NOT CONSIDERED 12/23/2019

1 On page 8, line 14, after "(3)" insert "When developing,
2 adopting, and implementing agency proposals or programs that have the
3 purpose of reducing environmental impacts in Washington, state
4 agencies must consider global impacts, environmental trade-offs, and
5 unintended consequences on jurisdictions outside of Washington
6 associated with the agency proposals or programs, including incentive
7 programs. The impacts, trade-offs, and consequences that the agencies
8 must consider include, but are not limited to:

9 (a) Environmental and social impacts to jurisdictions that
10 produce rare earth elements, alternative fuel vehicle components, and
11 other materials for consumption or use in Washington that are
12 encouraged, required, or incentivized by the proposal or program; and

13 (b) Impacts to jurisdictions involved in end-of-life management
14 activities associated with products used or consumed in Washington.

15 (4) "

16 Correct any internal references accordingly.

EFFECT: Requires state agencies with representation on the task force to consider global impacts, environmental trade-offs, and unintended consequences on jurisdictions outside of Washington associated with agency proposals or programs that have the purpose of reducing the environmental impact on the state, including but not limited to the following impacts, trade-offs, or unintended consequences: (1) Environmental and social impacts to jurisdictions that produce rare earth elements, alternative fuel vehicle components, and other materials for consumption or use in Washington that are encouraged, required, or incentivized by the proposal or program; and (2) impacts to jurisdictions involved in end-of-life management activities associated with products used or consumed in Washington.
