1 AN ACT Relating to nonfirearm measures to increase school safety  
2 and student well-being; amending RCW 38.52.040, 28A.320.125,  
3 28A.300.273, 28A.300.490, 28A.320.126, and 28A.320.1271; adding new  
4 sections to chapter 28A.300 RCW; adding a new section to chapter  
5 28A.310 RCW; adding a new section to chapter 28A.320 RCW; creating  
6 new sections; repealing RCW 28A.310.505; and providing an expiration  
7 date.

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

9 NEW SECTION. **Sec. 1.** INTENT. (1) The legislature recognizes  
10 that school safety supports effective teaching and learning by  
11 creating and promoting a physically, emotionally, socially,  
12 behaviorally, and academically secure climate for students, staff,  
13 and visitors. Keeping a school safe involves planning for the  
14 prevention of, intervention in, mitigation of, protection from,  
15 response to, and recovery from various natural, physical, social,  
16 emotional, biological, and technological threats and trauma to an  
17 individual, the school, and the community.

18 (2) The legislature has taken steps over the years to improve the  
19 safety of public school students by, for example: (a) Requiring  
20 schools and school districts to have school safety plans in place;  
21 (b) requiring school districts to have plans for recognition, initial

1 screening, and response to emotional or behavioral distress in  
2 students, including indicators of possible substance abuse, violence,  
3 youth suicide, and sexual abuse; (c) requiring the use of a statewide  
4 first responder building mapping information system; (d) requiring  
5 school districts to adopt policies and procedures to prevent  
6 harassment, intimidation, and bullying, including cyberbullying; and  
7 (e) prohibiting firearms and other dangerous weapons on school  
8 premises.

9 (3) The legislature finds that many school districts need  
10 additional supports to keep their schools safe. The legislature  
11 intends to establish a statewide network of the structural components  
12 necessary to enhance student safety in schools so that students have  
13 a sense of well-being and can focus on learning. This network, or  
14 system, of comprehensive school safety supports is based on the work  
15 of the state school safety center, which supports the regional school  
16 safety centers at each educational service district. The regional  
17 school safety centers, in collaboration with community school safety  
18 stakeholders, support the efforts of the local school districts and  
19 schools to bring best practices in school safety to every school and  
20 classroom in the state. The school safety and student well-being  
21 advisory committee provides ongoing advice to the state and regional  
22 school safety centers, as well as public and private schools. The  
23 state and regional school safety centers, together with the school  
24 safety and student well-being advisory committee, bring together  
25 caring adults, including those who work directly with students every  
26 day, to define school safety problems at the state and local levels  
27 and identify solutions to those problems, such as creating needed  
28 programs and identifying necessary supports. Creating a system of  
29 comprehensive school safety supports will maximize the use of state  
30 and local resources so that every student can attend a school with a  
31 safe, healthy, and supportive learning environment.

32 NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.300  
33 RCW to read as follows:

35 amounts appropriated for this specific purpose, the superintendent of  
36 public instruction shall establish a school safety center as provided

2 safety centers established in section 3 of this act, forms a  
3 statewide network for school safety.

4 (3) The center, in collaboration with staff in the office of the  
5 superintendent of public instruction, must:

2 read as follows:

3       MODIFYING DRILL REQUIREMENTS. (1) The legislature considers it to  
4 be a matter of public safety for public schools and staff to have  
5 current safe school plans and procedures in place, fully consistent  
6 with federal law. The legislature further finds and intends, by  
7 requiring safe school plans to be in place, that school districts  
8 will become eligible for federal assistance. The legislature further

10 event of an emergency resulting from natural disasters or man-made  
11 disasters.

12       (2) Schools and school districts shall consider the guidance and  
13 resources provided by the (~~superintendent of public instruction,~~

34 emergency management division of the state military department in  
35 collaboration with the (~~Washington~~) state school safety center in  
36 the office of the superintendent of public instruction (~~school~~  
37 safety center), established under section 2 of this act, and the

18 incident management system, trained on the incident command system,  
19 or are certified on the incident command system; and

20       (ii) Identifying school transportation procedures for evacuation,  
21 to include bus staging areas, evacuation routes, communication

27 under this subsection (6), and maintain the documentation in the
