8.75 percent of the total average authorized personal care
5 hours for the fiscal year as projected by the caseload forecast
6 council. The caseload forecast council may adopt a temporary
7 adjustment to the 8.75 percent of the total average hours projection
8 for that fiscal year, up to a maximum of 10.0 percent, if it finds a
9 higher percentage of overtime hours is necessitated by a shortage of
10 individual providers to provide adequate client care, taking into
11 consideration factors including the criteria in subsection (9) of
12 this section. If the council elects to temporarily increase the
13 limit, it may do so only upon a majority vote of the council.

14 (b) The department also shall provide expenditure reports
15 beginning September 1, 2016, and on a quarterly basis thereafter. If
16 the department determines, based upon quarterly expenditure reports,
17 that the annual expenditures will exceed the limitation established
18 in (a) of this subsection, the department shall take those actions
19 necessary to ensure compliance with the limitation.

20 (c) The spending plan and expenditure reports must be submitted
21 to the legislative fiscal committees and the joint legislative-
22 executive overtime oversight task force. The joint legislative-
23 executive overtime oversight task force members are as follows:

24 (i) Two members from each of the two largest caucuses of the
25 senate, appointed by the respective caucus leaders.

26 (ii) The speaker of the house of representatives shall appoint
27 two members from each of the two largest caucuses of the house of
28 representatives.

29 (iii) The governor shall appoint members representing the
30 department of social and health services and the office of financial
31 management.

32 (iv) The governor shall appoint two members representing
33 individual providers and two members representing consumers receiving
34 personal care or respite care services from an individual provider.

35 (d) The task force shall meet at least annually, but may meet
36 more frequently as desired by the task force. The task force shall
37 choose cochairs, one from among the legislative members and one from
38 among the executive branch members.

39 (e) The department is authorized to adopt rules, including
40 emergency rules under RCW 34.05.350, to implement this subsection.

1 NEW SECTION. **Sec. 2.** This act is necessary for the immediate
2 preservation of the public peace, health, or safety, or support of
3 the state government and its existing public institutions, and takes
4 effect immediately.

--- END ---
