I-405 Express Toll Lanes Operations—State Appropriation	\$20,743,000
TOTAL APPROPRIATION.	\$127,496,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$1,300,000 of the Tacoma Narrows toll bridge account—state appropriation and \$11,034,000 of the state route number 520 corridor account—state appropriation are provided solely for the purposes of addressing unforeseen operations and maintenance costs on the Tacoma Narrows bridge and the state route number 520 bridge, respectively. The office of financial management shall place the amounts provided in this subsection, which represent a portion of the required minimum fund balance under the policy of the state treasurer, in unallotted status. The office may release the funds only when it determines that all other funds designated for operations and maintenance purposes have been exhausted.

(2) The department shall make detailed quarterly expenditure reports available to the Washington state transportation commission and to the public on the department's web site using current resources. The reports must include a summary of toll revenue by facility on all operating toll facilities and high occupancy toll lane systems, and an itemized depiction of the use of that revenue.

(3) \$71,000 of the high occupancy toll lanes operations account—state appropriation, \$1,238,000 of the state route number 520 corridor account—state appropriation, \$532,000 of the Tacoma Narrows toll bridge account—state appropriation, \$460,000 of the Interstate

3 appropriation are provided solely for the department to implement a
4 new tolling customer service toll collection system, and are subject
5 to the conditions, limitations, and review provided in section 701 of
6 this act.

7 (a) The department must provide a project status report to the
8 office of financial management and the transportation committees of
9 the legislature on at least a calendar quarterly basis until the
10 completion of the project. The report must include, but is not
11 limited to:

12 (i) Detailed information about the planned and actual scope,
13 schedule, and budget;

14 (ii) Status of key vendor and other project deliverables; and

15 (iii) A description of significant changes to planned
16 deliverables or system functions over the life of the project.

17 (b) The department shall continue to work with the office of
18 financial management, office of the chief information officer, and
19 the transportation committees of the legislature on the project
20 management plan that includes a provision for independent
21 verification and validation of contract deliverables from the
22 successful bidder and a provision for quality assurance that includes
23 reporting independently to the office of the chief information
24 officer on an ongoing basis during system implementation.

25 (4) The department shall make detailed quarterly reports to the
26 governor and the transportation committees of the legislature on the
27 following:

28 (a) The use of consultants in the tolling program, including the
29 name of the contractor, the scope of work, the type of contract,
30 timelines, deliverables, any new task orders, and any extensions to
31 existing consultant contracts;

32 (b) The nonvendor costs of administering toll operations,
33 including the costs of staffing the division, consultants and other
34 personal service contracts required for technical oversight and
35 management assistance, insurance, payments related to credit card
36 processing, transponder purchases and inventory management, facility
37 operations and maintenance, and other miscellaneous nonvendor costs;
38 and

39 (c) The vendor-related costs of operating tolled facilities,
40 including the costs of the customer service center, cash collections

1 on the Tacoma Narrows bridge, electronic payment processing, and toll
2 collection equipment maintenance, renewal, and replacement.

3 (d) The toll adjudication process, including a summary table for
4 each toll facility that includes:

5 (i) The number of notices of civil penalty issued;

6 (ii) The number of recipients who pay before the notice becomes a
7 penalty;

8 (iii) The number of recipients who request a hearing and the
9 number who do not respond;

10 (iv) Workload costs related to hearings;

11 (v) The cost and effectiveness of debt collection activities; and

12 (vi) Revenues generated from notices of civil penalty.

13 (5) In calendar year 2021, toll equipment on the Tacoma Narrows
14 Bridge will have reached the end of its operational life. During the
15 2019-2021 fiscal biennium, the department plans to issue a request
16 for proposals as the first stage of a competitive procurement process
17 that will replace the toll equipment and select a new tolling
18 operator for the Tacoma Narrows Bridge. The request for proposals and
19 subsequent competitive procurement must incorporate elements that
20 prioritize the overall goal of lowering costs per transaction for the
21 facility, such as incentives for innovative approaches which result
22 in lower transactional costs, requests for efficiencies on the part
23 of the bidder that lower operational costs, and incorporation of
24 technologies such as self-serve credit card machines or other point-
25 of-payment technologies that lower costs or improve operational
26 efficiencies.

27 (6) \$19,362,000 of the Alaskan Way viaduct replacement project
28 account—state appropriation is provided solely for the new state
29 route number 99 tunnel toll facility's expected share of collecting
30 toll revenues, operating customer services, and maintaining toll
31 collection systems. Due to the uncertainty of the new state route
32 number 99 tunnel toll facility actual toll transactions and revenues,
33 the legislature is holding the other tolled facilities'
34 administrative cost shares constant for this biennium. The
35 legislature expects to see appropriate reductions to the other toll
36 facility accounts once tolling on the new state route number 99
37 tunnel toll facility commences and any previously incurred costs for
38 start up of the new facility are charged back to the Alaskan Way
39 viaduct replacement project account. The office of financial
40 management shall closely monitor the application of the cost

1 allocation model and ensure that the new state route number 99 tunnel
2 toll facility is adequately sharing costs and the other toll facility
3 accounts are not being overspent or subsidizing the new state route
4 number 99 tunnel toll facility.

20 the legislature that if any portion of the labor system replacement
21 project is leveraged in the future for the time, leave, and labor
22 distribution of any other agencies, the motor vehicle account will be
23 reimbursed proportionally for the development of the system since
24 amounts expended from the motor vehicle account must be used
25 exclusively for highway purposes in conformance with Article II,

27 through a loan arrangement with the current interest rate under the
28 terms set by the office of the state treasurer at the time the system
29 is deployed to additional agencies. If the motor vehicle account is

13 encouraging electric vehicle purchases and raising awareness about
14 electric vehicle incentives.

15 (b) In particular, the department shall provide customized
16 outreach to low-income residents and low-income communities to
17 increase consumer awareness about electric vehicles and available
18 incentives.

19 (c) For the purposes of this subsection (3):

20 (i) "Low-income" means a resident of the state whose household
21 income is less than or equal to three hundred percent of the federal
22 poverty level.

23 (ii) "Low-income community" means a community in the state with
24 residents whose household income is less than or equal to three

25	Multimodal Transportation Account—State Appropriation . .	\$3,000,000
26	TOTAL APPROPRIATION.	\$76,085,000

27 The appropriations in this section are subject to the following
28 conditions and limitations:

29 (1) \$6,000,000 of the motor vehicle account—state appropriation
30 is provided solely for low-cost enhancements. The department shall
31 give priority to low-cost enhancement projects that improve safety or
32 provide congestion relief. By December 15th of each odd-numbered
33 year, the department shall provide a report to the legislature
34 listing all low-cost enhancement projects completed in the prior
35 fiscal biennium.

36 (2) (a) During the 2019-2021 fiscal biennium, the department shall
37 continue a pilot program that expands private transportation

1 providers' access to high occupancy vehicle lanes. Under the pilot
2 program, when the department reserves a portion of a highway based on

19 to public infrastructure.

20 (b) The department shall expand the high occupancy vehicle lane
21 access pilot program to vehicles that deliver or collect blood,
22 tissue, or blood components for a blood-collecting or distributing
23 establishment regulated under chapter 70.335 RCW. Under the pilot
24 program, when the department reserves a portion of a highway based on
25 the number of passengers in a vehicle, blood-collecting or
26 distributing establishment vehicles that are clearly and identifiably
27 marked as such on all sides of the vehicle are considered emergency
28 vehicles and must be authorized to use the reserved portion of the
29 highway.

30 (c) The department shall expand the high occupancy vehicle lane
31 access pilot program to private, for hire vehicles regulated under
32 chapter 81.72 RCW that have been specially manufactured, designed, or
33 modified for the transportation of a person who has a mobility

6 appropriation is provided solely for the creation of a cooperative
7 automated transportation program.

18 (b) \$40,679,000 of the multimodal transportation account—state
19 appropriation is provided solely for grants to transit agencies to
20 transport persons with special transportation needs. To receive a
21 grant, the transit agency must, to the greatest extent practicable,

1 hired from the funds provided in this section for the vanpool grant
2 program, and supplanting of transit funds currently funding vanpools
3 is not allowed. The department shall encourage grant applicants and
4 recipients to leverage funds other than state funds.

5 (b) At least \$1,600,000 of the amount provided in this subsection

17 under this program at least semiannually to determine whether the
18 projects are making satisfactory progress. Any project that has been
19 awarded funds, but does not report activity on the project within one

24 in the OFM transportation document referenced in this subsection.
25 Using the change management process, the department may use savings
26 from completed or deferred projects to advance or fully fund projects

29 December 15, 2019, and December 15, 2020, to the office of financial
30 management and the transportation committees of the legislature
31 regarding the projects receiving the grants. It is the intent of the
32 legislature to appropriate funds through the regional mobility grant
33 program only for projects that will be completed on schedule. A
34 grantee may not receive more than twenty-five percent of the amount
35 appropriated in this subsection. The department shall not approve any
36 increases or changes to the scope of a project for the purpose of a

23 chapters 41.80 and 47.64 RCW, and RCW 41.56.473 and 41.56.475.

24 NEW SECTION. **Sec. 528. COMPENSATION—REVISE PENSION CONTRIBUTION**
25 **RATES**

26 The appropriations in this act for school districts and state
27 agencies, including institutions of higher education, are subject to
28 the following conditions and limitations: Appropriations are adjusted
29 to reflect changes to agency appropriations to reflect pension
30 contribution rates adopted by the pension funding council and the law
31 enforcement officers' and firefighters' retirement system plan 2
32 board.

10 retirement system plan 1.

11 **IMPLEMENTING PROVISIONS**

12 **NEW SECTION. Sec. 601. FUND TRANSFERS**

13 (1) The 2005 transportation partnership projects or improvements
14 and 2015 connecting Washington projects or improvements are listed in
15 the OFM Transportation Document 19GOV001 as developed December 10,
16 2018, which consists of a list of specific projects by fund source
17 and amount over a sixteen-year period. Current fiscal biennium
18 funding for each project is a line-item appropriation, while the
19 outer year funding allocations represent a sixteen-year plan. The
20 department of transportation is expected to use the flexibility
21 provided in this section to assist in the delivery and completion of
22 all transportation partnership account and connecting Washington
23 account projects on the OFM transportation document referenced in
24 this subsection. For the 2019-2021 project appropriations, unless
25 otherwise provided in this act, the director of the office of
26 financial management may provide written authorization for a transfer
27 of appropriation authority between projects funded with
28 transportation partnership account appropriations or connecting
29 Washington account appropriations to manage project spending and
30 efficiently deliver all projects in the respective program under the
31 following conditions and limitations:

32 (a) Transfers may only be made within each specific fund source
33 referenced on the respective project list;

34 (b) Transfers from a project may not be made as a result of the
35 reduction of the scope of a project or be made to support increases
36 in the scope of a project;

1 (c) Transfers from a project may be made if the funds
2 appropriated to the project are in excess of the amount needed in the
3 current fiscal biennium;

4 (d) Transfers may not occur for projects not identified on the
5 applicable project list;

6 (e) Transfers may not be made while the legislature is in
7 session;

8 (f) Transfers to a project may not be made with funds designated
9 as attributable to practical design savings as described in RCW
10 47.01.480;

11 (g) Each transfer between projects may only occur if the director
12 of the office of financial management finds that any resulting change
13 will not hinder the completion of the projects as approved by the
14 legislature. Until the legislature reconvenes to consider the 2019
15 supplemental omnibus transportation appropriations act, any
16 unexpended 2017-2019 appropriation balance as approved by the office
17 of financial management, in consultation with the legislative staff
18 of the house of representatives and senate transportation committees,
19 may be considered when transferring funds between projects; and

20 (h) Transfers between projects may be made by the department of
21 transportation without the formal written approval provided under
22 this subsection (1), provided that the transfer amount does not
23 exceed two hundred fifty thousand dollars or ten percent of the total
24 project, whichever is less. These transfers must be reported
25 quarterly to the director of the office of financial management and
26 the chairs of the house of representatives and senate transportation
27 committees.

28 (2) The department of transportation must submit quarterly all
29 transfers authorized under this section in the transportation
30 executive information system. The office of financial management must
31 maintain a legislative baseline project list identified in the OFM
32 transportation documents referenced in this act, and update that
33 project list with all authorized transfers under this section.

34 (3) At the time the department submits a request to transfer
35 funds under this section, a copy of the request must be submitted to
36 the transportation committees of the legislature.

37 (4) Before approval, the office of financial management shall
38 work with legislative staff of the house of representatives and
39 senate transportation committees to review the requested transfers in
40 a timely manner.

1 (5) No fewer than ten days after the receipt of a project
2 transfer request, the director of the office of financial management
3 must provide written notification to the department of any decision
4 regarding project transfers, with copies submitted to the
5 transportation committees of the legislature.

6 (6) The department must submit annually as part of its budget
7 submittal a report detailing all transfers made pursuant to this
8 section.

9 NEW SECTION. **Sec. 602.** To the extent that any appropriation
10 authorizes expenditures of state funds from the motor vehicle
11 account, special category C account, Tacoma Narrows toll bridge
12 account, transportation 2003 account (nickel account), transportation
13 partnership account, transportation improvement account, Puget Sound
14 capital construction account, multimodal transportation account,
15 state route number 520 corridor account, or other transportation
16 capital project account in the state treasury for a state
17 transportation program that is specified to be funded with proceeds
18 from the sale of bonds authorized in chapter 47.10 RCW, the
19 legislature declares that any such expenditures made before the issue
20 date of the applicable transportation bonds for that state
21 transportation program are intended to be reimbursed from proceeds of
22 those transportation bonds in a maximum amount equal to the amount of
23 such appropriation.

24 NEW SECTION. **Sec. 603. BELATED CLAIMS**

25 The agencies and institutions of the state may expend moneys
26 appropriated in this act, upon approval of the office of financial
27 management, for the payment of supplies and services furnished to the
28 agency or institution in prior fiscal biennia.

29 NEW SECTION. **Sec. 604. FOR THE DEPARTMENT OF TRANSPORTATION**

30 (1) As part of its 2020 supplemental budget submittal, the
31 department shall provide a report to the legislature and the office
32 of financial management that:

33 (a) Identifies, by capital project, the amount of state funding
34 that has been reappropriated from the 2017-2019 fiscal biennium into
35 the 2019-2021 fiscal biennium; and

1 (b) Identifies, for each project, the amount of cost savings or
2 increases in funding that have been identified as compared to the
3 2015 enacted omnibus transportation appropriations act.

4 (2) As part of the agency request for capital programs, the
5 department shall load reappropriations separately from funds that
6 were assumed to be required for the 2019-2021 fiscal biennium into
7 budgeting systems.

8 NEW SECTION. **Sec. 605. FOR THE DEPARTMENT OF TRANSPORTATION—WEB**
9 **SITE REPORTING REQUIREMENTS**

10 (1) The department of transportation shall post on its web site
11 every report that is due from the department to the legislature
12 during the 2019-2021 fiscal biennium on one web page. The department
13 must post both completed reports and planned reports on a single web
14 page.

15 (2) The department shall provide a web link for each change order
16 that is more than five hundred thousand dollars on the affected
17 project web page.

18 NEW SECTION. **Sec. 606.** (1) By November 15, 2017, and annually
19 thereafter, the department of transportation must report on amounts
20 expended to benefit transit, bicycle, or pedestrian elements within
21 all connecting Washington projects in programs I, P, and Z identified
22 in OFM Transportation Document 19GOV001 as developed December 10,
23 2018. The report must address each modal category separately and
24 identify if eighteenth amendment protected funds have been used and,
25 if not, the source of funding.

26 (2) To facilitate the report in subsection (1) of this section,
27 the department of transportation must require that all bids on
28 connecting Washington projects include an estimate on the cost to
29 implement any transit, bicycle, or pedestrian project elements.

30 NEW SECTION. **Sec. 607. PROJECT SCOPE CHANGES**

31 (1) The legislature finds that in the course of efficiently
32 delivering connecting Washington projects, it is necessary to create
33 a process for the department of transportation to request and receive
34 approval of practical design-related project scope changes while the
35 legislature is not in session. During the 2019-2021 fiscal biennium,
36 the director of the office of financial management may approve
37 project scope change requests to connecting Washington projects in

1 the highway improvements program, provided that the requests meet the
2 criteria outlined in RCW 47.01.480 and are subject to the limitations
3 in this section.

4 (2) At the time the department of transportation submits a
5 request for a project scope change under this section, a copy of the
6 request must be submitted to the transportation committees of the
7 legislature.

8 (3) Before approval, the office of financial management shall
9 work with legislative staff of the house of representatives and
10 senate transportation committees to review the requested project
11 scope changes.

12 (4) No fewer than ten days after the receipt of a scope change
13 request, the director of the office of financial management must
14 provide written notification to the department of any decision
15 regarding project scope changes, with copies submitted to the
16 transportation committees of the legislature.

17 (5) As part of its annual budget submittal, the department of
18 transportation must report on all approved scope change requests from
19 the prior year, including a comparison of the scope before and after
20 the requested change.

21 **NEW SECTION. Sec. 608. FOR THE DEPARTMENT OF TRANSPORTATION**

22 The department of transportation may provide up to three million
23 dollars in toll credits to Kitsap transit for its role in passenger-
24 only ferry service and ferry corridor-related projects. The number of
25 toll credits provided must be equal to, but no more than, the number
26 sufficient to meet federal match requirements for grant funding for
27 passenger-only ferry service, but must not exceed the amount
28 authorized in this section.

29 **MISCELLANEOUS**

30 **NEW SECTION. Sec. 701. INFORMATION TECHNOLOGY PROJECTS**

31 (1) Agencies must apply to the office of the state chief
32 information officer for approval before beginning a project or
33 proceeding with each discreet phase of a project subject to this
34 section. At each stage, except for project onset, the office of the
35 state chief information officer must certify that the project has an
36 approved technology budget and investment plan, complies with state

1 information technology and security requirements, and other policies
2 defined by the office of the state chief information officer.

3 (2) Agencies may apply to the office of financial management to
4 receive funding for the next stage of their project. Allocations and
5 allotments must be made for discrete stages of projects as determined
6 by the technology budget approved by the office of the state chief
7 information officer and office of financial management.

8 (3) Each agency shall provide the office of the state chief
9 information officer unique financial coding to include at least
10 expenditure authority index, program index, and subobject detail.
11 Each agency shall ensure the project financial budget and
12 expenditures can be tracked by subprojects, gates, deliverables, and
13 other necessary financial data as approved and required by the office
14 of financial management. The technology budget must use a method
15 similar to the state capital budget, identifying project costs, each
16 fund source, and anticipated deliverables through each stage of the
17 entire project investment and across fiscal periods and biennia from
18 project onset through implementation and close out.

19 (4) The office of the state chief information officer shall
20 report on the dashboard each fiscal month the financial status of
21 information technology projects under oversight.

22 (5) For certification purposes, each agency shall submit to the
23 office of the state chief information officer and office of financial
24 management:

25 (a) A technology budget that reflects project budget and costs by
26 fiscal month to include all funding sources used, anticipated
27 deliverables for each stage of the project and subproject, if
28 applicable, and across fiscal periods from project initiation through
29 implementation. Projects with estimated costs greater than one
30 hundred million dollars from initiation to implementation and close
31 out shall be split into subprojects as determined by the office of
32 the state chief information officer with individual technology
33 budgets made available for each subproject. The dashboard will retain
34 a roll up of the entire project, and will also have the subproject
35 detail available. If the project affects more than one agency, a
36 separate technology budget must be prepared for each agency. If the
37 project does impact more than one agency, a statewide project
38 technology budget rollup with each impacted agency will be compiled
39 and added to the dashboard.

40 (b) An investment plan that includes:

1 (i) An organizational chart of the project management team that
2 identifies team members and their roles and responsibilities;

3 (ii) The office of the state chief information officer staff
4 assigned to the project;

5 (iii) An implementation schedule covering activities, critical
6 milestones, and deliverables at each stage of the project for the
7 life of the project at each agency affected by the project;

8 (iv) Performance measures used to determine that the project is
9 on time, within budget, and meeting expectations for quality of work
10 product;

11 (v) Ongoing maintenance and operations cost of the project post
12 implementation and close out; and

13 (vi) Financial budget coding to include at least discreet program
14 index and subobject codes.

15 (6) For any project that exceeds two million dollars in total
16 funds to complete, requires more than one biennium to complete, or is
17 financed through financial contracts, bonds, or other indebtedness:

18 (a) Quality assurance for the project must report independently
19 to the office of the chief information officer;

20 (b) The office of the chief information officer must review, and
21 if necessary, revise the proposed project to ensure it is flexible
22 and adaptable to advances in technology;

23 (c) The technology budget must specifically identify the uses of
24 any financing proceeds. No more than thirty percent of the financing
25 proceeds may be used for payroll-related costs for state employees
26 assigned to project management, installation, testing, or training;

27 (d) The agency must consult with the office of the state
28 treasurer during the competitive procurement process to evaluate
29 early in the process whether products and services to be solicited
30 and the responsive bids from a solicitation may be financed; and

31 (e) The agency must consult with the contracting division of the
32 department of enterprise services for a review of all contracts and
33 agreements related to the project's information technology
34 procurements.

35 (7) The office of the state chief information officer must
36 evaluate the project at each stage and certify whether the project is
37 planned, managed and meeting deliverable targets as defined in the
38 project's approved technology budget and investment plan.

39 (8) The office of the state chief information officer may suspend
40 or terminate a project at any time if it determines that the project

1 is not meeting or not expected to meet anticipated performance and
2 technology outcomes. Once suspension or termination occurs, the
3 agency shall unallot any unused funding and shall not make any
4 expenditure for the project without the approval of the office of
5 financial management.

6 (9) The office of the state chief information officer, in
7 consultation with the office of financial management, may identify
8 additional projects to be subject to this section, including projects
9 that are not separately identified within an agency budget.

10 NEW SECTION. **Sec. 702. ACQUISITION OF PROPERTIES AND FACILITIES**
11 **THROUGH FINANCIAL CONTRACTS**

12 (1) The department of transportation is authorized to enter into
13 a financing contract pursuant to chapter 39.94 RCW through the state
14 treasurer's lease-purchase program for the purposes indicated. The
15 department may use any funds, appropriated or nonappropriated, in not
16 more than the principal amounts indicated, plus financing expenses
17 and required reserves, if any. Expenditures made by the department of
18 transportation for the indicated purposes before the issue date of
19 the authorized financing contract and any certificates of
20 participation therein may be reimbursed from proceeds of the
21 financing contract and any certificates of participation therein to
22 the extent provided in the agency's financing plan approved by the
23 state finance committee.

24 (2) Department of transportation: Enter into a financing contract
25 for up to \$32,500,000 plus financing expenses and required reserves

31 ultra-low sulfur diesel mandate of the United States environmental
32 protection agency for on-highway diesel fuel, agencies shall use
33 biodiesel as an additive to ultra-low sulfur diesel for lubricity,
34 provided that the use of a lubricity additive is warranted and that
35 the use of biodiesel is comparable in performance and cost with other
36 available lubricity additives. The amount of biodiesel added to the
37 ultra-low sulfur diesel fuel shall be not less than two percent.

1 (2) Except as provided in subsection (5) of this section,
2 effective June 1, 2009, state agencies are required to use a minimum
3 of twenty percent biodiesel as compared to total volume of all diesel
4 purchases made by the agencies for the operation of the agencies'
5 diesel-powered vessels, vehicles, and construction equipment.

6 (3) All state agencies using biodiesel fuel shall, beginning on
7 July 1, 2016, file annual reports with the department of enterprise
8 services documenting the use of the fuel and a description of how any
9 problems encountered were resolved.

10 (4) By December 1, 2009, the department of enterprise services
11 shall:

12 (a) Report to the legislature on the average true price
13 differential for biodiesel by blend and location; and

14 (b) Examine alternative fuel procurement methods that work to
15 address potential market barriers for in-state biodiesel producers
16 and report these findings to the legislature.

17 (5) During the 2015-2017 (~~and~~), 2017-2019, and 2019-2021 fiscal
18 biennia, the Washington state ferries is required to use a minimum of
19 five percent biodiesel as compared to total volume of all diesel
20 purchases made by the Washington state ferries for the operation of
21 the Washington state ferries diesel-powered vessels, as long as the
22 price of a B5 biodiesel blend does not exceed the price of
23 conventional diesel fuel by five percent or more.

24 **Sec. 704.** RCW 46.20.745 and 2017 c 313 s 704 are each amended to
25 read as follows:

26 (1) The ignition interlock device revolving account program is
27 created within the department to assist in covering the monetary
28 costs of installing, removing, and leasing an ignition interlock
29 device, and applicable licensing, for indigent persons who are
30 required under RCW 46.20.385, 46.20.720, and 46.61.5055 to install an
31 ignition interlock device in all vehicles owned or operated by the
32 person. For purposes of this subsection, "indigent" has the same
33 meaning as in RCW 10.101.010, as determined by the department. During
34 the 2017-2019 and 2019-2021 fiscal (~~biennium~~) biennia, the ignition
35 interlock device revolving account program also includes ignition
36 interlock enforcement work conducted by the Washington state patrol.

37 (2) A pilot program is created within the ignition interlock
38 device revolving account program for the purpose of monitoring

1 compliance by persons required to use ignition interlock devices and
2 by ignition interlock companies and vendors.

3 (3) The department, the state patrol, and the Washington traffic
4 safety commission shall coordinate to establish a compliance pilot
5 program that will target at least one county from eastern Washington

7 department, state patrol, and Washington traffic safety commission.

8 (4) At a minimum, the compliance pilot program shall:

9 (a) Review the number of ignition interlock devices that are
10 required to be installed in the targeted county and the number of
11 ignition interlock devices actually installed;

12 (b) Work to identify those persons who are not complying with
13 ignition interlock requirements or are repeatedly violating ignition
14 interlock requirements; and

15 (c) Identify ways to track compliance and reduce noncompliance.

16 (5) As part of monitoring compliance, the Washington traffic
17 safety commission shall also track recidivism for violations of RCW
18 46.61.502 and 46.61.504 by persons required to have an ignition
19 interlock driver's license under RCW 46.20.385 and 46.20.720.

21 read as follows:

22 There is hereby created in the state treasury a fund to be known
23 as the highway safety fund to the credit of which must be deposited
24 all moneys directed by law to be deposited therein. This fund must be
25 used for carrying out the provisions of law relating to driver
26 licensing, driver improvement, financial responsibility, cost of
27 furnishing abstracts of driving records and maintaining such case
28 records, and to carry out the purposes set forth in RCW 43.59.010,
29 and chapters 46.72 and 46.72A RCW. During the 2013-2015 and 2015-2017
30 fiscal biennia, the legislature may transfer from the highway safety
31 fund to the Puget Sound ferry operations account, the motor vehicle
32 fund, and the multimodal transportation account such amounts as

34 the 2017-2019 fiscal biennium, the legislature may direct the state
35 treasurer to make transfers of moneys in the highway safety fund to
36 the multimodal transportation account. During the 2019-2021 fiscal
37 biennium, the legislature may direct the state treasurer to make
38 transfers of moneys in the highway safety fund to the state patrol
39 highway account.

1 **Sec. 706.** RCW 46.68.280 and 2017 c 313 s 708 are each amended to
2 read as follows:

3 (1) The transportation 2003 account (nickel account) is hereby
4 created in the motor vehicle fund. Money in the account may be spent
5 only after appropriation. Expenditures from the account must be used
6 only for projects or improvements identified as transportation 2003
7 projects or improvements in the omnibus transportation budget and to
8 pay the principal and interest on the bonds authorized for
9 transportation 2003 projects or improvements. Upon completion of the
10 projects or improvements identified as transportation 2003 projects
11 or improvements, moneys deposited in this account must only be used
12 to pay the principal and interest on the bonds authorized for
13 transportation 2003 projects or improvements, and any funds in the
14 account in excess of the amount necessary to make the principal and
15 interest payments may be used for maintenance on the completed
16 projects or improvements.

17 (2) During the 2015-2017 fiscal biennium, the legislature may
18 transfer from the transportation 2003 account (nickel account) to the
19 connecting Washington account such amounts as reflect the excess fund
20 balance of the transportation 2003 account (nickel account).

33 December, March, and June of each year, the state treasurer shall
34 transfer from the multimodal transportation account to the rural
35 mobility grant program account two million five hundred thousand
36 dollars.

4 biennia, the legislature may direct the state treasurer to make
5 transfers of moneys in the rural mobility grant program account to
6 the multimodal transportation account.

7 **Sec. 708.** RCW 47.56.403 and 2017 c 313 s 712 are each amended to
8 read as follows:

9 (1) The department may provide for the establishment,
10 construction, and operation of a pilot project of high occupancy toll
11 lanes on state route 167 high occupancy vehicle lanes within King
12 county. The department may issue, buy, and redeem bonds, and deposit
13 and expend them; secure and remit financial and other assistance in
14 the construction of high occupancy toll lanes, carry insurance, and
15 handle any other matters pertaining to the high occupancy toll lane
16 pilot project.

17 (2) Tolls for high occupancy toll lanes will be established as
18 follows:

19 (a) The schedule of toll charges for high occupancy toll lanes
20 must be established by the transportation commission and collected in
21 a manner determined by the commission.

22 (b) Toll charges shall not be assessed on transit buses and
23 vanpool vehicles owned or operated by any public agency.

24 (c) The department shall establish performance standards for the
25 state route 167 high occupancy toll lane pilot project. The
26 department must automatically adjust the toll charge, using dynamic
27 tolling, to ensure that toll-paying single-occupant vehicle users are
28 only permitted to enter the lane to the extent that average vehicle
29 speeds in the lane remain above forty-five miles per hour at least
30 ninety percent of the time during peak hours. The toll charge may
31 vary in amount by time of day, level of traffic congestion within the
32 highway facility, vehicle occupancy, or other criteria, as the
33 commission may deem appropriate. The commission may also vary toll
34 charges for single-occupant inherently low-emission vehicles such as
35 those powered by electric batteries, natural gas, propane, or other
36 clean burning fuels.

37 (d) The commission shall periodically review the toll charges to
38 determine if the toll charges are effectively maintaining travel
39 time, speed, and reliability on the highway facilities.

1 (3) The department shall monitor the state route 167 high
2 occupancy toll lane pilot project and shall annually report to the
3 transportation commission and the legislature on operations and
4 findings. At a minimum, the department shall provide facility use
5 data and review the impacts on:

6 (a) Freeway efficiency and safety;

7 (b) Effectiveness for transit;

8 (c) Person and vehicle movements by mode;

9 (d) Ability to finance improvements and transportation services
10 through tolls; and

11 (e) The impacts on all highway users. The department shall
12 analyze aggregate use data and conduct, as needed, separate surveys
13 to assess usage of the facility in relation to geographic,
14 socioeconomic, and demographic information within the corridor in
15 order to ascertain actual and perceived questions of equitable use of
16 the facility.

17 (4) The department shall modify the pilot project to address
18 identified safety issues and mitigate negative impacts to high

3 **Sec. 709.** RCW 47.56.876 and 2017 c 313 s 713 are each amended to
4 read as follows:

5 A special account to be known as the state route number 520 civil
6 penalties account is created in the state treasury. All state route
7 number 520 bridge replacement and HOV program civil penalties
8 generated from the nonpayment of tolls on the state route number 520
9 corridor must be deposited into the account, as provided under RCW
10 47.56.870(4)(b)(vii). Moneys in the account may be spent only after
11 appropriation. Expenditures from the account may be used to fund any
12 project within the state route number 520 bridge replacement and HOV
13 program, including mitigation. During the 2013-2015 and 2015-2017
14 fiscal biennia, the legislature may transfer from the state route
15 number 520 civil penalties account to the state route number 520
16 corridor account such amounts as reflect the excess fund balance of
17 the state route number 520 civil penalties account. Funds transferred
18 must be used solely for capital expenditures for the state route
19 number 520 bridge replacement and HOV project. During the 2017-2019
20 and 2019-2021 fiscal (~~biennium~~) biennia, the legislature may direct
21 the state treasurer to make transfers of moneys in the state route
22 number 520 civil penalties account to the state route number 520
23 corridor account.

24 **Sec. 710.** RCW 81.53.281 and 2017 c 313 s 715 are each amended to
25 read as follows:

26 There is hereby created in the state treasury a "grade crossing
27 protective fund" to carry out the provisions of RCW 81.53.261,
28 81.53.271, 81.53.281, 81.53.291, and 81.53.295; for grants and/or
29 subsidies to public, private, and nonprofit entities for rail safety
30 projects authorized or ordered by the commission; and for personnel
31 and associated costs related to supervising and administering rail
32 safety grants and/or subsidies. During the 2013-2015 fiscal biennium,
33 funds in this account may also be used to conduct the study required
34 under section 102, chapter 222, Laws of 2014. The commission shall
35 transfer from the public service revolving fund's miscellaneous fees
36 and penalties accounts moneys appropriated for these purposes as
37 needed. At the time the commission makes each allocation of cost to
38 said grade crossing protective fund, it shall certify that such cost

1 shall be payable out of said fund. When federal-aid highway funds are
2 involved, the department of transportation shall, upon entry of an
3 order by the commission requiring the installation or upgrading of a
4 grade crossing protective device, submit to the commission an
5 estimate for the cost of the proposed installation and related work.
6 Upon receipt of the estimate the commission shall pay to the
7 department of transportation the percentage of the estimate specified
8 in RCW 81.53.295, as now or hereafter amended, to be used as the
9 grade crossing protective fund portion of the cost of the
10 installation and related work.

11 The commission may adopt rules for the allocation of money from
12 the grade crossing protective fund. During the 2015-2017 (~~and~~),
13 2017-2019, and 2019-2021 fiscal biennia, the commission may waive
14 rules regarding local matching fund requirements, maximum awards for
15 individual projects, and other application requirements as necessary
16 to expedite the allocation of money from the grade crossing
17 protective fund to address underprotected grade crossings as
18 identified by the commission.

19 **Sec. 711.** RCW 47.10.861 and 2007 c 519 s 3 are each amended to

36 integration upgrades for both the department and correctional
37 industries. Moneys in the account may be spent only after

1 to reimburse the motor vehicle account for any appropriation made to
2 implement the digital license plate system. During the 2011-2013 and
3 2013-2015 fiscal biennia, the legislature may transfer from the
4 license plate technology account to the highway safety account
