1 On page 1, line 13, after "applicant." insert "The wage scale or
2 salary range required to be disclosed for a specific available
3 position must reflect what the employer is intending to offer and does
4 not need to reflect any bonuses, compensatory incentives, or merit-
5 based salary increases the employer has provided or plans to provide
6 to its existing employees in similar positions. Nothing in this
7 section requires an employer to change the wage scale or salary range
8 in a posting for a position based on the employer providing a merit-
9 based increase, bonus, or other compensatory incentive to an existing
10 employee in a similar position."

EFFECT: Specifies that the wage scale or salary range posted does not need to reflect bonuses, incentives, or increases the employer provides or plans to provide existing employees in similar positions.
