20 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

Sec. 1003. 2021 c 332 s 1015 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF COMMERCE

2017-19 Housing Trust Fund Program (30000872)

The (~~reappropriations~~) appropriations in this section are subject to the following conditions and limitations: The (~~reappropriations~~) appropriations are subject to the provisions of section 6001, chapter 356, Laws of 2020. Section 6001, chapter 356, Laws of 2020 is set forth in full below, except that new language is added to subsection (1)(f)(x) of this section, which supersedes the requirements of subsection (1)(f)(x) in section 6001, chapter 356, Laws of 2020.

(1) \$83,500,000 of the state taxable building construction account—state appropriation, \$19,631,000 of the state building construction account—state appropriation, and \$8,658,000 of the Washington housing trust account—state appropriation are provided solely for affordable housing and preservation of affordable housing. Of the amounts in this subsection:

(a) \$24,370,000 is provided solely for housing projects that provide supportive housing and case-management services to persons with chronic mental illness. The department must prioritize low-income supportive housing unit proposals that provide services or include a partner community behavioral health treatment provider;

(b) \$10,000,000 is provided solely for housing preservation grants or loans to be awarded competitively. The grants may be provided for major building improvements, preservation, and system replacements necessary for the existing housing trust fund portfolio to maintain long-term viability. The department must require that a capital needs assessment is performed to estimate the cost of the preservation project at contract execution. Funds may not be used to add or expand the capacity of the property. To receive grants, housing projects must meet the following requirements:

(i) The property is more than 15 years old;

(ii) At least 50 percent of the housing units are occupied by families and individuals at or below 30 percent area median income;

(iii) The improvements will result in reduction of operating or utilities costs, or both; and

1 (iv) Other criteria that the department considers necessary to
2 achieve the purpose of this program.

3 (c) \$5,000,000 is provided solely for housing projects that
4 benefit people at or below 80 percent of the area median income who
5 have been displaced by a natural disaster declared by the governor,
6 including people who have been displaced within the last two biennia.

7 (d) \$1,000,000 of the Washington housing trust account—state
8 appropriation is provided solely for the department to work with the
9 communities of concern commission to focus on creating capital assets
10 that will help reduce poverty and build stronger and more sustainable
11 communities using the communities' cultural understanding and vision.
12 The funding must be used for predevelopment costs for capital
13 projects identified by the commission and for other activities to
14 assist communities in developing capacity to create community-owned
15 capital assets.

16 (e) \$1,000,000 of the Washington housing trust account—state
17 appropriation and \$1,500,000 of the state taxable building
18 construction account—state appropriation are provided solely for the
19 department to contract directly with YouthCare Service Center to
20 purchase the 1534 Broadway site from Capitol Hill Housing in order
21 for YouthCare Service Center to develop a youth community center.

22 (f) \$25,506,000 is provided solely for the following list of
23 housing projects:

- 31 (viii) Supported Housing and Employment (Longview). . . \$129,000
- 32 (ix) \$2,000,000 is provided solely for homeownership assistance
33 for low-income households displaced from their manufactured/mobile
34 homes due the closure or conversion of a mobile home park or
35 manufactured housing community in south King county. \$1,500,000 of
36 this amount in this subsection is provided solely for low-income
37 residents displaced from the Firs Mobile Home Park located in SeaTac.

38 (x) \$7,500,000 is provided solely for grants for high quality
39 low-income housing projects that will quickly move people from

1 homelessness into secure housing and are significantly less expensive
2 to construct than traditional housing. It is the intent of the
3 legislature that these grants serve projects with a total project
4 development cost per housing unit of less than \$200,000, excluding
5 the value of land, and with a commitment by the applicant to maintain
6 the housing units for at least a 25 year period. Amounts provided
7 that are subject to this subsection (1)(f)(x) must be used to plan,
8 predesign, design, provide technical assistance and financial
9 services, purchase land for, and build innovative low-income housing

19 is fully funded. \$500,000 of the appropriation for housing units in
20 Orting can be released for purchase of land, planning, or predesign
21 services before the project is fully funded.

22 (xi) \$7,290,000 is provided solely for grants to the following
23 organizations using innovative methods to address homelessness:

25 \$3,000,000 for a King county housing project.

26 (xii) \$1,500,000 is provided solely for Valley Cities modular
27 housing project in Auburn.

28 (g) Of the amounts appropriated remaining after (a) through (f)
29 of this subsection, the department must allocate the funds as
30 follows:

31 (i) Ten percent is provided solely for housing projects that
32 benefit veterans;

33 (ii) Ten percent is provided solely for housing projects that
34 benefit homeownership;

35 (iii) Five percent is provided solely for housing projects that
36 benefit people with developmental disabilities; and

37 (iv) The remaining amount is provided solely for projects that
38 serve low-income and special needs populations in need of housing,
39 including, but not limited to, homeless families with children,
40 homeless youth, farmworkers, and seniors.

1 (2) In evaluating projects in this section, the department must
2 give preference for applications based on some or all of the criteria
3 in RCW 43.185.070(5).

4 (3) The department must strive to allocate all of the amounts
5 appropriated in this section within the 2017-2019 fiscal biennium in
6 the manner prescribed in subsection (1) of this section. However, if
7 upon review of applications the department determines there are not
8 adequate suitable projects in a category, the department may allocate
9 funds to projects serving other low-income and special needs
10 populations, provided those projects are located in an area with an
11 identified need for the type of housing proposed.

11 provisions of section 6006, chapter 413, Laws of 2019. Section 6006,
12 chapter 413, Laws of 2019 is set forth in full below, except that new
13 language is added to subsection (10), which supersedes the
14 requirements of subsection (10) in section 6006, chapter 413, Laws of
15 2019.

16 (1) The appropriations in this section are provided solely for
17 projects that provide a benefit to the public through development,
18 demonstration, and deployment of clean energy technologies that save
19 energy and reduce energy costs, reduce harmful air emissions, or
20 increase energy independence for the state.

21 (2) In soliciting and evaluating proposals, awarding contracts,
22 and monitoring projects under this section, the department must:

23 (a) Ensure that competitive processes, rather than sole source

26 (b) Conduct due diligence activities associated with the use of
27 public funds including, but not limited to, oversight of the project
28 selection process, project monitoring, and ensuring that all
29 applications and contracts fully comply with all applicable laws
30 including disclosure and conflict of interest statutes.

31 (3) (a) Pursuant to chapter 42.52 RCW, the ethics in public
32 service act, the department must require a project applicant to
33 identify in application materials any state of Washington employees
34 or former state employees employed by the firm or on the firm's
35 governing board during the past 24 months. Application materials must
36 identify the individual by name, the agency previously or currently
37 employing the individual, job title or position held, and separation
38 date. If it is determined by the department that a conflict of

1 interest exists, the applicant may be disqualified from further
2 consideration for award of funding.

3 (b) If the department finds, after due notice and examination,
4 that there is a violation of chapter 42.52 RCW, or any similar
5 statute involving a grantee who received funding under this section,
6 either in procuring or performing under the grant, the department in
7 its sole discretion may terminate the funding grant by written
8 notice. If the grant is terminated, the department must reserve its
9 right to pursue all available remedies under law to address the
10 violation.

11 (4) The requirements in subsections (2) and (3) of this section
12 must be specified in funding agreements issued by the department.

13 (5) \$11,000,000 of the state building construction account—state
14 appropriation is provided solely for grid modernization grants for
15 projects that advance clean and renewable energy technologies, and
16 transmission and distribution control systems; support integration of
17 renewable energy sources, deployment of distributed energy resources,
18 and sustainable microgrids; and increase utility customer options for
19 energy sources, energy efficiency, energy equipment, and utility
20 services.

21 (a) Projects must be implemented by public and private electrical
22 utilities that serve retail customers in the state. Eligible
23 utilities may partner with other public and private sector research
24 organizations and businesses in applying for funding.

25 (b) The department shall develop a grant application process to
26 competitively select projects for grant awards that includes scoring
27 conducted by a group of qualified experts with application of
28 criteria specified by the department. In development of the
29 application criteria, the department shall, to the extent possible,
30 allow smaller utilities or consortia of small utilities to apply for
31 funding.

32 (c) Applications for grants must disclose all sources of public
33 funds invested in a project.

34 (6) \$7,900,000 of the state building construction account—state

38 (a) Projects must be implemented by local governments, or by
39 public and private electrical utilities that serve retail customers

1 in the state. Eligible parties may partner with other public and
2 private sector research organizations and businesses in applying for
3 funding. The department must coordinate with other electrification
4 programs, including projects the department of transportation is
5 developing and projects funded by the Volkswagen consent decree, to
6 determine the most effective distribution of the systems.

7 (b) Priorities must be given to eligible technologies that reduce
8 the top 200 hours of demand and the demand side.

9 (c) Eligible technologies for these projects include, but are not
10 limited to:

11 (i) Electric vehicle and transportation system charging and open
12 source control infrastructure, including inductive charging systems;

22 state appropriation is provided solely for strategic research and
23 development for new and emerging clean energy technologies, as needed
24 to match federal or other nonstate funds to research, develop, and
25 demonstrate clean energy technologies.

26 (b) The department shall consult and coordinate with the
27 University of Washington, Washington State University, the Pacific
28 Northwest national laboratory and other clean energy organizations to
29 design the grant program unless an organization prefers to compete
30 for the grants. If an organization prefers to receive grants from the
31 program, it may not participate in the consultant process determining
32 how the grant process is structured. The program must offer matching
33 funds for competitively selected clean energy projects, including but
34 not limited to: Solar technologies, advanced bioenergy and biofuels,
35 development of new earth abundant materials or lightweight materials,
36 advanced energy storage, battery components recycling, and new
37 renewable energy and energy efficiency technologies. Criteria for the
38 grant program must include life cycle cost analysis for projects that
39 are part of the competitive process.

1 (c) \$750,000 of the appropriation in this subsection (7) is
2 provided solely for the state efficiency and environmental program.

3 (8) \$8,000,000 of the state taxable construction account—state
4 appropriation is provided solely for scientific instruments to help
5 accelerate research in advanced materials at the proposed science
6 laboratories infrastructure facility at the Pacific Northwest
7 national laboratory. These state funds are contingent on securing
8 federal funds for the new facility, and are provided as match to the
9 federal funding. The instruments must support researchers at the
10 bioproducts sciences and engineering laboratory, the joint center for
11 deployment research in earth abundant materials, the center for
12 advanced materials and clean energy technology, and other energy and
13 materials collaborations with the University of Washington and
14 Washington State University.

15 (9) \$1,600,000 of the state building construction account—state
16 appropriation and \$2,400,000 of the energy efficiency account—state
17 appropriation are provided solely for grants to be awarded in
18 competitive rounds for the deployment of solar projects located in
19 Washington state.

20 (a) Priority must be given to distribution side projects that
21 reduce peak electricity demand.

22 (b) Projects must be capable of generating more than 100
23 kilowatts of direct current generating capacity.

24 (c) Except as provided in (d) of this subsection, grants may not
25 exceed \$200,000 per megawatt of direct current generating capacity
26 and total grant funds per project may not exceed \$1,000,000 per
27 applicant. Applicants may not use other state grants.

28 (d) At least 35 percent of the total allocation of a project must
29 be for community solar projects that provide solar electricity to
30 low-income households, low-income tribal housing programs, affordable
31 housing providers, and nonprofit organizations providing services to
32 low-income communities. The provisions of (9)(c) of this subsection
33 do not apply to projects funded under this subsection (9)(d).

34 (e) Priority must be given to major components made in
35 Washington.

36 (f) The department must attempt to prioritize an equitable
37 geographic distribution and a diversity of project sizes.

38 (10) \$2,400,000 of the state building construction account—state
39 appropriation is provided solely for the first phase of an aluminum

1 smelter restart project which, when fully deployed, will reduce
 2 emissions of greenhouse gases by a minimum of 750,000 tons per year,
 3 increase energy efficiency, and protect or create aluminum
 4 manufacturing jobs located in Whatcom county. It is the intent of the
 5 legislature that if funds are not expended by the grantee by June 30,
 6 2025, the funds may be used by the department for clean energy
 7 investments under this section.

8 (11) \$1,100,000 of the state building construction account—state
 9 appropriation is provided solely for a grant to the public utility
 10 district No. 1 of Klickitat county for the remediation, survey, and

31 RCW 27.12.010, in acquiring, constructing, repairing, or
32 rehabilitating facilities.

33 (3) The department must establish a committee to develop the
34 grant program criteria and review proposals. The committee must be
35 composed of five members as provided in this subsection. The

11 (40000148)

12 The appropriations in this section are subject to the following
13 conditions and limitations:

14 (1) The appropriations in this section are provided solely for
15 projects that provide a benefit to the public through development,
16 demonstration, and deployment of clean energy technologies that save
17 energy and reduce energy costs, reduce harmful air emissions, or
18 increase energy independence for the state. Priority must be given to
19 projects that benefit vulnerable populations and overburdened
20 communities, including tribes and communities with high environmental
21 or energy burdens.

22 (2) The 2021 state energy strategy must guide the department in
23 the design of programs under this section, using an equity and
24 environmental justice lens for program structure and participation.
25 To the extent practicable, the department must prioritize projects
26 that build upon Washington's existing strengths in communities,
27 aerospace, maritime, information and communications technology
28 (particularly data center infrastructure, artificial intelligence and
29 machine learning), grid modernization, advanced materials, and
30 decarbonizing the built environment.

31 (3) Subject to the availability of funds, the department must
32 reconvene an advisory committee to support involvement of a broad
33 range of stakeholders in the design and implementation of programs
34 implemented under this section to encourage collaboration, leverage
35 partners, and engage communities and organizations in improving the
36 equitable distribution of benefits from the program.

37 (4) In soliciting and evaluating proposals, awarding contracts,
38 and monitoring projects under this section, the department must:

1 (a) Ensure that competitive processes, rather than sole source
2 contracting processes, are used to select all projects, except as
3 otherwise noted in this section; and

4 (b) Conduct due diligence activities associated with the use of
5 public funds including, but not limited to, oversight of the project
6 selection process, project monitoring, and ensuring that all
7 applications and contracts fully comply with all applicable laws
8 including disclosure and conflict of interest statutes.

9 (5) During project solicitation periods for grants funded with
10 this appropriation, the department must maintain a list of applicants
11 by grant program that scored competitively but did not receive a
12 grant award due to lack of available funding. These applicants must
13 be considered for funding during future grant award cycles. If the
14 department submits a 2022 supplemental budget request for this
15 program, the request must include a list of prioritized projects by
16 grant type.

17 (6)(a) Pursuant to chapter 42.52 RCW, the ethics in public
18 service act, the department must require a project applicant to
19 identify in application materials any state of Washington employees
20 or former state employees employed by the firm or on the firm's
21 governing board during the past 24 months. Application materials must
22 identify the individual by name, the agency previously or currently
23 employing the individual, job title or position held, and separation
24 date. If it is determined by the department that a conflict of
25 interest exists, the applicant may be disqualified from further
26 consideration for award of funding.

27 (b) If the department finds, after due notice and examination,
28 that there is a violation of chapter 42.52 RCW, or any similar
29 statute involving a grantee who received funding under this section,
30 either in procuring or performing under the grant, the department in
31 its sole discretion may terminate the funding grant by written
32 notice. If the grant is terminated, the department must reserve its
33 right to pursue all available remedies under law to address the
34 violation.

35 (7) The requirements in subsections (4) and (6) of this section

FOR THE DEPARTMENT OF COMMERCE

2021-23 Housing Trust Fund Investment in Affordable Housing (40000153)

The appropriations in this section are subject to the following conditions and limitations:

(1) (~~(\$129,903,000)~~) \$903,000 of the state taxable building construction account—state appropriation, \$129,000,000 of the coronavirus state fiscal recovery fund—federal appropriation, and \$20,000,000 of the state building construction account—state appropriation are provided solely for production and preservation of affordable housing projects that serve and benefit low-income and special needs populations including, but not limited to, people with chronic mental illness, people with developmental disabilities, farmworkers, people who are homeless, and people in need of permanent supportive housing. The department shall strive to allocate at least 30 percent of these funds to projects located in rural areas of the state, as defined by the department.

(a) In addition to the definition of "first-time home buyer" in RCW 43.185A.010, for the purposes of awarding homeownership projects during the 2021-2023 fiscal biennium "first-time home buyer" also includes:

- (i) A single parent who has only owned a home with a former spouse while married;
- (ii) An individual who is a displaced homemaker as defined in 24 C.F.R. Sec. 93.2 as it existed on the effective date of this section, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, and who has only owned a home with a spouse;
- (iii) An individual who has only owned a principal residence not permanently affixed to a permanent foundation in accordance with applicable regulations; or

4 (c) (i) \$20,000,000 of the appropriation in this subsection (1) is
5 provided solely for housing preservation grants or loans to be
6 awarded competitively.

7 (ii) The funds may be provided for major building improvements,
8 preservation, and system replacements, necessary for the existing
9 housing trust fund portfolio to maintain long-term viability. The
10 department must require a capital needs assessment be provided prior
11 to contract execution. Funds may not be used to add or expand the
12 capacity of the property.

13 (iii) To allocate preservation funds, the department must review
14 applications and evaluate projects based on the following criteria:

15 (A) The age of the property, with priority given to buildings
16 that are more than 15 years old;

17 (B) The population served, with priority given to projects with
18 at least 50 percent of the housing units being occupied by families
19 and individuals at or below 50 percent area median income;

20 (C) The degree to which the applicant demonstrates that the
21 improvements will result in a reduction of operating or utilities
22 costs, or both;

23 (D) The potential for additional years added to the affordability
24 period of the property; and

25 (E) Other criteria that the department considers necessary to
26 achieve the purpose of this program.

27 (2) \$10,000,000 of the state building construction account—state
28 appropriation is provided solely for grant awards for the development
29 of community housing and cottage communities to shelter individuals
30 or households experiencing homelessness.

31 (a) \$8,775,000 of the state building construction account—state
32 appropriation is provided solely for competitive grant awards. This
33 funding must be awarded to projects that develop a minimum of four
34 individual structures in the same location. Individual structures
35 must contain insulation, electricity, overhead lights, and heating.
36 Kitchens and bathrooms may be contained within the individual
37 structures or offered as a separate facility that is shared with the
38 community. When evaluating applications for this grant program, the
39 department must prioritize projects that demonstrate:

40 (i) The availability of land to locate the community;

- (ii) A strong readiness to proceed to construction;
- (iii) A longer term of commitment to maintain the community;
- (iv) A commitment by the applicant to provide, directly or through a formal partnership, case management and employment support services to the tenants;
- (v) Access to employment centers, health care providers, and other services; and
- (vi) A community engagement strategy.

(b) \$1,225,000 of the state building construction account—state appropriation is provided solely for Eagle Haven Cottage Village located in Bellingham.

(3) (a) (~~(\$11,500,000)~~) \$7,500,000 of the state taxable building construction account—state appropriation is provided solely for the following list of projects:

(Bellwether Affordable Housing (Seattle)	\$4,000,000)
Didgwalic Transitional Housing (Anacortes)	\$4,500,000
Redondo Heights TOD (Federal Way)	\$3,000,000

(b) \$4,000,000 of the coronavirus state fiscal recovery fund—federal appropriation in this section is provided solely for Bellwether Affordable Housing (Seattle).

(c) \$3,497,000 of the state building construction account—state appropriation is provided solely for the following list of projects:

Habitat for Humanity (North Bend)	\$250,000
Manette Affordable Housing Project (Bremerton)	\$515,000
OlyCAP Port Townsend Affordable Housing and Child (Port Townsend)	\$412,000
Shelton Young Adult Transitional Housing (Shelton)	\$515,000
Willapa Center (Raymond)	\$1,805,000

(4) In evaluating projects in this section, the department must give preference for applications based on some or all of the criteria in RCW 43.185.070(5).

(5) The appropriations in this section are subject to the following reporting requirements:

(a) By June 30, 2023, the department must report on its website the following for every previous funding cycle: The number of homeownership and multifamily rental projects funded by housing trust fund moneys; the percentage of housing trust fund investments made to homeownership and multifamily rental projects; and the total number of households being served at up to 80 percent of the area median

1 income, up to 50 percent of the area median income, and up to 30
2 percent of the area median income, for both homeownership and
3 multifamily rental projects.

4 (b) Beginning December 1, 2021, and continuing annually, the
5 department must provide the legislature with a report of its final
6 cost data for each project under this section. Such cost data must,
7 at a minimum, include total development cost per unit for each
8 project completed within the past year, descriptive statistics such
9 as average and median per unit costs, regional cost variation, and
10 other costs that the department deems necessary to improve cost
11 controls and enhance understanding of development costs. The
12 department must coordinate with the housing finance commission to
13 identify relevant development costs data and ensure that the measures
14 are consistent across relevant agencies.

15 (6) \$100,000 of the state building construction account—state
16 appropriation is provided solely for the department of social and
17 health services to complete a study of the community-based housing
18 needs of adults with intellectual and developmental disabilities. The
19 department of social and health services shall collaborate with
20 appropriate stakeholders and the department in completing this study
21 and the study shall:

22 (a) Estimate the number of adults with intellectual and
23 developmental disabilities who are facing housing insecurity;

24 (b) Make recommendations for how to improve housing stability for
25 adults with intellectual and developmental disabilities who are
26 facing housing insecurity;

27 (c) Make recommendations for how to increase the capacity of
28 developers to support increasing the supply of housing that meets the
29 needs of the intellectual and developmental disabilities population;
30 and

31 (d) Be submitted to the appropriate committees of the legislature
32 no later than December 1, 2022.

33 (7) The legislature finds that there are insufficient data
34 sources to identify adults with intellectual and developmental
35 disabilities facing housing insecurity in Washington state and that
36 the absence of reliable data limits the ability for the legislature
37 to make informed decisions that will improve the outcomes of these
38 individuals. The legislature further finds that reliable, current
39 information about the unmet housing needs of this population will
40 position Washington state to leverage community-based partnerships

1 and funding to establish greater housing choice and increased
2 community integration of individuals with intellectual and
3 developmental disabilities.

14 **Sec. 1015.** 2021 c 332 s 1071 (uncodified) is amended to read as
15 follows:

16 **FOR THE DEPARTMENT OF COMMERCE**

17 2021-23 Rapid Capital Housing Acquisition (40000222)

18 The appropriation in this section is subject to the following
19 conditions and limitations:

20 (1) Except as provided in subsections (7) through (9) of this
21 section, the appropriation in this section is provided solely for the
22 department to issue competitive financial assistance to eligible
23 organizations under RCW 43.185A.040 to acquire or rent real property
24 for a rapid conversion into enhanced emergency shelters, permanent
25 supportive housing, transitional housing, permanent housing, youth
26 housing, drop-in center, or shelter for extremely low-income people,
27 as well as individuals, families, unaccompanied youth, and young
28 people experiencing sheltered and unsheltered homelessness. Amounts
29 provided in this section may be also used for renovation and building
30 update costs associated with establishment of the acquired or rented
31 facilities. For youth housing, drop-in centers, and shelter projects,
32 renovation of existing properties is an allowable activity. The
33 department may only approve funding for projects resulting in
34 increased shelter or housing capacity. Amounts provided in this
35 section may not be used for operating or maintenance costs associated
36 with providing housing, supportive services, or debt service.

1 (2) Funds may also be used for permanent financing for real
2 estate acquired using other short term acquisition sources. To expand
3 availability of permanent housing, financing of acquisition of
4 unoccupied multifamily housing is a priority. Funds must also be
5 provided specifically for the city of Seattle to move people
6 experiencing unsheltered homelessness into safe spaces, including,
7 but not limited to, tiny homes, hotels, enhanced emergency shelters,
8 or other rapid housing alternatives.

9 (3) While emphasizing the rapid deployment of the amounts
10 appropriated under this section to alleviate the immediate crisis of
11 homelessness throughout the state, the department shall establish
12 criteria for the issuance of the grants, which may include provisions
13 that require that capital improvements be held by the grantee for a
14 specified period of time appropriate to the amount of the grant,
15 during which time the property must be used for the express purpose
16 of the grant. If the grantee is found to be out of compliance with
17 provisions of the contract, the grantee shall repay to the state
18 general fund the principal amount of the grant plus interest
19 calculated at the rate of interest on state of Washington general
20 obligation bonds issued on the date most close in time to the date of
21 authorization of the grant. The criteria must include:

22 (a) The date upon which structural modifications or construction
23 would begin and the anticipated date of completion of the project;

24 (b) A detailed estimate of the costs associated with the
25 acquisition and any updates or improvements necessary to make the
26 property habitable for its intended use;

27 (c) A detailed estimate of the costs associated with opening the
28 beds or units; and

29 (d) A financial plan demonstrating the ability to maintain and
30 operate the property and support its intended tenants throughout the
31 end of the grant contract.

32 (4) The department must provide a progress report on its website
33 by December 1, 2022. The report must include:

34 (a) The total number of applications and amount of funding
35 requested; and

36 (b) A list and description of the projects approved for funding
37 including state funding, total project cost, services anticipated to
38 be provided, housing units, and anticipated completion date.

39 (5) The funding provided under this section is not subject to the
40 90-day application periods in RCW 43.185.070 or 43.185A.050. The

1 department of commerce shall dispense funds to the city of Seattle
2 and other qualifying applicants within 45 days of receipt of
3 documentation from the applicant for qualifying uses and execution of
4 any necessary contracts with the department in order to effect the
5 purpose of rapid deployment of funds under this section.

6 (6) If the department receives simultaneous applications for
7 funding under this program, proposals that reach the greatest public
8 benefit, as defined by the department, must be prioritized. For
9 purposes of this subsection (6), "greatest public benefit" must
10 include, but is not limited to:

11 (a) The greatest number of accommodations or increased shelter
12 capacity that will benefit extremely low-income people, as well as
13 individuals, families, and youth experiencing homelessness.

14 (b) Whether the project has federally funded rental assistance
15 tied to it;

16 (c) The scarcity of the affordable housing or shelter capacity
17 applied for compared to the number of available affordable housing
18 units or shelter capacity in the same geographic location; and

19 (d) The program's established funding priorities under RCW
20 43.185.070(5).

21 (7) \$900,000 of the state building construction account—state
22 appropriation in this section is provided solely for the public
23 building conversion pilot program. The pilot program must be
24 implemented in Grays Harbor county in collaboration with Community
25 House on Broadway, in partnership with CORE Health.

26 (a) The appropriation may be used only for costs related to
27 rehabilitation, retrofitting, and conversion of the publicly owned
28 building for use as housing for homeless persons.

29 (b) The appropriation may not be used for staffing or maintaining
30 buildings converted to housing for homeless persons. Costs for
31 staffing and maintenance must be borne by the county or the
32 contractor.

33 (c) In the contract for the pilot program, the department shall
34 include provisions that require that capital improvements be held by
35 the grantee for a specified period of time appropriate to the amount
36 of the grant and that facilities be used for the express purpose of
37 the grant. If the grantee is found to be out of compliance with
38 provisions of the contract, the grantee shall repay to the state
39 general fund the principal amount of the grant plus interest
40 calculated at the rate of interest on state of Washington general

1 obligation bonds issued most closely to the date of authorization of
2 the grant.

3 (d) The pilot program should help inform the development of a
4 public building conversion grant program to encourage counties to
5 convert unused, publicly owned buildings into housing for homeless
6 persons. The department must report to the office of financial
7 management and fiscal committees of the legislature by November 1,
8 2022, regarding the establishment of the pilot program and any
9 recommendations related to implementation of a public building
10 conversion grant program.

11 (8) (~~(\$17,800,000)~~) \$7,800,000 of the state building construction
12 account—state appropriation (~~(is)~~) and \$10,000,000 of the coronavirus
13 state fiscal recovery account—federal appropriation are provided
14 solely for the following list of projects:

15 \$5,000,000 for the Tacoma Housing Authority affordable housing
16 acquisition;

17 \$4,000,000 for the Keiro nursing home acquisition in Seattle;

18 \$1,500,000 for the Parkland/Spanaway homeless shelter;

19 \$300,000 for the Concord apartments acquisition in Seattle;

20 \$2,000,000 for the Eastgate supportive housing in Bellevue; and

21 \$5,000,000 for the City of Seattle for the acquisition of the
22 Clay Apartments in partnership with a low-income housing provider.

23 (9) (a) (~~(\$7,903,000 of the coronavirus capital projects account—~~
24 ~~federal)~~) \$6,565,000 of the coronavirus state fiscal recovery account
25 —federal appropriation and \$1,338,000 of the state building
26 construction account—state appropriation (~~(is)~~) are provided solely
27 for the following list of youth housing projects identified by the
28 office of homeless youth protection and prevention programs:

30 (Omak). \$3,350,000

31 NWYS Young Adult Shelter Services (Bellingham). \$438,000

37 reallocated, the department shall consult with the office of homeless
38 youth prevention and protection programs to identify other eligible
39 youth housing projects.

11 follows:

12 **FOR THE DEPARTMENT OF COMMERCE**

13 2022 Local & Community Projects (40000230)

14 The appropriation in this section is subject to the following
15 conditions and limitations:

16 (1) The department may not expend the appropriation in this
17 section unless and until the nonstate share of project costs have
18 been either expended or firmly committed, or both, in an amount
19 sufficient to complete the project or a distinct phase of the project
20 that is useable to the public for the purpose intended by the
21 legislature. This requirement does not apply to projects where a
22 share of the appropriation is for design costs only.

23 (2) Prior to receiving funds, project recipients must demonstrate
24 that the project site is under control for a minimum of 10 years,
25 either through ownership or a long-term lease. This requirement does
26 not apply to appropriations for preconstruction activities or
27 appropriations in which the sole purpose is to purchase real property
28 that does not include a construction or renovation component.

29 (3) Projects funded in this section may be required to comply
30 with Washington's high-performance building standards as required by
31 chapter 39.35D RCW.

32 (4) Project funds are available on a reimbursement basis only,
33 and may not be advanced under any circumstances.

34 (5) In contracts for grants authorized under this section, the
35 department must include provisions that require that capital
36 improvements be held by the grantee for a specified period of time
37 appropriate to the amount of the grant and that facilities be used

1 for the express purpose of the grant. If the grantee is found to be
2 out of compliance with provisions of the contract, the grantee shall
3 repay to the state general fund the principal amount of the grant
4 plus interest calculated at the rate of interest on state of
5 Washington general obligation bonds issued most closely to the date
6 of authorization of the grant.

7 (6) Projects funded in this section, including those that are
8 owned and operated by nonprofit organizations, are generally required
9 to pay state prevailing wages.

11 executive order 21-02 and must consult with the department of
12 archaeology and historic preservation and affected tribes on the
13 potential effects of these projects on cultural resources and
14 historic properties. Consultation with the department of archaeology
15 and historic preservation and affected tribes must be initiated
16 before project funds are made available.

1 (b) The funding for the Magnuson Park Historic Hanger 2 (Seattle)
2 project is contingent on the contribution of at least \$6,000,000 for
3 the Magnuson Park Center For Excellence. If the Magnuson Park Center
4 For Excellence has not certified to the department of commerce that
5 the project has secured at least \$6,000,000 in total funding for the
6 capital phase of the project by July 31, 2022, the funds in this
7 subsection (8)(b) shall lapse. The lapse date of July 31, 2022, must
8 be extended to the same extent that the city of Seattle grants an
9 extension, if any, beyond that date for the same project, provided
10 that no further extension may be granted past July 31, 2023. The
11 Magnuson Park Center For Excellence must ensure that the long-term
12 lease with Seattle Parks and Recreation stipulates meaningful public
13 benefits that prioritize low-income, black, indigenous, and people of
14 color youth and families of the Magnuson park and neighborhood and
15 Northeast Seattle. The lease must include provisions to proactively
16 recruit and provide no-cost access to the residents as well as the
17 creation of a scholarship fund dedicated to the residents for the
18 center's events and programming. Additional public benefits to
19 improve accessibility for Magnuson Park residents must be considered

6 2022 Rapid Capital Housing Acquisition (40000260)

7 The appropriation in this section is subject to the following
8 conditions and limitations:

9 (1) \$284,700,000 of the coronavirus state fiscal recovery account
10 —federal appropriation and \$50,000,000 of the state building
11 construction account—state appropriation in this section are provided
12 solely for the department to issue competitive financial assistance
13 to eligible organizations as defined in RCW 43.185A.040 to acquire
14 real property for a rapid conversion into enhanced emergency
15 shelters, permanent supportive housing, transitional housing,
16 permanent housing, youth housing, or shelter for extremely low-income
17 people, as well as individuals, families, unaccompanied youth, and
18 young people experiencing sheltered and unsheltered homelessness.
19 Amounts provided in this section may also be used for renovation and
20 building update costs associated with establishment of the acquired
21 facilities. For youth housing and shelter projects, renovation of
22 existing properties is an allowable activity. The department may only
23 approve funding for projects resulting in increased shelter or
24 housing capacity. Amounts provided in this section may not be used
25 for operating or maintenance costs associated with providing housing,
26 supportive services, or debt service. Of the amounts in this section:

27 (a) \$144,194,000 of the coronavirus state fiscal recovery account
28 —federal appropriation and \$50,000,000 of the state building
29 construction account—state appropriation in this section are provided
30 solely for housing projects that will rapidly move people
31 experiencing unsheltered homelessness from unsanctioned encampments,
32 the public right of way, or public spaces into safe and habitable
33 spaces, including, but not limited to, hotels, permanent housing,
34 permanent supportive housing, tiny homes, hotels, enhanced emergency
35 shelters, or other rapid housing alternatives. New construction of
36 high-quality low-income housing projects that are significantly less
37 expensive to construct than traditional housing, and that fits the
38 federal funding timeline is an eligible activity.

1 (b) \$38,208,000 of the coronavirus state fiscal recovery account—
2 federal appropriation in this section is provided solely for housing
3 projects in rural areas as defined by the department under RCW
4 43.185.050 and underserved communities with the goal of maximizing
5 the investment and increasing the number of supportive housing units
6 in rural, underserved communities.

7 (c) \$102,298,000 of the coronavirus state fiscal recovery account
8 —federal appropriation in this section is provided solely for housing
9 projects that provide permanent supportive housing and case-
10 management services to persons with chronic mental illness. New
11 construction that fits the federal funding timeline is an eligible
12 activity. Funds must be reasonably allocated to each of the health
13 care authority 10 regional service areas, with at least one project
14 in each area. When evaluating applications for this population, the
15 department, in cooperation with the health care authority, must
16 prioritize low-income permanent supportive housing unit proposals
17 that show:

18 (i) Evidence that the application was developed in collaboration
19 with one or more health care entities that provide behavioral health
20 care services to individuals eligible for the housing provided under
21 this subsection (c);

22 (ii) A commitment by the applicant to provide, directly or
23 through a formal partnership, necessary treatment and supportive
24 services to the tenants and maintain the beds or housing units for at
25 least a 40-year period;

26 (iii) Readiness to proceed with acquisition and begin any
27 necessary structural modifications resulting in a fast project
28 completion and a timely placed in service process; and

29 (iv) Program requirements that adhere to the key elements of
30 permanent supportive housing programs, including choice in housing
31 and living arrangements, functional separation of housing and
32 services, community integration, rights of tenancy, and voluntary
33 recovery-focused services.

34 (2) Amounts appropriated under this section may also be used for
35 permanent financing for real estate acquired using other short-term
36 acquisition sources. To expand availability of permanent housing,
37 financing of acquisition of unoccupied multifamily housing is a
38 priority.

39 (3) While emphasizing the rapid deployment of the amounts
40 appropriated under this section to alleviate the immediate crisis of

1 homelessness throughout the state, the department shall establish
2 criteria for the issuance of the funds using the best practices in
3 affordable housing such as those practiced by the housing trust fund
4 created in RCW 43.185.030, which may include provisions that require
5 that capital improvements be held by the recipient for a specified
6 period of time appropriate to the amount of the award, during which
7 time the property must be used for the express purpose of the award.
8 If the recipient is found to be out of compliance with provisions of
9 the contract, the recipient shall repay to the state general fund the
10 principal amount of the award plus interest calculated at the rate of
11 interest on state of Washington general obligation bonds issued on
12 the date most close in time to the date of authorization of the
13 award. The criteria must include:

14 (a) The date upon which the units can be placed in service and
15 occupied by the intended population, or the date any necessary
16 structural modifications would begin and the anticipated date of
17 completion of the project;

18 (b) A detailed estimate of the costs associated with the
19 acquisition and any updates or improvements necessary to make the
20 property habitable for its intended use;

21 (c) A detailed estimate of the costs associated with placing the
22 beds or units in service; and

23 (d) A financial plan demonstrating the ability to maintain and
24 operate the property and support its intended tenants throughout the
25 end of the contract.

26 (4) The department must provide a progress report on its website
27 by June 30, 2023. The report must include:

28 (a) The total number of applications and amount of funding
29 requested; and

30 (b) A list and description of the projects approved for funding
31 including state funding, total project cost, services anticipated to
32 be provided, housing units, and anticipated completion date.

33 (5) The funding provided under this section is not subject to the
34 90-day application periods in RCW 43.185.070 or 43.185A.050.

35 (6) The department shall prioritize proposals that reach the
36 greatest public benefit, as defined by the department. For purposes
37 of this subsection (6), "greatest public benefit" must include, but
38 is not limited to:

1 (a) The greatest number of accommodations or increased shelter
2 capacity that will benefit extremely low-income people, as well as
3 individuals, families, and youth experiencing homelessness;

4 (b) Whether the project has local funding commitments and rental
5 assistance;

6 (c) The scarcity of the affordable housing or shelter capacity
7 applied for compared to the number of available affordable housing
8 units or shelter capacity in the same geographic location; and

9 (d) The program's established funding priorities under RCW
10 43.185.070(5).

11 (7) The department must ensure compliance with conditions of the
12 federal coronavirus state fiscal recovery fund. All expenditures from
13 the coronavirus state fiscal recovery account—federal appropriation
14 in this section must be incurred by December 31, 2024.

15 (8) The department must strive to allocate all of the amounts
16 appropriated in this section within the 2021-2023 fiscal biennium in
17 the manner prescribed in this section. However, if upon review of
18 applications the department determines there are not adequate
19 suitable projects in a category, the department may allocate funds to
20 projects serving other low-income and special needs populations,
21 provided those projects are located in an area with an identified
22 need for the type of housing proposed.

23 (9) Projects receiving funding from coronavirus state fiscal
24 recovery account—federal appropriation in this section have until
25 September 30, 2022, to demonstrate readiness to undertake the
26 project, including full funding, otherwise the department may
27 reallocate the funds to make awards in the competitive funding
28 rounds.

29 Appropriation:

30	State Building Construction Account—State.	\$50,000,000
31	Coronavirus State Fiscal Recovery Fund—Federal.	\$284,700,000
32	Subtotal Appropriation.	\$334,700,000
33	Prior Biennia (Expenditures).	\$0
34	Future Biennia (Projected Costs).	\$0
35	TOTAL.	\$334,700,000

36 NEW SECTION. **Sec. 1020.** A new section is added to 2021 c 332
37 (uncodified) to read as follows:

38 **FOR THE DEPARTMENT OF COMMERCE**

1 2022 Housing Trust Fund Investment in Affordable Housing
2 (40000261)

3 The appropriation in this section is subject to the following
4 conditions and limitations:

5 (1) The appropriation in this section is provided solely for
6 production of affordable housing units that serve and benefit low-
7 income and special needs populations including, but not limited to,
8 people with chronic mental illness, people with developmental
9 disabilities, farmworkers, people who are experiencing homelessness,
10 people in need of permanent supportive housing, class members of
11 *Trueblood, et al., v. DSHS, et al.*, and first-time home buyers. The
12 department shall strive to allocate at least 30 percent of these
13 funds to projects located in rural areas of the state, as defined by
14 the department.

15 (2) In addition to the definition of "first-time home buyer" in
16 RCW 43.185A.010, for the purposes of awarding homeownership projects
17 under this section during the 2021-2023 fiscal biennium "first-time
18 home buyer" also includes:

19 (a) A single parent who has only owned a home with a former
20 spouse while married;

21 (b) An individual who is a displaced homemaker as defined in 24
22 C.F.R. Sec. 93.2 as it existed on the effective date of this section,

31 (3) In evaluating projects in this section, the department must
32 give preference for applications based on some or all of the criteria
33 in RCW 43.185.070(5).

34 (4) The department must ensure compliance with conditions of the
35 federal coronavirus state fiscal recovery fund. All expenditures from
36 the coronavirus state fiscal recovery account—federal appropriation
37 in this section must be incurred by December 31, 2024.

38 (5) The appropriations in this section are subject to the
39 following reporting requirements:

1 (a) By June 30, 2023, the department must report on its website
2 the following: The number of homeownership and multifamily rental

35 districts;

36 (ii) Federally recognized tribes;

37 (iii) Nonprofit organizations;

11 years.
12 (d) Unless otherwise stated, priority must be given to projects:

14 purposes of this section means areas of Washington in which
15 households and businesses lack access to broadband service of speeds
16 at a minimum of 100 megabits per second download and at a minimum 20
17 megabits per second upload;

27 proposed project area at speeds equal to or greater than the state
28 speed goals provided in RCW 43.330.536.

5 evaluation process to assist in coordination among state broadband
6 infrastructure funders to maximize opportunities to leverage federal
7 funding and ensure efficient state investment. The project evaluation
8 process must help determine whether a project is a strong candidate
9 for a known federal funding opportunity and if a project can be
10 packaged as part of a regional or other coordinated federal grant
11 proposal. The state broadband infrastructure funders are encouraged
12 to enter into a memorandum of understanding outlining how

5 2022 Green Infrastructure for Streamflow Resilience (40000472)

6 The appropriation in this section is subject to the following
7 conditions and limitations:

8 (1) The appropriation in this section is provided solely for the
9 department to develop green infrastructure projects to boost stream
10 flows during critical periods to improve stream resilience due to
11 climate change impacts. Projects must be designed and constructed to
12 capture and store excess water during times with high stream flows,
13 and then release the stored water during periods of critical low
14 flows, with the goal of improving base streamflow and temperature
15 conditions in rivers and streams draining to the Puget Sound. Green
16 infrastructure projects to be developed under this section must be
17 able to store water in aquifers, floodplains, wetlands, and land
18 adjacent to surface waterways. Benefits from green infrastructure
19 projects developed under this section are intended to boost stream
20 flows for critical periods, improve water quality, support salmonid
21 recovery, and provide other environmental benefits, and may not be
22 considered or used as offset or mitigation for new uses of water.

23 (2) The department shall collaborate with the department of fish
24 and wildlife, tribes, and other salmonid and habitat experts to
25 identify and strategically prioritize project sites. The department
26 shall also consider salmonid benefit, feasibility, cost,
27 implementation timeline, and other relevant factors prior to project
28 implementation. Projects may be completed via public-private
29 partnerships and may include federally recognized tribal governments.

30 (3) Because projects completed under this section are intended to
31 improve instream resources, potential impacts on a closed water body
32 and potential impairment to instream flows or levels adopted under
33 chapters 90.22, 90.54, 90.82, or 90.94 RCW are authorized. For the
34 purposes of any necessary water right permitting, the proposed water
35 use is eligible for priority processing under WAC 173-152-050.

15 2021-23 Water Banking (91000373)

16 The appropriation in this section is subject to the following
17 conditions and limitations:

18 (1) (a) The appropriations in this section are provided solely for
19 the department to administer a pilot grant program for water banking
20 strategies to meet local water needs.

21 (b) \$2,000,000 is provided solely for qualified applicants
22 located within the Methow River Basin.

23 (2) (a) Grant awards may only be used for:

24 (i) Development of water banks in rural counties as defined in
25 RCW 82.14.370 (5);

26 (ii) Acquisition of water rights appropriate for use in a water
27 bank including all costs necessary to evaluate the water right for
28 eligibility for its intended use; and

29 (iii) Activities necessary to facilitate the creation of a water
30 bank.

31 (b) For applicants located outside of the Methow River Basin,
32 grant awards may only be used for the development of water banks in
33 rural counties that have the headwaters of a major watershed within
34 their borders and only for water banking strategies within the county
35 of origin. For purposes of this section, "major watershed" has the
36 same meaning as shoreline of statewide significance in RCW
37 90.58.030 (2) (f) (v) (A) and (B).

- 1 (3) Grant awards may not exceed \$2,000,000 per applicant.
- 2 (4) For the purposes of a grant pursuant to this section, a water
 3 bank must meet water needs, which include, but are not limited to,
 4 agricultural use and instream flow for fish and wildlife. The water
 5 bank must preserve water rights for use in the county of origin and
 6 for permanent instream flows for fish and wildlife through the
 7 primary and secondary reaches of the water right.
- 8 (5) To be eligible to receive a grant under this section, an
 9 applicant must:
- 10 (a) Be a public entity or a participant in a public-private
 11 partnership with a public entity;
- 12 (b) Exhibit sufficient expertise and capacity to develop and
 13 maintain a water bank consistent with the purposes of this
 14 appropriation;
- 15 (c) Secure a valid interest to purchase a water right;
- 16 (d) Show that the water rights appear to be adequate for the
 17 intended use; and
- 18 (e) Agree to have one-third of any water right purchased with the
 19 funds appropriated under this section to have its purpose of use
 20 changed permanently to instream flow benefiting fish and wildlife.

28 but not limited to, prioritization and selection criteria, operation,
29 and funding structure and levels for the types of innovative
30 infrastructure projects that conserve water and energy, reduce
31 greenhouse gas emissions, or reduce pollution and waste with a focus
32 on those projects that achieve multiple benefits. In developing
33 recommendations, the public works board shall, at a minimum,
34 collaborate with the interagency, multijurisdictional system
35 improvement team established by RCW 43.155.150, the department of
36 commerce's state energy office, the industrial waste coordination
37 program established by RCW 43.31.625, and local governments to
38 evaluate barriers and gaps in incentives and funding for advancing

1 innovative systems and technologies in public infrastructure that
2 promote community and ecosystem resilience. Examples of innovative
3 project types that should be addressed by the program include water
4 reuse or reclaimed water systems, projects that integrate energy
5 generation or water collection from waste products, and projects that
6 reduce pollution discharges, treat or store water through green, or
7 nature-based, infrastructure. The public works board shall provide
8 recommendations to the governor's office, office of financial
9 management, the senate ways and means committee and the house capital
10 budget committee by October 1, 2022.

28 **Sec. 7006.** 2021 c 332 s 7041 (uncodified) is amended to read as
29 follows:

30 (1) The department of enterprise services shall convene a
31 construction industry work group to recommend how to apply successful
32 carbon reduction strategies, incorporate necessary parameters of
33 design and construction considerations, and allow for efficient and
34 cost effective state construction projects. The work group must be
35 comprised of construction industry professionals as recommended by a
36 leading association on Washington business in design, specification,
37 construction, and material supply and construction professionals that
38 have successfully realized real and measurable results. The work

1 group must also include a representative from the department of
2 enterprise services, representatives from environmental groups, and
3 someone of applicable expertise from the Washington academy of
4 sciences.

5 (2) The work group shall identify and recommend carbon reduction
6 strategies and environmental product declaration principles to
7 successfully apply in state construction projects and:

8 (a) Clarify the definition of environmental product declaration
9 to ensure that environmental product declarations (EPD) are applied
10 properly, consistently, and as intended and provide a baseline of
11 understanding based on accepted metrics to obtain measurable results
12 for state construction projects;

13 (b) Suggest a pilot project or project review to apply
14 construction industry recommendations and create an education and
15 standards brief that accompanies the report required under subsection
16 (3) of this section;

17 (c) Outline the environmental project review data collection
18 process in functional detail and use existing data gathering
19 resources such as EC3; and

20 (d) Identify measurable outcome criteria to establish a project
21 baseline summary for use during design from estimated project
22 material quantities using industry average environmental product
23 declarations.

24 (3) The work group shall provide their recommendations in a
25 report to the fiscal committees of the legislature by (~~January 1,~~
26 ~~2022~~) June 30, 2022.

27 (d) Identify measurable outcome criteria to establish a project
28 baseline summary for use during design from estimated project
29 material quantities using industry average environmental product
30 declarations; and

31 (e) Identify sustainable and low-carbon emitting building
32 materials, including but not limited to, aggregate and recycled
33 concrete materials, as described in subsection (4) of this section.

34 (3) The work group shall provide their recommendations in a
35 report to the fiscal committees of the legislature by January 1,
36 2022.

37 (4) (a) The legislature continues to prioritize Washington state's
38 sustainability goals and reaffirms its determination that recyclable
39 construction aggregate and recycled concrete materials are too
40 valuable to be wasted and landfilled. The legislature further finds

1 that the reuse of construction aggregate and recycled concrete
2 materials into construction projects is known to:

3 (i) Reduce the need for consumption of new construction aggregate
4 materials and conserves existing aggregate resources;

5 (ii) Encourages reuse and recycling, reduces waste, and
6 discourages landfilling of readily available natural resources;

7 (iii) Reduces truck trips and related transportation emissions;
8 and

9 (iv) Reduces greenhouse gases related to the construction of
10 state funded construction projects, reduce embodied energy, and
11 improve and advance the sustainable principles and practices of
12 Washington state.

13 (b) These recyclable materials have well established markets, are
14 substantially a primary or secondary product of necessary
15 construction processes and production, as a commodity substantially
16 meets widely recognized international, national, and local standards
17 and specifications, and are managed as an item of commercial value.
