EFFECT: Makes the requirement that local governments adopt a contamination reduction and outreach plan contingent upon the local government receiving funding from the Department of Ecology to develop and implement the plan. Eliminates the 25% match requirement for local governments and nonprofit organizations that receive competitive grants funded out of the Waste Reduction, Recycling, and Litter Control Account for (1) local or statewide waste reduction, litter control, recycling, or composting education programs, or (2) for the development and implementation of contamination reduction and outreach plans.
