

CERTIFICATION OF ENROLLMENT
SECOND SUBSTITUTE HOUSE BILL 2078

67th Legislature
2022 Regular Session

Passed by the House March 8, 2022
Yeas 92 Nays 5

**Speaker of the House of
Representatives**

Passed by the Senate March 4, 2022
Yeas 44 Nays 3

President of the Senate

Approved

Governor of the State of Washington

CERTIFICATE

I, Bernard Dean, Chief Clerk of the House of Representatives of the State of Washington, do hereby certify that the attached is **SECOND SUBSTITUTE HOUSE BILL 2078** as passed by the House of Representatives and the Senate on the dates hereon set forth.

Chief Clerk

FILED

**Secretary of State
State of Washington**

SECOND SUBSTITUTE HOUSE BILL 2078

AS AMENDED BY THE SENATE

Passed Legislature - 2022 Regular Session

State of Washington **67th Legislature** **2022 Regular Session**

By House Appropriations (originally sponsored by Representatives Rule, Barkis, Ryu, Fitzgibbon, Simmons, Shewmake, Berry, Leavitt, Berg, Senn, Callan, Dent, J. Johnson, Kloba, Bergquist, Chambers, Wicks, Orwall, Tharinger, Taylor, Klippert, and Pollet)

READ FIRST TIME 02/07/22.

1 AN ACT Relating to establishing the outdoor school for all
2 program; amending RCW 28A.300.790; adding new sections to chapter
3 28A.300 RCW; and creating a new section.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** (1) The legislature finds that time
6 outdoors helps children thrive physically, emotionally, and
7 academically, yet over the past few generations, childhood has moved
8 indoors. On average, today's kids spend up to 44 hours per week in
9 front of a screen, and less than 10 minutes a day doing activities
10 outdoors. For too many kids, access to the outdoors is determined by
11 race, income, ability, and zip code. All children deserve equitable
12 access to outdoor spaces where they can learn, play, and grow, but
13 current access to outdoor educational opportunities is inequitable.

14 (2) From stress reduction to improved focus and engagement, and
15 better academic performance, outdoor-based learning helps kids
16 thrive. Research shows participants in outdoor educational activities
17 have higher graduation rates, improved behavior in school and
18 relationships with peers, higher academic achievement, critical
19 thinking skills, direct experience of scientific concepts in the
20 field, leadership and collaboration skills, and a deeper engagement
21 with learning, place, and community. Outdoor educational programs

1 also offer new opportunities for work-integrated learning in science,
2 natural resources, education, land management, agriculture, outdoor
3 recreation, and other employment sectors. Outdoor-based learning
4 activities can also be a key element in the larger system of regular
5 outdoor instructional time and outdoor experiences that includes STEM
6 fields, after-school programs, summer camps, 4-H, scouting, and
7 related programs which can spark a lifelong appreciation for the
8 natural world.

9 (3) The legislature further finds that accessibility is a major
10 obstacle to universal outdoor education. Most sites lack
11 accommodation for children with disabilities and support staff for
12 children who need social and emotional support. In addition, some
13 youth may experience cultural barriers to outdoor learning
14 experiences.

15 (4) Therefore, the legislature intends to establish a statewide
16 grant program and corresponding outdoor education experiences program
17 to address these needs and to ensure that all students have a chance
18 to benefit from outdoor education.

19 NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.300
20 RCW to read as follows:

21 (1) Subject to the availability of amounts appropriated for this
22 specific purpose, or within funding made available, the outdoor
23 learning grant program is established. The purpose of the grant
24 program is to develop and support educational experiences for
25 students in Washington public schools.

26 (2) The office of the superintendent of public instruction shall
27 administer the grant program in accordance with this section.

28 (3) Within existing resources, the Washington state parks and
29 recreation commission, the department of natural resources, the
30 Washington department of fish and wildlife, the Washington department
31 of agriculture, and the Washington conservation commission may
32 partner with the office of the superintendent of public instruction
33 to provide relevant expertise on land management and work-integrated
34 learning experiences and opportunities.

35 (4) Beginning in the 2022-23 school year, the office of the
36 superintendent of public instruction shall award grants to eligible
37 school districts, federally recognized tribes, and outdoor education
38 program providers. The office may consult with the Washington

1 recreation and conservation office in awarding grants under this
2 section.

3 (5) (a) The grant program must consist of two types of grants,
4 including:

5 (i) Allocation-based grants for school districts to develop or
6 support educational experiences; and

7 (ii) Competitive grants for federally recognized tribes and
8 outdoor education providers to support existing capacity and to
9 increase future capacity for outdoor learning experiences.

10 (b) In implementing student educational experiences under this
11 section, school districts and outdoor education providers should
12 ensure equitable access for students in all geographic regions, and
13 high levels of accessibility for students with disabilities.

14 (6) Beginning in 2024, the office of the superintendent of public
15 instruction, in accordance with RCW 43.01.036, must submit an annual
16 report to the appropriate committees of the legislature with an
17 evaluation of the program established by this section. The report may
18 include information on other outdoor education and instructional time
19 efforts and how they compare with programs funded through the outdoor
20 learning grant program.

21 (7) For the purposes of this section, "school districts" includes
22 state-tribal education compact schools established under chapter
23 28A.715 RCW.

24 NEW SECTION. **Sec. 3.** A new section is added to chapter 28A.300
25 RCW to read as follows:

26 (1) Subject to the availability of amounts appropriated for this
27 specific purpose, the outdoor education experiences program is
28 established as a program within the outdoor learning grant program
29 established in section 2 of this act. The purpose of the outdoor
30 education experiences program is to develop and support outdoor
31 learning opportunities for 5th and 6th grade students in Washington
32 public schools, with related opportunities for high school students
33 to volunteer as counselors. The program will consist of hands-on
34 learning experiences that: Are three to five days in duration and up
35 to four nights; are overnight or day programs when overnight programs
36 are impractical due to health, cultural, or capacity considerations;
37 and have a focus on environmental education aligned with the
38 Washington state learning standards and the development of social and
39 emotional learning skills.

1 (2) The office of the superintendent of public instruction may
2 work with a statewide nonprofit organization representing school
3 principals to create guidelines for the program established by this
4 section.

5 (3) In implementing the program established by this section, the
6 priority focus of the office of the superintendent of public
7 instruction must be given to schools that have been identified for
8 improvement through the Washington school improvement framework and
9 communities historically underserved by science education. These
10 communities can include, but are not limited to, federally recognized
11 tribes, including state-tribal education compact schools, migrant
12 students, schools with high free and reduced-price lunch populations,
13 rural and remote schools, students in alternative learning
14 environments, students of color, English language learner students,
15 and students receiving special education services.

16 **Sec. 4.** RCW 28A.300.790 and 2018 c 266 s 410 are each amended to
17 read as follows:

18 (1) The superintendent of public instruction, subject to
19 conformity with application or other requirements adopted by rule,
20 shall approve requests by public schools as provided in RCW
21 28A.320.173 to consider student participation in seasonal or
22 nonseasonal outdoor-based activities, including programs established
23 in accordance with section 2 of this act, and the outdoor education
24 experiences program established in section 3 of this act, as
25 instructional days for the purposes of basic education requirements
26 established in RCW 28A.150.220(5).

27 (2) The superintendent of public instruction shall adopt rules to
28 implement this section.

--- END ---
