10 Renumber the remaining subsections consecutively and correct any
11 internal references accordingly.

EFFECT: A health care facility or provider must require documentation that the minor patient is an unaccompanied homeless youth in order to provide informed consent under the provisions of the underlying bill (instead of allowing health care facilities and providers to require this documentation at their discretion). The discretionary ability of health care providers to rely on representation or declarations stating that the minor patient is an unaccompanied youth is removed.
