

SSB 5106 - H COMM AMD
By Committee on Appropriations

ADOPTED 04/12/2019

1 Strike everything after the enacting clause and insert the
2 following:

3 "NEW SECTION. **Sec. 1.** The legislature finds that residents of
4 this state have been impacted by natural disasters such as floods,
5 landslides, wildfires, and earthquakes and continue to be at risk
6 from these and other natural disasters. In 2016, insured losses from
7 natural disasters in the United States totaled almost twenty-four
8 billion dollars. In 2015, Washington state had the largest wildfire
9 season in state history, with more than one million acres burned and
10 costing more than two hundred fifty-three million dollars. In 2017,
11 four hundred four thousand two hundred twenty-three acres burned in
12 Washington state and there were more than four hundred thirty
13 national flood insurance program claims filed, totaling over seven
14 million dollars.

15 The legislature finds that Washington state has the second
16 highest earthquake risk in the nation, estimated by the federal
17 emergency management agency to exceed four hundred thirty-eight
18 million dollars per year. The 2001 Nisqually earthquake caused more
19 than two billion dollars in damage. A Seattle fault earthquake will
20 cause an estimated thirty-three billion dollars in damage, and a
21 Cascadia subduction zone earthquake will cause an estimated amount of
22 over forty-nine billion dollars in damage.

23 The legislature finds that it is critical to better prepare this
24 state for disasters and to put in place strategies to mitigate the
25 impacts of disasters. To address this critical need, the legislature
26 is creating a work group to review disaster mitigation and
27 preparation projects in this state and other states, make
28 recommendations regarding how to coordinate and expand state efforts
29 to mitigate the impacts of natural disasters, and evaluate whether an
30 ongoing disaster resiliency program should be created.
