9 ~~expanded learning program development in high-demand fields;~~
10 ~~(f))~~) Certificated work-based learning coordinators and career
11 guidance advisors;
12 ~~((g))~~ (f) School expenses associated with career and technical
13 education community partnerships with a career discovery focus
14 including research or evidence-based mentoring programs and expanded
15 learning opportunities in school, before or after school, and during
16 the summer, and career-focused education programs with private and
17 public K-12 schools and colleges, community-based organizations and
18 nonprofit organizations, industry partners, tribal governments, and
19 workforce development entities;
20 ~~((h))~~ (g) Student fees for national and state industry-
21 recognized certifications; and
22 ~~((i))~~ (h) Course equivalency development to integrate core
23 learning standards into career and technical education courses.
24 (2) A school district's maximum allowable indirect cost charges
25 for approved career and technical education programs funded by the
26 state may not exceed the lower of five percent or the cap established
27 in federal law for federal career and technical education funding
28 provided to school districts, as the federal law existed on September
29 1, 2017.
