18 NEW SECTION. Sec. 2. A new section is added to chapter 18.106
19 RCW to read as follows:

20 (1) Except as provided in this chapter, as of July 1, 2021, it is
21 unlawful for any person, firm, partnership, corporation, or other
22 entity to advertise, offer to do work, submit a bid, or perform any
23 work under this chapter without being licensed as a plumbing
24 contractor under this chapter. A plumbing contractor license expires
25 twenty-four calendar months following the day of its issuance. An
26 application for a plumbing contractor license must be made in writing
27 to the department, accompanied by the required fee. The application
28 shall state:

29 (a) The name and address of the applicant. In the case of firms
30 or partnerships, the application must state the names of the
31 individuals comprising the firm or partnership. In the case of
32 corporations, the application must state the names of the
33 corporation's managing officials;

34 (b) The location of the place of business of the applicant and
35 the name under which the business is conducted;

36 (c) The employer social security number or tax identification
37 number;

38 (d) Evidence of workers' compensation coverage for the
39 applicant's employees working in Washington, as follows:

1 (i) The applicant's industrial insurance account number issued by
2 the department;

3 (ii) The applicant's self-insurer number issued by the
4 department;

5 (iii) For applicants domiciled in another state or a province of
6 Canada subject to an agreement entered into under RCW 51.12.120(7),
7 filing a certificate of coverage issued by the agency that
8 administers workers' compensation law in the applicant's state or
9 province of domicile certifying that the applicant has secured the
10 payment of compensation under the other state's or province's
11 workers' compensation law.

12 The department may verify the workers' compensation coverage
13 information required by this subsection (1)(d), including information
14 regarding coverage of an individual employee of the applicant. If
15 coverage is provided under the laws of another state, the department
16 may notify the other state that the applicant is employing employees
17 in Washington;

18 (e) The employment security department number; and

19 (f) The state excise tax registration number.

20 (2) The unified business identifier account number may be
21 substituted for the information required by subsection (1)(d), (e),
22 and (f) of this section if the applicant will not employ employees in
23 Washington.

24 (3) Contractors licensed under this chapter are not required to
25 be registered under chapter 18.27 RCW.

26 (4) To obtain a plumbing contractor license, the applicant must
27 employ a full-time individual who currently possesses a valid journey
28 level plumber's certificate of competency, or specialty plumber's
29 certificate of competency in the specialty for the scope of work
30 performed. No individual may serve as the certified plumber for any
31 work exceeding the scope of his or her certificate, license, or
32 endorsement.

33 (5) A plumbing contractor shall:

34 (a) Ensure that all plumbing work complies with the certification
35 laws and rules of the state; and

36 (b) Ensure that all plumbing work is performed by properly
37 licensed and certified plumbing individuals.

38 (6) As of January 1, 2021, for a contractor who employs specialty
39 plumbers as described in RCW 18.106.010(14)(c), and is also required
40 to be licensed as an electrical contractor as required in RCW

1 19.28.041, while doing pump and irrigation or domestic pump work
2 described in rule as authorized by RCW 19.28.251, the department
3 shall establish a single licensing document for those who qualify for
4 both plumbing contractor license as defined by this chapter and an
5 electrical contractor license as defined by chapter 19.28 RCW.

6 (7) This section does not apply to: A person who is contracting
7 for plumbing work on his or her own residence, unless the plumbing
8 work is on a building that is for rent, sale, or lease.

9 NEW SECTION. **Sec. 3.** A new section is added to chapter 18.106
10 RCW to read as follows:

11 (1) Each applicant for a plumbing contractor license shall file
12 with the department a surety bond issued by a surety insurer who
13 meets the requirements of chapter 48.28 RCW in the sum of six
14 thousand dollars. If no valid bond is already on file with the
15 department at the time the application is filed, a bond must
16 accompany the license application. The bond must have the state of
17 Washington named as obligee with good and sufficient surety in a form
18 to be approved by the department. The bond must be continuous and may
19 be canceled by the surety upon the surety giving written notice to
20 the director. A cancellation or revocation of the bond or withdrawal
21 of the surety from the bond automatically suspends the license issued
22 to the contractor until a new bond or reinstatement notice has been
23 filed and approved as provided in this section. The bond must be
24 conditioned that the applicant will pay all persons performing labor,
25 including employee benefits, for the contractor, will pay all taxes
26 and contributions due to the state of Washington, and will pay all
27 persons furnishing material or renting or supplying equipment to the
28 contractor and will pay all amounts that may be adjudged against the
29 contractor by reason of breach of contract including improper work in
30 the conduct of the contracting business. A change in the name of a
31 business or a change in the type of business entity does not impair a
32 bond for the purposes of this section so long as one of the original
33 applicants for such bond maintains partial ownership in the business
34 covered by the bond.

35 (2) At the time of initial license or renewal, the contractor
36 shall provide a bond or other security deposit as required by this
37 chapter and comply with all of the other provisions of this chapter
38 before the department may issue or renew the contractor's license.

1 (3) Any person, firm, or corporation having a claim against the
2 contractor for any of the items referred to in this section may bring
3 suit against the contractor and the bond or deposit in the superior
4 court of the county in which the work was done or of any county in
5 which jurisdiction of the contractor may be had. The surety issuing
6 the bond must be named as a party to any suit upon the bond. Action
7 upon the bond or deposit brought by a residential homeowner for
8 breach of contract by a party to the construction contract must be
9 commenced by filing the summons and complaint with the clerk of the
10 appropriate superior court within two years from the date the claimed
11 contract work was substantially completed or abandoned, whichever
12 occurred first. Action upon the bond or deposit brought by any other
13 authorized party must be commenced by filing the summons and
14 complaint with the clerk of the appropriate superior court within one
15 year from the date the claimed labor was performed and benefits
16 accrued, taxes and contributions owing the state of Washington became
17 due, materials and equipment were furnished, or the claimed contract
18 work was substantially completed or abandoned, whichever occurred
19 first. Service of process in an action filed under this chapter
20 against the contractor and the contractor's bond or the deposit must
21 be exclusively by service upon the department. Three copies of the
22 summons and complaint and a fee adopted by rule of not less than
23 fifty dollars to cover the costs must be served by registered or
24 certified mail, or other delivery service requiring notice of
25 receipt, upon the department at the time suit is started and the
26 department shall maintain a record, available for public inspection,
27 of all suits so commenced. Service is not complete until the
28 department receives the fee and three copies of the summons and
29 complaint. This service constitutes service and confers personal
30 jurisdiction on the contractor and the surety for suit on claimant's
31 claim against the contractor and the bond or deposit and the
32 department shall transmit the summons and complaint or a copy thereof
33 to the contractor at the address listed in the contractor's
34 application and to the surety within two days after it has been
35 received.

36 (4) The surety upon the bond is not liable in an aggregate amount
37 in excess of the amount named in the bond nor for any monetary
38 penalty assessed pursuant to this chapter for an infraction. The
39 liability of the surety does not cumulate where the bond has been
40 renewed, continued, reinstated, reissued, or otherwise extended. The

1 surety upon the bond may, upon notice to the department and the
2 parties, tender to the clerk of the court having jurisdiction of the
3 action an amount equal to the claims thereunder or the amount of the
4 bond less the amount of judgments, if any, previously satisfied
5 therefrom and to the extent of such tender the surety upon the bond
6 is exonerated but if the actions commenced and pending and provided
7 to the department as required in subsection (3) of this section, at
8 any one time exceed the amount of the bond then unimpaired, claims
9 must be satisfied from the bond in the following order:

10 (a) Employee labor and claims of laborers, including employee
11 benefits;

12 (b) Claims for breach of contract by a party to the construction
13 contract;

14 (c) Registered or licensed subcontractors, material, and
15 equipment;

16 (d) Taxes and contributions due the state of Washington;

17 (e) Any court costs, interest, and attorneys' fees plaintiff may
18 be entitled to recover.

19 The surety is not liable for any amount in excess of the penal
20 limit of its bond. A payment made by the surety in good faith
21 exonerates the bond to the extent of any payment made by the surety.

22 (5) The total amount paid from a bond or deposit required of a
23 plumbing contractor by this section to claimants other than
24 residential homeowners must not exceed one-half of the bond amount.

25 (6) The prevailing party in an action filed under this section
26 against the contractor and contractor's bond or deposit, for breach
27 of contract by a party to the construction contract involving a
28 residential homeowner, is entitled to costs, interest, and reasonable
29 attorneys' fees. The surety upon the bond or deposit is not liable in
30 an aggregate amount in excess of the amount named in the bond or
31 deposit nor for any monetary penalty assessed pursuant to this
32 chapter for an infraction.

33 (7) If a final judgment impairs the liability of the surety upon
34 the bond or deposit so furnished that there is not in effect a bond
35 or deposit in the full amount prescribed in this section, the
36 contractor license is automatically suspended until the bond or
37 deposit liability in the required amount unimpaired by unsatisfied
38 judgment claims is furnished.

1 (8) In lieu of the surety bond required by this section the
2 contractor may file with the department an assigned savings account,
3 upon forms provided by the department.

4 (9) Any person having filed and served a summons and complaint as
5 required by this section having an unsatisfied final judgment against
6 the registrant for any items referred to in this section may execute
7 upon the security held by the department by serving a certified copy
8 of the unsatisfied final judgment by registered or certified mail
9 upon the department within one year of the date of entry of such
10 judgment. Upon the receipt of service of such certified copy the
11 department shall pay or order paid from the deposit, through the
12 registry of the superior court which rendered judgment, towards the
13 amount of the unsatisfied judgment. The priority of payment by the
14 department must be the order of receipt by the department, but the
15 department has no liability for payment in excess of the amount of
16 the deposit.

17 (10) Within ten days after resolution of the case, a certified
18 copy of the final judgment and order, or any settlement documents
19 where a case is not disposed of by a court trial, a certified copy of
20 the dispositive settlement documents must be provided to the
21 department by the prevailing party. Failure to provide a copy of the
22 final judgment and order or the dispositive settlement documents to
23 the department within ten days of entry of such an order constitutes
24 a violation of this chapter and a penalty adopted by rule of not less
25 than two hundred fifty dollars may be assessed against the prevailing
26 party.

27 (11) If the director determines that an applicant, or a previous
28 license of a corporate officer, owner, or partner of a current
29 applicant, has had in the past five years a final judgment in actions
30 under this chapter involving a residential structure, the director
31 may require an applicant applying to renew or reinstate a plumbing
32 contractor's license or applying for a new plumbing contractor's
33 license to file a bond of up to three times the normally required
34 amount.

35 NEW SECTION. **Sec. 4.** A new section is added to chapter 18.106
36 RCW to read as follows:

37 (1) At the time of plumbing contractor licensing and subsequent
38 license renewal, the applicant shall furnish insurance or financial
39 responsibility in the form of an assigned account in the amount of

1 fifty thousand dollars for injury or damages to property, and one
2 hundred thousand dollars for injury or damage including death to any
3 one person, and two hundred thousand dollars for injury or damage
4 including death to more than one person.

5 (2) An expiration, cancellation, or revocation of the insurance
6 policy or withdrawal of the insurer from the insurance policy
7 automatically suspends the license issued to the registrant until a
8 new insurance policy or reinstatement notice has been filed and
9 approved as provided in this section.

10 (3)(a) Proof of financial responsibility authorized in this
11 section may be given by providing, in the amount required by
12 subsection (1) of this section, an assigned account acceptable to the
13 department. The assigned account shall be held by the department to
14 satisfy any execution on a judgment issued against the contractor for
15 damage to property or injury or death to any person occurring in the
16 contractor's contracting operations, according to the provisions of
17 the assigned account agreement. The department has no liability for
18 payment in excess of the amount of the assigned account.

19 (b) The assigned account filed with the director as proof of
20 financial responsibility must be canceled at the expiration of three
21 years after:

22 (i) The contractor's license has expired or been revoked; or

23 (ii) The contractor has furnished proof of insurance as required
24 by subsection (1) of this section;

25 If, in either case, no legal action has been instituted against
26 the contractor or on the account at the expiration of the three-year
27 period.

28 (c) If a contractor chooses to file an assigned account as
29 authorized in this section, the contractor shall, on any contracting
30 project, notify each person with whom the contractor enters into a
31 contract or to whom the contractor submits a bid that the contractor
32 has filed an assigned account in lieu of insurance and that recovery
33 from the account for any claim against the contractor for property
34 damage or personal injury or death occurring in the project requires
35 the claimant to obtain a court judgment.

36 NEW SECTION. **Sec. 5.** A new section is added to chapter 18.106
37 RCW to read as follows:

38 (1) A certificate, license, or endorsement issued under this
39 chapter may be suspended, revoked, or subject to civil penalty by the

1 department upon determination that any one or more of the following
2 exist:

3 (a) A false statement as to a material matter in the application
4 for a certificate, license, or endorsement;

5 (b) Fraud, misrepresentation, or bribery in securing a
6 certificate, license, or endorsement;

7 (c) A violation of any provision of this chapter; or

8 (d) If the plumbing contractor does not employ a full-time
9 individual who currently possesses a valid journey level plumber's
10 certificate of competency or specialty plumber's certificate of
11 competency in the specialty for the scope of work performed.

12 (2) If the department has suspended or revoked a certificate,
13 license, or endorsement, because of fraud or error and a hearing is
14 requested, the suspension or revocation must be stayed until the
15 hearing is concluded and a decision is issued.

16 (3) The department must remove a suspension or reinstate a
17 revoked certificate, license, or endorsement, if the licensee pays
18 all assessed civil penalties and is able to demonstrate to the
19 department that the licensee has met all the qualifications
20 established by this chapter.

21 **Sec. 6.** RCW 18.106.020 and 2013 c 23 s 15 are each amended to
22 read as follows:

23 (1) No person may engage in or offer to engage in the trade of
24 plumbing without having a journey level certificate, specialty
25 certificate, residential service certificate, temporary permit, or
26 trainee certificate and photo identification in his or her
27 possession. The department (~~may~~) must establish by rule a
28 requirement that the person also wear and visibly display his or her
29 certificate or permit. A trainee must be supervised by a person who
30 has a journey level certificate, specialty certificate, residential
31 service certificate, or temporary permit, as specified in RCW
32 18.106.070. Until January 1, 2021, no contractor may employ a person
33 to engage in or offer to engage in the trade of plumbing unless the
34 ((person employed has a)) contractor is a registered plumbing
35 contractor under chapter 18.27 RCW and the person performing the
36 plumbing work has a journey level certificate, specialty certificate,
37 temporary permit, or trainee certificate. ((This section does not
38 apply to a contractor who is contracting for work on his or her own
39 residence. Until July 1, 2007, the department shall issue a written

1 ~~warning to any specialty plumber defined by RCW 18.106.010(10)(c) not~~
2 ~~having a valid plumber certification. The warning will state that the~~
3 ~~individual must apply for a plumber training certificate or be~~
4 ~~qualified for and apply for plumber certification under the~~
5 ~~requirements in RCW 18.106.040 within thirty calendar days of the~~

13 ~~specialty certificate, residential service certificate, temporary~~
14 ~~permit, or training certificate.~~

15 (2) Without exception, no person may engage in or offer to engage
16 in medical gas piping installation without having a certificate of
17 competency as a journey level plumber and a medical gas piping
18 installer endorsement and photo identification in his or her
19 possession. The department ((may)) must establish by rule a
20 requirement that the person also wear and visibly display his or her
21 endorsement. A trainee may engage in medical gas piping installation
22 if he or she has a training certificate and is supervised by a person
23 with a medical gas piping installer endorsement. No plumbing
24 contractor may employ a person to engage in or offer to engage in
25 medical gas piping installation unless the person employed has a
26 certificate of competency as a journey level plumber and a medical
27 gas piping installer endorsement.

28 (3) ~~((No contractor may advertise, offer to do work, submit a~~
29 ~~bid, or perform any work under this chapter without being registered~~

34 the trade of plumbing in violation of this ~~((section))~~ chapter or
35 employs a person in violation of this ~~((section))~~ chapter is a
36 separate infraction. Each worksite at which a person engages in the
37 trade of plumbing in violation of this ~~((section))~~ chapter or at
38 which a person is employed in violation of this ~~((section))~~ chapter
39 is a separate infraction.

1 (~~(5)~~) (4) Notices of infractions for violations of this

35 experience working on pumping systems not exceeding one hundred
36 gallons per minute, and two years of practical experience working on
37 pumping systems exceeding one hundred gallons per minute, or

13 specialty plumber certificate under RCW 18.106.010((~~10~~)) (14)(c),
14 the continuing education may comprise both electrical and plumbing
15 education with a minimum of twelve of the required twenty-four hours

20 examination fee.

21 The journey level plumber ((~~and~~)), specialty plumber, and
22 residential service plumber certificates of competency, the medical

24 for in this chapter grant the holder the right to engage in the work
25 of plumbing as a journey level plumber, specialty plumber,
26 residential service plumber, or medical gas piping installer, in
27 accordance with their provisions throughout the state and within any
28 of its political subdivisions on any job or any employment without
29 additional proof of competency or any other license or permit or fee
30 to engage in the work. This section does not preclude employees from

5 certificate shall renew the certificate annually. At the time of
6 renewal, the holder shall provide the department with an accurate
7 list of the holder's employers in the plumbing construction industry
8 for the previous year and the number of hours worked for each
9 employer. ~~((An annual))~~ Failure to provide plumbing hours worked for

11 infraction under RCW 18.106.320, and must result in nonrenewal of the
12 trainee certificate. A fee shall be charged for the issuance or
13 renewal of the certificate. The department shall set the fee by rule.
14 The fee shall cover but not exceed the cost of administering and
15 enforcing the trainee certification and supervision requirements of

34 ~~any one job site for every certified journey level plumber working as~~
35 ~~a journey level plumber.))~~

36 (ii) Available via mobile phone or similar device in a manner

9 plumbing construction trade in a school approved by the workforce
10 training and education coordinating board, may work without direct
11 on-site supervision during the last six months of meeting the
12 practical experience requirements of this chapter.

13 (4)(a) Until December 31, 2025, the ratio of trainees to
14 certified journey level, residential service, or specialty plumbers
15 working on a job site must be:

17 structure job site for every certified specialty plumber or journey
18 level plumber working as a specialty plumber;

19 (ii) Not more than one trainee working on any one job site for
20 every certified journey level plumber working as a journey level
21 plumber; and

22 (iii) Not more than one trainee working on any one job site for

24 (b) After December 31, 2025, not more than two trainees may work
25 on any residential structure job site for every certified specialty
26 plumber or journey level plumber working as a specialty plumber.

27 (5) An individual who has a current training certificate and who
28 has successfully completed or is currently enrolled in a medical gas

7 the union representing plumbers and pipefitters; the association
8 representing plumbing contractors who employ union plumbers and
9 pipefitters; and other directly affected stakeholders after the
10 completion of the 2023 legislative session, the 2024 legislative
11 session, and every three years thereafter.

12 (b) The work group shall evaluate the effects that the trainee
13 ratio changes have had on the industry, including public safety and
14 industry response to public demand for plumbing services. The work
15 group shall determine a sustainable plan for maintaining sufficient
16 numbers of plumbers and trainees within the plumbing workforce to
17 safely meet the needs of the public. The report is due to the
18 standing labor committees of the legislature before December 1st of
19 each year that the work group convenes. The work group shall conclude
20 on receipt of the report by the legislature. Within current funding
21 appropriated to the department, the department must reimburse each

34 (c) The certificate, license, or endorsement holder has violated
35 any provision of this chapter or any rule adopted under this chapter.

36 (2) Before a certificate of competency, license, or endorsement
37 is revoked or suspended, the department shall send written notice
38 using a method by which the mailing can be tracked or the delivery

3 advisory board. At the hearing, the department and the certificate
4 holder have opportunity to produce witnesses and give testimony. The
5 hearing must be conducted in accordance with chapter 34.05 RCW. The

1 department, the department must apply the two hundred dollars to the
2 payment of the expenses of the appeal, including costs charged by the
3 office of administrative hearings. The administrative law judge shall
4 conduct hearings in these cases at locations in the county where the

38 five hundred dollars for the first infraction. The maximum penalty
39 for an infraction under RCW 18.106.020 must not exceed five thousand

1 dollars for a second or subsequent infraction. The department shall

36 registration shall be automatically suspended on the effective date
37 of the impairment or cancellation. The department shall mail notice
38 of the suspension to the contractor's address on the certificate of

4 receives the required fee and proof of bond and liability insurance,
5 if sent by certified mail or other means requiring proof of delivery.
6 The receipt or proof of delivery shall serve as the contractor's
7 proof of renewed registration until he or she receives verification
8 from the department.

9 (5) The department shall immediately suspend the certificate of
10 registration of a contractor who has been certified by the department
11 of social and health services as a person who is not in compliance
12 with a support order or a visitation order as provided in RCW
13 74.20A.320. The certificate of registration shall not be reissued or
14 renewed unless the person provides to the department a release from
15 the department of social and health services stating that he or she
16 is in compliance with the order and the person has continued to meet
17 all other requirements for certification during the suspension.

18 ~~((6) For a contractor who employs plumbers, as described in RCW
19 18.106.010(10)(c), and is also required to be licensed as an
20 electrical contractor as required in RCW 19.28.041, while doing pump

15 department, accompanied by the required fee. The application shall
16 state:

17 (a) The name and address of the applicant; in case of firms or
18 partnerships, the names of the individuals composing the firm or

3 (h) Whether a general or specialty electrical contractor license
4 is sought and, if the latter, the type of specialty. Electrical
5 contractor specialties include, but are not limited to: Residential,

9 shall grant to the holder the right to engage in, conduct, or carry
10 on the business of installing or maintaining wires or equipment to
11 carry electric current, and installing or maintaining equipment, or
12 installing or maintaining material to fasten or insulate such wires
13 or equipment to be operated by electric current, in the state of

24 coverage of an individual employee of the applicant. If coverage is
25 provided under the laws of another state, the department may notify
26 the other state that the applicant is employing employees in
27 Washington.

28 (3) The application for an electrical contractor license shall be

4 equipment to convey electrical current, and equipment to be operated
5 by electrical current, the principal will comply with the provisions
6 of this chapter and with any electrical ordinance, building code, or
7 regulation of a city or town adopted pursuant to RCW 19.28.010(3)
8 that is in effect at the time of entering into a contract. The bond
9 shall be conditioned further that the principal will pay for all
10 labor, including employee benefits, and material furnished or used
11 upon the work, taxes and contributions to the state of Washington,
12 and all damages that may be sustained by any person, firm,
13 partnership, corporation, or other entity due to a failure of the
14 principal to make the installation or maintenance in accordance with
15 this chapter or any applicable ordinance, building code, or
16 regulation of a city or town adopted pursuant to RCW 19.28.010(3). In
17 lieu of the surety bond required by this section, the license
18 applicant may file with the department a cash deposit or other
19 negotiable security acceptable to the department. If the license
20 applicant has filed a cash deposit, the department shall deposit the
21 funds in a special trust savings account in a commercial bank, mutual
22 savings bank, or savings and loan association and shall pay annually
23 to the depositor the interest derived from the account.

24 (4) The department shall issue general or specialty electrical
25 contractor licenses to applicants meeting all of the requirements of
26 this chapter. The provisions of this chapter relating to the
27 licensing of any person, firm, partnership, corporation, or other
28 entity including the requirement of a bond with the state of
29 Washington named as obligee therein and the collection of a fee
30 therefor, are exclusive, and no political subdivision of the state of

4 administrator or as a specialty electrical contractor administrator
5 in the specialty for which application has been made.

6 (6) Administrator certificate specialties include, but are not
7 limited to: Residential, pump and irrigation or domestic pump,
8 limited energy system, signs, nonresidential maintenance, restricted
9 nonresidential maintenance, appliance repair, and combination
10 specialty. To obtain an administrator's certificate, an individual
11 must pass an examination as set forth in RCW 19.28.051 unless the
12 applicant was a licensed electrical contractor at any time during
13 1974. Applicants who were electrical contractors licensed by the
14 state of Washington at any time during 1974 are entitled to receive a
15 general electrical contractor administrator's certificate without
16 examination if the applicants apply prior to January 1, 1984. The
17 board of electrical examiners shall certify to the department the
18 names of all persons who are entitled to either a general or
19 specialty electrical contractor administrator's certificate.

20 (7) For a contractor doing domestic water pumping system work as
21 defined by RCW 18.106.010(~~(10)~~) (14)(c), the department shall
22 consider the requirements of subsections (1)(a) through (h), (2), and
23 (3) of this section to have been met to be a pump and irrigation or
24 domestic pump licensed electrical contractor if (~~the~~):

25 (a) The contractor has met the plumbing contractor
26 (~~registration~~) licensing requirements of chapter (~~18.27~~) 18.106
27 RCW. The department shall establish a single (~~registration/~~)
28 licensing document for those who qualify for both (~~general~~) a
29 plumbing contractor (~~registration~~) license as defined in chapter
30 (~~18.27~~) 18.106 RCW and a pump and irrigation or domestic pump
31 electrical contractor license as defined by this chapter; or

32 (b) Until January 1, 2021, the contractor has met the contractor
33 registration requirements of chapter 18.27 RCW. The department shall
34 establish a single registration/licensing document for those who
35 qualify for both a general contractor registration as defined in
36 chapter 18.27 RCW and a pump and irrigation or domestic pump
37 electrical contractor license as defined by this chapter.

38 **Sec. 25.** RCW 19.28.191 and 2016 c 198 s 2 are each amended to
39 read as follows:

1 (1) Upon receipt of the application, the department shall review
2 the application and determine whether the applicant is eligible to
3 take an examination for the master journey level electrician, journey
4 level electrician, master specialty electrician, or specialty
5 electrician certificate of competency.

6 (a) Before July 1, 2005, an applicant who possesses a valid
7 journey level electrician certificate of competency in effect for the
8 previous four years and a valid general administrator's certificate
9 may apply for a master journey level electrician certificate of
10 competency without examination.

11 (b) Before July 1, 2005, an applicant who possesses a valid
12 specialty electrician certificate of competency, in the specialty
13 applied for, for the previous two years and a valid specialty
14 administrator's certificate, in the specialty applied for, may apply
15 for a master specialty electrician certificate of competency without
16 examination.

17 (c) Before December 1, 2003, the following persons may obtain an
18 equipment repair specialty electrician certificate of competency
19 without examination:

20 (i) A person who has successfully completed an apprenticeship
21 program approved under chapter 49.04 RCW for the machinist trade; and

22 (ii) A person who provides evidence in a form prescribed by the
23 department affirming that: (A) He or she was employed as of April 1,
24 2003, by a factory-authorized equipment dealer or service company;
25 and (B) he or she has worked in equipment repair for a minimum of
26 four thousand hours.

27 (d) To be eligible to take the examination for a master journey
28 level electrician certificate of competency, the applicant must have
29 possessed a valid journey level electrician certificate of competency
30 for four years.

31 (e) To be eligible to take the examination for a master specialty
32 electrician certificate of competency, the applicant must have
33 possessed a valid specialty electrician certificate of competency, in
34 the specialty applied for, for two years.

38 eight thousand hours, of which four thousand hours shall be in
39 industrial or commercial electrical installation under the
40 supervision of a master journey level electrician or journey level

1 electrician and not more than a total of four thousand hours in all
2 specialties under the supervision of a master journey level
3 electrician, journey level electrician, master specialty electrician
4 working in that electrician's specialty, or specialty electrician
5 working in that electrician's specialty. Specialty electricians with
6 less than a four thousand hour work experience requirement cannot
7 credit the time required to obtain that specialty towards qualifying
8 to become a journey level electrician; or

9 (ii) Successfully completed an apprenticeship program approved
10 under chapter 49.04 RCW for the electrical construction trade.

11 (g)(i) To be eligible to take the examination for a specialty
12 electrician certificate of competency, the applicant must have:

13 (A) Worked in the residential (as specified in WAC
14 296-46B-920(2)(a)), pump and irrigation (as specified in WAC

16 limited energy (as specified in WAC 296-46B-920(2)(e)),
17 nonresidential maintenance (as specified in WAC 296-46B-920(2)(g)),
18 or other new nonresidential specialties as determined by the
19 department in rule under the supervision of a master journey level
20 electrician, journey level electrician, master specialty electrician
21 working in that electrician's specialty, or specialty electrician
22 working in that electrician's specialty for a minimum of four
23 thousand hours;

24 (B) Worked in the appliance repair specialty as determined by the
25 department in rule, restricted nonresidential maintenance as
26 determined by the department in rule, the equipment repair specialty
27 as determined by the department in rule, the pump and irrigation

29 domestic pump specialty as determined by the department in rule, or a
30 specialty other than the designated specialties in (g)(i)(A) of this
31 subsection for a minimum of the initial ninety days, or longer if set
32 by rule by the department. The restricted nonresidential maintenance
33 specialty is limited to a maximum of 277 volts and 20 amperes for
34 lighting branch circuits and/or a maximum of 250 volts and 60 amperes
35 for other circuits excluding the replacement or repair of circuit
36 breakers. The department may alter the scope of work for the
37 restricted nonresidential maintenance specialty by rule. The initial
38 period must be spent under one hundred percent supervision of a
39 master journey level electrician, journey level electrician, master
40 specialty electrician working in that electrician's specialty, or

1 specialty electrician working in that electrician's specialty. After
2 this initial period, a person may take the specialty examination. If
3 the person passes the examination, the person may work unsupervised
4 for the balance of the minimum hours required for certification. A
5 person may not be certified as a specialty electrician in the
6 appliance repair specialty or in a specialty other than the
7 designated specialties in (g)(i)(A) of this subsection, however,
8 until the person has worked a minimum of two thousand hours in that
9 specialty, or longer if set by rule by the department; or

10 (C) Successfully completed an approved apprenticeship program
11 under chapter 49.04 RCW for the applicant's specialty in the
12 electrical construction trade.

13 (ii) In meeting the training requirements for the pump and
14 irrigation or domestic pump specialties, the individual shall be
15 allowed to obtain the experience required by this section at the same
16 time the individual is meeting the experience required by RCW
17 18.106.040(1)((e)) (d). After meeting the training requirements
18 provided in this section, the individual may take the examination and
19 upon passing the examination, meeting additional training
20 requirements as may still be required for those seeking a pump and
21 irrigation, or a domestic pump specialty certificate as defined by
22 rule, and paying the applicable fees, the individual must be issued
23 the appropriate certificate. The department may include an
24 examination for specialty plumbing certificate defined in RCW
25 18.106.010(~~(10)(e)~~) (14)(c) with the examination required by this
26 section. The department, by rule and in consultation with the
27 electrical board, may establish additional equivalent ways to gain
28 the experience requirements required by this subsection.

29 (~~Individuals who are able to provide evidence to the department,~~
30 ~~prior to January 1, 2007, that they have been employed as a pump~~
31 ~~installer in the pump and irrigation or domestic pump business by an~~
32 ~~appropriately licensed electrical contractor, registered general~~
33 ~~contractor defined by chapter 18.27 RCW, or appropriate general~~
34 ~~specialty contractor defined by chapter 18.27 RCW for not less than~~
35 ~~eight thousand hours in the most recent six calendar years shall be~~
36 ~~issued the appropriate certificate by the department upon receiving~~
37 ~~such documentation and applicable fees.)) The department shall
38 establish a single document for those who have received both an
39 electrical specialty certification as defined by this subsection and
40 have also met the certification requirements for the specialty~~

1 plumber as defined by RCW 18.106.010(~~(10)(e)~~), showing that the
2 individual has received both certifications. No other experience or
3 training requirements may be imposed.

4 (iii) Before July 1, 2015, an applicant possessing an electrical
5 training certificate issued by the department is eligible to apply
6 one hour of every two hours of unsupervised telecommunications system
7 installation work experience toward eligibility for examination for a
8 limited energy system certificate of competency (as specified in WAC
9 296-46B-920(2)(e)), if:

10 (A) The telecommunications work experience was obtained while
11 employed by a contractor licensed under this chapter as a general
12 electrical contractor (as specified in WAC 296-46B-920(1)) or limited
13 energy system specialty contractor (as specified in WAC
14 296-46B-920(2)(e)); and

15 (B) Evidence of the telecommunications work experience is
16 submitted in the form of an affidavit prescribed by the department.

17 (h) Any applicant for a journey level electrician certificate of
18 competency who has successfully completed a two-year program in the
19 electrical construction trade at public community or technical
20 colleges, or not-for-profit nationally accredited technical or trade
21 schools licensed by the workforce training and education coordinating
22 board under chapter 28C.10 RCW, may substitute up to two years of the
23 technical or trade school program for two years of work experience
24 under a master journey level electrician or journey level
25 electrician. The applicant shall obtain the additional two years of
26 work experience required in industrial or commercial electrical
27 installation prior to the beginning, or after the completion, of the
28 technical school program. Any applicant who has received training in
29 the electrical construction trade in the armed service of the United
30 States may be eligible to apply armed service work experience towards
31 qualification to take the examination for the journey level
32 electrician certificate of competency.

33 (i) An applicant for a specialty electrician certificate of
34 competency who, after January 1, 2000, has successfully completed a
35 two-year program in the electrical construction trade at a public
36 community or technical college, or a not-for-profit nationally
37 accredited technical or trade school licensed by the workforce
38 training and education coordinating board under chapter 28C.10 RCW,
39 may substitute up to one year of the technical or trade school
40 program for one year of work experience under a master journey level

1 electrician, journey level electrician, master specialty electrician
2 working in that electrician's specialty, or specialty electrician
3 working in that electrician's specialty. Any applicant who has
4 received training in the electrical construction trade in the armed
5 services of the United States may be eligible to apply armed service
6 work experience towards qualification to take the examination for an
7 appropriate specialty electrician certificate of competency.

8 (j) The department must determine whether hours of training and
9 experience in the armed services or school program are in the
10 electrical construction trade and appropriate as a substitute for
11 hours of work experience. The department must use the following
12 criteria for evaluating the equivalence of classroom electrical
13 training programs and work in the electrical construction trade:

14 (i) A two-year electrical training program must consist of three
15 thousand or more hours.

16 (ii) In a two-year electrical training program, a minimum of two
17 thousand four hundred hours of student/instructor contact time must
18 be technical electrical instruction directly related to the scope of
19 work of the electrical specialty. Student/instructor contact time
20 includes lecture and in-school lab.

21 (iii) The department may not allow credit for a program that
22 accepts more than one thousand hours transferred from another
23 school's program.

24 (iv) Electrical specialty training school programs of less than
25 two years will have all of the above student/instructor contact time
26 hours proportionately reduced. Such programs may not apply to more
27 than fifty percent of the work experience required to attain
28 certification.

29 (v) Electrical training programs of less than two years may not
30 be credited towards qualification for journey level electrician
31 unless the training program is used to gain qualification for a four
32 thousand hour electrical specialty.

33 (k) No other requirement for eligibility may be imposed.

34 (2) The department shall establish reasonable rules for the
35 examinations to be given applicants for certificates of competency.
36 In establishing the rules, the department shall consult with the
37 board. Upon determination that the applicant is eligible to take the
38 examination, the department shall so notify the applicant, indicating
39 the time and place for taking the examination.

1 (3) No noncertified individual may work unsupervised more than
2 one year beyond the date when the trainee would be eligible to test
3 for a certificate of competency if working on a full-time basis after
4 original application for the trainee certificate. For the purposes of
5 this section, "full-time basis" means two thousand hours.

6 **Sec. 26.** RCW 19.28.191 and 2018 c 249 s 1 are each amended to
7 read as follows:

8 (1) Upon receipt of the application, the department shall review
9 the application and determine whether the applicant is eligible to
10 take an examination for the master journey level electrician, journey
11 level electrician, master specialty electrician, or specialty
12 electrician certificate of competency.

13 (a) To be eligible to take the examination for a master journey
14 level electrician certificate of competency, the applicant must have
15 possessed a valid journey level electrician certificate of competency
16 for four years.

17 (b) To be eligible to take the examination for a master specialty
18 electrician certificate of competency, the applicant must have
19 possessed a valid specialty electrician certificate of competency, in
20 the specialty applied for, for two years.

21 (c) To be eligible to take the examination for a journey level
22 certificate of competency, the applicant must have successfully
23 completed an apprenticeship program approved under chapter 49.04 RCW
24 or equivalent apprenticeship program approved by the department for
25 the electrical construction trade in which the applicant worked in
26 the electrical construction trade for a minimum of eight thousand
27 hours. Four thousand of the hours shall be in industrial or
28 commercial electrical installation under the supervision of a master
29 journey level electrician or journey level electrician and not more
30 than a total of four thousand hours in all specialties under the
31 supervision of a master journey level electrician, journey level
32 electrician, master specialty electrician working in that
33 electrician's specialty, or specialty electrician working in that
34 electrician's specialty. Specialty electricians with less than a four
35 thousand hour work experience requirement cannot credit the time
36 required to obtain that specialty towards qualifying to become a
37 journey level electrician. The holder of a specialty electrician
38 certificate of competency with a four thousand hour work experience
39 requirement shall be allowed to credit the work experience required

1 to obtain that certificate towards apprenticeship requirements for
2 qualifying to take the examination for a journey level electrician
3 certificate of competency.

4 (d) To be eligible to take the examination for a specialty
5 electrician certificate of competency, the applicant must have:

6 (i) Worked in the residential (as specified in WAC
7 296-46B-920(2)(a)), pump and irrigation (as specified in WAC
8 296-46B-920(2)(b)), sign (as specified in WAC 296-46B-920(2)(d)),
9 limited energy (as specified in WAC 296-46B-920(2)(e)),
10 nonresidential maintenance (as specified in WAC 296-46B-920(2)(g)),
11 or other new nonresidential specialties as determined by the
12 department in rule under the supervision of a master journey level
13 electrician, journey level electrician, master specialty electrician
14 working in that electrician's specialty, or specialty electrician
15 working in that electrician's specialty for a minimum of four
16 thousand hours;

17 (ii) Worked in the appliance repair specialty as determined by
18 the department in rule, restricted nonresidential maintenance as
19 determined by the department in rule, the equipment repair specialty
20 as determined by the department in rule, the pump and irrigation
21 specialty other than as defined by (d)(i) of this subsection or
22 domestic pump specialty as determined by the department in rule, or a
23 specialty other than the designated specialties in (d)(i) of this
24 subsection for a minimum of the initial ninety days, or longer if set
25 by rule by the department. The restricted nonresidential maintenance
26 specialty is limited to a maximum of 277 volts and 20 amperes for
27 lighting branch circuits and/or a maximum of 250 volts and 60 amperes
28 for other circuits excluding the replacement or repair of circuit
29 breakers. The department may alter the scope of work for the
30 restricted nonresidential maintenance specialty by rule. The initial
31 period must be spent under one hundred percent supervision of a
32 master journey level electrician, journey level electrician, master
33 specialty electrician working in that electrician's specialty, or
34 specialty electrician working in that electrician's specialty. After
35 this initial period, a person may take the specialty examination. If
36 the person passes the examination, the person may work unsupervised
37 for the balance of the minimum hours required for certification. A
38 person may not be certified as a specialty electrician in the
39 appliance repair specialty or in a specialty other than the
40 designated specialties in (d)(i) of this subsection, however, until

1 the person has worked a minimum of two thousand hours in that
2 specialty, or longer if set by rule by the department;

3 (iii) Successfully completed an approved apprenticeship program
4 under chapter 49.04 RCW for the applicant's specialty in the
5 electrical construction trade; or

6 (iv) In meeting the training requirements for the pump and
7 irrigation or domestic pump specialties, the individual shall be
8 allowed to obtain the experience required by this section at the same
9 time the individual is meeting the experience required by RCW
10 18.106.040(1)((~~e~~)) (d). After meeting the training requirements
11 provided in this section, the individual may take the examination and
12 upon passing the examination, meeting additional training
13 requirements as may still be required for those seeking a pump and
14 irrigation, or a domestic pump specialty certificate as defined by
15 rule, and paying the applicable fees, the individual must be issued
16 the appropriate certificate. The department may include an
17 examination for specialty plumbing certificate defined in RCW
18 18.106.010((~~10~~)) (14)(c) with the examination required by this
19 section. The department, by rule and in consultation with the
20 electrical board, may establish additional equivalent ways to gain
21 the experience requirements required by this subsection. The
22 department shall establish a single document for those who have
23 received both an electrical specialty certification as defined by
24 this subsection and have also met the certification requirements for
25 the specialty plumber as defined by RCW 18.106.010((~~10~~)(~~e~~))
26 (14)(c), showing that the individual has received both
27 certifications. No other experience or training requirements may be
28 imposed.

29 (e) Any applicant for a journey level electrician certificate of
30 competency who has successfully completed a two-year program in the
31 electrical construction trade at public community or technical
32 colleges, or not-for-profit nationally accredited technical or trade
33 schools licensed by the workforce training and education coordinating
34 board under chapter 28C.10 RCW, may substitute up to two years of the
35 technical or trade school program for two years of work experience
36 under a master journey level electrician or journey level electrician
37 required under the apprenticeship program. The applicant shall obtain
38 the additional two years of work experience required in industrial or
39 commercial electrical installation prior to the beginning, or after
40 the completion, of the technical school program. Any applicant who

1 has received training in the electrical construction trade in the
2 armed service of the United States may be eligible to apply armed
3 service work experience towards qualification to complete an
4 apprenticeship and take the examination for the journey level
5 electrician certificate of competency.

6 (f) An applicant for a specialty electrician certificate of
7 competency who, after January 1, 2000, has successfully completed a
8 two-year program in the electrical construction trade at a public
9 community or technical college, or a not-for-profit nationally
10 accredited technical or trade school licensed by the workforce
11 training and education coordinating board under chapter 28C.10 RCW,
12 may substitute up to one year of the technical or trade school
13 program for one year of work experience under a master journey level
14 electrician, journey level electrician, master specialty electrician
15 working in that electrician's specialty, or specialty electrician
16 working in that electrician's specialty. Any applicant who has
17 received training in the electrical construction trade in the armed
18 services of the United States may be eligible to apply armed service
19 work experience towards qualification to take the examination for an
20 appropriate specialty electrician certificate of competency.

21 (g) The department must determine whether hours of training and
22 experience in the armed services or school program are in the
23 electrical construction trade and appropriate as a substitute for
24 hours of work experience. The department must use the following
25 criteria for evaluating the equivalence of classroom electrical
26 training programs and work in the electrical construction trade:

27 (i) A two-year electrical training program must consist of three
28 thousand or more hours.

29 (ii) In a two-year electrical training program, a minimum of two
30 thousand four hundred hours of student/instructor contact time must
31 be technical electrical instruction directly related to the scope of
32 work of the electrical specialty. Student/instructor contact time
33 includes lecture and in-school lab.

34 (iii) The department may not allow credit for a program that
35 accepts more than one thousand hours transferred from another
36 school's program.

37 (iv) Electrical specialty training school programs of less than
38 two years will have all of the above student/instructor contact time
39 hours proportionately reduced. Such programs may not apply to more

1 than fifty percent of the work experience required to attain
2 certification.

3 (v) Electrical training programs of less than two years may not
4 be credited towards qualification for journey level electrician
5 unless the training program is used to gain qualification for a four
6 thousand hour electrical specialty.

7 (h) No other requirement for eligibility may be imposed.

8 (2) The department shall establish reasonable rules for the
9 examinations to be given applicants for certificates of competency.
10 In establishing the rules, the department shall consult with the
11 board. Upon determination that the applicant is eligible to take the
12 examination, the department shall so notify the applicant, indicating
13 instructions for taking the examination.

14 (3) No noncertified individual may work unsupervised more than
15 one year beyond the date when the trainee would be eligible to test
16 for a certificate of competency if working on a full-time basis after
17 original application for the trainee certificate. For the purposes of
18 this section, "full-time basis" means two thousand hours.

19 **Sec. 27.** RCW 19.28.051 and 2006 c 185 s 8 are each amended to
20 read as follows:

21 It shall be the purpose and function of the board to establish,
22 in addition to a general electrical contractors' license, such
23 classifications of specialty electrical contractors' licenses as it
24 deems appropriate with regard to individual sections pertaining to
25 state adopted codes in this chapter. In addition, it shall be the
26 purpose and function of the board to establish and administer written
27 examinations for general electrical administrators' certificates and
28 the various specialty electrical administrators' certificates.
29 Examinations shall be designed to reasonably ensure that general and
30 specialty electrical administrators' certificate holders are
31 competent to engage in and supervise the work covered by this statute
32 and their respective licenses. The examinations shall include
33 questions from the following categories to ensure proper safety and
34 protection for the general public: (1) Safety, (2) state electrical
35 code, and (3) electrical theory. The department with the consent of
36 the board shall be permitted to enter into a contract with a
37 professional testing agency to develop, administer, and score these
38 examinations, or accept certifications or other appropriate
39 demonstrations established by independent entities that otherwise

1 fulfill the examination requirements of this section. (~~Individuals~~
2 ~~who can provide evidence to the department, prior to January 1, 2007,~~
3 ~~that they have been employed as a pump installer in the pump and~~
4 ~~irrigation or domestic pump business by an appropriately licensed~~

11 be set by the department in its contract with the professional
12 testing agency. The department may direct that the applicant pay the
13 fee to the professional testing agency. The fee shall cover but not
14 exceed the costs of preparing and administering the examination. It
15 shall be the further purpose and function of this board to advise the
16 director as to the need of additional electrical inspectors and
17 compliance officers to be utilized by the director on either a full-
18 time or part-time employment basis and to carry out the duties

23 RCW to read as follows:

24 (1) No city, town, or county shall issue a plumbing permit for
25 work which is to be done by any contractor required to be licensed
26 under this chapter without verification that such contractor is
27 currently licensed as required by law. When such verification is
28 made, nothing contained in this section is intended to be, nor shall
29 be construed to create, or form the basis for any liability under
30 this chapter on the part of any city, town, or county, or its
31 officers, employees, or agents.

37 informing them of plumbing contractor license laws and the potential
38 risk and monetary liability to the homeowner for using an unlicensed
39 plumbing contractor.

1 (3) If a plumbing permit is obtained by an applicant or
2 contractor who falsifies information to obtain an exemption provided
3 under RCW 18.106.150 the plumbing permit shall be forfeited.

4 NEW SECTION. **Sec. 29.** Sections 21, 22, and 28 of this act take
5 effect January 1, 2021.

6 NEW SECTION. **Sec. 30.** Section 25 of this act expires July 1,
7 2023.

8 NEW SECTION. **Sec. 31.** Section 26 of this act takes effect July
9 1, 2023.
