     EFFECT: Requires that each public school that serves high
school students provide specified dual credit information to
students and their parents or guardians prior to course scheduling
or course registration for the next school term, rather than at the
beginning of each school term. Restores language allowing students
to enroll in running start courses at participating "universities,"
rather than "institutions of higher education," only if the board of
directors of the students' school has decided to participate in the
running start program.
