as part of their pension benefit. A survivorship benefit allows for all or a portion of the pension benefit to continue for a survivor following the member's death.

Members currently have four survivorship benefit options to choose from:

- Single Life, where there is no survivorship benefit;
- a full survivorship benefit or 100 percent;
- a two-thirds survivorship benefit or 66.67 percent; and
- a half survivorship benefit or 50 percent.

With a survivorship benefit, the member's lifetime monthly benefit is actuarially reduced. This means that today's value of the member's lifetime benefit remains the same, however depending on the benefit option selected, the monthly payments received by the member may be larger or smaller because they are stretched out over the course of the member's and survivor's lifetime.

A notarized spousal consent form is required by DRS when a member selects anything other than the 50 percent option. If written consent is not provided the member will receive a 50 percent option with their spouse or domestic partner as the beneficiary.

Summary of Bill: Written spousal consent is only required when a married member chooses a Single Life option.
