

**SB 6292 - DIGEST**

(AS OF SENATE 2ND READING 2/09/18)

Modifies the sentencing reform act of 1981 to include electronic monitoring with victim notification technology which is capable of notifying a victim or protected party, either directly or through a monitoring agency, if the monitored individual is at or near a location from which the monitored individual is required to stay away.

Requires the administrative office of the courts to: (1) Develop a list of vendors or enter into a contract with a vendor that provides the technology;

(2) Create an informational handout on the opportunity to request the technology to be provided to individuals seeking a protection order; and

(3) Provide funding to counties to cover the cost of the technology when a respondent is unable to pay for the costs.
