SENATE COMMITTEE ON LABOR & COMMERCE

Staff: Jarrett Sacks (786-7448)

Background: The State Board of Registration for Professional Engineers and Land Surveyors (Board) regulates engineering practices and land surveying. On-site wastewater system designers are also licensed and regulated by the Board. The Board consists of seven members, five professional engineers and two land surveyors, appointed by the Governor.

Before 2019, the Board was a part of the Department of Licensing (DOL). In 2019, the Legislature established the Board as a separate state agency. That legislation required the Governor to appoint the director of the Board. It also required DOL to provide, through interagency agreement, administrative staff support and associated technical services, materials, and equipment to the Board.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

Summary of Bill: The director of the Board is appointed by the Board, rather than the Governor. The required interagency agreement between DOL and the Board is for technical services only and no longer includes administrative staff support, materials, or equipment.

Fiscal Note: Available.

Creates Committee/Commission/Task Force that includes Legislative members: No.
