7 (1) The legislature recognizes that agriculture is the most basic
8 and singularly important industry in the state, that agriculture is

10 state, and that the maintenance of this vital industry requires a
11 continued source of trained and qualified individuals who qualify for
12 employment in agriculture ((and agribusiness)), food, and natural
13 resource career pathways.

14 (2) The legislature finds that research shows that students
15 enrolled in a career and technical education program in high school

17 agricultural education branch of career and technical education
18 fosters an understanding of the history and principles of
19 agriculture, agriscience, manufacturing, agribusiness, leadership,
20 advocacy, career-connected learning experiences, and community
21 service.

15 learning opportunities and educational outcomes in agriculture, food,
16 and natural resource education.

17 (5) The legislature declares that it is within the best interests
18 of the people and state of Washington that a comprehensive
19 ((vocational education program in agriculture)) career-connected
20 learning opportunity through a career and technical education program
21 in agriculture, food, and natural resource sciences be maintained in
