

SSB 5273 - H COMM AMD

By Committee on Rural Development, Agriculture & Natural Resources

1 On page 2, beginning on line 16, after "factors in" strike "an
2 alternative's analysis" and insert "an analysis of alternatives. If
3 an alternative other than the most preferred alternative, as
4 identified in (b)(i) through (vii) of this subsection, is selected,
5 the analysis must establish that more preferred alternatives were
6 cost prohibitive, or not technically feasible, or both"

EFFECT: Requires that, in an analysis of marine shoreline stabilization alternatives, if any alternative other than the most preferred alternative is selected, the analysis must establish that more preferred alternatives were cost prohibitive, or technically not feasible, or both.
