13 (2) It is the goal of the legislature that students enrolled in  
14 state registered apprenticeship programs and receiving related  
15 supplemental instruction at a community and technical college have  
16 access to the Washington college grant through the financial aid  
17 office at their college. The Washington student achievement council  
18 shall verify access to the Washington college grant for students  
19 enrolled in state registered apprenticeship programs receiving their  
20 related supplemental instruction other than at a community and  
21 technical college.

24 year.

25 (4) As part of the implementation process, the state board for  
26 community and technical colleges must collaborate with the office of  
27 student financial assistance, as defined in RCW 28B.92.030, to create

32 office of student financial assistance must establish data-sharing

36 (a) Evaluate paths to credentials for apprentices, including  
37 recommendations on the requirements and benefits of expanding the  
38 multioccupational trades degree, and exploration of other credentials

1 that will support transfer to baccalaureate degrees or other advanced  
2 credentials for apprentices. This evaluation may include options for  
3 instructional modality and analysis of the opportunities and  
4 limitations for incorporating general education course requirements  
5 into degree pathways for apprentices. The evaluation may also include  
6 reviewing credit articulation within the college system, prior  
7 learning assessments, and competency-based models, as applicable;

8 (b) Examine national best practices in delivery and award of  
9 educational credentials to apprentices. This exploration may include  
10 assessment of the governance structures and operational models for  
11 delivery of apprenticeship degree pathways, including operational  
12 considerations and costs associated with those models, and make  
13 recommendations on the model or models best suited for implementation  
14 in Washington with consideration on sustainably funding and growing  
15 state registered apprenticeships in the future;

16 (c) Research apprentices' demand for degrees, for individuals in,  
17 or who have completed, a state registered apprenticeship program;

18 (d) Review the current funding model for apprentices within the  
19 community and technical college system, with consideration on the use  
20 of state funds for apprenticeships, and national funding structures  
21 for apprenticeship programs that could be applied within Washington  
22 state. The center must consult with the Washington state  
23 apprenticeship council established under chapter 49.04 RCW, the state  
24 board for community and technical colleges, the associated general  
25 contractors of Washington, the association of Washington business,  
26 and any other relevant or impacted parties as needed to provide  
27 recommendations to the legislature on a sustainable funding model for  
28 related supplemental instruction and credit for apprentices through  
29 the community and technical college system to ensure it fully covers  
30 institutional and apprenticeship program costs of related  
31 supplemental instruction. This funding model review may include  
32 institutional costs of developing, administering, delivering,  
33 hosting, instructing, and contracting. These recommendations must be  
34 included in the annual report established in subsection (2) of this  
35 section;

36 (e) Consult with the state board for community and technical  
37 colleges, an organization representing the presidents of the public

6 interests and expertise in apprenticeship training and higher  
7 education mobility;

8 (f) Identify and remove barriers for apprentices to access the  
9 Washington college grant program, established under RCW 28B.92.200,

12 December 1st, beginning in 2023, in compliance with RCW 43.01.036,  
13 the William D. Ruckelshaus Center's progress, findings, and  
14 recommendations to the appropriate higher education committees of the  
15 legislature on the evaluations in subsection (1) of this section. The  
16 annual report in 2026 shall provide viable policy options for degree  
17 pathways for individuals who complete state registered apprenticeship  
18 programs.

19 (3) The apprenticeship council, in consultation with the state  
20 board for community and technical colleges, the student achievement  
21 council, an organization representing the presidents of the public  
22 four-year institutions of higher education, and any other relevant or  
23 impacted parties as needed, shall explore whether the state should  
24 establish an institution, or centralized program, for apprentices to  
25 receive related supplemental instruction for credit towards a degree.  
26 A report on their findings, with a recommendation, must be included  
27 in the December 1, 2023, annual report established in subsection (2)  
28 of this section.

33 instruction in active state apprenticeship programs, registered  
34 during or before July 1, 2022, by the 2028-29 school year. For all  
35 state registered apprenticeship programs approved after July 1, 2022,  
36 all institutions of higher education, as defined in RCW 28B.10.016,  
37 must establish a policy for granting as many credits, as possible and  
38 appropriate, for related supplemental instruction within six years of  
39 the program's registration. While establishing credits, institutions

1 of higher education must consult with their faculty representatives.  
2 Credits are at the sole discretion of each institution of higher  
3 education and must be determined in consultation with their faculty  
4 representatives. Credits established by institutions of higher  
5 education are not intended to impact the possible revision of  
6 previously approved related supplemental instruction in a state  
7 registered apprenticeship program.

8 NEW SECTION. **Sec. 5.** Sections 2 through 4 of this act  
9 constitute a new chapter in Title 28B RCW.
