

SHB 1156 - H AMD 226

By Representative Graham

1       On page 2, line 15, after "candidate" insert ". Ballots must be  
2 designed such that voters receive only one ballot that contains all  
3 elections in that jurisdiction. County auditors may not create  
4 separate ballots for ranked choice voting elections"

EFFECT: Ensures that county auditors designing ranked choice  
voting ballots include all ranked choice voting elections on the  
same ballot as "traditional" elections in the jurisdiction, so  
voters receive only one ballot.
