**ADOPTED AS AMENDED 04/10/2021**

2 following:

3 "NEW SECTION. **Sec. 1.** FINDINGS AND INTENT. (1) The purpose of  
4 this chapter is to reduce environmental and health disparities in  
5 Washington state and improve the health of all Washington state  
6 residents. This chapter implements the recommendations of the  
7 environmental justice task force established in section 221(48),  
8 chapter 415, Laws of 2019 entitled "Report to the Washington state  
9 governor and legislature, *Environmental Justice Task Force:*  
10 *Recommendations for Prioritizing EJ in Washington State Government*  
11 (October 2020)."

12 (2) As conveyed in the task force report, Washington state  
13 studies and national studies found that people of color and low-  
14 income people continue to be disproportionately exposed to  
15 environmental harms in their communities. As a result, there is a  
16 higher risk of adverse health outcomes for those communities. This  
17 risk is amplified when overlaid on communities with preexisting  
18 social and economic barriers and environmental risks, and creates  
19 cumulative environmental health impacts, which this act seeks to  
20 prevent and mitigate.

21 This chapter also seeks to reduce exposure to environmental  
22 hazards within Indian country, as defined in 18 U.S.C. Sec. 1151, due  
23 to off-reservation activities within the state, and to improve state  
24 practices to reduce contamination of traditional foods wherever they  
25 occur. Exposure to such hazards can result in generational health and  
26 ecological problems, particularly on small reservations where it is  
27 impossible to move away from a hazard.

28 (3) Accordingly, the state has a compelling interest in  
29 preventing and addressing such environmental health disparities in  
30 the administration of ongoing and new environmental programs,  
31 including allocation of funds, and in administering these programs so  
32 as to remedy the effects of past disparate treatment of overburdened  
33 communities and vulnerable populations.

1 (4) The task force provided recommendations to state agencies for  
2 measurable goals and model policies to reduce environmental health  
3 inequities in Washington, equitable practices for meaningful  
4 community involvement, and how to use the environmental health  
5 disparities map to identify and promote the equitable distribution of  
6 environmental benefits to overburdened communities. In order for all  
7 communities in Washington state to be healthy and thriving, state  
8 government should aim to concentrate government actions to benefit  
9 communities that currently have the greatest environmental and health  
10 burdens.

11 NEW SECTION. **Sec. 2.** DEFINITIONS. The definitions in this  
12 section apply throughout this chapter unless the context clearly  
13 requires otherwise.

14 (1) "Council" means the environmental justice council established  
15 in section 20 of this act.

16 (2) "Covered agency" means the departments of ecology, health,  
17 natural resources, commerce, agriculture, and transportation, the  
18 Puget Sound partnership, and any agency that opts to assume all of  
19 the obligations of this act pursuant to section 11 of this act.

20 (3) "Cumulative environmental health impact" means the combined,  
21 multiple environmental impacts and health impacts on a vulnerable  
22 population or overburdened community.

23 (4) "Environmental benefits" means activities that:

24 (a) Prevent or reduce existing environmental harms or associated  
25 risks that contribute significantly to cumulative environmental  
26 health impacts;

27 (b) Prevent or mitigate impacts to overburdened communities or  
28 vulnerable populations from, or support community response to, the  
29 impacts of environmental harm; or

30 (c) Meet a community need formally identified to a covered agency  
31 by an overburdened community or vulnerable population that is  
32 consistent with the intent of this chapter.

33 (5) "Environmental harm" means the individual or cumulative  
34 environmental health impacts and risks to communities caused by  
35 historic, current, or projected:

36 (a) Exposure to pollution, conventional or toxic pollutants,  
37 environmental hazards, or other contamination in the air, water, and  
38 land;

1 (b) Adverse environmental effects, including exposure to  
2 contamination, hazardous substances, or pollution that increase the  
3 risk of adverse environmental health outcomes or create  
4 vulnerabilities to the impacts of climate change;

5 (c) Loss or impairment of ecosystem functions or traditional food  
6 resources or loss of access to gather cultural resources or harvest  
7 traditional foods; or

8 (d) Health and economic impacts from climate change.

9 (6) "Environmental health disparities map" means the data and  
10 information developed pursuant to section 19 of this act.

11 (7) "Environmental impacts" means environmental benefits or  
12 environmental harms, or the combination of environmental benefits and  
13 harms, resulting or expected to result from a proposed action.

14 (8) "Environmental justice" means the fair treatment and  
15 meaningful involvement of all people regardless of race, color,  
16 national origin, or income with respect to the development,  
17 implementation, and enforcement of environmental laws, rules, and  
18 policies. Environmental justice includes addressing disproportionate  
19 environmental and health impacts in all laws, rules, and policies  
20 with environmental impacts by prioritizing vulnerable populations and  
21 overburdened communities, the equitable distribution of resources and  
22 benefits, and eliminating harm.

23 (9) "Equitable distribution" means a fair and just, but not  
24 necessarily equal, allocation intended to mitigate disparities in  
25 benefits and burdens that are based on current conditions, including  
26 existing legacy and cumulative impacts, that are informed by  
27 cumulative environmental health impact analysis.

28 (10) "Evidence-based" means a process that is conducted by a  
29 systematic review of available data based on a well-established and  
30 widely used hierarchy of data in current use by other state and  
31 national programs, selected by the departments of ecology and health.  
32 The environmental justice council may provide input on the  
33 development of the process.

34 (11) "Overburdened community" means a geographic area where  
35 vulnerable populations face combined, multiple environmental harms  
36 and health impacts, and includes, but is not limited to, highly  
37 impacted communities as defined in RCW 19.405.020.

38 (12) "Significant agency action" means the following actions as  
39 identified at the beginning of a covered agency's consideration of  
40 the significant agency action or at the time when an environmental

1 justice assessment would normally be initiated in conjunction with an  
2 agency action:

3 (a) The development and adoption of significant legislative rules  
4 as defined in RCW 34.05.328;

5 (b) The development and adoption of any new grant or loan program  
6 that a covered agency is explicitly authorized or required by statute  
7 to carry out;

8 (c) A capital project, grant, or loan award by a covered agency  
9 of at least \$12,000,000 or a transportation project, grant, or loan  
10 by a covered agency of at least \$15,000,000;

11 (d) The submission of agency request legislation to the office of  
12 the governor or the office of financial management for approval; and

13 (e) Any other agency actions deemed significant by a covered  
14 agency consistent with section 14 of this act.

15 (13) "Tribal lands" has the same meaning as "Indian country" as  
16 provided in 18 U.S.C. Sec. 1151, and also includes sacred sites,  
17 traditional cultural properties, burial grounds, and other tribal  
18 sites protected by federal or state law.

19 (14)(a) "Vulnerable populations" means population groups that are  
20 more likely to be at higher risk for poor health outcomes in response  
21 to environmental harms, due to: (i) Adverse socioeconomic factors,  
22 such as unemployment, high housing and transportation costs relative  
23 to income, limited access to nutritious food and adequate health  
24 care, linguistic isolation, and other factors that negatively affect  
25 health outcomes and increase vulnerability to the effects of  
26 environmental harms; and (ii) sensitivity factors, such as low birth  
27 weight and higher rates of hospitalization.

28 (b) "Vulnerable populations" includes, but is not limited to:

29 (i) Racial or ethnic minorities;

30 (ii) Low-income populations;

31 (iii) Populations disproportionately impacted by environmental  
32 harms; and

33 (iv) Populations of workers experiencing environmental harms.

34 NEW SECTION. **Sec. 3.** ENVIRONMENTAL JUSTICE OBLIGATIONS FOR ALL  
35 AGENCIES. Covered agencies are required to comply with all provisions  
36 of this chapter. All other state agencies should strive to apply the  
37 laws of the state of Washington, and the rules and policies of the  
38 agency, in accordance with the policies of this chapter including, to  
39 the extent feasible, incorporating the principles of environmental

1 justice assessment processes set forth in section 14 of this act into  
2 agency decisions.

8 The partnership must apply and comply with the substantive and  
9 procedural requirements of chapter 70A.--- RCW (the new chapter  
10 created in section 25 of this act).

11 NEW SECTION. **Sec. 11.** AUTHORITY OF OTHER AGENCIES TO OPT IN TO  
12 ENVIRONMENTAL JUSTICE OBLIGATIONS. (1) Any state agency, as the term  
13 "agency" is defined in RCW 34.05.010, including the governor's office  
14 and the office of the attorney general but excluding local  
15 governmental entities, may opt in to assume all of the substantive  
16 and procedural requirements of covered agencies under chapter 70A.---  
17 RCW (the new chapter created in section 25 of this act) at any time  
18 by notifying the council established in section 20 of this act.

19 (2) An agency that opts in to assume all of the substantive and  
20 procedural requirements of chapter 70A.--- RCW (the new chapter  
21 created in section 25 of this act) is not subject to the deadlines or  
22 timelines established in sections 12, 13, 14, 16, and 20 of this act.

23 NEW SECTION. **Sec. 12.** INCORPORATING ENVIRONMENTAL JUSTICE INTO  
24 AGENCY STRATEGIC PLANS. (1) By January 1, 2023, each covered agency  
25 shall include an environmental justice implementation plan within its  
26 strategic plan. A covered agency may additionally incorporate an  
27 environmental justice implementation plan into other significant  
28 agency planning documents. The plan must describe how the covered  
29 agency plans to apply the principles of environmental justice to the  
30 agency's activities and must guide the agency in its implementation  
31 of its obligations under this chapter.

32 (2) In its environmental justice implementation plan, each  
33 covered agency must include:

34 (a) Agency-specific goals and actions to reduce environmental and  
35 health disparities and for otherwise achieving environmental justice  
36 in the agency's programs;

1 (b) Metrics to track and measure accomplishments of the agency  
2 goals and actions;

3 (c) Methods to embed equitable community engagement with, and  
4 equitable participation from, members of the public, into agency  
5 practices for soliciting and receiving public comment;

6 (d) Strategies to ensure compliance with existing federal and  
7 state laws and policies relating to environmental justice, including  
8 Title VI of the civil rights act of 1964, 42 U.S.C. Sec.  
9 2000d-2000d-4, Title IX of the Education Amendments of 1972, 20  
10 U.S.C. Sec. 1681-1683, Section 504 of the Rehabilitation Act of 1973,  
11 29 U.S.C. Sec. 794, and the age discrimination act of 1975, 42 U.S.C.  
12 Sec. 6101-6107;

13 (e) The plan for community engagement required under section 13  
14 of this act; and

15 (f) Specific plans and timelines for incorporating environmental  
16 justice considerations into agency activities as required under this  
17 chapter.

18 (3) In developing and updating its plan, each covered agency must  
19 consider any guidance developed by the council pursuant to section 20  
20 of this act.

21 NEW SECTION. **Sec. 13.** EQUITABLE COMMUNITY ENGAGEMENT AND PUBLIC  
22 PARTICIPATION. (1) By July 1, 2022, each covered agency must create  
23 and adopt a community engagement plan that describes how it will  
24 engage with overburdened communities and vulnerable populations as it  
25 evaluates new and existing activities and programs. This plan must  
26 describe how the agency plans to facilitate equitable participation  
27 and support meaningful and direct involvement of vulnerable  
28 populations and overburdened communities. The plan must include:

29 (a) How the covered agency will identify and prioritize  
30 overburdened communities for purposes of this chapter;

31 (b) Best practices for outreach and communication to overcome  
32 barriers to engagement with overburdened communities and vulnerable  
33 populations;

34 (c) Use of special screening tools that integrate environmental,  
35 demographic, and health disparities data, such as the environmental  
36 health disparities map, to evaluate and understand the nature and  
37 needs of the people who the agency expects to be impacted by  
38 significant agency actions under section 14 of this act and processes  
39 under section 16 of this act to overcome barriers to participation;

1 (d) Processes that facilitate and support the inclusion of  
2 members of communities affected by agency decision making including,  
3 to the extent legal and practicable, but not limited to, child care  
4 and reimbursement for travel and other expenses; and

5 (e) Methods for outreach and communication with those who face  
6 barriers, language or otherwise, to participation.

7 (2) Covered agencies must regularly review their compliance with  
8 existing laws and policies that guide community engagement and must  
9 comply with the following:

10 (a) Title VI of the civil rights act, prohibiting discrimination  
11 based on race, color, or national origin and requiring meaningful  
12 access to people with limited English proficiency, and disability;

13 (b) Executive Order 05-03, requiring plain talk when  
14 communicating with the public; and

15 (c) Guidance related to Executive Order 13166, requiring  
16 meaningful access to agency programs and services for people with  
17 limited English proficiency.

18 (3) In developing and updating its plan, each covered agency must  
19 consider any guidance developed by the council pursuant to section 20  
20 of this act.

21 (4) A covered agency may coordinate with the office of equity to  
22 identify policy and system barriers to meaningful engagement with  
23 communities as conducted by the office under RCW 43.06D.040(1)(b).

24 NEW SECTION. **Sec. 14.** ENVIRONMENTAL JUSTICE ASSESSMENT. (1)(a)  
25 When considering a significant agency action initiated after July 1,  
26 2023, a covered agency must conduct an environmental justice  
27 assessment in accordance with this section to inform and support the  
28 agency's consideration of overburdened communities and vulnerable  
29 populations when making decisions and to assist the agency with the  
30 equitable distribution of environmental benefits, the reduction of  
31 environmental harms, and the identification and reduction of  
32 environmental and health disparities.

33 (b) A covered agency must aspire to complete the environmental  
34 justice assessment for a significant agency action without delaying  
35 the completion of the underlying agency action.

36 (2)(a) Consistent with section 2(12)(e) of this act, for the  
37 purpose of preparing environmental justice assessments, a covered  
38 agency may deem actions significant that are additional to the  
39 significant agency actions identified in section 2(12)(a) through

1 (d) of this act, in iterative consultation with the council and  
2 interagency work group established under section 20 of this act. By  
3 July 1, 2025, each covered agency must consider their agency's  
4 activities and identify and begin applying environmental justice  
5 assessments to any actions that the agency identifies as significant  
6 that are in addition to the significant agency actions identified in  
7 section 2(12) (a) through (d) of this act. Significant agency actions  
8 designated by a covered agency under this subsection must be actions  
9 that may cause environmental harm or may affect the equitable  
10 distribution of environmental benefits to an overburdened community  
11 or a vulnerable population.

12 (b) In the identification of significant agency actions, covered  
13 agencies shall consider guidance issued by the council established in  
14 section 20 of this act. Each covered agency must periodically review  
15 and update its identified types of significant agency actions for  
16 which an environmental justice assessment is required under this  
17 section, and the relevant factors to the agency's environmental  
18 justice assessments that result from the unique mission, authorities,  
19 and priorities of the agency.

20 (3) By July 1, 2023, and periodically thereafter, after an  
21 opportunity for public comment on its determinations, each covered  
22 agency must:

23 (a) Publish on its website the types of agency actions that the  
24 agency has determined are significant agency actions that require an  
25 environmental justice assessment under this section, including any  
26 significant agency actions identified under subsection (2)(a) of this  
27 section;

28 (b) Provide notification of the determination of the types of  
29 significant agency actions in the Washington State Register; and

30 (c) Prepare an environmental justice assessment when considering  
31 a listed action, after publication of the list of any additional  
32 significant agency actions identified under (a) of this subsection.

33 (4) At a minimum, environmental justice assessments must:

34 (a) Consider guidance prepared by the council under section 20 of  
35 this act relating to best practices on environmental justice  
36 assessments and when and how to use cumulative environmental health  
37 impact analysis;

38 (b) Use cumulative environmental health impact analysis, such as  
39 the environmental health disparities map or other data that considers

1 the effects of a proposed action on overburdened communities and  
2 vulnerable populations;

3 (c) Identify overburdened communities and vulnerable populations  
4 who are expected to be affected by the proposed action and the  
5 potential environmental and health impacts;

6 (d) Identify if the proposed action is expected to have any local  
7 or regional impacts to federally reserved tribal rights and resources  
8 including, but not limited to, those protected by treaty, executive  
9 order, or federal law;

10 (e) Summarize community input and describe how the covered agency  
11 can further involve overburdened communities, vulnerable populations,  
12 affected tribes, and indigenous populations in development of the  
13 proposed action; and

14 (f) Describe options for the agency to reduce, mitigate, or  
15 eliminate identified probable impacts on overburdened communities and  
16 vulnerable populations, or provide a justification for not reducing,  
17 mitigating, or eliminating identified probable impacts.

18 (5) To obtain information for the purposes of assessments, a  
19 covered agency must solicit feedback from members of overburdened  
20 communities and vulnerable populations to assist in the accurate  
21 assessment of the potential impact of the action and in developing  
22 the means to reduce or eliminate the impact on overburdened  
23 communities and vulnerable populations.

24 (6) Based on the environmental justice assessment, each covered  
25 agency must seek, to the extent legal and feasible and consistent  
26 with the underlying statute being implemented, to reduce or eliminate  
27 the environmental harms and maximize the environmental benefits  
28 created by the significant agency action on overburdened communities  
29 and vulnerable populations. Consistent with agency authority,  
30 mission, and statutory responsibilities, the covered agency must  
31 consider each of the following methods for reducing environmental  
32 harms or equitably distributing environmental benefits:

33 (a) Eliminating the disparate impact of environmental harms on  
34 overburdened communities and vulnerable populations;

35 (b) Reducing cumulative environmental health impacts on  
36 overburdened communities or vulnerable populations;

37 (c) Preventing the action from adding to the cumulative  
38 environmental health impacts on overburdened communities or  
39 vulnerable populations;

1 (d) Providing equitable participation and meaningful engagement  
2 of vulnerable populations and overburdened communities in the  
3 development of the significant agency action;

4 (e) Prioritizing equitable distribution of resources and benefits  
5 to overburdened communities;

6 (f) Promoting positive workforce and job outcomes for  
7 overburdened communities;

8 (g) Meeting community needs identified by the affected  
9 overburdened community;

10 (h) Modifying substantive regulatory or policy requirements; and

11 (i) Any other mitigation techniques, including those suggested by  
12 the council, the office of equity, or representatives of overburdened  
13 communities and vulnerable populations.

14 (7) If the covered agency determines it does not have the ability  
15 or authority to avoid or reduce any estimated environmental harm of  
16 the significant agency action on overburdened communities and  
17 vulnerable populations or address the distribution of environmental  
18 and health benefits, the agency must provide a clear explanation of  
19 why it has made that determination and provide notice of that  
20 explanation to members of the public who participated in the process  
21 for the significant agency action or the process for the  
22 environmental justice assessment and who provided contact information  
23 to the agency.

24 (8) In developing a process for conducting environmental justice  
25 assessments, each covered agency must consider any guidance developed  
26 by the council pursuant to section 20 of this act.

27 (9) The issuance of forest practices permits under chapter 76.09  
28 RCW or sale of timber from state lands and state forestlands as  
29 defined in RCW 79.02.010 do not require an environmental justice  
30 assessment under this section.

31 NEW SECTION. **Sec. 15.** The obligation of a covered agency to  
32 conduct an environmental justice assessment pursuant to section 14 of  
33 this act for significant agency actions does not, by itself, trigger  
34 requirements in chapter 43.21C RCW.

35 NEW SECTION. **Sec. 16.** ENVIRONMENTAL JUSTICE OBLIGATIONS OF  
36 AGENCIES RELATING TO BUDGETS AND FUNDING. (1) With consideration of  
37 the guidelines issued by the council in section 20 of this act, and  
38 in iterative consultation with the council, each covered agency must

1 incorporate environmental justice principles into its decision  
2 processes for budget development, making expenditures, and granting  
3 or withholding environmental benefits. Through the incorporation of  
4 environmental justice principles into its decision processes,  
5 including by conducting environmental justice assessments where  
6 required under section 14 of this act, each covered agency, to the  
7 extent allowed by law and consistent with legislative appropriations,  
8 must equitably distribute funding and expenditures related to  
9 programs that address or may cause environmental harms or provide  
10 environmental benefits towards overburdened communities and  
11 vulnerable populations.

12 (2) Beginning on or before July 1, 2023, each covered agency  
13 must, where practicable, take the following actions when making  
14 expenditure decisions or developing budget requests to the office of  
15 financial management and the legislature for programs that address or  
16 may cause environmental harms or provide environmental benefits:

17 (a) Focus applicable expenditures on creating environmental  
18 benefits that are experienced by overburdened communities and  
19 vulnerable populations, including reducing or eliminating  
20 environmental harms, creating community and population resilience,  
21 and improving the quality of life of overburdened communities and  
22 vulnerable populations;

23 (b) Create opportunities for overburdened communities and  
24 vulnerable populations to meaningfully participate in agency  
25 expenditure decisions;

26 (c) Clearly articulate environmental justice goals and  
27 performance metrics to communicate the basis for agency expenditures;

28 (d) Consider a broad scope of grants and contracting  
29 opportunities that effectuate environmental justice principles,  
30 including:

31 (i) Community grants to monitor pollution;

32 (ii) Grants focused on building capacity and providing training  
33 for community scientists and other staff;

34 (iii) Making technical assistance available for communities that  
35 may be new to receiving agency grant funding; and

36 (iv) Education and work readiness youth programs focused on  
37 infrastructure or utility-related internships to develop career paths  
38 and leadership skills for youth; and

1 (e) Establish a goal of directing 40 percent of grants and  
2 expenditures that create environmental benefits to vulnerable  
3 populations and overburdened communities.

4 (3) A covered agency may adopt rules or guidelines for criteria  
5 and procedures applicable to incorporating environmental justice  
6 principles in expenditure decisions, granting or withholding  
7 benefits, and processes for budget development.

8 (4) In incorporating environmental justice principles into its  
9 decision processes for budget development, making expenditures, and  
10 granting or withholding benefits, each covered agency must consider  
11 any guidance developed by the council pursuant to section 20 of this  
12 act.

13 (5) A covered agency may not take actions or make expenditures  
14 under this section that are inconsistent with or conflict with other  
15 statutes or with conditions or limitations on the agency's  
16 appropriations.

17 (6) If a covered agency, due to the breadth of its programs and  
18 funding opportunities, determines it is not practicable to take the  
19 actions listed in subsection (2) of this section for all applicable

14 act, the department must continue to develop and maintain an  
15 environmental health disparities map with the most current available  
16 information necessary to identify cumulative environmental health  
17 impacts and overburdened communities. The department may also consult  
18 with other interested partners, such as the University of Washington

16 disparities map's indicators;

17 (c) Develop technical guidance for agencies that includes an  
18 online training video detailing a description of how to use the  
19 environmental health disparities map's features, access source data,

24 (4) (a) By November 1, 2022, the Washington state institute for  
25 public policy must conduct a technical review of the measures and  
26 methods used in the environmental health disparities map. The review  
27 must, to the extent possible, address the following:

29 used in other similar tools that aim to identify communities that are  
30 disproportionately impacted as a result of environmental justice  
31 issues;

33 and clinical importance of individual and composite measures included  
34 in the map and other similar tools; and

35 (iii) Compare methodologies used in the map to statistical  
36 methodologies used in other similar tools.

37 (b) The department of health and the University of Washington  
38 must provide technical documentation regarding current methods to the  
39 Washington state institute for public policy and must consult with

1 the institute as needed to ensure that the institute has adequate  
2 information to complete the technical review.

20 this act is inoperative solely to the extent of the conflict and with  
21 respect to the agencies directly affected, and this finding does not  
22 affect the operation of the remainder of this act in its application  
23 to the agencies concerned. Rules adopted under this act must meet  
24 federal requirements that are a necessary condition to the receipt of  
25 federal funds by the state."

26 Correct the title.

EFFECT: Makes the following changes to the Engrossed Second  
Substitute Bill (as passed by the Senate):

**Covered Agencies.**

Identifies the agencies required to assume environmental justice obligations as "covered agencies" (Puget Sound Partnership, and the Departments of Agriculture, Commerce, Ecology, Health, Natural Resources, and Transportation), and distinguishes provisions of the bill that apply to covered agencies as opposed to all state agencies.

Specifies that state agencies may opt-in to assume the obligations of covered agencies by notifying the environmental justice council, and clarifies that agencies that opt-in to assume environmental justice obligations of covered agencies are not bound

by the deadlines or timelines for the environmental justice obligations that apply to covered agencies.

**Planning and General Obligations of Covered Agencies.**

Authorizes, rather than requires, covered agencies include environmental justice implementation plans within planning documents other than the agency's strategic plan, while retaining the requirement that environmental justice implementation plans be included in the agency's strategic plan.

Requires covered agencies to update required environmental justice implementation plans and community engagement plans.

Requires each covered agency to identify, as part of its community engagement plan, how the agency will identify and prioritize overburdened communities, and requires the environmental justice council to provide related guidance to covered agencies regarding the identification and prioritization of overburdened communities.

Limits several of the obligations of state agencies with respect to environmental justice implementation by requiring those activities only to the extent legal, practicable, consistent with statutory authority, or consistent with appropriations.

Adds, as a type of environmental harm to be addressed by covered agencies, the loss or impairment of ecosystem functions or traditional food resources, or loss of access to gather cultural resources or traditional foods.

**Significant Agency Actions and Environmental Justice Assessments.**

Narrows the definition of "significant agency actions" for which covered agencies must conduct an environmental justice assessment to the following five categories: (1) Significant legislative rules; (2) new statutory grant or loan program development and adoption; (3) the award by a covered agency of a capital project, grant, or loan of at least \$12 million or a transportation project, grant, or loan of at least \$15,000,000; and (4) the submission of agency request legislation to the office of the governor or the office of financial management for approval.

Establishes a process for covered agencies to identify and periodically evaluate additional types of significant agency actions beyond the five categories included in the definition, and requires covered agencies to consider other agency actions that may be significant by 2025.

Requires each covered agency to publish by July 1, 2023, a list of actions that the agency has determined is a significant agency action, and for which environmental justice assessments must be completed.

Clarifies that environmental justice assessment requirements apply only to significant agency actions initiated after July 1, 2023.

Specifies that the issuance of forest practice permits and sale of timber from state lands and state forestlands do not require an environmental justice assessment.

Requires covered agencies to aspire to complete environmental justice assessments without delaying the underlying significant agency action. Requires covered agencies to include logistical implementation metrics in their annual dashboard report on the Office of Financial Management's website.

Requires the environmental justice council to provide guidance to covered agencies on the agency activities that are automatically defined as significant agency actions, and to make recommendations to covered agencies as to which other agency actions should be considered significant agency actions because they may cause

environmental harm or may affect the equitable distribution of environmental benefits to an overburdened community.

Requires covered agencies to periodically evaluate their list of identified significant agency actions.

Requires covered agencies to file a notice with the office of financial management for significant agency actions for which the agency is initiating an environmental justice assessment, and for the office of financial management to post covered agency filings on its website and make it available to interested parties.

**Budget and Expenditure Obligations of Covered Agencies.**

Provides limits on the requirement that covered agencies to incorporate environmental justice principles into decision processes for budget development and making expenditures, including by requiring incorporation of principles only to the extent allowed by law, where practicable, consistent with legislative appropriations, and to apply only to applicable expenditures related to programs that address or may cause environmental harms or provide environmental benefits.

Clarifies that all covered agencies, rather than just the Department of Transportation, may not take actions or make expenditures that are inconsistent with or conflict with other statutes or conditions and limitations on the agency's appropriations.

Requires covered agencies to provide updates on the implementation of environmental justice principles in agency expenditures and budgets, as part of the annual update on the covered agency's activities posted on the Office of Financial Management's website.

Authorizes covered agencies to determine that it is not practicable to take specified actions to integrate environmental justice principles into expenditure decisions or budget requests for all applicable expenditure decisions and budget requests developed by a covered agency. Requires each covered agency, by July 1, 2023, to publish on its website the types of decision processes for budget development, making expenditures, and granting or withholding environmental benefits that will be subject to specified actions to integrate environmental justice principles into expenditure decisions.

**Environmental Justice Council.**

Eliminates senate confirmation of environmental justice council members.

Expands the environmental justice council from 12 to 14 members by adding one representative each from a business regulated by a covered agency and whose business is affected by at least one other covered agency, and one representative of a union representing workers in the building and construction trades.

Makes the governor responsible for appointment of environmental justice council members representing tribal communities, rather than the Governor's office of Indian affairs.

Requires the Governor to solicit and consider nominees and collaborate with each tribe on the selection of tribal representatives, rather than to make the selection in consultation with all tribes.

Eliminates the requirement that the environmental justice council make recommendations on the prioritization and phase-in of implementation priorities prior to July 1, 2023.

Authorizes the environmental justice council to provide requested assistance to state agencies that are not covered agencies related to the voluntary incorporation of environmental justice principles into agency activities.

**Indian Tribe Consultation.**

Specifies that consultation requirements applicable to covered agencies pertain only to federally recognized Indian tribes.

Requires covered agencies to develop a consultation framework in collaboration with tribal governments.

Limits consultation obligations of covered agencies to actions taken to incorporate environmental justice into covered agency strategic plans, actions related to the community engagement plan developed by covered agencies, and significant agency actions that affect federally recognized Indian tribes' rights and interests in tribal lands, rather than applying to covered agency decisions broadly.

Requires the Department of Health to offer consultation with federally recognized Indian tribes related to the development of the environmental health disparities map.

Specifies that the new consultation obligations of covered agencies are in addition to requirements that apply to all state agencies with respect to Indian tribe consultation.

**Environmental Health Disparities Map.**

Establishes a definition for the "evidence-based", which pertains to evidence-based indicators that the Department of Health may request assistance from researchers to apply.

Requires, rather than authorizes, the Department of Health to request assistance from state universities, other academic researchers, and other state agencies for specified types of input into the development of the health disparities map. Requires the Washington State Institute for Public Policy (WSIPP) to conduct a technical review of the Department of Health's environmental health disparities map by November 1, 2022. Requires the Department of Health and the University of Washington provide technical documentation and other information as needed to WSIPP for their technical review. Requires WSIPP to submit a report of their findings to the Legislature, the Governor, and the Environmental Justice Council by November 1, 2022.

**Other.**

Limits appeals of agency actions under the bill to covered agencies' (a) identification of significant agency actions and (b) environmental justice assessments of significant agency actions, only for significant agency actions that are appealable.

Specifies that the Act does not create a new private right of action other than the specified appeal process.

Specifies that appeals of environmental justice assessments must be of the environmental justice assessment together with the accompanying agency action that is appealable.

Clarifies that specified types of exemptions to environmental justice assessment and budget obligations of covered agencies must be determined by the head of a covered agency on a case-by-case basis.

Adds a federal funding savings clause.

Amends the intent section.

Makes numerous other clarifying and technical edits.
