

**ESSB 5599 - H AMD 1230**

By Representative Sells

1       On page 2, line 31, after "(iii)" insert "A journey level  
2 electrician certificate obtained through examination by another state  
3 licensing jurisdiction that requires at least 8,000 hours of  
4 supervised experience in the electrical construction trade installing  
5 and maintaining electrical wiring and equipment to qualify for  
6 examination. Four thousand of the hours shall be new electrical  
7 installations in industrial or commercial facilities. Experience  
8 applied toward qualifying for examination in that state jurisdiction  
9 must be gained within that jurisdiction or through military service;  
10       (iv)"

11       Reletter the remaining subsection consecutively and correct any  
12 internal references accordingly.

EFFECT: Adds possession of certain journey level electrician certificates obtained out-of-state as a pathway to eligibility to take the journey level electrician certification exam.
