
HOUSE BILL 1622

State of Washington

66th Legislature

2019 Regular Session

By Representatives Blake, Kretz, Springer, Chandler, Chapman, Dent, and Shewmake; by request of Department of Ecology

Read first time 01/25/19. Referred to Committee on Rural Development, Agriculture, & Natural Resources.

1 AN ACT Relating to drought preparedness and response; amending
2 RCW 43.83B.400, 43.83B.405, 43.83B.410, 43.83B.415, and 43.83B.430;
3 adding new sections to chapter 43.83B RCW; decodifying RCW
4 43.83B.005, 43.83B.200, 43.83B.210, 43.83B.300, 43.83B.345,
5 43.83B.360, 43.83B.380, and 43.83B.385; repealing RCW 43.83B.220,
6 43.83B.230, and 43.83B.336; and providing an expiration date.

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

8 NEW SECTION. **Sec. 1.** A new section is added to chapter 43.83B
9 RCW to read as follows:

10 The definitions in this section apply throughout this chapter
11 unless the context clearly requires otherwise.

12 (1) "Department" means the department of ecology.

13 (2) "Drought condition" means that the water supply for a
14 geographic area, or for a significant portion of a geographic area,
15 is below seventy-five percent of normal and the water shortage is
16 likely to create undue hardships for water users or the environment.

17 **Sec. 2.** RCW 43.83B.400 and 1989 c 171 s 1 are each amended to
18 read as follows:

19 ~~((It is the intent of))~~ The legislature ~~((to provide emergency~~
20 ~~powers to the department of ecology to enable it to take actions, in~~

1 ~~a timely and expeditious manner, that are designed to alleviate~~
2 ~~hardships and reduce burdens on various water users and uses arising~~
3 ~~from drought conditions. As used in this chapter, "drought condition"~~
4 ~~means that the water supply for a geographical area or for a~~
5 ~~significant portion of a geographical area is below seventy-five~~
6 ~~percent of normal and the water shortage is likely to create undue~~
7 ~~hardships for various water uses and users.)) recognizes that drought~~
8 ~~and water shortages can place a significant hardship on Washington~~
9 ~~communities, farms, and the natural environment. Rising temperatures~~
10 ~~due to climate change may cause water supply shortages to be more~~
11 ~~frequent and severe in the future. Therefore, the ability to respond~~
12 ~~to drought and water shortage emergencies is critical to the long-~~
13 ~~term prosperity of our state. It is the intent of the legislature to~~
14 ~~provide the department with the authority to effectively and~~
15 ~~efficiently take actions when a drought emergency occurs to alleviate~~
16 ~~hardship on water users and our natural environment.~~

17 The legislature also recognizes that effective emergency drought
18 response is predicated on building resiliency and preparedness before
19 water shortages occur. Therefore, it is also the intent of the
20 legislature that the department assist water users by supporting
21 measures to strengthen the resiliency and preparedness of water users
22 to drought conditions in the long term.

23 **Sec. 3.** RCW 43.83B.405 and 1989 c 171 s 2 are each amended to
24 read as follows:

25 (1) Whenever it appears to the department that drought conditions
26 may develop, the department may issue a drought advisory. The drought
27 advisory should seek to increase the awareness and readiness of
28 affected water users and may recommend voluntary actions to alleviate
29 drought impacts.

30 (2)(a) Whenever it appears to the department ((of ecology)) that
31 a drought condition either exists or is forecast to occur within the
32 state or portions thereof, the department ((of ecology)) is
33 authorized to issue orders of drought emergency, pursuant to adopted
34 rules ((previously adopted)), to implement the powers as set forth in
35 RCW 43.83B.410 through 43.83B.420. ((The department shall,
36 immediately upon the issuance of an order under this section, cause
37 said order to be published in newspapers of general circulation in
38 the areas of the state to which the order relates.))

1 (b) Prior to the issuance of an order of drought emergency, the
2 department shall ((+a)):

3 (i) Consult with affected federally recognized tribes and
4 ((obtain the views of)) the federal and state government entities
5 identified in the drought contingency plan periodically revised by
6 the department pursuant to ((RCW 43.83B.410(4)),) section 7 of this
7 act; and

8 ((+b)) (ii) Obtain the written approval of the governor.

9 (c) Upon issuance of an order of drought emergency, the
10 department shall notify the public of the order consistent with rules
11 adopted by the department.

12 (d) Orders of drought emergency issued under ((this section)) (a)
13 of this subsection shall be deemed orders for the purposes of chapter
14 34.05 RCW.

15 (e) A person may petition the department to declare a drought
16 emergency for the state or portions of the state.

17 ((+2)) (3)(a) Any order issued under subsection ((+1)) (2) of
18 this section shall contain a termination date for the order. The
19 termination date shall be not later than one calendar year from the
20 date the order is issued. Although the department may, with the
21 written approval of the governor, change the termination date by
22 amending the order, no such amendment or series of amendments may
23 have the effect of extending its termination to a date which is later
24 than two calendar years after the issuance of the order.

25 ((+3)) (b) The provisions of ((subsection (2) of)) this section
26 do not preclude the issuance of more than one order under subsection
27 ((+1)) (2) of this section for different areas of the state, or
28 sequentially for the same area, as the need arises ((for such an
29 order or orders)).

30 **Sec. 4.** RCW 43.83B.410 and 1989 c 171 s 3 are each amended to
31 read as follows:

32 Upon the issuance of an order of drought emergency under RCW
33 43.83B.405(2), the department ((of ecology is empowered to)) may:

34 (1)(a) Authorize emergency withdrawal of public surface and
35 ground waters, including dead storage within reservoirs, on a
36 temporary basis and authorize temporary or permanent associated
37 physical works ((which may be either temporary or permanent)). The
38 department may prioritize the approval of emergency withdrawal

1 authorizations for domestic use over applications for emergency
2 withdrawals for other purposes.

3 (b) The termination date for ~~((the authority to make such an))~~
4 emergency withdrawals may not be later than the termination date of
5 the order issued under RCW 43.83B.405(2) ~~((under which the power to~~
6 ~~authorize the withdrawal is established))~~.

7 (c) The department ~~((of ecology))~~ may issue ~~((such))~~ emergency
8 withdrawal authorizations only when, after investigation and after
9 providing appropriate federal, state, and local governmental bodies
10 and affected federally recognized tribes an opportunity to comment,
11 the following are found:

12 (i) The waters proposed for withdrawal are to be used for a
13 beneficial use involving a previously established activity or
14 purpose;

15 (ii) The previously established activity or purpose was furnished
16 water through rights applicable to the use of a public body of water
17 that cannot be exercised due to the lack of water arising from
18 natural drought conditions; and

19 (iii) The proposed withdrawal will not reduce flows or levels
20 below essential minimums necessary ~~((A))~~ to ~~((assure))~~ ensure the
21 maintenance of fisheries requirements~~((r))~~ and ~~((B))~~ to protect
22 federal and state interests including, among others, power
23 generation, navigation, and existing water rights~~((r))~~.

24 ~~((b))~~ (d) All emergency withdrawal authorizations issued under
25 this section shall contain provisions that allow for termination of
26 withdrawals, in whole or in part, whenever withdrawals will conflict
27 with flows and levels as provided in ~~((a))~~ (c)(iii) of this
28 subsection. ~~((Domestic and irrigation uses of public surface and~~
29 ~~ground waters shall be given priority in determining "beneficial~~
30 ~~uses."))~~

31 (e) As to water withdrawal and associated works authorized under
32 this subsection, the requirements of chapter 43.21C RCW and public
33 bidding requirements as otherwise provided by law are waived and
34 inapplicable. All state and local agencies with authority to issue
35 permits or other authorizations for such works shall, to the extent
36 possible, expedite the processing of the permits or authorizations in
37 keeping with the emergency nature of the requests and shall provide a
38 decision to the applicant within fifteen calendar days of the date of
39 application. All state departments or other agencies having
40 jurisdiction over state or other public lands, if such lands are

1 necessary to effectuate the withdrawal authorizations issued under
2 this subsection, shall provide short-term easements or other
3 appropriate property interest upon the payment of the fair market
4 value. This mandate shall not apply to any lands of the state that
5 are reserved for a special purpose or use that cannot properly be
6 carried out if the property interest were conveyed;

7 (2) Approve a temporary change in purpose, place of use, ~~((of))~~
8 point of diversion, or point of withdrawal, consistent with existing
9 state policy allowing transfer or lease of waters between willing
10 parties, as provided for in RCW 90.03.380, 90.03.390, and 90.44.100.
11 However, compliance with any requirements of ~~((a))~~ notice of
12 newspaper publication of these sections or ~~((b))~~ the state
13 environmental policy act ~~((7))~~ under chapter 43.21C RCW, is not
14 required when such changes are necessary to respond to drought
15 conditions as determined by the department ~~((of ecology))~~. An
16 approval of a temporary change of a water right as authorized under
17 this subsection is not admissible as evidence in either supporting or
18 contesting the validity of water claims in ~~((State of Washington,~~
19 ~~Department of Ecology v. Acquavella, Yakima county superior court~~
20 ~~number 77-2-01484-5))~~ a general adjudication under RCW 90.03.210 or
21 any similar proceeding where the existence of a water right is at
22 issue ~~((7))~~;

23 (3) Employ additional persons for specified terms of time,
24 consistent with the term of a drought condition, as are necessary to
25 ensure the successful performance of the activities associated with
26 implementing the emergency drought program of this chapter ~~((7))~~;

27 ~~((4))~~ ~~((Revise the drought contingency plan previously developed by~~
28 ~~the department; and~~

29 ~~((5))~~ Acquire needed emergency drought-related equipment;

30 (5) Enter into agreements with applicants receiving emergency
31 withdrawal authorizations established under this section to recover
32 the costs, or a portion thereof, of mitigation for emergency
33 withdrawal authorizations, provided that mitigation is done to
34 protect instream flows, federally regulated flows, or senior water
35 rights. The department may establish the specifics of cost recovery
36 by rule, based on the amount of water used in the emergency
37 withdrawal and the costs of mitigation; and

38 (6) Enter into interagency agreements with other state and
39 federal entities to partner in emergency drought response.

1 **Sec. 5.** RCW 43.83B.415 and 1989 c 171 s 4 are each amended to
2 read as follows:

3 (1) ~~(a) The department ((of ecology is authorized to make loans,~~
4 ~~grants, or combinations of loans and grants from emergency~~
5 ~~agricultural water supply funds when necessary to provide water to~~
6 ~~alleviate emergency drought conditions in order to ensure the~~
7 ~~survival of irrigated crops and the state's fisheries. For the~~
8 ~~purposes of this section, "emergency agricultural water supply funds"~~
9 ~~means funds appropriated from the state emergency water projects~~
10 ~~revolving account created under RCW 43.83B.360. The department of~~
11 ~~ecology may make the loans, grants, or combinations of loans and~~
12 ~~grants as matching funds in any case where federal, local, or other~~
13 ~~funds have been made available on a matching basis. The department~~
14 ~~may make a loan of up to ninety percent of the total eligible project~~
15 ~~cost or combination loan and grant up to one hundred percent of the~~
16 ~~total single project cost. The grant portion for any single project~~
17 ~~shall not exceed twenty percent of the total project cost except~~
18 ~~that, for activities forecast to have fifty percent or less of normal~~
19 ~~seasonal water supply, the grant portion for any single project or~~
20 ~~entity shall not exceed forty percent of the total project cost. No~~
21 ~~single entity shall receive more than ten percent of the total~~
22 ~~emergency agricultural water supply funds available for drought~~
23 ~~relief. These funds shall not be used for nonagricultural drought~~
24 ~~relief purposes unless there are no other capital budget funds~~
25 ~~available for these purposes. In any biennium the total expenditures~~
26 ~~of emergency agricultural water supply funds for nonagricultural~~
27 ~~drought relief purposes may not exceed ten percent of the total of~~
28 ~~such funds available during that biennium.~~

29 ~~(2) (a) Except as provided in (b) of this subsection, after June~~
30 ~~30, 1989, emergency agricultural water supply funds, including the~~
31 ~~repayment of loans and any accrued interest, shall not be used for~~
32 ~~any purpose except during drought conditions as determined under RCW~~
33 ~~43.83B.400 and 43.83B.405.~~

34 ~~(b) Emergency agricultural water supply funds may be used on a~~
35 ~~one-time basis for the development of procedures to be used by state~~
36 ~~governmental entities to implement the state's drought contingency~~
37 ~~plan.)) is authorized to issue grants to eligible public entities to~~
38 ~~reduce current or future hardship caused by water unavailability~~
39 ~~stemming from drought conditions. No single entity may receive more~~
40 ~~than twenty-five percent of the total funds available. The department~~

1 is not obligated to fund projects that do not provide sufficient
2 benefit to alleviating hardship caused by drought or water
3 unavailability. Projects must show substantial benefit from securing
4 water supply, availability, or reliability relative to project costs.

5 (b) Except for projects for public water systems serving
6 economically disadvantaged communities, the department may only fund
7 up to fifty percent of the total eligible cost of the project. Money
8 used by applicants as a cash match may not originate from other state
9 funds.

10 (c) For the purposes of this chapter, eligible public entities
11 include only:

12 (i) Counties, cities, and towns;

13 (ii) Water and sewer districts formed under chapter 57.02 RCW;

14 (iii) Public utility districts formed under chapter 54.04 RCW;

15 (iv) Port districts formed under chapter 53.04 RCW;

16 (v) Conservation districts formed under chapter 89.08 RCW;

17 (vi) Irrigation districts formed under chapter 87.03 RCW;

18 (vii) Watershed management partnerships formed under RCW
19 39.34.200; and

20 (viii) Federally recognized tribes.

21 (2) Grants may be used to develop projects that enhance the
22 ability of water users to effectively mitigate for the impacts of
23 water unavailability arising from drought. Project applicants must
24 demonstrate that the projects will increase their resiliency,
25 preparedness, or ability to withstand drought conditions when they
26 occur. Projects may include, but are not limited to:

27 (a) Creation of additional water storage;

28 (b) Implementation of source substitution projects;

29 (c) Development of alternative, backup, or emergency water
30 supplies or interties;

31 (d) Installation of infrastructure or creation of educational
32 programs that improve water conservation and efficiency or promote
33 use of reclaimed water;

34 (e) Development or update of local drought contingency plans if
35 not already required by state rules adopted under chapter 246-290
36 WAC;

37 (f) Mitigation of new emergency withdrawals authorized under RCW
38 43.83B.410(1);

39 (g) Projects designed to mitigate for the impacts of water supply
40 shortages on fish and wildlife; and

1 (h) Emergency construction or modification of water recreational
2 facilities.

3 (3) During a drought emergency order pursuant to RCW
4 43.83B.405(2), the department shall prioritize funding for projects
5 designed to relieve the immediate hardship caused by water
6 unavailability.

7 **Sec. 6.** RCW 43.83B.430 and 2016 sp.s. c 36 s 933 are each
8 amended to read as follows:

9 The state drought preparedness and response account is created in
10 the state treasury. All receipts from appropriated funds designated
11 for the account and (~~funds transferred from the state emergency~~
12 ~~water projects revolving account~~) all cost recovery revenues
13 collected under RCW 43.83B.410(5) must be deposited into the account.
14 Expenditures from the account may be used for drought preparedness
15 and response activities under this chapter, including grants issued
16 under RCW 43.83B.415. Moneys in the account may be spent only after
17 appropriation. (~~Expenditures from the account may be used only for~~
18 ~~drought preparedness. During the 2009-2011 fiscal biennium, the~~
19 ~~legislature may transfer from the state drought preparedness account~~
20 ~~to the state general fund such amounts as reflect the excess fund~~
21 ~~balance of the account. For the 2015-2017 fiscal biennium, the~~
22 ~~account may also accept revenue collected from emergency drought~~
23 ~~well-related water service contracts and may be used for drought~~
24 ~~response.))~~

25 NEW SECTION. **Sec. 7.** A new section is added to chapter 43.83B
26 RCW to read as follows:

27 In collaboration with other affected federal, state, and local
28 governments, the department may develop and update a drought
29 contingency plan.

30 NEW SECTION. **Sec. 8.** A new section is added to chapter 43.83B
31 RCW to read as follows:

32 (1) The department shall initiate a pilot program in a selected
33 basin or basins to explore the cost, feasibility, and benefits of
34 entering into long-term water right lease agreements. The purpose of
35 the agreements is to alleviate water supply conditions that may
36 affect public health and safety, drinking water supplies,
37 agricultural activities, or fish and wildlife survival. Under this

1 program, the department is authorized to negotiate and enter into
2 contractual agreements before a drought emergency is declared under
3 RCW 43.83B.405(2) that identify projects, measures, sources of water,
4 and other resources that may be accessed during times of water
5 shortage.

6 (2) The department shall submit a report to the legislature by
7 December 31, 2024, on the results of the pilot program. The
8 department shall include a summary of the contracts entered into
9 pursuant to this section and recommendations to the legislature.

10 (3) This section expires June 30, 2025.

11 NEW SECTION. **Sec. 9.** The following sections are decodified:

12 (1) RCW 43.83B.005 (Transfer of duties to the department of
13 health);

14 (2) RCW 43.83B.200 (Deposit of proceeds from repayment of loans,
15 interest, gifts, grants, etc., in state and local improvements
16 revolving account—water supply facilities—Use);

17 (3) RCW 43.83B.210 (Loans or grants from department of ecology—
18 Authorized—Limitations);

19 (4) RCW 43.83B.300 (Legislative findings—General obligation bonds
20 authorized—Issuance, terms—Appropriation required);

21 (5) RCW 43.83B.345 (Rates of charges for water—Payment into bond
22 redemption fund—Grants and loans—Contracts);

23 (6) RCW 43.83B.360 (State emergency water projects revolving
24 account—Proceeds from sale of bonds);

25 (7) RCW 43.83B.380 (Appropriations to department of health—
26 Authorized projects—Conditions); and

27 (8) RCW 43.83B.385 (Appropriations to department of ecology—
28 Authorized projects—Findings).

29 NEW SECTION. **Sec. 10.** The following acts or parts of acts are
30 each repealed:

31 (1) RCW 43.83B.220 (Contractual agreements) and 2009 c 549 s
32 5159, 1989 c 11 s 17, & 1975 1st ex.s. c 295 s 5;

33 (2) RCW 43.83B.230 (Provision for recreation, fish and wildlife
34 enhancement and other public benefits) and 1975 1st ex.s. c 295 s 14;
35 and

1 (3) RCW 43.83B.336 (Civil penalties).

--- **END** ---
