**SENATE BILL 5311**

---

**State of Washington**

**67th Legislature**

**2021 Regular Session**

**By** Senators Rivers, Conway, Muzzall, and Van De Wege

Read first time 01/20/21. Referred to Committee on Health & Long Term Care.

1 AN ACT Relating to adjusting the skilled nursing medicaid rate  
2 methodology to provide an annual inflationary adjustment; and  
3 amending RCW 74.46.561.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 74.46.561 and 2020 c 357 s 918 are each amended to  
6 read as follows:

7 (1) The legislature adopts a new system for establishing nursing  
8 home payment rates beginning July 1, 2016. Any payments to nursing  
9 homes for services provided after June 30, 2016, must be based on the  
10 new system. The new system must be designed in such a manner as to  
11 decrease administrative complexity associated with the payment  
12 methodology, reward nursing homes providing care for high acuity  
13 residents, incentivize quality care for residents of nursing homes,  
14 and establish minimum staffing standards for direct care.

15 (2) The new system must be based primarily on industry-wide  
16 costs, and have three main components: Direct care, indirect care,  
17 and capital.

18 (3) The direct care component must include the direct care and  
19 therapy care components of the previous system, along with food,  
20 laundry, and dietary services. Direct care must be paid at a fixed  
21 rate, based on one hundred percent or greater of statewide case mix

1 neutral median costs, but shall be set so that a nursing home  
2 provider's direct care rate does not exceed one hundred eighteen  
3 percent of its base year's direct care allowable costs except if the  
4 provider is below the minimum staffing standard established in RCW  
5 74.42.360(2). Direct care must be performance-adjusted for acuity  
6 every six months, using case mix principles. Direct care must be  
7 regionally adjusted using countywide wage index information available  
8 through the United States department of labor's bureau of labor  
9 statistics. There is no minimum occupancy for direct care. The direct  
10 care component rate allocations calculated in accordance with this  
11 section must be adjusted to the extent necessary to comply with RCW  
12 74.46.421.

13 (4) The indirect care component must include the elements of  
14 administrative expenses, maintenance costs, and housekeeping services  
15 from the previous system. A minimum occupancy assumption of ninety  
16 percent must be applied to indirect care. Indirect care must be paid  
17 at a fixed rate, based on ninety percent or greater of statewide  
18 median costs. The indirect care component rate allocations calculated  
19 in accordance with this section must be adjusted to the extent  
20 necessary to comply with RCW 74.46.421.

21 (5) The capital component must use a fair market rental system to  
22 set a price per bed. The capital component must be adjusted for the  
23 age of the facility, and must use a minimum occupancy assumption of  
24 ninety percent.

25 (a) Beginning July 1, 2016, the fair rental rate allocation for  
26 each facility must be determined by multiplying the allowable nursing  
27 home square footage in (c) of this subsection by the RSMMeans rental  
28 rate in (d) of this subsection and by the number of licensed beds  
29 yielding the gross unadjusted building value. An equipment allowance  
30 of ten percent must be added to the unadjusted building value. The  
31 sum of the unadjusted building value and equipment allowance must  
32 then be reduced by the average age of the facility as determined by  
33 (e) of this subsection using a depreciation rate of one and one-half  
34 percent. The depreciated building and equipment plus land valued at  
35 ten percent of the gross unadjusted building value before  
36 depreciation must then be multiplied by the rental rate at seven and  
37 one-half percent to yield an allowable fair rental value for the  
38 land, building, and equipment.

39 (b) The fair rental value determined in (a) of this subsection  
40 must be divided by the greater of the actual total facility census

1 from the prior full calendar year or imputed census based on the  
2 number of licensed beds at ninety percent occupancy.

3 (c) For the rate year beginning July 1, 2016, all facilities must  
4 be reimbursed using four hundred square feet. For the rate year  
5 beginning July 1, 2017, allowable nursing facility square footage  
6 must be determined using the total nursing facility square footage as  
7 reported on the medicaid cost reports submitted to the department in  
8 compliance with this chapter. The maximum allowable square feet per  
9 bed may not exceed four hundred fifty.

10 (d) Each facility must be paid at eighty-three percent or greater  
11 of the median nursing facility RSMeans construction index value per  
12 square foot. The department may use updated RSMeans construction  
13 index information when more recent square footage data becomes  
14 available. The statewide value per square foot must be indexed based  
15 on facility zip code by multiplying the statewide value per square  
16 foot times the appropriate zip code based index. For the purpose of  
17 implementing this section, the value per square foot effective July  
18 1, 2016, must be set so that the weighted average fair rental value  
19 rate is not less than ten dollars and eighty cents per patient day.  
20 The capital component rate allocations calculated in accordance with  
21 this section must be adjusted to the extent necessary to comply with  
22 RCW 74.46.421.

23 (e) The average age is the actual facility age reduced for  
24 significant renovations. Significant renovations are defined as those  
25 renovations that exceed two thousand dollars per bed in a calendar  
26 year as reported on the annual cost report submitted in accordance  
27 with this chapter. For the rate beginning July 1, 2016, the  
28 department shall use renovation data back to 1994 as submitted on  
29 facility cost reports. Beginning July 1, 2016, facility ages must be  
30 reduced in future years if the value of the renovation completed in  
31 any year exceeds two thousand dollars times the number of licensed  
32 beds. The cost of the renovation must be divided by the accumulated  
33 depreciation per bed in the year of the renovation to determine the  
34 equivalent number of new replacement beds. The new age for the  
35 facility is a weighted average with the replacement bed equivalents  
36 reflecting an age of zero and the existing licensed beds, minus the  
37 new bed equivalents, reflecting their age in the year of the  
38 renovation. At no time may the depreciated age be less than zero or  
39 greater than forty-four years.

1 (f) A nursing facility's capital component rate allocation must  
2 be rebased annually, effective July 1, 2016, in accordance with this  
3 section and this chapter.

4 (g) For the purposes of this subsection (5), "RSMeans" means  
5 building construction costs data as published by Gordian.

6 (6) A quality incentive must be offered as a rate enhancement  
7 beginning July 1, 2016.

8 (a) An enhancement no larger than five percent and no less than  
9 one percent of the statewide average daily rate must be paid to  
10 facilities that meet or exceed the standard established for the  
11 quality incentive. All providers must have the opportunity to earn  
12 the full quality incentive payment.

13 (b) The quality incentive component must be determined by  
14 calculating an overall facility quality score composed of four to six  
15 quality measures. For fiscal year 2017 there shall be four quality  
16 measures, and for fiscal year 2018 there shall be six quality  
17 measures. Initially, the quality incentive component must be based on  
18 minimum data set quality measures for the percentage of long-stay  
19 residents who self-report moderate to severe pain, the percentage of  
20 high-risk long-stay residents with pressure ulcers, the percentage of  
21 long-stay residents experiencing one or more falls with major injury,  
22 and the percentage of long-stay residents with a urinary tract  
23 infection. Quality measures must be reviewed on an annual basis by a  
24 stakeholder work group established by the department. Upon review,  
25 quality measures may be added or changed. The department may risk  
26 adjust individual quality measures as it deems appropriate.

27 (c) The facility quality score must be point based, using at a  
28 minimum the facility's most recent available three-quarter average  
29 centers for medicare and medicaid services quality data. Point  
30 thresholds for each quality measure must be established using the  
31 corresponding statistical values for the quality measure point  
32 determinants of eighty quality measure points, sixty quality measure  
33 points, forty quality measure points, and twenty quality measure  
34 points, identified in the most recent available five-star quality  
35 rating system technical user's guide published by the ((center[s]))  
36 centers for medicare and medicaid services.

37 (d) Facilities meeting or exceeding the highest performance  
38 threshold (top level) for a quality measure receive twenty-five  
39 points. Facilities meeting the second highest performance threshold  
40 receive twenty points. Facilities meeting the third level of

1 performance threshold receive fifteen points. Facilities in the  
2 bottom performance threshold level receive no points. Points from all  
3 quality measures must then be summed into a single aggregate quality  
4 score for each facility.

5 (e) Facilities receiving an aggregate quality score of eighty  
6 percent of the overall available total score or higher must be placed  
7 in the highest tier (tier V), facilities receiving an aggregate score  
8 of between seventy and seventy-nine percent of the overall available  
9 total score must be placed in the second highest tier (tier IV),  
10 facilities receiving an aggregate score of between sixty and sixty-  
11 nine percent of the overall available total score must be placed in  
12 the third highest tier (tier III), facilities receiving an aggregate  
13 score of between fifty and fifty-nine percent of the overall  
14 available total score must be placed in the fourth highest tier (tier  
15 II), and facilities receiving less than fifty percent of the overall  
16 available total score must be placed in the lowest tier (tier I).

17 (f) The tier system must be used to determine the amount of each  
18 facility's per patient day quality incentive component. The per  
19 patient day quality incentive component for tier IV is seventy-five  
20 percent of the per patient day quality incentive component for tier  
21 V, the per patient day quality incentive component for tier III is  
22 fifty percent of the per patient day quality incentive component for  
23 tier V, and the per patient day quality incentive component for tier  
24 II is twenty-five percent of the per patient day quality incentive  
25 component for tier V. Facilities in tier I receive no quality  
26 incentive component.

27 (g) Tier system payments must be set in a manner that ensures  
28 that the entire biennial appropriation for the quality incentive  
29 program is allocated.

30 (h) Facilities with insufficient three-quarter average centers  
31 for medicare and medicaid services quality data must be assigned to  
32 the tier corresponding to their five-star quality rating. Facilities  
33 with a five-star quality rating must be assigned to the highest tier  
34 (tier V) and facilities with a one-star quality rating must be  
35 assigned to the lowest tier (tier I). The use of a facility's five-  
36 star quality rating shall only occur in the case of insufficient  
37 centers for medicare and medicaid services minimum data set  
38 information.

39 (i) The quality incentive rates must be adjusted semiannually on  
40 July 1 and January 1 of each year using, at a minimum, the most

1 recent available three-quarter average centers for medicare and  
2 medicaid services quality data.

3 (j) Beginning July 1, 2017, the percentage of short-stay  
4 residents who newly received an antipsychotic medication must be  
5 added as a quality measure. The department must determine the quality  
6 incentive thresholds for this quality measure in a manner consistent  
7 with those outlined in (b) through (h) of this subsection using the  
8 centers for medicare and medicaid services quality data.

9 (k) Beginning July 1, 2017, the percentage of direct care staff  
10 turnover must be added as a quality measure using the centers for  
11 medicare and medicaid services' payroll-based journal and nursing  
12 home facility payroll data. Turnover is defined as an employee  
13 departure. The department must determine the quality incentive  
14 thresholds for this quality measure using data from the centers for  
15 medicare and medicaid services' payroll-based journal, unless such  
16 data is not available, in which case the department shall use direct  
17 care staffing turnover data from the most recent medicaid cost  
18 report.

19 (7) Reimbursement of the safety net assessment imposed by chapter  
20 74.48 RCW and paid in relation to medicaid residents must be  
21 continued.

22 (8)(a) The direct care and indirect care components must be  
23 rebased in even-numbered years, beginning with rates paid on July 1,  
24 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar  
25 year cost report. ~~((On a percentage basis, after rebasing, the  
26 department must confirm that the statewide average daily rate has  
27 increased at least as much as the average rate of inflation, as  
28 determined by the skilled nursing facility market basket index  
29 published by the centers for medicare and medicaid services, or a  
30 comparable index. If after rebasing, the percentage increase to the  
31 statewide average daily rate is less than the average rate of  
32 inflation for the same time period, the department is authorized to  
33 increase rates by the difference between the percentage increase  
34 after rebasing and the average rate of inflation.))~~

35 (b) ~~((It is the intention of the legislature that direct and  
36 indirect care rates paid in fiscal year 2022 will be rebased using  
37 the calendar year 2019 cost reports.))~~ For fiscal year 2021, in  
38 addition to the rates generated by (a) of this subsection, an  
39 additional adjustment is provided as established in this subsection  
40 (8)(b). Beginning May 1, 2020, and through June 30, 2021, the

1 calendar year costs must be adjusted for inflation by a twenty-four  
2 month consumer price index, based on the most recently available  
3 monthly index for all urban consumers, as published by the bureau of  
4 labor statistics. It is also the intent of the legislature that,  
5 starting in fiscal year 2022, a facility-specific rate add-on equal  
6 to the inflation adjustment that facilities received solely in fiscal  
7 year 2021, must be added to the rate.

8 ~~(c) ((To determine the necessity of regular inflationary~~  
9 ~~adjustments to the nursing facility rates, by December 1, 2020, the~~  
10 ~~department shall provide the appropriate policy and fiscal committees~~  
11 ~~of the legislature with a report that provides a review of rates paid~~  
12 ~~in 2017, 2018, and 2019 in comparison to costs incurred by nursing~~  
13 ~~facilities.))~~ Beginning July 1, 2021, through June 30, 2022, the  
14 calendar year costs must be adjusted for inflation by a 24-month  
15 average consumer price index, based on the most recently available  
16 monthly index for all urban consumers in the medical expenditure  
17 category of nursing homes and adult day services, as published by the  
18 bureau of labor statistics.

19 (d) Beginning July 1, 2022, the calendar year costs must be  
20 adjusted for inflation by a 24-month average consumer price index,  
21 based on the most recently available monthly index for all urban  
22 consumers, as published by the bureau of labor statistics.

23 (9) The direct care component provided in subsection (3) of this  
24 section is subject to the reconciliation and settlement process  
25 provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to  
26 rules established by the department, funds that are received through  
27 the reconciliation and settlement process provided in RCW  
28 74.46.022(6) must be used for technical assistance, specialized  
29 training, or an increase to the quality enhancement established in  
30 subsection (6) of this section. The legislature intends to review the  
31 utility of maintaining the reconciliation and settlement process  
32 under a price-based payment methodology, and may discontinue the  
33 reconciliation and settlement process after the 2017-2019 fiscal  
34 biennium.

35 (10) Compared to the rate in effect June 30, 2016, including all  
36 cost components and rate add-ons, no facility may receive a rate  
37 reduction of more than one percent on July 1, 2016, more than two  
38 percent on July 1, 2017, or more than five percent on July 1, 2018.  
39 To ensure that the appropriation for nursing homes remains cost

1 neutral, the department is authorized to cap the rate increase for  
2 facilities in fiscal years 2017, 2018, and 2019.

--- **END** ---
