    <u>EFFECT:</u> Replaces the bill's definition of "biometric data" with
    that in current state law concerning enrollment of biometric
    identifiers in a database for a commercial purpose and:
    (1) Provides that "biometric data" means data generated by automatic
    measurements of an individual's biological characteristics, rather
    than data generated from the technological processing of an
    individual's physiological, biological, or behavioral
    characteristics.
    (2) Excludes from the definition photographs and video or audio
    recordings, or any data generated from photographs and video or
    audio recordings.
    (3) Excludes from the definition information collected, used, or
    stored pursuant to the federal Health Insurance Portability and
    Accountability Act.
