23 other indicia of financial commitment guaranteeing the project's
24 completion.

25 (~~(e)~~) (d) If the board denies funding to an applicant as a
26 result of a broadband service provider's objection made under this
27 section, and the broadband service provider does not fulfill its
28 commitment to provide broadband service in the project area, then for
29 the following two grant and loan cycles, the board is prohibited from
30 denying funding to an applicant on the basis of a challenge by the
31 same broadband service provider, unless the board determines that the
32 broadband service provider's failure to fulfill the provider's
33 commitment was the result of factors beyond the broadband service
34 provider's control. The board is not prohibited from denying funding
35 to an applicant for reasons other than an objection by the same
36 broadband service provider.

37 (~~(f)~~) (e) An applicant or broadband service provider that
38 objected to the application may request a debriefing conference

30 (b) Emergency public works broadband projects include
31 construction, repair, reconstruction, replacement, rehabilitation, or
32 improvement to critical broadband infrastructure that has been made

35 board shall grant priority to emergency public works projects that
36 replace existing infrastructure of the provider whose facilities were
37 damaged by the unforeseen event and shall not provide funds to a new
38 provider to overbuild the existing provider. The loans or grants may
