

SB 6425 - DIGEST

Requires supervision by a physical therapist for the reevaluation of a patient, as follows, if patient care is given by a physical therapist assistant or other assistive personnel: The later of every fifth visit or every thirty days if a physical therapist has not treated the patient for any of the five visits or within the thirty days.

Authorizes a physical therapist, at any one time, to:

- (1) Supervise up to a total of three assistive personnel; or
- (2) Two assistive personnel if he or she is working in a nursing home or in the public schools.
