

SB 5722 - DIGEST

Requires counties, cities, towns, or other municipal corporations that provide services to homeless persons to give priority to those persons who establish proof of residency in that county, city, town, or other municipal corporation in which they are seeking services.

Requires designated essential needs and housing support entities to also give priority to those homeless persons who establish proof of residency within the county in which the entity operates and provides services.

Authorizes a city, county, town, or other municipal corporation to provide a homeless person, who seeks services but does not receive services due to a lack of both proof of residency and available services, with free transportation to the appropriate municipal corporation in which the homeless person is eligible for the receipt of services.
