to certified minority-owned, women-owned, and veteran-owned businesses, and cannot exceed \$1 million per business or have a repayment period greater than ten years.

The Office of Minority and Women's Business Enterprises (OMWBE) must adopt rules implementing the program to:

- ensure businesses that have never received a loan under the program are given first priority;
- limit the total principal loan amount that any one business or owner may receive over the business or owner's lifetime;
- limit the total amount of any one loan under the program; and
- ensure that loans are made to qualifying businesses.

Summary of Bill: The bill as referred to committee not considered.

Summary of Bill (First Substitute): The limit for qualifying loans made to a veteran-owned business that has received state certification by the Department of Veterans Affairs is increased from \$15 million per year to \$25 million a year.

A line of credit issued under the program that has a zero balance for 12 or more months will be removed from the program. OMWBE must use additional criteria to prioritize loans that create jobs in underserved communities that have inadequate access to capital, and are targeted for applicants that do not currently have loans with other small business lending agencies.

The requirement for the Department of Commerce (Commerce) to provide technical assistance and loan packaging services is removed. OMWBE is directed to develop indicators that measure the performance of the linked deposit program. Previously, Commerce was directed to develop the indicators in consultation with OMWBE.
