

SHB 2957 - H AMD 2111

By Representative Ybarra

1 On page 14, line 21, after "(4)" insert "In setting greenhouse
2 gas emission baselines for facilities, the department shall set a
3 baseline based on a calculated maximum facility output for any
4 individual facility. This baseline must be adjustable for any
5 facility project improvements that undergo permitting under chapter
6 43.21C RCW.
7 (5) "

EFFECT: Requires Department of Ecology greenhouse gas emission rules to set facility baselines based on a calculated maximum facility output and to adjust the baselines for facility project improvements that undergo permitting under the State Environmental Policy Act.
