8 The appropriations in this section are subject to the following
9 conditions and limitations:

10 (1) \$1,300,000 of the Tacoma Narrows toll bridge account—state
11 appropriation and \$9,048,000 of the state route number 520 corridor
12 account—state appropriation are provided solely for the purposes of
13 addressing unforeseen operations and maintenance costs on the Tacoma
14 Narrows bridge and the state route number 520 bridge, respectively.
15 The office of financial management shall place the amounts provided
16 in this subsection, which represent a portion of the required minimum
17 fund balance under the policy of the state treasurer, in unallotted
18 status. The office may release the funds only when it determines that
19 all other funds designated for operations and maintenance purposes
20 have been exhausted.

29 Narrows toll bridge account—state appropriation, and \$1,191,000 of
30 the Interstate 405 express toll lanes operations account—state

32 toll adjudication process.

33 (4) The department shall make detailed quarterly expenditure
34 reports available to the Washington state transportation commission
35 and to the public on the department's web site using current
36 resources. The reports must include a summary of toll revenue by
37 facility on all operating toll facilities and high occupancy toll
38 lane systems, and an itemized depiction of the use of that revenue.

1 (5) As long as the facility is tolled, the department must
2 provide quarterly reports to the transportation committees of the
3 legislature on the Interstate 405 express toll lane project
4 performance measures listed in RCW 47.56.880(4). These reports must
5 include:

6 (a) Information on the travel times and travel time reliability
7 (at a minimum, average and 90th percentile travel times) maintained
8 during peak and nonpeak periods in the express toll lanes and general
9 purpose lanes for both the entire corridor and commonly made trips in
10 the corridor including, but not limited to, northbound from Bellevue
11 to Rose Hill, state route number 520 at NE 148th to Interstate 405 at
12 state route number 522, Bellevue to Bothell (both NE 8th to state
13 route number 522 and NE 8th to state route number 527), and a trip
14 internal to the corridor (such as NE 85th to NE 160th) and similar
15 southbound trips;

16 (b) A month-to-month comparison of travel times and travel time
17 reliability for the entire corridor and commonly made trips in the
18 corridor as specified in (a) of this subsection since implementation
19 of the express toll lanes and, to the extent available, a comparison
20 to the travel times and travel time reliability prior to
21 implementation of the express toll lanes;

22 (c) Total express toll lane and total general purpose lane
23 traffic volumes, as well as per lane traffic volumes for each type of
24 lane (i) compared to total express toll lane and total general
25 purpose lane traffic volumes, as well as per lane traffic volumes for
26 each type of lane, on this segment of Interstate 405 prior to
27 implementation of the express toll lanes and (ii) compared to total
28 express toll lane and total general purpose lane traffic volumes, as
29 well as per lane traffic volumes for each type of lane, from month to
30 month since implementation of the express toll lanes; and

31 (d) Underlying congestion measurements, that is, speeds, that are
32 being used to generate the summary graphs provided, to be made
33 available in a digital file format.

34 (6) \$666,000 of the high occupancy toll lanes operations account—
35 state appropriation, \$11,527,000 of the state route number 520
36 corridor account—state appropriation, \$4,955,000 of the Tacoma
37 Narrows toll bridge account—state appropriation, \$4,286,000 of the
38 Interstate 405 express toll lanes operations account—state
39 appropriation, and \$6,506,000 of the Alaskan Way viaduct replacement

1 project account—state appropriation are provided solely for the
2 department to implement a new tolling customer service toll
3 collection system, and are subject to the conditions, limitations,
4 and review provided in section 701 (~~of this act~~), chapter 313, Laws
5 of 2017.

6 (a) The office of financial management shall place \$2,000,000 of
7 the amounts provided in this subsection in unallotted status, to be
8 distributed between the facilities using the account proportions in
9 this subsection. If the vendors selected as the successful bidders
10 for the new tolling customer service toll collection system or the
11 operator of the new system are different than the vendor as of
12 January 1, 2017, the office of financial management may release
13 portions of this amount as transition costs.

14 (b) The funds provided in this subsection from the Alaskan Way
15 viaduct replacement project account—state appropriation are provided
16 through a transfer from the motor vehicle account—state in section
17 408(26) (~~of this act~~), chapter 313, Laws of 2017. These funds are a
18 loan to the Alaskan Way viaduct replacement project account—state,
19 and the legislature assumes that these funds will be reimbursed to
20 the motor vehicle account—state at a later date when the portion of
21 state route number 99 that is the deep bore tunnel is operational.

22 (c) The department must provide a project status report to the
23 office of financial management and the transportation committees of
24 the legislature on at least a calendar quarterly basis. The report
25 must include, but is not limited to:

- 26 (i) Detailed information about the planned and actual scope,
27 schedule, and budget;
- 28 (ii) Status of key vendor and other project deliverables; and
- 29 (iii) A description of significant changes to planned
30 deliverables or system functions over the life of the project.

31 (d) The department shall continue to work with the office of
32 financial management, office of the chief information officer, and
33 the transportation committees of the legislature on the project
34 management plan that includes a provision for independent
35 verification and validation of contract deliverables from the
36 successful bidder and a provision for quality assurance that includes
37 reporting independently to the office of the chief information
38 officer on an ongoing basis during system implementation.

1 (7) The department shall make detailed quarterly reports to the
2 governor and the transportation committees of the legislature on the
3 following:

4 (a) The use of consultants in the tolling program, including the
5 name of the contractor, the scope of work, the type of contract,
6 timelines, deliverables, any new task orders, and any extensions to
7 existing consultant contracts;

8 (b) The nonvendor costs of administering toll operations,
9 including the costs of staffing the division, consultants and other
10 personal service contracts required for technical oversight and
11 management assistance, insurance, payments related to credit card
12 processing, transponder purchases and inventory management, facility
13 operations and maintenance, and other miscellaneous nonvendor costs;
14 and

15 (c) The vendor-related costs of operating tolled facilities,
16 including the costs of the customer service center, cash collections
17 on the Tacoma Narrows bridge, electronic payment processing, and toll
18 collection equipment maintenance, renewal, and replacement.

19 (d) The toll adjudication process, including a summary table for
20 each toll facility that includes:

21 (i) The number of notices of civil penalty issued;

22 (ii) The number of recipients who pay before the notice becomes a
23 penalty;

24 (iii) The number of recipients who request a hearing and the
25 number who do not respond;

26 (iv) Workload costs related to hearings;

27 (v) The cost and effectiveness of debt collection activities; and

28 (vi) Revenues generated from notices of civil penalty.

29 (8) (~~(\$13,617,000)~~) \$13,179,000 of the Interstate 405 express
30 toll lanes operations account—state appropriation is provided solely
31 for operational costs related to the express toll lane facility. The
32 office of financial management shall place \$6,808,000 of the amount
33 provided in this subsection in unallotted status. The office of
34 financial management may only release the funds to the department
35 upon the passage of a 2018 supplemental transportation budget.

36 (9) In 2021, toll equipment on the Tacoma Narrows Bridge will
37 have reached the end of its operational life. During the 2017-2019
38 fiscal biennium, the department plans to issue a request for
39 proposals as the first stage of a competitive procurement process
40 that will replace the toll equipment and select a new tolling

1 operator for the Tacoma Narrows Bridge. The request for proposals and
2 subsequent competitive procurement must incorporate elements that
3 prioritize the overall goal of lowering costs per transaction for the
4 facility, such as incentives for innovative approaches which result
5 in lower transactional costs, requests for efficiencies on the part
6 of the bidder that lower operational costs, and incorporation of
7 technologies such as self-serve credit card machines or other point-
8 of-payment technologies that lower costs or improve operational
9 efficiencies.

10 (10) \$5,583,000 of the Alaskan Way viaduct replacement project
11 account—state appropriation is provided solely for the new state
12 route number 99 tunnel toll facility's expected proportional share of
13 collecting toll revenues, operating customer services, and
14 maintaining toll collection systems for the last seven months of the
15 biennium. Due to the uncertainty of the new state route number 99
16 tunnel toll facility timeline, the legislature is holding the other
17 tolled facilities' administrative cost shares constant for this
18 biennium. The legislature expects to see appropriate reductions to
19 the other toll facility accounts once tolling on the new state route
20 number 99 tunnel toll facility commences and any previously incurred
21 costs for start-up of the new facility are charged back to the
22 Alaskan Way viaduct replacement project account. The office of
23 financial management shall closely monitor the application of the
24 cost allocation model and ensure that the new state route number 99
25 tunnel toll facility is adequately sharing costs and the other toll
26 facility accounts are not being overspent or subsidizing the new
27 state route number 99 tunnel toll facility.

28 (11) \$1,849,000 of the Alaskan Way viaduct replacement project
29 account—state appropriation is provided solely for the costs
30 associated with the sale of transponders for the opening of the new
31 state route number 99 tunnel toll facility in Seattle. The office of
32 financial management shall place \$510,000 of the amount provided in
33 this subsection in unallotted status. The office of financial
34 management may only release the funds to the department if it
35 determines the transponder inventory will otherwise not be sufficient
36 for facility ramp up.

37 **Sec. 210.** 2017 c 313 s 210 (uncodified) is amended to read as

19 replacement project and is subject to the conditions, limitations,
20 and review provided in section 701 (~~of this act~~), chapter 313, Laws
21 of 2017. It is the intent of the legislature that if any portion of
22 the labor system replacement project is leveraged in the future for
23 the time, leave, and labor distribution of any other agencies, the
24 motor vehicle account will be reimbursed proportionally for the
25 development of the system since amounts expended from the motor
26 vehicle account must be used exclusively for highway purposes in
27 conformance with Article II, section 40 of the state Constitution.
28 This must be accomplished through a loan arrangement with the current
29 interest rate under the terms set by the office of the state
30 treasurer at the time the system is deployed to additional agencies.
31 If the motor vehicle account is not reimbursed for future use of the

29 appropriation is provided solely for the airport aid grant program,
30 which provides competitive grants to public airports for pavement,
31 safety, planning, and security.

32 (2) The entire public use general aviation airport loan revolving
33 account—state appropriation is provided solely for the department to
34 support and implement the public use general aviation airport loan
35 program prior to the creation of the community aviation
36 revitalization board.

1 (3) \$35,000 of the aeronautics account—state appropriation is
2 provided solely for the implementation of chapter . . . (Engrossed
3 Substitute House Bill No. 2295), Laws of 2018 (electric aircraft). If
4 chapter . . . (Engrossed Substitute House Bill No. 2295), Laws of
5 2018 is not enacted by June 30, 2018, the amount provided in this
6 subsection lapses.

7 (4) Within amounts appropriated in this section, the department
8 shall convene an electric aircraft work group to analyze the state of
9 the electrically powered aircraft industry and assess infrastructure
10 needs related to the deployment of electric or hybrid-electric
11 aircraft for commercial air travel in Washington state.

12 (a) The work group must include, but is not limited to,
13 representation from the electric aircraft industry, the aircraft
14 manufacturing industry, electric utility districts, the battery
15 industry, the department of commerce, the department of
16 transportation aviation division, the airline pilots association, a

19 (b) The work group must consider, at a minimum, and make

26 fuel sales; educational requirements for maintaining electric or
27 hybrid-electric powered aircraft; homeland security checkpoint
28 requirements; public acceptance of the technology; a cost comparison
29 of fossil fuel and electric or hybrid-electric aircraft engines;
30 emission reduction potential; and policy changes needed to facilitate
31 electric or hybrid-electric powered aircraft use for commercial air
32 travel in Washington state.

33 (c) The work group must report its findings and recommendations
34 to the transportation committees of the legislature by June 30, 2019.

35 **Sec. 213.** 2017 c 313 s 213 (uncodified) is amended to read as

37 **FOR THE DEPARTMENT OF TRANSPORTATION—PROGRAM DELIVERY MANAGEMENT AND**
38 **SUPPORT—PROGRAM H**

1	Motor Vehicle Account—State Appropriation	((<u>\$54,512,000</u>))
2		<u>\$56,408,000</u>
3	Motor Vehicle Account—Federal Appropriation	\$500,000

5		<u>\$256,000</u>
6	TOTAL APPROPRIATION.	((<u>\$55,264,000</u>))
7		<u>\$57,164,000</u>

8 The appropriations in this section are subject to the following
9 conditions and limitations:

10 (1) \$300,000 of the motor vehicle account—state appropriation is
11 provided solely for the completion of property value determinations
12 for surplus properties to be sold. The value determinations must be
13 completed by agency staff if available; otherwise, the agency may
14 contract out for these services. The real estate services division of
15 the department must recover the cost of its efforts from the sale of
16 surplus property. Proceeds for surplus property sales must fund
17 additional future sales, and the real estate services division shall
18 prioritize staff resources to meet revenue assumptions for surplus
19 property sales.

20 (2) The legislature recognizes that the trail known as the Rocky
21 Reach Trail, and its extensions, serve to separate motor vehicle
22 traffic from pedestrians and bicyclists, increasing motor vehicle
23 safety on state route number 2 and the coincident section of state
24 route number 97. Consistent with chapter 47.30 RCW and pursuant to
25 RCW 47.12.080, the legislature declares that transferring portions of
26 WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and
27 associated buffer areas to the Washington state parks and recreation
28 commission is consistent with the public interest. The legislature
29 directs the department to transfer the property to the Washington
30 state parks and recreation commission.

31 (a) The department must be paid fair market value for any
32 portions of the transferred real property that is later abandoned,
33 vacated, or ceases to be publicly maintained for trail purposes.

34 (b) Prior to completing the transfer in this subsection (2), the
35 department must ensure that provisions are made to accommodate
36 private and public utilities and any facilities that predate the
37 department's acquisition of the property, at no cost to those
38 entities. Prior to completing the transfer, the department shall also
39 ensure that provisions, by fair market assessment, are made to

1 accommodate other private and public utilities and any facilities
2 that have been legally allowed by permit or other instrument.

3 (c) The department may sell any adjoining property that is not
4 necessary to support the Rocky Reach Trail and adjacent buffer areas
5 only after the transfer of trail-related property to the Washington
6 state parks and recreation commission is complete. Adjoining property
7 owners must be given the first opportunity to acquire such property
8 that abuts their property, and applicable boundary line or other
9 adjustments must be made to the legal descriptions for recording
10 purposes.

11 (3) With respect to Parcel 12 of the real property conveyed by
12 the state of Washington to the city of Mercer Island under that

17 for low-income housing sites that is designed to maximize the use of
18 electric vehicles by residents of these sites, and that must consider
19 any infrastructure needs that will need to be met to support the use
20 of electric vehicles at these sites. The department must provide a
21 report detailing the findings of this study to the transportation

36	Motor Vehicle Account—Federal Appropriation	\$2,050,000
37	Motor Vehicle Account—Private/Local Appropriation	\$250,000
38	TOTAL APPROPRIATION.	((\$64,878,000))

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2) When regional transit authority construction activities are visible from a state highway, the department shall allow the regional transit authority to place safe and appropriate signage informing the public of the purpose of the construction activity.

(3) The department must make signage for low-height bridges a high priority.

(4) \$50,000 of the motor vehicle account—state appropriation is provided solely for the department to coordinate with the appropriate local jurisdictions for development and implementation of a historic route 10 signage program on Interstate 90 from the Columbia River to the Idaho state border.

(5)(a) During the 2017-2019 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. 1 to authorize the conversion of public infrastructure to private, for-
2 profit purposes or to otherwise create an entitlement or other claim
3 by private users to public infrastructure.

4 (b) The department shall expand the high occupancy vehicle lane
5 access pilot program to vehicles that deliver or collect blood,
6 tissue, or blood components for a blood-collecting or distributing
7 establishment regulated under chapter 70.335 RCW. Under the pilot
8 program, when the department reserves a portion of a highway based on
9 the number of passengers in a vehicle, blood-collecting or

19 pilot program, when the department reserves a portion of a highway
20 based on the number of passengers in a vehicle, wheelchair-accessible
21 taxicabs that are clearly and identifiably marked as such on all
22 sides of the vehicle are considered public transportation vehicles
23 and must be authorized to use the reserved portion of the highway.

The reason for the geographic selection of Spokane county for the pilot is based on the high utilization of studded tires in this jurisdiction. The public information campaign must primarily focus on making the consumer aware of the road deterioration, financial impact for taxpayers, the safety implications for other drivers, and, secondarily, the alternatives to studded tires. The pilot must begin by September 1, 2018. By January 14, 2019, the department shall provide the transportation committees of the legislature an update on the pilot public information program. It is the intent of the legislature that the public information campaign will be a two-year pilot program with a report to the legislature upon completion of the pilot program.

15 The appropriations in this section are subject to the following
16 conditions and limitations:

17 (1) The department shall investigate opportunities for a transit-
18 oriented development pilot project at the existing Kingsgate park and
19 ride at Interstate 405 and 132nd. The department must coordinate with
20 the city of Kirkland and other key stakeholders to determine the
21 feasibility and cost of transit-oriented development at Kingsgate. A
22 report on the process and outcomes is due to the transportation
23 committees of the legislature no later than December 1, 2017.

24 (2) \$100,000 of the motor vehicle account—state appropriation and
25 \$250,000 of the motor vehicle account—federal appropriation are
26 provided solely for a study that details a cost estimate for
27 replacing the westbound U.S. 2 trestle and recommends a series of
28 financing options to address that cost and to satisfy debt service
29 requirements.

30 In conducting the study, the department shall work in close
31 collaboration with a stakeholder group that includes, but is not
32 limited to, Snohomish county, the port of Everett, economic alliance
33 Snohomish county, the cities of Everett, Lake Stevens, Marysville,
34 Snohomish, and Monroe, and affected transit agencies.

35 The department shall quantify both the cost of replacing the
36 westbound trestle structure and making mobility and capacity
37 improvements to maximize the use of the structure in the years
38 leading up to full replacement. Financing options that should be
39 examined and quantified include public-private partnerships, public-

1 public partnerships, a transportation benefit district tailored to
2 the specific incorporated and unincorporated area, loans and grants,
3 and other alternative financing measures available at the state or
4 federal level.

5 The department shall also evaluate ways in which the costs of
6 alternative financing can be debt financed.

7 The department shall complete the study and submit a final report
8 and recommendations to the transportation committees of the
9 legislature, including recommendations on statutory changes needed to
10 implement available financing options, by January 8, 2018.

11 (3) \$181,000 of the motor vehicle account—state appropriation is
12 provided solely for the department, in coordination with the
13 University of Washington department of mechanical engineering, to
14 study measures to reduce noise impacts from bridge expansion joints.

22 (L2000107). The study must include short, medium, and long-term phase
23 recommendations and must be submitted to the transportation
24 committees of the legislature by January 1, 2019.

25 (5) \$500,000 of the motor vehicle account—state appropriation is
26 provided solely for implementation of a state route number 518
27 corridor study to be conducted in partnership with the Port of
28 Seattle, Sound Transit and other regional entities. The department
29 must study practical solutions to address high vehicle volumes and
30 delays in the corridor including evaluation of solutions to the rapid
31 growth of traffic in the corridor and how that growth impacts access
32 to the Seattle-Tacoma international airport and the surrounding
33 communities. The study must be submitted to the transportation
34 committees of the legislature by June 30, 2019.

35 (6) \$500,000 of the motor vehicle account—state appropriation and
36 \$50,000 of the motor vehicle account—local appropriation are provided
37 solely for implementation of a corridor study to identify potential
38 improvements between exit 116 and exit 99 of Interstate 5. The study
39 should further develop mid- and long-term strategies from the

1 corridor sketch, and identify potential US 101/I-5 interchange
2 improvements, a strategic plan for the Nisqually River bridges,
3 regional congestion relief options, and ecosystem benefits to the
4 Nisqually River estuary for salmon productivity and flood control.

5 (7) Among the options studied as part of the SR 410 Corridor

11 to discuss potential solutions to traffic congestion; emergency
12 management concerns regarding routes away from natural disasters and
13 around incidents similar to the train derailment that occurred on
14 December 18, 2017; and what state transportation investments would
15 benefit the economic development of the area. The department shall

35 transportation. No transit agency may receive more than thirty
36 percent of these distributions.

37 (2) \$32,223,000 of the rural mobility grant program account—state
38 appropriation is provided solely for grants to aid small cities in
39 rural areas as prescribed in RCW 47.66.100.

1 (3)(a) (~~(\$10,290,000)~~) \$10,702,000 of the multimodal
2 transportation account—state appropriation is provided solely for a
3 vanpool grant program for: (i) Public transit agencies to add
4 vanpools or replace vans; and (ii) incentives for employers to
5 increase employee vanpool use. The grant program for public transit
6 agencies will cover capital costs only; operating costs for public
7 transit agencies are not eligible for funding under this grant
8 program. Additional employees may not be hired from the funds
9 provided in this section for the vanpool grant program, and
10 supplanting of transit funds currently funding vanpools is not
11 allowed. The department shall encourage grant applicants and
12 recipients to leverage funds other than state funds.

13 (b) At least \$1,600,000 of the amount provided in this subsection
14 must be used for vanpool grants in congested corridors.

22 reappropriated for the Kitsap Transit, SR 305 Interchange
23 Improvements at Suquamish Way Park and Ride (Project 20130101).

24 (5)(a) \$77,679,000 of the regional mobility grant program account
25 —state appropriation is provided solely for the regional mobility
26 grant projects identified in LEAP Transportation Document (~~(2017-2)~~)
27 2018-2 ALL PROJECTS as developed (~~(April 20, 2017)~~) March 5, 2018,
28 Program - Public Transportation Program (V). The department shall
29 review all projects receiving grant awards under this program at
30 least semiannually to determine whether the projects are making
31 satisfactory progress. Any project that has been awarded funds, but
32 does not report activity on the project within one year of the grant
33 award, must be reviewed by the department to determine whether the
34 grant should be terminated. The department shall promptly close out
35 grants when projects have been completed, and any remaining funds
36 must be used only to fund projects identified in the LEAP
37 transportation document referenced in this subsection. The department
38 shall provide annual status reports on December 15, 2017, and

1 transportation committees of the legislature regarding the projects
2 receiving the grants. It is the intent of the legislature to
3 appropriate funds through the regional mobility grant program only
4 for projects that will be completed on schedule. A grantee may not
5 receive more than twenty-five percent of the amount appropriated in
6 this subsection. The department shall not approve any increases or

4 ~~((14))~~ (16)(a) The SR 520 Bridge Replacement and HOV project
5 (8BI1003) is supported over time from multiple sources, including a

11 account—local appropriation are provided solely for the SR 520 Bridge
12 Replacement and HOV project (8BI1003).

13 (c) When developing the financial plan for the project, the
14 department shall assume that all maintenance and operation costs for
15 the new facility are to be covered by tolls collected on the toll
16 facility and not by the motor vehicle account.

17 ~~((15))~~ (17) The department shall itemize all future requests
18 for the construction of buildings on a project list and submit them
19 through the transportation executive information system as part of
20 the department's ~~((2018))~~ annual budget submittal. It is the intent
21 of the legislature that new facility construction must be transparent
22 and not appropriated within larger highway construction projects.

23 ~~((16))~~ (18) Any advisory group that the department convenes
24 during the 2017-2019 fiscal biennium must consider the interests of
25 the entire state of Washington.

26 ~~((18))~~ (19) It is the intent of the legislature that for the
27 I-5 JBLM Corridor Improvements project (M00100R), the department
28 shall actively pursue \$50,000,000 in federal funds to pay for this
29 project to supplant state funds in the future. \$50,000,000 in
30 connecting Washington account funding must be held in unallotted
31 status during the 2021-2023 fiscal biennium. These funds may only be
32 used after the department has provided notice to the office of
33 financial management that it has exhausted all efforts to secure
34 federal funds from the federal highway administration and the
35 department of defense.

36 ~~((19)—\$93,500,000)~~ (20) \$93,651,000 of the connecting
37 Washington account—state appropriation is provided solely for the SR
38 167/SR 509 Puget Sound Gateway project (M00600R).

1 (a) Any savings on the project must stay on the Puget Sound
2 Gateway corridor until the project is complete.

3 (b) Proceeds from the sale of any surplus real property acquired
4 for the purpose of building the SR 167/SR 509 Puget Sound Gateway
5 (M00600R) project must be deposited into the motor vehicle account
6 for the purpose of constructing the project.

7 ~~((+20+))~~ (21)(a) In making budget allocations to the Puget Sound
8 Gateway project, the department shall implement the project's
9 construction as a single corridor investment. The department shall
10 develop a coordinated corridor construction and implementation plan
11 for state route number 167 and state route number 509 in
12 collaboration with affected stakeholders. Specific funding
13 allocations must be based on where and when specific project segments
14 are ready for construction to move forward and investments can be
15 best optimized for timely project completion. Emphasis must be placed
16 on avoiding gaps in fund expenditures for either project.

17 (b) The secretary of transportation must develop a memorandum of
18 understanding with local project stakeholders that identifies a
19 schedule for stakeholders to provide local matching funds for the
20 Puget Sound Gateway project. Criteria for eligibility of local match
21 includes matching funds and equivalent in-kind contributions
22 including, but not limited to, land donations. The memorandum of
23 understanding must be finalized by July 1, 2018. The department must
24 submit a copy of the memorandum of understanding to the
25 transportation committees of the legislature and report regularly on
26 the status of the requirements outlined in this subsection ~~((+20+))~~
27 (21)(b) and (c) of this subsection.

28 (c) During the course of developing the memorandum of
29 understanding, the department must evaluate the project schedules to
30 determine if there are any benefits to be gained by moving the
31 project schedule forward. ~~((Additionally, the department must~~
32 ~~consider completing))~~ It is the legislature's intent that if the
33 department identifies any savings after the funding gap on the base
34 project is closed as part of the proposal to expedite the project,
35 that these cost savings shall go toward construction of a full
36 single-point urban interchange at the junction of state route number
37 161 (Meridian avenue) and state route number 167 and a full single-
38 point urban interchange at the junction of state route number 509 and
39 188th Street. If the department receives additional funds from an
40 outside source for this project after the funding gap on the base

1 project is closed, the funds must be applied toward the completion of
2 these two full single-point urban interchanges.

3 (d) For the SR 167/SR 509 Puget Sound Gateway project (M00600R)
4 the department is strongly encouraged to work to relocate any
5 significant businesses currently located within the planned path of
6 the state route number 509/Interstate 5 under-crossing to a location
7 within the Kent city limits. The department shall provide regular
8 updates on its progress to the joint transportation committee and
9 affected stakeholders.

10 (e) In designing the state route number 509/state route number
11 516 interchange component of the SR 167/SR 509 Puget Sound Gateway
12 project (M00600R), the department shall make every effort to utilize
13 the preferred "4B" design.

14 ~~((+21))~~ (22) It is the intent of the legislature that, for the
15 I-5/North Lewis County Interchange project (L2000204), the department
16 develop and design the project with the objective of significantly
17 improving access to the industrially zoned properties in north Lewis
18 county. The design must consider the county's process of
19 investigating alternatives to improve such access from Interstate 5
20 that began in March 2015.

21 ~~((+22) — \$600,000))~~ (23)(a) \$2,000,000 of the transportation
22 partnership account—state appropriation and \$942,000 of the motor
23 vehicle account—state appropriation are provided solely for the U.S.
24 2 Trestle IJR project (L1000158).

25 (b) Of the amounts provided in this subsection, \$942,000 of the
26 motor vehicle account—state appropriation is provided solely for the
27 department to complete an interchange justification report (IJR) for
28 the U.S. 2 trestle (~~(L1000158)~~), covering the state route number
29 204 and 20th Street interchanges at the end of the westbound
30 structure.

31 (a) The department shall develop the IJR in close collaboration
32 with affected local jurisdictions, including Snohomish county and the
33 cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

34 (b) Within the amount provided for the IJR, the department must
35 address public outreach and the overall operational approval of the
36 IJR.

37 (c) The department shall complete the IJR and submit the final
38 report to the governor and the transportation committees of the
39 legislature by July 1, 2018.

1 ~~((23))~~ (24)(a) The legislature recognizes that the city of
2 Mercer Island has unique access issues that require the use of
3 Interstate 90 to leave the island and that this access may be
4 affected by the I-90/Two-Way Transit and HOV Improvements project.
5 One of the most heavily traveled on-ramps from Mercer Island to the
6 westbound Interstate 90 general purpose lanes is from Island Crest
7 Way. The department must continue to consult with the city of Mercer
8 Island and the other signatories to the 1976 memorandum of agreement
9 to preserve access provided to Mercer Island by the Island Crest Way
10 on-ramp, and thus grandfather in the current use of the on-ramp for
11 both high occupancy vehicles as well as vehicles seeking to access
12 the general purpose lanes of Interstate 90. The department must
13 consider all reasonable access solutions, including allowing all
14 vehicles to use the Island Crest Way on-ramp to access the new high
15 occupancy vehicle lane with a reasonable and safe distance provided
16 for single-occupancy vehicles to merge into the general purpose
17 lanes.

18 (b) A final access solution for Mercer Island must consider the
19 following criteria: Safety; operational effects on all users,
20 including maintaining historic access to Interstate 90 provided from
21 Mercer Island by Island Crest Way; enforcement requirements; and
22 compliance with state and federal law.

23 (c) The department may not restrict by occupancy the westbound
24 on-ramp from Island Crest Way until a final access solution that
25 meets the criteria in (b) of this subsection has been reached.

26 ~~((24) \$2,000,000))~~ (25) \$3,258,000 of the Interstate 405 express
27 toll lanes operations account—state appropriation is provided solely
28 for the I-405 NB Hard Shoulder Running - SR 527 to I-5 project
29 (L1000163).

30 ~~((25))~~ (26) The legislature finds that there are sixteen
31 companies involved in wood preserving in the state that employ four
32 hundred workers and have an annual payroll of fifteen million
33 dollars. Before the department's switch to steel guardrails, ninety
34 percent of the twenty-five hundred mile guardrail system was
35 constructed of preserved wood and one hundred ten thousand wood
36 guardrail posts were produced annually for state use. Moreover, the
37 policy of using steel posts requires the state to use imported steel.
38 Given these findings, where practicable, and until June 30, 2019, the
39 department shall include the design option to use wood guardrail
40 posts, in addition to steel posts, in new guardrail installations.

1 The selection of posts must be consistent with the agency design
2 manual policy that existed before December 2009.

3 ~~((26))~~ (27) For the SR 526 Corridor Improvements project
4 (N52600R), the department shall look holistically at the state route
5 number 526 corridor from the state route number 526/Interstate 5
6 interchange at the east end to the southwest Everett industrial area
7 and Boeing's west access road on the west end. The department,
8 working with affected jurisdictions and stakeholders, shall select
9 project elements that best maximize mobility and congestion relief in
10 the corridor and draw from project elements identified in a practical
11 solutions process.

12 ~~((27) It is the intent of the legislature that for the I-5/
13 Slater Road Interchange Improvements project (L1000099), \$2,000,000
14 of connecting Washington account state funds be added in the
15 2021-2023 fiscal biennium and \$10,100,000 of connecting Washington
16 account state funds be added in the 2023-2025 fiscal biennium, and
17 that the LEAP transportation document referenced in subsection (1) of
18 this section be updated accordingly.))~~

19 (28)(a) For projects funded as part of the 2015 connecting
20 Washington transportation package listed on the LEAP transportation
21 document identified in subsection (1) of this section, if the
22 department expects to have substantial reappropriations for the
23 2019-2021 fiscal biennium, the department may, on a pilot basis,
24 apply funding from a project with an appropriation that cannot be
25 used for the current fiscal biennium to advance one or more of the
26 following projects:

- 27 (i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);
- 28 (ii) I-5/Marvin Road/SR 510 Interchange (L1100110);
- 29 (iii) I-5/Northbound On-ramp at Bakerview (L2000119);
- 30 (iv) US 395/Ridgeline Intersection (L2000127);
- 31 (v) I-90/Eastside Restripe Shoulders (L2000201);
- 32 (vi) SR 240/Richland Corridor Improvements (L2000202);
- 33 (vii) SR 14/Bingen Overpass (L2220062);
- 34 (viii) US Hwy 2 Safety (N00200R);
- 35 (ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);
- 36 (x) SR 28/SR 285 North Wenatchee Area Improvements (L2000061);
- 37 (xi) I-5/Rebuild Chamber((s)) Way Interchange Improvements
38 (L2000223);
- 39 (xii) SR 28 East Wenatchee Corridor Improvements (T10300R);

1 (xiii) (~~SR 3/Belfair Bypass — New Alignment~~) SR 3 Freight
2 Corridor (T30400R); or

3 (xiv) SR 510/Yelm Loop Phase 2 (T32700R).

4 (b) At least ten business days before advancing a project
5 pursuant to this subsection, the department must notify the office of
6 financial management and the transportation committees of the
7 legislature. The advancement of a project may not hinder the delivery
8 of the projects for which the reappropriations are necessary for the
9 2019-2021 fiscal biennium.

10 (29) Within existing resources and in consultation with local
11 communities, the department shall begin planning efforts, including
12 traffic data collection, analysis and evaluation, scoping, and
13 environmental review, for roundabouts at the intersection of state
14 route number 900 and SE May Valley Road and at the intersection of
15 state route number 169 and Cedar Grove Road SE.

16 (30) (~~Among the options studied as part of the SR 410 Corridor~~
17 ~~Study project (L1000174), the department shall examine the mobility~~
18 ~~and safety benefits of replacing or expanding the White River bridge~~
19 ~~between Enumclaw and Buckley to four lanes and removing the~~
20 ~~trestle.)) The legislature continues to prioritize the replacement of
21 the state's aging infrastructure and recognizes the importance of
22 reusing and recycling construction aggregate and recycled concrete
23 materials in our transportation system.~~

24 To accomplish Washington state's sustainability goals in
25 transportation and in accordance with RCW 70.95.805, the legislature
26 reaffirms its direction to the department to lead the way in
27 advancing the reuse and recycling of construction aggregate and
28 recycled concrete materials whenever readily available, to use these
29 recycled products when cost competitive, and to work with industry
30 implementation partners to remove obstacles that unnecessarily
31 preclude or inhibit their use and implement strategies for the reuse
32 and recycling of construction aggregate and recycled concrete
33 materials.

34 Specific steps and efforts made to achieve these objectives and
35 accomplishments shall be included in the annual report to the
36 legislature as required by RCW 70.95.807.

37 (31) Within existing resources, the department shall implement a
38 safety solution after evaluating barrier and mitigation options on
39 state route number 167 between the intersections with 50th Ave E and

1 E 40th Street in Pierce county to prevent vehicles from leaving the
2 roadway and entering private property below the grade of the highway.

3 (32) \$350,000 of the motor vehicle account—state appropriation is
4 provided solely for implementation of chapter 288 (Substitute Senate
5 Bill No. 5806), Laws of 2017 (I-5 Columbia river bridge), listed as
6 Replacement Bridge on Interstate 5 across the Columbia River project
7 number (L2000259).

8 (33) For the SR 520 Seattle Corridor Improvements - West End
9 project (M00400R), the legislature recognizes the department must
10 acquire the entirety of parcel number 1-23190 for construction of the
11 project. The department shall work with its design-build contractor
12 to ensure to the maximum extent practicable that the building housing
13 any grocery store or market currently located on parcel number
14 1-23190 will be preserved. The legislature recognizes the city of
15 Seattle has requirements in the project area that the department must
16 address and that those requirements may affect the use of parcel
17 number 1-23190 and may affect the ability of the department to
18 preserve any grocery store or market currently located on the
19 property. The department shall meet and confer regularly with
20 residents in the vicinity of the parcel regarding the status of the
21 project and its effects on any grocery store or market currently
22 located on the property. The legislature strongly encourages the
23 city to utilize maximum flexibility in how the department meets the
24 city's requirements and to be an equal partner in efforts to preserve
25 any grocery store or market on parcel number 1-23190.

27 (b) The department and the Washington state patrol shall jointly
28 submit a prioritized list of weigh station projects to the office of
29 financial management by October 1, 2017. Projects submitted must

31 and construction and must also consider the timing of any available
32 funding for weigh station projects.

33 ~~((11))~~ (12) The department must consult with the Washington
34 state patrol and the office of financial management during the design
35 phase of any improvement or preservation project that could impact

10 ~~((14))~~ (15) For projects funded as part of the 2015 connecting
11 Washington transportation package listed on the LEAP transportation
12 document identified in subsection (1) of this section, if the

17 Bridge Replacement project (L2000075). At least ten business days
18 before advancing the project pursuant to this subsection, the
19 department must notify the office of financial management and the
20 transportation committees of the legislature. The advancement of the
21 project may not hinder the delivery of the projects for which the
22 reappropriations are necessary for the 2019-2021 fiscal biennium.

23 (16) Within the connecting Washington account—state
24 appropriation, the department may transfer funds from Highway System
25 Preservation (L1100071) to other preservation projects listed in the
26 LEAP transportation document identified in subsection (1) of this
27 section, if it is determined necessary for completion of these high

18 schools or project areas in which the percentage of the children
19 eligible to receive free and reduced-price meals under the national
20 school lunch program is equal to, or greater than, the state average
21 as determined by the department, when evaluating project proposals
22 against established funding criteria while ensuring continued
23 compliance with federal eligibility requirements.

24 (3) The department shall submit a report to the transportation

4 support project prioritization and selection, including during the
5 freight mobility plan update in 2017. The department may compete for
6 funding under this program and shall provide an updated prioritized
7 freight project list when submitting its 2019-2021 budget request. To
8 the greatest extent practicable, the department shall follow the

16 Of the amounts identified in this subsection, a minimum of \$500,000
17 must be for railroad grade-crossing safety grants at locations where

16 IMPLEMENTING PROVISIONS

17 **Sec. 601.** 2017 c 313 s 601 (uncodified) is amended to read as
18 follows:

19 FUND TRANSFERS

20 (1) The 2005 transportation partnership projects or improvements
21 and 2015 connecting Washington projects or improvements are listed in
22 the LEAP Transportation Document (~~(2017-1)~~) 2018-1 as developed
23 (~~(April 20, 2017)~~) March 5, 2018, which consists of a list of
24 specific projects by fund source and amount over a sixteen-year
25 period. Current fiscal biennium funding for each project is a line-
26 item appropriation, while the outer year funding allocations
27 represent a sixteen-year plan. The department of transportation is
28 expected to use the flexibility provided in this section to assist in
29 the delivery and completion of all transportation partnership account
30 and connecting Washington account projects on the LEAP transportation
31 document referenced in this subsection. For the 2017-2019 project
32 appropriations, unless otherwise provided in this act, the director
33 of the office of financial management may provide written
34 authorization for a transfer of appropriation authority between
35 projects funded with transportation partnership account
36 appropriations or connecting Washington account appropriations to
37 manage project spending and efficiently deliver all projects in the
38 respective program under the following conditions and limitations:

1 (a) Transfers may only be made within each specific fund source
2 referenced on the respective project list;

3 (b) Transfers from a project may not be made as a result of the
4 reduction of the scope of a project or be made to support increases
5 in the scope of a project;

6 (c) Transfers from a project may be made if the funds
7 appropriated to the project are in excess of the amount needed in the
8 current fiscal biennium;

9 (d) Transfers may not occur for projects not identified on the
10 applicable project list;

11 (e) Transfers may not be made while the legislature is in
12 session;

13 (f) Transfers to a project may not be made with funds designated
14 as attributable to practical design savings as described in RCW
15 47.01.480;

16 (g) Each transfer between projects may only occur if the director
17 of the office of financial management finds that any resulting change
18 will not hinder the completion of the projects as approved by the
19 legislature. Until the legislature reconvenes to consider the 2018
20 supplemental omnibus transportation appropriations act, any
21 unexpended 2015-2017 appropriation balance as approved by the office
22 of financial management, in consultation with the legislative staff
23 of the house of representatives and senate transportation committees,
24 may be considered when transferring funds between projects; and

25 (h) Transfers between projects may be made by the department of
26 transportation without the formal written approval provided under
27 this subsection (1), provided that the transfer amount does not
28 exceed two hundred fifty thousand dollars or ten percent of the total
29 project, whichever is less. These transfers must be reported
30 quarterly to the director of the office of financial management and
31 the chairs of the house of representatives and senate transportation
32 committees.

33 (2) The department of transportation must submit quarterly all
34 transfers authorized under this section in the transportation
35 executive information system. The office of financial management must
36 maintain a legislative baseline project list identified in the LEAP
37 transportation documents referenced in this act, and update that
38 project list with all authorized transfers under this section.

1 (3) At the time the department submits a request to transfer
2 funds under this section, a copy of the request must be submitted to
3 the transportation committees of the legislature.

4 (4) Before approval, the office of financial management shall
5 work with legislative staff of the house of representatives and
6 senate transportation committees to review the requested transfers in
7 a timely manner.

8 (5) No fewer than ten days after the receipt of a project
9 transfer request, the director of the office of financial management
10 must provide written notification to the department of any decision
11 regarding project transfers, with copies submitted to the
12 transportation committees of the legislature.

13 (6) The department must submit annually as part of its budget
14 submittal a report detailing all transfers made pursuant to this
15 section.

16 **Sec. 602.** 2017 c 313 s 606 (uncodified) is amended to read as
17 follows:

18 (1) By November 15, 2017, and annually thereafter, the department
19 of transportation must report on amounts expended to benefit transit,
20 bicycle, or pedestrian elements within all connecting Washington
21 projects in programs I, P, and Z identified in LEAP Transportation
22 Document ((~~2017-2~~)) 2018-2 ALL PROJECTS as developed ((~~April-20,~~
23 ~~2017~~)) March 5, 2018. The report must address each modal category
24 separately and identify if eighteenth amendment protected funds have
25 been used and, if not, the source of funding.

26 (2) To facilitate the report in subsection (1) of this section,
27 the department of transportation must require that all bids on
28 connecting Washington projects include an estimate on the cost to
29 implement any transit, bicycle, or pedestrian project elements.

30 **MISCELLANEOUS 2017-2019 FISCAL BIENNIUM**

31 **Sec. 701.** RCW 88.16.061 and 2008 c 128 s 17 are each amended to
32 read as follows:

33 The account in the general fund designated in RCW 43.79.330(17)
34 as the "Puget Sound pilotage account" is hereby redesignated as the
35 "pilotage account".

36 The pilotage account is hereby redesignated as a nonappropriated
37 account, and is therefore created in the custody of the state

1 treasurer. All receipts designated, credited, or transferred to the
2 pilotage account must be deposited into the account. Expenditures
3 from the account may be used only for the purposes of the board of
4 pilotage commissioners as prescribed under this chapter. Only the
5 board or the board's designee may authorize expenditures from the
6 account, except that during the 2017-2019 fiscal biennium an amount
7 up to \$50,000 may be expended by the utilities and transportation
8 commission for the development of a marine pilotage tariff rate-
9 setting process and associated rate-setting. The account is subject
10 to allotment procedures under chapter 43.88 RCW, but an appropriation
11 is not required for expenditures.

12 NEW SECTION. **Sec. 702.** A new section is added to 2017 c 313
13 (uncodified) to read as follows:

14 **ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS**

15 (1) The department of transportation is authorized, subject to
16 the conditions in section 305(3) of this act, to enter into a
17 financing contract pursuant to chapter 39.94 RCW through the state
18 treasurer's lease-purchase program for the purposes indicated. The
19 department may use any funds, appropriated or nonappropriated, in not
20 more than the principal amounts indicated, plus financing expenses
21 and required reserves, if any. Expenditures made by the department of
22 transportation for the indicated purposes before the issue date of
23 the authorized financing contract and any certificates of
24 participation therein may be reimbursed from proceeds of the
25 financing contract and any certificates of participation therein to
26 the extent provided in the agency's financing plan approved by the
27 state finance committee.

28 (2) Department of transportation: Enter into a financing contract
29 for up to \$32,500,000 plus financing expenses and required reserves
30 pursuant to chapter 39.94 RCW to renovate the existing office
31 building at 15700 Dayton Ave N, Shoreline.

32 NEW SECTION. **Sec. 703.** 2017 c 288 s 5 (uncodified) is repealed.

33 **MISCELLANEOUS**

34 NEW SECTION. **Sec. 801.** If any provision of this act or its
35 application to any person or circumstance is held invalid, the

1 remainder of the act or the application of the provision to other
2 persons or circumstances is not affected.

3 NEW SECTION. **Sec. 802.** This act is necessary for the immediate
4 preservation of the public peace, health, or safety, or support of
5 the state government and its existing public institutions, and takes
6 effect immediately.
